Introduction

This report goes through the years 2010 to 2020 and shows the Economic Development abatement programs administered by the Nevada Governor's Office of Economic Development.

Business abatements / incentives widely vary between each state and can comprise, but are not limited to, tax credits, tax abatements, grants, upfront cash payments, deal closing funds, and real property subsidies or gifts. Most states offer a mix of statutory and discretionary incentive programs. Nevada is relatively unique in that it offers an entirely **statutory** Tax Abatement program (NRS 360.750). Tax abatements are a reduction of taxes granted by a government entity to a company for a specific period of time to encourage economic development. These abatements are finite and performance based. The abatement program does not include any up-front cash funds or allocations from the state budget.

A company receiving a tax abatement enters into an agreement (a contract) with the state. Each contract allows a company to receive a predetermined reduction in its tax obligations (reduced tax payments) for a certain period of time. In return, the company receiving the abatement is obligated to invest a significant amount of capital into the economy, invest in people and training by creating new jobs and paying wages and benefits to those workers. Companies that receive abatements are regularly audited by the Department of Taxation to ensure they meet the abatement requirements. When the abatement period is over, businesses are obligated to continue paying the full amount of taxes.

Ongoing Program Objectives

- Ensuring the abatement programs are doing what they were designed to and being clear and intentional about this i.e., create jobs, assist distressed communities, support growth of a specific industry sector
- Continual evaluation and review to ensure incentives support the state's economic development programs meet the current economic needs
- Clearly demonstrating value and accountability to the citizens of Nevada
- If program objective needs to be reviewed what revisions are required?

Due to the Economic improvements seen over the recent 18 months, the abatement wage criteria was amended as follows:

If the unemployment rate of a county is under 7%:

- Companies must pay 100% of the Statewide average wage, as set by DETR on July 1 of each fiscal year, to qualify for standard abatements
- Companies paying 85% to 99% of the lesser of the Statewide average wage may be eligible for reduced abatements
- Companies paying less than 85% of the statewide average wage would no longer be eligible for abatements

2019

Unemployment Rate	3.9% as of July 2019
Statewide Average Hourly Wage	$22.54
Economic Overview	Beginning in late 2010, an economic recovery developed in Nevada and over the past decade all jobs lost during the recession were recovered by mid-2016. As of December 2019, 327,500 jobs had been added since the bottom

Legislative Changes to Abatement Program (2019 Legislative Session)

Nevada's overall unemployment rate is at an all-time low in January of 2020. The 2019 Legislative Session saw the abatement criteria amended as follows:

AB400:

- Reduces GOED's ability to abate the Local School Support Tax (new business can abate, expanding business cannot)
- Reduces the number of instances a new or existing company can receive tax abatements; – New businesses can receive one incentive package for moving to a Nevada county (includes the Local School Support Tax) and can apply for one round of expansion abatements (cannot include the LSST); – Existing companies may only apply for one expansion incentive package as long as they have never received abatements (cannot include the LSST)
- Reduces aviation tax abatement from 20 years to 10 years; and
- Requires the GOED Board to approve aviation and data center abatements by a two-thirds vote

Background

When a company is approved for tax abatements, it enters into an Agreement for Tax Abatements (contract) with GOED. This contract requires each company to undergo an abatement audit, conducted by the Nevada Department of Taxation, at the 2- and 5-year mark (standard abatements) or 2, 5, 8, and 10-year mark (Data Center and Aviation Abatements).

In the event that the Department of Taxation, in consultation with GOED, makes a determination the Company has failed to comply with the requirements of this contract, **the Company shall repay all abatements with interest**. The Company will make repayment of such abatement granted under NRS Chapter 360 to the Department of Taxation, will make repayment of such abatements under NRS Chapter 361 to the Treasurer of the County, and the Department of Taxation and the County shall collect the amounts of such abatements under the procedures set forth in Title 32 of NRS.
