Small Business Impact Statement
EFFECTIVE DATE OF REGULATION:
Upon filing with the Nevada Secretary of State

1. Background:

This statement was prepared to comply with NRS 233B.0608 and NRS 233B.0609. This statement addresses the fiscal impact of proposed regulation changes.

The proposed regulation changes cover several areas, including continuing education, apprentice training, supervision requirements, facility standards, equipment, and disciplinary actions.

NAC 644A.260: Credit for Continuing Education - changes to clarify the existing hour requirement, expands pool of approved course providers, clarifying required documentation of continuing education hours to include the date of the class.

NAC 644A.325: Duties of Supervising Apprentice - streamlines required training hours and subjects for cosmetologist, hair designer, esthetician, and nail technologist apprentices.

NAC 644A.505: Immediate Supervision Requirements - Adds a licensed advanced esthetician as an authorized supervisor for cosmetological establishments.

NAC 644A.720: Laser/Light Device Safety: Clarifies requirements for rooms with lasers or light-based devices to be designated with appropriate signage, be free of safety hazards, and have walls, floors, ceilings, furnishings, and fixtures that are fully enclosed and free of reflective surfaces.

NAC 644A.715: Restrooms - Changes the maximum distance for restrooms from 100 feet to 200 feet from the entrance.

NAC 644A.730: Single Use Items: Provides that nonporous items intended by the manufacturer to be disposable or for single use only must be disposed of immediately after use, as well as designates that supplies in an establishment not be maintained for private or personal use.

NAC 644A.603: Minimum Requirements for Equipment for Schools - adds additional equipment inside cosmetology schools

NAC 644A.860: Schedule of Fines - clarifies fines imposed by the Board versus items to be considered grounds for discipline by the Board.

To determine whether these regulation changes are likely to have an impact on small businesses, the Board of Cosmetology considered the purpose and scope of the proposed and potential regulations in conjunction with existing regulations.

2. Description of Solicitation:

The Nevada State Board of Cosmetology requested input from small business owners and operators, as well as chambers of commerce.

A survey was sent asking for input as to the projected adverse and beneficial impacts of the proposed regulation changes. In addition to the open-ended comment section at the end of the survey, business owners/operators were asked whether they anticipated any direct or indirect economic benefits or adverse effects on their businesses. Survey participants were able to select “yes”, “no”, or “unknown” as their response. Board staff reviewed the “yes” responses for businesses that indicated that a regulation change was likely to have a negative impact on their business. Any “yes” response was compared to the open-ended comment response at the end of the survey to determine the specific concerns of the individual business owner/operator.

The survey was sent via Alchemer, an online survey tool. Responses were solicited from December 4, 2025, to December 18, 2025. In total, 45 responses were collected.

3. Does the proposed regulation impose a direct and significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business? (NRS 233B.0608(1)):

There is no significant economic impact on small businesses. The proposed changes were intended to either reduce regulatory burdens on businesses or enhance existing sanitation requirements already in place.

4. How was that conclusion reached?

Based on this review of the feedback from small businesses as well as consideration of the intent of the language, the Board of Cosmetology determined that the proposed regulations would have minimal, if any, economic impacts on businesses, either directly or indirectly.

I, Steven D. McDonald, Esq., MBA, Executive Director, certify that, to the best of my knowledge or belief, a concerted effort was made to determine the impact of the proposed regulation on small business, and that the information contained in the statement above is accurate. (NRS 233B.0608(3))

NAC 644A.505 Interpretation of [NRS 644A.625](#) for purposes of requirement for immediate supervision by licensed person. ([NRS 644A.275](#), [644A.625](#)) The Board will interpret [NRS 644A.625](#) to mean that in a cosmetological establishment where:

1. More than one branch of cosmetology or makeup artistry is practiced, the establishment must at all times be under the immediate supervision of a person or persons licensed in each branch of cosmetology practiced in the establishment at the time of service.

2. Only nail technology is practiced, the establishment must be under the immediate supervision of a licensed cosmetologist or licensed nail technologist.

3. Only electrology is practiced, the establishment must be under the immediate supervision of a licensed electrologist.

4. Only estheticians practice, the establishment must be under the immediate supervision of a licensed cosmetologist, *licensed advanced esthetician*, or licensed esthetician.

5. Only hair designing is practiced, the establishment must be under the immediate supervision of a licensed cosmetologist or licensed hair designer.

6. Only makeup artistry is practiced, the establishment must be under the immediate supervision of a licensed cosmetologist, *licensed advanced esthetician*, or licensed esthetician.

7. Only advanced esthetics is practiced, the establishment must be under the immediate supervision of a licensed advanced esthetician.

NAC 644A.720 Walls, floors, ceilings, furnishings, equipment and fixtures. ([NRS 644A.275](#), [644A.280](#)) In each cosmetological establishment or school of cosmetology:

1. All floors in restrooms and areas where hair is cut, shampooed or styled must be of a material which is not porous or absorbent. Carpeting is allowed in all other areas of the cosmetological establishment or school of cosmetology, including, without limitation, reception areas and areas for manicuring and esthetics.

2. All walls within a cosmetological establishment or school of cosmetology must be of a material which is not porous or absorbent.

3. All walls, floors, woodwork, ceilings, furnishings, equipment and fixtures must be kept clean and in good repair.

4. Clippings of hair must not be allowed to accumulate and must be disposed of in a covered waste receptacle immediately after the hair is cut.

5. Refuse and waste must not be allowed to accumulate.

6. *Areas within a cosmetological establishment where lasers or light based devices are used must denoted with appropriate signage and free of safety hazards. The walls, floors, ceilings, furnishings, and fixtures must be fully enclosed and free of reflective surfaces.*

NAC 644A.715 Restrooms. ([NRS 644A.275](#), [644A.280](#))

1. Each cosmetological establishment or school of cosmetology must have fully operable toilets which are accessible to clients and employees. Each area in which a toilet is located must have a sink with an adequate and readily available supply of hot and cold running water at all times and a mechanical exhaust system for ventilation which completely circulates the air. If the restrooms for the cosmetological establishment are located outside of the cosmetological establishment, the restrooms must be:

- (a) In plain view or clearly marked with appropriate signs, and
- (b) Located within ~~100~~ 200 feet of the entrance of the cosmetological establishment and under the same roof as the cosmetological establishment.

2. The floor covering in each restroom located in a cosmetological establishment or school of cosmetology must be made of a material which is not porous or absorbent.

NAC 644A.730 Headrests; shampoo bowls; towels and linens; neck strips; treatment tables; disposal of certain instruments and supplies; maintenance of instruments, implements and other nonporous tools in clean and disinfected condition. ([NRS 644A.275](#), [644A.280](#)) In each cosmetological establishment or school of cosmetology:

1. The headrest of each chair must be covered with a clean towel or paper sheet for each client.
2. The part of a shampoo bowl on which a client's neck rests must be covered with a clean towel during each shampoo. The bowls must be carefully washed and be disinfected with a disinfectant that is registered with the United States Environmental Protection Agency, and all loose hair must be removed from the drains after each use.
3. After a towel or linen has been used once, it must be deposited in a receptacle provided for soiled towels and linens, must not be stored in any restroom, and must not be used again until properly laundered. All towels must be washed with detergent on the hot wash cycle and dried until hot to the touch after each use. After being washed, towels must be kept in closed, dust-free cabinets.
4. Sanitary neck strips or towels must be used between the neck of the client and the cape to prevent all coverings from coming into direct contact with the client.
