Western Nevada*	Jacobsen	57,407	83,677	45.8%
Clark County		741,459	1,375,765	85.5%
Washoe County		254,667	339,486	33.3%
Balance of State		205,707	283,006	37.6%
State Total	_	1,201,833	1,998,257	66.3%

Note: The average population required for a district in a 21-member Senate for 2001 redistricting purposes is 95,155.

Source: U.S. Census Bureau, Census 2000

*Due to changes in census geography over the past ten years, boundaries of these districts do not coincide exactly to the district boundaries established in 1990. Therefore, there are minor differences in the population reported by the Census Bureau and the population of the current districts. These differences amount to less than 300 people per district and should not pose a problem because the Legislature will be changing all district boundaries during the 2001 Legislative Session.

**The Census Bureau reported populations of 296,351 in Senate District 5 and 129,818 in Senate District 6. However, there was a significant discrepancy in the census geography on a boundary between these two districts. The numbers in the table, developed from Census Bureau block data, reflect the actual 2000 population of these districts based on their current boundaries.
