616B.780 Establishment of employer-employee relationship; liability of principal contractor for premiums. (NRS 616A.400)

- 1. An employer who hires a person to do work related to, or in furtherance of, his business operations that are insured by a private carrier is presumed to have established an employer-employee relationship between himself and the person performing the work in the absence of a written contract between the two parties which establishes that no employer-employee relationship exists between the two parties, in accordance with chapters 616A to 617, inclusive, of NRS.
- 2. If a subcontractor or independent contractor does not have an active policy with a private carrier, the principal contractor must be assessed premiums based on:
- (a) The payroll for the period of the contract with the subcontractor or independent contractor;

- (b) The appropriate classification for the work performed by the subcontractor or independent contractor; and
 - (c) The experience modification factor of the principal contractor.
- 3. A principal contractor may provide the complete payroll records of the employees of each uninsured subcontractor and independent contractor. Except as otherwise provided in this subsection, if the principal contractor does not provide the complete payroll records of his uninsured subcontractors and independent contractors, the full contract price shall be deemed to be the payroll for the employees of the subcontractors and independent contractors. If the contract is for labor and materials or labor and equipment and evidence is provided to the private carrier which indicates the portion of the contract price that is for labor, that amount may be deemed the payroll for the employees of the subcontractor or independent contractor. If such an amount is not indicated in the contract, the private carrier shall determine what portion of the contract price will be deemed the payroll for the employees of the subcontractor or independent contractor. In no case may the payroll used to calculate the premiums of the principal contractor be less than the portion of the contract price that is for labor.
- 4. If a subcontractor or independent contractor has a policy with a private carrier but fails to pay the proper premiums, the principal contractor is liable for the amount of any unpaid premiums based on the rate and modification factor for premiums of the subcontractor or independent contractor.

acting in alternating roles as a principal contractor and subcontractor shall be deemed to receive \$500 per month in wages. The type of license issued to the sole proprietor pursuant to chapter 624 of NRS does not affect the coverage or deemed wage required.

- 2. A sole proprietor acting only as a principal contractor may be relieved of the requirement of maintaining coverage for himself by submitting written notice to the private carrier which insures him that he is acting only as a principal contractor. If the private carrier determines that the sole proprietor is acting only as a principal contractor, the private carrier shall terminate his deemed wage effective on the date of receipt of the written notice. The termination of the deemed wage must not be made retroactive to a date before receipt of the written notice by the private carrier. If, after the termination of the deemed wage, the private carrier determines that the sole proprietor was at any time acting as a subcontractor, the private carrier shall reinstate the deemed wage effective on the date on which it was terminated, but in no case may it be made retroactive for more than 3 years or to the date of the last audit, whichever is more recent. If a sole proprietor who was determined to be acting only as a principal contractor at the inception of his policy with a private carrier acts at any time thereafter as a subcontractor or in alternating roles as a principal contractor and subcontractor, his deemed wage becomes effective on the date of his first subcontract, but in no case may it be made retroactive for more than 3 years or to the date of the last audit, whichever is more recent.
- 3. If a sole proprietor acting as a subcontractor provides coverage for his employees but fails to secure and maintain coverage for himself, the principal contractor is responsible for the payment of premiums for the sole proprietor during the term of the contract.

- 2. For the purposes of determining premium and disability compensation, the wage of a sole proprietor who is licensed pursuant to chapter 624 of NRS but who has failed to open or maintain an account in good standing and who is performing as a subcontractor to an insured principal contractor shall be deemed to be \$500 per month or \$17 per day for the period of the subcontract unless the contract specifies a wage greater than \$500 per month or \$17 per day for the sole proprietor.
- 3. For the purposes of determining the premium required to be paid by the principal contractor and disability compensation, the wages of an employee of a sole proprietor who is a subcontractor and has not obtained coverage for his employees must be the actual wages paid, if the payroll records are provided to the private carrier. In the absence of complete payroll records, subsection 3 of NAC 616B.780 applies.
- 4. The principal contractor is liable for the amount of any premiums payable as a result of the application of subsections 1, 2 and 3. The premium payable must be based on the classifications and rates that would be applicable to the subcontractor and the experience modification factor which would be applicable to the principal contractor.
