The Nevada Department of Agriculture will hold a public hearing on Monday, November 30, 2015, 8:00 AM, at Agriculture Headquarters, 405 South 21<sup>st</sup> Street, Sparks, NV 89431; Phone: (775) 353-3601. The purpose of the hearing is to receive comments from all interested persons regarding the Amendment of regulations that pertain to chapter 590 of the Nevada Administrative Code. The proposal has been designated as File No. R094-15 by the Nevada Legislative Counsel Bureau.

The following information is provided pursuant to the requirements of NRS 233B.0603:

The purpose is to solicit public comments from interested persons on the following proposed regulation: NAC 590; *a regulation relating to engine products; and providing other matters properly relating thereto.*

1. The need for and the purpose of the proposed regulation or amendment  
**One purpose of this action is to update the language relative to a number of fuels, simplifying language and updating prices for the purchase of specifications. A second purpose is to clarify the dispenser labeling for diesel fuel. A third purpose is to set a minimum octane rating in the state.**
2. Either the terms or the substance of the regulations to be adopted, amended or repealed, or a description of the subjects and issues involved.  
**Updating information regarding fuel standards adopted by the State Board of Agriculture; clarifying certain requirements for the posting of diesel fuel grades on diesel fuel pumps; establishing the minimum octane rating number for gasoline and any blend of gasoline and ethanol that is sold outside a certain area of this State; and providing other matters properly relating thereto.**
3. The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately and in each case must include:
  - a) Both adverse and beneficial effects; and  
**The updating of language will be invisible to business, having neither a beneficial or adverse effect; the diesel dispenser labeling section will have little effect on business, but that effect will be beneficial; the minimum octane rating section may have a small adverse effect on a limited number of businesses, but this action is in line with the adopted specification for gasoline, ASTM D4814.**

- b) Both immediate and long-term effects  
**The minimum octane rating section may have a small immediate adverse effect on a limited number of businesses.**
4. The estimated cost to the agency for enforcement of the proposed regulation.  
**Does not apply.**
5. A description of and citation to any regulations of other state or local governmental agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the proposed regulation overlaps or duplicates a federal regulation, the notice must include the name of the regulating federal agency.  
**Does not apply.**
6. If the regulation is required pursuant to federal law, a citation and description of the federal law.  
**Does not apply.**
7. If the regulation includes provisions which are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.  
**Does not apply.**
8. Whether the proposed regulation establishes a new fee or increases an existing fee.  
**Does not apply.**

A concerted effort was made to determine the impact of the proposed regulation on small businesses. Staff of the Bureau of Fuel Technology and administration division determined that there will be a possible impact in the case of Section 7 § 3 (minimum octane rating).
