A REGULATION relating to child welfare; establishing a process for filing and resolving a grievance concerning a foster care agency or a foster home; revising the training requirements for licensees who operate a foster home and for the direct care staff of specialized foster homes and foster care agencies; revising provisions governing the licensing and operation of a foster home; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Division of Child and Family Services of the Department of Health and Human Services to establish procedures and requirements for the licensure of family foster homes, specialized foster homes, independent living foster homes and group foster homes. (NRS 424.020) Existing law also requires the Division to prescribe by regulation a procedure for filing and resolving a grievance concerning certain entities, including, without limitation, foster care agencies and certain foster homes. (NRS 432.548) **Section 3** of this regulation establishes the procedure for filing and resolving a grievance concerning a foster care agency or a foster home.

Existing law requires a provider of foster care to ensure that each foster child who is placed in the foster home is treated in all respects in accordance with the child's gender identity or expression. (NRS 424.0445) **Section 2** of this regulation defines "gender identity or expression" to mean a gender-related identity, appearance, expression or behavior of a person, regardless of the person's assigned sex at birth. (NRS 424.0145)

Section 6 of this regulation requires a licensee to apply to the licensing authority for a change in its license to operate a foster home if there are changes in the gender identity or expression of children in foster care authorized to be placed in the foster home pursuant to the

license. A licensing authority is defined to mean: (1) in a county whose population is 100,000 or more, the agency which provides child welfare services, as defined in NRS 432B.030; and (2) in a county whose population is less than 100,000, the Division. (NAC 424.058)

Section 7 of this regulation requires a licensee that operates a foster home to receive within 90 days after initial licensure and annually thereafter, training concerning working with lesbian, gay, bisexual, transgender and questioning children.

Section 8 of this regulation authorizes the licensing authority to exempt a child whose gender identity or expression differs from the child's assigned sex at birth from the prohibition on children of the opposite sex who are 5 years of age or more sharing a room under certain circumstances.

Section 9 of this regulation requires a person licensed by the licensing authority to operate a family foster home, specialized foster home, independent living foster home or group foster home to ensure that, with limited exceptions, the gender identity or expression or sexual orientation of a foster child in the care of that foster home is not disclosed without the consent of the foster child.

Section 10 of this regulation adds certain duties to foster parents and direct care staff regarding the care and treatment of children, including, without limitation, lesbian, gay, bisexual, transgender and questioning children.

Section 11 of this regulation provides that a child's gender identity or expression must be respected with regard to the child's choice of clothing and personal possessions.

Existing regulations require each specialized foster home to provide to the licensing authority, with its initial application for a license, a written statement of the programs offered by the specialized foster home, including, without limitation, the models used for treatment, the services it offers and the scope of its programs. (NAC 424.626) **Section 12** of this regulation requires such a statement to include a description of the characteristics of the children to be placed in the specialized foster home, including, without limitation, the gender identity or expression of the children to be placed in the specialized foster home.

Section 13 of this regulation requires the application for a license to operate a foster care agency to be accompanied by a description of the characteristics of the children to be served by the foster care agency, including, without limitation, the gender identity or expression of the children to be served by the foster care agency.

Existing regulations require each member of the direct care staff of a specialized foster home and a foster care agency to complete certain statutorily required training within 30 days after beginning his or her employment and annually thereafter. (NAC 424.712) **Section 14** of this regulation revises this provision, in accordance with statute, to: (1) include instruction on working with lesbian, gay, bisexual, transgender and questioning children; and (2) be completed

within 90 days rather than 30 days after the member of the direct care staff begins his or her employment and annually thereafter.

Sections 4 and 5 of this regulation make conforming changes.

Section 1. Chapter 424 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this regulation.
