## LEGISLATIVE REVIEW OF ADOPTED REGULATIONS--NRS 233B.066 Informational Statement LCB File No. R166-18

## 1. A clear and concise explanation of the need for the adopted regulation.

The amendment to NAC 284.468 in Section 1 revises the definition of "job elements" to mean specifically, for each classified employee, the terms outlined in subparagraphs (a) – (h) of subsection 6 of the regulation. This amendment is necessary to standardize "job elements" for all employees to reduce the administrative burden associated with the completion of employee performance evaluations. Each job element will be rated for every employee. Because the State of Nevada is viewed as one employer under State and federal employment laws, using these standardized terms will create a better reflection of each employee's performance. This will be especially useful when an agency is considering hiring an employee from another agency.

The amendment to NAC 284.576 in Section 2 is necessary to remove the requirement that an appointing authority must report to the Division of Human Resource Management the period and nature of the disability of each employee utilizing catastrophic leave. This information has been deemed as unnecessary for the Division of Human Resource Management (Division) to maintain. The Division will continue to track catastrophic leave hours donated and used by employees.
