

**ADOPTED REGULATION OF THE
DIRECTOR OF THE
STATE DEPARTMENT OF AGRICULTURE**

LCB File No. R127-23

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§ 1, 7-11 and 17, NRS 555.400; §§ 2-6 and 14, NRS 555.2777 and 555.400; § 12, NRS 555.2777, 555.380 and 555.400; § 13, NRS 555.390 and 555.400; § 15, NRS 555.400 and 555.470; § 16, NRS 555.2777 and 586.237.

A REGULATION relating to pest control; defining the term “applicator trainee”; establishing the requirements for a certificate of registration as an applicator trainee; setting forth the qualifications for an applicator trainee; requiring an applicator who supervises an applicator trainee to provide certain training and information to the applicator trainee; making certain provisions which are applicable to licensees also applicable to applicator trainees; revising provisions governing continuing education; revising the schedule of administrative fines to include certain fines specific to an applicator trainee; exempting applicator trainees under the immediate supervision of certain licensees from prohibitions on the application or use of restricted-use pesticides; repealing certain definitions; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law authorizes the Director of the State Department of Agriculture to adopt regulations to carry out the provisions of existing law relating to the custom application of pesticides. (NRS 555.400, 555.2605-555.460) Existing law prohibits a natural person from engaging in, offering to engage in, advertising or soliciting to perform certain pest control activities without first obtaining a license as an applicator from the Director. (NRS 555.280, 555.285) Existing law requires the Director to adopt regulations to authorize a person to train as an applicator to engage in pest control for a period of not less than 90 days without holding a license as an applicator. (NRS 555.2777)

Section 2 of this regulation defines the term “applicator trainee.”

Section 3 of this regulation establishes: (1) the qualifications for a person to register as an applicator trainee with the Department; and (2) the categories and field of pest control in which such a person may register. **Section 4** of this regulation: (1) sets forth the application requirements for a certificate of registration as an applicator trainee; and (2) provides that a certificate of registration expires 90 days after the date of issuance.

Section 5 of this regulation requires an applicator who supervises an applicator trainee to: (1) provide certain training and training materials to the applicator trainee before the applicator trainee is allowed to perform pest control; and (2) keep records documenting the training

provided to the applicator trainee. **Section 6** of this regulation establishes certain other requirements for an applicator who supervises an applicator trainee.

Section 7 of this regulation applies the existing definitions in existing law and **section 2** that govern the custom application of pesticides to the provisions of **sections 3-6**.

Existing regulations exempt certain services and persons performing certain acts from the applicability of existing provisions governing the custom application of pesticides. (NAC 555.260) **Section 8** of this regulation provides that those same services and persons are also exempt from the applicability of the provisions of **sections 2-6**.

Existing regulations require a licensee of a pest control business to: (1) ensure that the license issued to the person is on his or her person or in his or her service vehicle while engaging in pest control; and (2) produce the license upon request by the Director or an agricultural police officer. Existing regulations also require the primary principal or location principal of a pest control business to notify the Director within 15 days after any change in the status or authority of any primary principal, location principal, principal, operator, demonstration and research specialist or agent. (NAC 555.290) **Section 9** of this regulation: (1) requires an applicator trainee to ensure that his or her certificate of registration is prominently displayed on his or her person; and (2) extends the notification duty to situations relating to a change in the status or authority of an applicator trainee.

Existing regulations provide that a person who attends a meeting of the Nevada Pest Control Association may receive continuing education credit for attending the meeting without obtaining accreditation approved by the Director. (NAC 555.374) **Section 10** of this regulation updates the name of the organization to the Nevada Pest Management Association.

Existing regulations require that every person licensed as a primary principal, principal, location principal, operator, demonstration and research specialist or agent return his or her license to the Department within 15 working days after: (1) he or she ceases engaging in pest control; or (2) his or her employment with a pest control business is terminated. Existing regulations further: (1) require a primary principal, principal, location principal, operator, demonstration and research specialist or agent of a pest control business to provide written notice to the Department of the date of termination of the employment of a primary principal, location principal, principal, operator, demonstration and research specialist or agent within 15 days after the date of termination; and (2) prohibit a former licensee from engaging in pest control. (NAC 555.385) **Section 11** of this regulation extends these requirements and prohibitions to an applicator trainee and, where applicable, his or her certificate of registration.

Existing regulations authorize a person engaged in the application of pesticides for hire to apply pesticides only in those categories of pest control for which he or she is licensed. (NAC 555.400) **Section 12** of this regulation extends this authorization to categories of pest control for which an applicator trainee is registered. **Section 12** further specifies that an applicator trainee may only apply: (1) a general-use pesticide while under the direct supervision of a licensed applicator; and (2) a restricted-use pesticide while under the immediate supervision of an authorized commercial applicator, certified non-private applicator or private applicator in accordance with certain statutory provisions.

Existing regulations establish requirements for certain reports and records relating to the specific field in which a person is licensed. (NAC 555.410, 555.413) **Section 13** of this regulation extends these requirements to reports and records relating to the urban, rural and structural fields in which an applicator trainee is registered. **Section 13** also updates the price of certain forms that are required when a preconstruction treatment is conducted.

Existing regulations prohibit an unlicensed person who performs pest control under the immediate supervision of a primary principal, location principal, principal, demonstration and research specialist or operator from preparing, distributing, appearing on or signing certain documents. (NAC 555.415) **Section 14** of this regulation prohibits an unregistered person from taking such actions, such that if a person is not licensed or registered, he or she may not prepare, distribute, appear on or sign certain documents.

Existing regulations establish a schedule of administrative fines that may be imposed by the Director for violations of various provisions of the Nevada Revised Statutes or the Nevada Administrative Code applicable to pest control. (NAC 555.530) **Section 15** of this regulation revises the schedule to reflect certain administrative fines for violations relating to the pest control activities of an applicator trainee.

Existing regulations prohibit a person from applying or otherwise using a restricted-use pesticide except under certain circumstances. (NAC 586.018) **Section 16** of this regulation includes in these excepted circumstances an applicator trainee under the immediate supervision of an authorized commercial applicator, certified non-private applicator or private applicator.

Section 17 of this regulation repeals certain redundant definitions that are defined in the Nevada Revised Statutes for provisions relating to pest control and are therefore applicable to the corresponding provisions of the Nevada Administrative Code. (NRS 0.024, 555.2654, 555.2679; NAC 555.2545, 555.256)

Section 1. Chapter 555 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 6, inclusive, of this regulation.

Sec. 2. *“Applicator trainee” means a person, authorized pursuant to NRS 555.2777, to train as an applicator to engage in pest control for a period of not less than 90 days without holding a license as an applicator and who holds a certificate of registration issued by the Director pursuant to section 4 of this regulation.*

Sec. 3. 1. *To register as an applicator trainee, a person must:*

(a) Be at least 18 years of age;

(b) Be employed by a pest control business licensed in this State in a position in which he or she will engage in pest control under the direct or immediate supervision, as applicable, of a person who holds an active and valid license as an applicator issued pursuant to NRS 555.320; and

(c) Submit an application on a form prescribed by the Director for a certificate of registration as an applicator trainee in accordance with section 4 of this regulation.

2. A person may register as an applicator trainee only one time and only in one of the following categories in the field of urban, rural and structural pest control described in paragraph (c) of subsection 2 of NAC 555.280:

(a) Limited landscape;

(b) Industrial and institutional; or

(c) Weeds.

Sec. 4. 1. Each application for a certificate of registration as an applicator trainee must include, without limitation:

(a) The name of the applicant and the mailing address and telephone number of the applicant;

(b) The name of the pest control business in this State that employs the applicant;

(c) An endorsement by a primary principal, location principal or principal of the pest control business that employs the applicant with a statement that:

(1) A supervising applicator or pest control business is responsible and liable for all actions of the applicator trainee; and

(2) The supervising applicator shall ensure the applicator trainee receives all training and training material required by section 5 of this regulation before the applicator trainee engages in any pest control; and

(d) A statement indicating:

(1) The applicant has not previously been registered as an applicator trainee in this State;

(2) Whether the applicant holds an active license, certificate or registration to engage in pest control in another state and, if the applicant holds such a license, certificate or registration, a list of the categories of pest control in which the applicant is licensed, certified or registered; and

(3) The category of pest control in which the applicant wishes to engage as an applicator trainee.

2. The Director will review each application submitted pursuant to this section and issue a certificate of registration to an applicant who meets the qualifications set forth in section 3 of this regulation.

3. Every person to whom a certificate of registration as an applicator trainee is issued shall, within 15 working days after the issuance of the certificate, notify the Director of any change of the information shown on his or her application for the certificate.

4. A certificate of registration as an applicator trainee:

(a) Expires 90 days after the date of issuance; and

(b) Is not assignable or transferrable.

Sec. 5. *Each applicator who supervises an applicator trainee must:*

1. Before the applicator trainee is allowed to perform pest control:

(a) Ensure that the applicator trainee understands the requirements set forth in NAC 555.400;

(b) Ensure that the applicator trainee has received training within the immediately preceding 12 months in the safe operation of any equipment which the applicator trainee may use for mixing, loading, transferring or applying pesticides; and

(c) Provide the applicator trainee with training materials with all information that the applicator trainee needs to protect himself or herself, other people and the environment before, during and after applying a pesticide, which must include, without limitation:

(1) Potential hazards from toxicity and exposure that pesticides present to the applicator trainee and his or her family, including, without limitation, acute and chronic effects, delayed effects and sensitization.

(2) Routes through which pesticides can enter the body.

(3) Signs and symptoms of common types of pesticide poisoning.

(4) Emergency first aid for pesticide injuries or poisoning.

(5) Route and emergency decontamination procedures, including, without limitation, emergency eye flushing techniques. An applicator trainee must be instructed that, if pesticides are spilled or sprayed on the body, the applicator trainee must:

(I) Immediately wash or rinse off in the nearest clean water; and

(II) Subsequently wash or shower with soap and water, shampoo hair and change into clean clothes as soon as possible.

(6) How and when to obtain emergency medical care.

(7) That, after working with pesticides, the applicator trainee must:

(I) Wash hands before eating, drinking, using chewing gum or tobacco, or using the toilet;

(II) Wash or shower with soap and water, shampoo hair and change into clean clothes as soon as possible;

(III) Remove work clothes and wash or shower before physical contact with children or family members;

(IV) Wash work clothes before wearing them again and wash them separately from other clothes; and

(V) Remove work boots or work shoes before entering the home.

(8) Potential hazards from pesticide residues on clothing.

(9) Potential hazards to children and pregnant women from pesticide exposure.

(10) How to report suspected pesticide use violations.

(11) The format and meaning of the information contained on pesticide labels and in labeling applicable to the safe use of the pesticide, including, without limitation, the location and meaning of the product statement, how to identify when the labeling requires the supervising applicator to immediately supervise the applicator trainee in applying the pesticide and the information on personal protective equipment.

(12) The necessity and appropriate use and removal of personal protective equipment.

(13) The safety requirements for handling, transporting, storing and disposing of pesticides, including, without limitation, the general procedures for spill cleanup of a pesticide.

(14) The environmental concerns relating to pesticides, including, without limitation, drift, runoff and wildlife hazards.

(15) The requirements for the supervising applicator set forth in section 6 of this regulation.

2. Maintain records documenting the training provided to the applicator trainee pursuant to the requirements of this section.

Sec. 6. *Each applicator who supervises an applicator trainee shall:*

1. Ensure that the applicator trainee performing pest control activities has:

(a) A means to immediately and directly communicate with the supervising applicator; and

(b) Access to the product labeling of all pesticides that will be carried or applied by the applicator trainee.

2. If the applicator trainee is applying restricted-use pesticides or if the product labeling of the pesticide used requires immediate supervision, be physically present at all times when the pesticide is being applied.

3. Provide the applicator trainee with:

(a) Clean personal protective equipment that is in proper operating condition as required by the label of the pesticide being applied;

(b) Appropriate equipment for mixing, loading, transferring or applying pesticides in proper condition as intended by the manufacturer; and

(c) Instructions for the application of each pesticide that will be applied by the applicator trainee that are specific to the site and the pesticide being applied, which must include, without limitation:

(1) Any product labeling instructions;

(2) Precautions;

(3) Any site or use specific requirements; and

(4) Information about how the risk of adverse effects may be increased or decreased by:

(I) The characteristics of the use of the site, such as the surface water or groundwater, endangered species or local population; and

(II) The condition of the application, such as the equipment, method of application or formulation.

↪ *These instructions must be provided in a manner that the applicator trainee can understand.*

Sec. 7. NAC 555.250 is hereby amended to read as follows:

555.250 As used in NAC 555.250 to 555.530, inclusive, *and sections 2 to 6, inclusive, of this regulation*, unless the context otherwise requires, the words and terms defined in NAC 555.2503 to 555.258, inclusive, *and section 2 of this regulation* have the meanings ascribed to them in those sections.

Sec. 8. NAC 555.260 is hereby amended to read as follows:

555.260 NAC 555.250 to 555.530, inclusive, *and sections 2 to 6, inclusive, of this regulation* do not apply to:

1. Services for domestic or industrial sanitation, which use sanitizers and disinfectants;
2. Services for the maintenance of swimming pools, which use algicides, bactericides or fungicides;
3. Any person who uses preservatives in the treatment of fabrics;
4. Veterinarians or persons in pet salons who treat animals;
5. A person who controls vertebrate pests by means other than the use of pesticides; or
6. A person who:
 - (a) Conducts inspections for; or
 - (b) Performs services for the control of,

↪ a mold or other fungus detrimental to human health.

Sec. 9. NAC 555.290 is hereby amended to read as follows:

555.290 1. A person may not be employed or retained in the position of a principal, location principal or primary principal for more than one pest control business at any time.

2. Each ~~primary~~ :

(a) *Primary* principal, location principal, principal, operator, demonstration and research specialist or agent of a pest control business shall:

~~(a)~~ (1) Ensure that the license issued to him or her by the Director is on his or her person or in his or her service vehicle while engaging in pest control; and

~~(b)~~ (2) Produce the license upon request by the Director or an agricultural police officer appointed pursuant to subsection 2 of NRS 561.225 ~~+~~ ; and

(b) *Applicator trainee shall ensure that the certificate of registration issued to him or her by the Director is prominently displayed on his or her person while engaging in pest control.*

3. The primary principal or location principal of a pest control business shall, within 15 days after the change, notify the Director of any change in the status or authority of any primary principal, location principal, principal, operator, demonstration and research specialist , ~~for~~ agent *or applicator trainee* of the pest control business or any change in the information given on the application for the business license for the pest control business.

4. A license is not assignable or transferable. If a change in ownership of a pest control business occurs, a new application and fee for a business license must be submitted. No fee is required for a change in the name of the business if the application for the change is accompanied by a declaration under penalty of perjury that there is no change in ownership.

5. A separate licensing fee for a principal, operator, demonstration and research specialist or agent must be paid by the employer. No additional fee is required for a designation as a primary principal or a location principal.

6. A principal or operator may apply to the Director for amendment of his or her license to include additional categories of pest control or have restrictions removed. Except as otherwise

provided in NAC 555.325, upon examination, the principal or operator is entitled to have the license so amended without any additional licensing fee.

7. A licensee who cannot provide services in a particular category of pest control because he or she fails to meet the requirements for insurance for that category may apply to have a temporary hold placed on his or her license for that category. The temporary hold on the license for that category may be removed at any time upon submission of proof of insurance to the Director.

8. The Director may refuse to issue a business license in a name that is:

- (a) The same or similar to a name used by the holder of another business license;
- (b) Likely to be confused with a governmental agency or trade association; or
- (c) Misleading.

9. An agent shall not apply any pesticide or provide a recommendation or any other advice to a person concerning the use of a pesticide.

10. A demonstration and research specialist shall not:

(a) Provide a recommendation or any other advice to a person concerning the use of a pesticide for which the brand has been registered pursuant to the provisions of NRS 586.250 to 586.300, inclusive; or

(b) Apply a pesticide for which the brand has been registered pursuant to the provisions of NRS 586.250 to 586.300, inclusive, except for demonstration and research purposes.

11. The Director may refuse to issue a license to an applicant if, at the time the applicant submits the application:

- (a) A fine imposed against the applicant pursuant to NAC 555.530 remains unpaid; or

(b) Any hearing or other matter that is within the jurisdiction of the Director is pending against the applicant.

Sec. 10. NAC 555.374 is hereby amended to read as follows:

555.374 1. To obtain accreditation from the Director for a course of continuing education, the sponsor of the course must submit to the Department, at least 7 days before the first day of the course:

- (a) A detailed outline of the subject matter to be presented;
- (b) If the course is intended for applicators who are licensed or certified to apply or supervise the application of restricted-use pesticides, evidence that the number of hours for the course and the content and quality of the course ensure that the applicators continue to satisfy the applicable requirements of subsection 3 of NRS 555.351, NRS 555.355, NAC 555.630, 555.650 and 555.695;
- (c) A description of the method of presentation;
- (d) A curriculum vitae or other biographical statement of the instructor;
- (e) For an Internet course, a course contained on a compact disc, a correspondence course or a video or other media presentation sponsored by the Cooperative Extension Service, a detailed description of the method or methods by which the sponsor intends to verify attendance by each licensee and the successful completion by each licensee of the examination required pursuant to subsection 2 of NAC 555.372; and
- (f) Any other information required in the application for accreditation.

2. To equal one unit of continuing education, the course for which the application is submitted must consist of at least 50 minutes of instruction and be directly related to:

- (a) The control or management of pests;

- (b) The classification or usage of pesticides;
- (c) The safe handling or dispensing of pesticides; or
- (d) A law or regulation concerning the use of pesticides.

3. The information required by subsection 1 must be submitted on an application prescribed by the Director.

4. The sponsor of a course accredited by the Director shall submit to the Department, within 30 days after the completion of the course, a list that includes:

- (a) The name of the course;
- (b) The course number assigned by the Director pursuant to NAC 555.375;
- (c) The number of units of continuing education that a person who successfully completes the course may receive;
- (d) The name of each person who attended the course;
- (e) The identification number assigned by the Department to the licensee wishing to receive credit for completing the course;
- (f) The name of the business or governmental agency that employs the licensee;
- (g) The signature of the licensee; and
- (h) A statement prepared by the sponsor of the course indicating that:
 - (1) The licensee presented to the sponsor the licensee's license or any other form of identification issued by a governmental agency that includes a photograph of the licensee; or
 - (2) For an Internet course, a course contained on a compact disc, a correspondence course or a video or other media presentation sponsored by the Cooperative Extension Service, each licensee listed attended the course or presentation and passed the examination required pursuant to subsection 2 of NAC 555.372.

5. The sponsor of a course shall maintain a record of the information set forth in subsection 4 for at least 4 years after the completion of the course. The records must be made available to the Director upon request.

6. Except as otherwise provided in subsection 7, courses of continuing education that may be accredited by the Director include, without limitation:

- (a) A seminar;
- (b) A meeting;
- (c) An adult education class;
- (d) A correspondence class;
- (e) An Internet class;
- (f) A college or university class;
- (g) A video or other media presentation; and
- (h) Any equivalent activity approved by the Director.

7. A person who attends a meeting of the Nevada Pest ~~Control~~ *Management* Association may receive credit for attending the meeting without obtaining approval for the meeting pursuant to this section.

8. A person who successfully completes a course of continuing education is not entitled to receive credit for attending the course unless, at the time the sponsor of the course recorded the attendance of the person at the course, the person presented to the sponsor the identification specified in paragraph (h) of subsection 4.

9. A licensee may not receive credit more than once in a calendar year for attending the same course with the same course number assigned by the Director pursuant to NAC 555.375.

10. As used in this section, “licensee” includes, without limitation, an authorized commercial applicator, certified non-private applicator, private applicator and any other person who is licensed or certified to apply or supervise the application of a restricted-use pesticide.

Sec. 11. NAC 555.385 is hereby amended to read as follows:

555.385 1. Except as otherwise provided in subsection 6, every person licensed as a primary principal, principal, location principal, operator, demonstration and research specialist or agent, *or registered as an applicator trainee*, shall return his or her license *or certificate of registration, as applicable*, to the Department within 15 working days after:

- (a) He or she ceases engaging in pest control; or
- (b) His or her employment with a pest control business is terminated.

2. A primary principal, principal, location principal, operator, demonstration and research specialist, ~~or~~ agent *or applicator trainee* of a pest control business shall provide written notice to the Department of the date of termination of the employment of a primary principal, location principal, principal, operator, demonstration and research specialist, ~~or~~ agent *or applicator trainee* from the pest control business within 15 days after the date on which that termination occurs.

3. A former licensee *or applicator trainee* who ceases engaging in pest control or has his or her employment with a pest control business terminated shall not engage in pest control.

4. Except as otherwise provided in subsection 11, to regain a license as a principal, operator or demonstration and research specialist after the principal, operator or demonstration and research specialist ceases engaging in pest control or has his or her employment with a pest control business terminated, a former licensee must:

(a) If not more than 2 years have elapsed since the licensee ceased engaging in pest control or had his or her employment with a pest control business terminated:

- (1) Complete the application requirements of NAC 555.360;
- (2) Complete at least six units of continuing education in courses which meet the requirements of NAC 555.372; and
- (3) Comply with all applicable requirements in chapter 555 of NRS for applicants for a license.

(b) If more than 2 years have elapsed since the licensee ceased engaging in pest control or had his or her employment with a pest control business terminated:

- (1) Complete the application requirements of NAC 555.360;
- (2) Meet the applicable requirements of NAC 555.320 and pass the core and specific examinations given pursuant to NAC 555.283, 555.340 or 555.695, as applicable, in each category of pest control in which he or she wishes to be licensed;
- (3) If applicable, meet the requirements of NAC 555.380; and
- (4) Comply with all applicable requirements in chapter 555 of NRS for applicants for a license.

5. Except as otherwise provided in subsection 11, to regain a license as a primary principal after the principal ceases engaging in pest control or has his or her employment with a pest control business terminated, a former licensee must:

(a) If not more than 2 years have elapsed since the licensee ceased engaging in pest control or had his or her employment with a pest control business terminated:

- (1) Complete the application requirements of NAC 555.360;

(2) Complete at least six units of continuing education in courses which meet the requirements of NAC 555.372; and

(3) Comply with all applicable requirements in chapter 555 of NRS for applicants for a license.

(b) If more than 2 years have elapsed since the licensee ceased engaging in pest control or had his or her employment with a pest control business terminated:

(1) Complete the application requirements of NAC 555.360;

(2) Meet the applicable requirements of NAC 555.320 and pass the core and specific examinations given pursuant to NAC 555.283, 555.340 or 555.695, as applicable, in each category of pest control in which he or she wishes to be licensed;

(3) Comply with all applicable requirements in chapter 555 of NRS for applicants for a license; and

(4) Submit a set of fingerprints pursuant to NRS 555.345.

6. A person licensed as a primary principal, principal, location principal, operator, demonstration and research specialist or agent who ceases engaging in pest control or has his or her employment with a pest control business terminated may, in lieu of returning his or her license to the Department pursuant to subsection 1, have his or her license transferred to inactive status by submitting to the Director an application on a form prescribed by the Director. The application must include, without limitation:

(a) The name and license number of the licensee;

(b) The physical address and, if different from the physical address, the mailing address of the licensee;

(c) The electronic mail address, if any, of the licensee;

- (d) The telephone number, if any, of the licensee;
- (e) The date of birth of the licensee;
- (f) The social security number or employer identification number, if any, of the licensee; and
- (g) A statement certifying that the information in the application is correct and that the licensee will not engage in pest control in any category while the license is on inactive status.

7. A licensee whose license is placed on inactive status pursuant to subsection 6 shall not engage in pest control during the time the license is on inactive status. The licensee shall provide written notice to the Department within 15 days after any change in the information given on the application for inactive status pursuant to subsection 6.

8. A license on inactive status expires on December 31. To renew a license on inactive status, the licensee must:

- (a) Complete at least six units of continuing education in courses which meet the requirements of NAC 555.372;
- (b) Comply with all applicable requirements in chapter 555 of NRS for applicants for a license; and
- (c) Pay the licensing fee pursuant to NAC 555.397.

9. The holder of a license on inactive status who fails to renew the license pursuant to subsection 8 shall return his or her license to the Department on or before the January 15 immediately succeeding the expiration of the license.

10. The holder of a license on inactive status who wishes to reactivate the license must:

- (a) Notify the Director on a form prescribed by the Director; and
- (b) Complete the application required by NAC 555.360.

11. A former licensee who returns his or her license to the Department pursuant to subsection 1 may, within 2 years after the licensee ceased engaging in pest control or had his or her employment with a pest control business terminated, apply to the Director to have his or her former license placed on inactive status pursuant to subsection 6.

Sec. 12. NAC 555.400 is hereby amended to read as follows:

555.400 Except as otherwise provided in NAC 555.250 to 555.530, inclusive, *and sections 2 to 6, inclusive, of this regulation* or as specifically authorized in writing by the Director, each person engaged in the application of pesticide for hire shall:

1. ~~Apply~~ *Except as otherwise provided in subsection 2, apply* pesticides only in those categories of pest control for which he or she is licensed ~~or registered, as applicable~~. All other applicators must be under the immediate supervision of a primary principal, location principal, principal, demonstration and research specialist or operator who is qualified and currently licensed in the appropriate category.

2. *Apply, as an applicator trainee:*

(a) General-use pesticides only while under the direct supervision of a licensed applicator; and

(b) Restricted-use pesticides only while under the immediate supervision of an authorized commercial applicator, certified non-private applicator or private applicator in accordance with the provisions of NRS 555.351.

3. Use only methods and equipment which are capable of performing the functions necessary to ensure the proper application of materials.

~~3.1~~ 4. Operate only where climatic, pest and crop conditions are proper for controlling the pest for which the application is being made.

~~14.1~~ 5. Keep pest control equipment, when in use, in good condition.

~~15.1~~ 6. Except as otherwise provided in NAC 555.510, when measuring concentrated materials, use only devices which are accurately calibrated to the smallest unit in which the material is being weighed or measured.

~~16.1~~ 7. Maintain a uniform mixture at all times, both in operating rigs and service rigs, when using a mixture of materials.

~~17.1~~ 8. Perform all pest control work in a good and workmanlike manner, substantially confining the material applied to the premises where the land, crop, livestock, ornamental, soil or pest is being treated.

~~18.1~~ 9. Thoroughly clean all equipment after use to prevent residues which may be injurious to crops, plants or livestock.

~~19.1~~ 10. Provide storage for all undiluted pesticide material in a locked facility. Servicepersons' kits, which contain insecticides, poison baits or concentrates must be handled with extreme caution and must not be left where children or other unauthorized persons might remove the contents. While being transported in a service vehicle, a service container must be secured in a manner to prevent spills or damage.

~~110.1~~ 11. Pay for the cost of any cleanup resulting from pesticides spilled in the course of operations for pest control.

Sec. 13. NAC 555.410 is hereby amended to read as follows:

555.410 In addition to complying with any applicable requirements of NAC 555.413, a person subject to the provisions of NAC 555.400 shall:

1. Keep accurate and legible records for 2 years of each property treated, showing:
 - (a) If the person is licensed in the aerial or agricultural ground field:

- (1) The date of the treatment for, recommendation concerning or identification of pests.
- (2) The full name of the person for whom and the county where the treatment, recommendation or identification was conducted.
- (3) The full name of the pilot or applicator doing the treating, recommending or identification.
- (4) The crop or site treated or for which the recommendation or identification was made.
In the case of a spot treatment, the term “spot treatment” must be noted, followed by a description of the treatment area and the spot or spots treated.
- (5) The number, name or site identification of the field.
- (6) In the case of a treatment or recommendation, the brand name or generic name of the pesticide that was applied or recommended, the registration number assigned to the pesticide by the United States Environmental Protection Agency and the dosage applied or recommended.
- (7) In the case of a treatment:
 - (I) The number of units treated, including, without limitation, the number of acres or miles or fraction thereof.
 - (II) The purpose for which the crop, site or spot was treated.
 - (III) The time the treatment was started and the time the treatment was finished.
 - (IV) The temperature at the start and finish of the treatment.
 - (V) The wind velocity and wind direction at the start and finish of the treatment.
- (b) If the person is licensed *or registered* in the urban, rural and structural field:
 - (1) The date of the treatment for, recommendation concerning or identification of pests.
 - (2) The address where the treatment, recommendation or identification was conducted.
 - (3) The full name of the applicator  *or applicator trainee, as applicable.*

(4) The site treated or for which a recommendation or identification was made, including, without limitation, the kitchen, the crawlspace beneath the structure, and the yard or area surrounding the structure. In the case of a spot treatment, the term “spot treatment” must be followed by a description of the treatment area and the spot or spots treated.

(5) In the case of a treatment or recommendation, the brand name or generic name of the pesticide that was applied or recommended and the registration number assigned to the pesticide by the United States Environmental Protection Agency.

(6) In the case of a treatment, the total amount of any diluted pesticide and the concentration of the pesticide that was applied.

(7) If a treatment is conducted in the categories of limited landscape, weeds, aquatic or fumigation:

(I) The temperature at the start and finish of the treatment.

(II) The wind velocity and direction at the start and finish of the treatment.

(III) The area of any turf or ground treated.

(IV) The purpose for which the pesticide was applied.

(V) The area or volume fumigated.

(VI) The times at which fumigation started and finished.

(8) If a treatment is conducted in the category of structural pest control and the treatment is a preconstruction treatment, a copy of the Housing and Urban Development-National Pest Management Association Form 99-B entitled “New Construction Subterranean Termite Service Record.” The Housing and Urban Development-National Pest Management Association Form 99-B is available from CBS Forms by mail at 11652 Agarwood Drive, Walton, Kentucky 41094, by telephone at (800) 324-7676 or at the Internet address <http://www.cbsforms.com/>, for the

price of ~~(\$32.95)~~ \$35.95 for a pack of 100 forms, plus shipping and handling, or from the United States Department of Housing and Urban Development, free of charge, at the Internet address <https://www.hud.gov>.

2. Report by telephone within 24 hours to the Director or his or her designee:

(a) Any emergency dumps of pesticides by aircraft, and accidents of aircraft loaded with pesticides or ground equipment involving the spillage of pesticides; or

(b) The accidental spillage at sites of operations of more than 1 gallon of liquid or 4 pounds of dry weight of unmixed pesticides that are detrimental to persons, wildlife, domestic animals or crops.

3. Report by telephone to the Director or his or her designee within 48 hours any cases of apparent pesticide poisoning requiring medical treatment.

4. If the person is licensed in the aerial or agricultural ground field, file with the Director on forms to be furnished by him or her a monthly report of all pest control operations, including those operations involving the use of restricted-use pesticides, for each month in which such operations occurred. The report must:

(a) Be filed on or before the 15th day of the following month; and

(b) Be filed for those periods during which no operations were conducted unless written notification is given to the Director declaring that operations have ceased.

5. Submit to the Director any reports or records he or she requests.

Sec. 14. NAC 555.415 is hereby amended to read as follows:

555.415 An unlicensed *or unregistered* person who performs pest control under the immediate supervision of a primary principal, location principal, principal, demonstration and research specialist or operator pursuant to NAC 555.400 shall not prepare, distribute, appear on

or sign on his or her behalf or on behalf of the primary principal, location principal, principal, demonstration and research specialist or operator:

1. Any invoice, estimate or bid for pest control;
2. Any report prepared pursuant to NAC 555.410 or 555.430; or
3. Any contract or other agreement for pest control.

Sec. 15. NAC 555.530 is hereby amended to read as follows:

555.530 In addition to any other penalty, the Director may assess a fine against a person according to the schedule set forth in this section. As used in this section, “authorized,” “authorization” or any variation of those terms means the authority of an authorized commercial applicator to use or supervise the use of a restricted-use pesticide as described in subsection 3 of NRS 555.351.
