Legislative Counsel's Digest:

Existing law requires a custodian of health care records to make the health care records of a patient available for physical inspection by certain authorized persons. Existing law further requires a custodian of health care records to furnish a copy of the record to an authorized person who requests the record and pays certain costs of furnishing the record. (NRS 629.061) **Section 2** of this regulation authorizes, with certain exceptions, a physician, physician assistant, practitioner of respiratory care, perfusionist or anesthesiologist assistant to charge an authorized person the cost of a medium used to furnish health care records electronically.

Section 3 of this regulation prohibits a physician assistant from performing cosmetic surgeries without the direct supervision of his or her supervising physician if the cosmetic surgery is not medically necessary and involves certain anesthesia or sedation.

Existing law provides for the licensure and regulation of physicians, physician assistants, perfusionists and practitioners of respiratory care by the Board of Medical Examiners. (Chapter 630 of NRS) **Sections 5, 8-11 and 14** of this regulation revise requirements concerning the information that an applicant for a license as a physician assistant, practitioner of respiratory care, perfusionist or anesthesiologist assistant must provide concerning licenses that he or she

holds or has held in other jurisdictions. **Sections 9 and 11** make additional changes concerning the contents of an application for licensure by endorsement as a practitioner of respiratory care or perfusionist.

Existing law requires the Board to encourage the holders of licenses to practice medicine to receive continuing education related to training concerning methods for educating patients about how to effectively manage medications. (NRS 630.253) **Sections 4 and 6** of this regulation authorize the holder of a license to practice medicine or as a physician assistant to receive double hours of credit for such continuing education, with certain exceptions.

Existing regulations prescribe procedures concerning prehearing conferences in proceedings relating to physicians, physician assistants, anesthesiologist assistants, practitioners of respiratory care and perfusionists. (NAC 630.465) **Section 7** of this regulation clarifies that each party to such a proceeding is required to submit to the presiding member of the Board or panel or to the hearing officer conducting the conference: (1) each issue in the case which has been resolved by negotiation or stipulation; and (2) an estimate of the time required to present arguments at the hearing.

Existing law defines “nonablative esthetic medical procedure” to mean a procedure performed for esthetic purposes using certain medical devices which is not expected to excise, vaporize, disintegrate or remove living tissue. (NRS 644A.127) Existing regulations authorize a physician or a physician assistant acting under the supervision of a physician to supervise an advanced esthetician in the performance of a nonablative esthetic medical procedure that is within the scope of practice of the physician or physician assistant, as applicable. (Section 2 of LCB File No. R177-22) **Section 12** of this regulation additionally requires a physician or a physician assistant who supervises an advanced esthetician in the performance of a nonablative esthetic medical procedure to be licensed and in good standing.

Existing law requires a regulatory body, including the Board, to provide a licensee with notice of a contested case against the licensee. (NRS 233B.121, 241.0333, 622A.300) **Section 15** of this regulation repeals duplicative provisions providing that the Board will give a physician assistant or practitioner of respiratory care a written notice of the charges made against physician assistant or practitioner of respiratory care. (NAC 630.390, 630.545) **Section 13** of this regulation provides that the Board will provide a copy of any order imposing disciplinary action against a physician assistant to each supervising physician of the physician assistant.
