# **Legislative Counsel's Digest:**

Existing law creates the Taxicab Authority and provides the Authority with regulatory authority over taxicab motor carriers in any county whose population is 700,000 or more (currently only Clark County). (NRS 706.881, 706.8818) **Section 2** of this regulation: (1) provides that the Authority will elect a Chair and a Vice Chair for a term of 1 year, except that the Authority will not elect a Chair if a Chair has been appointed by the Governor; and (2) establishes the duties of the Chair and Vice Chair.

Existing law requires the Authority and the Administrator of the Authority to conduct hearings and make final decisions in certain matters relating to the taxicab business. (NRS 706.8819, 706.8822) Existing regulations establish certain procedures governing proceedings

before the Authority and the Administrator. (NAC 706.876-706.990) **Section 3** of this regulation authorizes the Chair of the Authority or certain persons designated by the Chair to act as the presiding officer in public hearings before the Authority. **Sections 4-7** of this regulation establish certain requirements and procedures governing motions, petitions, protests and answers filed in proceedings before the Authority. **Section 50** of this regulation authorizes the Authority or Administrator to follow any applicable rule in the Nevada Rules of Civil Procedure if the procedure for an action before the Authority or Administrator is not specifically addressed by regulation. **Section 51** of this regulation requires a petition that seeks relief which is not specifically covered by the regulations governing actions before the Authority and Administrator to be handled in the same manner as other petitions. **Section 53** of this regulation authorizes the Authority, Administrator or presiding officer to, upon a showing of good cause, excuse compliance with or suspend the effectiveness of an order upon which a petition for rehearing has been filed. **Section 52** of this regulation defines the term "relevant" with respect to evidence or information that may be used in a proceeding.

**Sections 8-17** of this regulation establish: (1) procedures for a person to request the confidential treatment of any information that pertains to the person and is in the possession of the Authority or Administrator and to appeal the denial of such a request; and (2) requirements for the handling of information which is designated as confidential or during the pendency of a request to treat information as confidential.

Existing law prohibits a person from engaging in the taxicab business within the jurisdiction of the Authority without a certificate of public convenience and necessity issued by the Authority. (NRS 706.8827) Existing law authorizes the Authority to allocate among all certificate holders the total number of taxicabs that may be operated within the jurisdiction of the Authority. (NRS 706.8824) To evidence such an allocation, existing law and regulations provide that the Administrator will issue a medallion for each taxicab that a certificate holder is authorized to operate within the jurisdiction of the Authority. (NRS 706.88183; NAC 706.450 706.5565) Existing regulations require that a medallion be physically affixed to the left rear fender of each taxicab. (NAC 706.450, 706.489) **Section 17** provides that a medallion may be issued by the Administrator as a metal plate or a digital credential. **Section 26** of this regulation: (1) establishes requirements for the display of a medallion that is issued as a digital credential; and (2) requires that a medallion that is issued as a metal plate be displayed above the left rear wheel well of the taxicab, rather than on the rear fender on that side, specifically. **Sections 36, 41 and 44** of this regulation make conforming changes to indicate that a medallion must be displayed in accordance with the requirements of **section 26**.

Existing regulations require, before the transfer of a certificate of public convenience and necessity or a transfer of an interest in a corporation holding a certificate, that the transfer apply for and receive approval from the Authority before the commencement of the transfer. Existing regulations authorize the Authority to make an investigation before approving the transfer. (NAC 706.465) **Section 18** of this regulation requires an applicant for approval of such a transfer to provide the Authority with certain organizational charts of the certificate holder before the Authority will commence an investigation.

Existing regulations require a certificate holder to furnish to the Authority certain information relating to the operations of the certificate holder. (NAC 706.474, 706.476, 706.477) **Section 19** of this regulation provides that a certificate holder is only required to furnish to the Administrator a list of certain persons authorized to act for the certificate holder in dealing with the Authority if so requested by the Administrator. **Section 20** of this regulation extends from 2

to 5 working days the time in which a certificate holder is required to notify the Administrator if the certificate holder has received a complaint which alleges that a driver or independent contractor operating on behalf of the certificate holder has engaged in certain unlawful conduct. **Section 21** of this regulation eliminates a requirement that each certificate holder provide to the Authority on a monthly basis a list of all drivers whose employment was terminated by the certificate holder during that month.

Existing regulations establish certain requirements for taxicabs that are operating in passenger service within the jurisdiction of the Authority, including requirements that taxicabs have installed or display certain equipment, identifying marks and disclosures. (NAC 706.481, 706.486-706.495, 706.501, 706.504) **Section 22** of this regulation eliminates a requirement that certificate holders display on each taxicab an emblem which indicates that the certificate holder participates in a secret witness program. **Section 23** of this regulation requires the Administrator, rather than the Authority or its designee, to inspect each taxicab that has been involved in a crash. **Section 24** of this regulation revises the manner in which a certificate holder is required to display the unit number of a taxicab on the exterior of each taxicab. **Section 27** of this regulation revises requirements governing the mechanical standards and equipment for taxicabs. **Section 28** of this regulation revises the terminology used to refer to the radio that existing law requires certificate holders to equip in each taxicab to conform with the terminology used in existing law. (NRS 706.8832)

Existing regulations require a certificate holder to obtain the approval of the Authority before the certificate holder may modify the color scheme or insigne of a taxicab. (NAC 706.487) **Section 25** of this regulation eliminates limitations on: (1) the total number of applications for such modifications that the Administrator will approve in a calendar year; (2) the number of modifications to the color scheme of taxicabs that a certificate holder may request at one time; (3) the percentage of taxicabs owned by a certificate holder that may be temporarily modified at a given time; and (4) the duration of time for which a taxicab may be temporarily modified. **Section 25** also eliminates certain requirements relating to the information that a certificate holder must include with an application for a temporary modification.

Existing regulations prescribe certain requirements relating to the design of taximeters and require that a taxicab be equipped with amber lights which illuminate when the taximeter is not in use. (NAC 706.501) **Section 30** of this regulation: (1) eliminates the requirement that numerals on the face of a taximeter be displayed in certain colors; and (2) revises certain other requirements relating to the amber lights which illuminate when the taximeter is not in use.

Existing law sets forth certain technical requirements for taximeters that may be used on taxicabs. Existing law requires the Administrator to: (1) inspect each taximeter for conformity with these requirements; and (2) upon determining that the taximeter is in conformity with those requirements, seal the taximeter. Existing law authorizes the Administrator to seal the taximeter using an electronic security seal that meets certain requirements in lieu of affixing a physical security seal to each access point of the taximeter. (NRS 706.8836) **Section 31** of this regulation eliminates provisions that require: (1) a taximeter to be physically sealed by the Authority at both the taximeter and transmission; and (2) a certificate holder to return to the Authority a broken physical seal that is removed by the certificate holder.

Existing law and regulations generally prohibit a person from operating a taxicab within the jurisdiction of the Authority as a driver or independent contractor without obtaining a driver's permit from the Administrator. (NRS 706.8843; NAC 706.513) **Section 33** of this regulation requires an applicant for a driver's permit to submit a health certificate that is valid for

not more than 2 years, rather than for at least 2 years. **Section 34** of this regulation increases from 1 to 2 years the duration for which a driver's permit issued by the Administrator remains valid. **Section 17** revises existing references to the period of time for which a permit remains valid, to reflect to the changes made by **section 34**. **Sections 24 and 35** of this regulation require a permit to be displayed in a holder, rather than a bracket.

Existing law and regulations generally require a person operating a taxicab as an employee of a certificate holder or independent contractor to adhere to certain standards while leasing or operating a taxicab. (NRS 706.8845, 706.8846, 706.8847; NAC 706.540, 706.543, 706.544, 706.550, 706.551, 706.552) Existing regulations prohibit a certificate holder from allowing a driver or independent contractor to operate a taxicab under certain conditions. (NAC 706.546) **Section 37** of this regulation provides that a certificate holder only violates this prohibition if the certificate holder knowingly allows a driver or independent contractor to operate a taxicab under those conditions.

Section 37 also eliminates a requirement that a company carry as a permanent driver a driver who has driven more than 10 periods of duty for the company within a 30-day period. Section 36 increases from five to six the maximum number of passengers that a driver or independent contractor may allow in his or taxicab at any one time. Section 39 of this regulation decreases the frequency at which a driver or independent contractor is required to search the interior of his or her taxicab for personal property left behind by passengers. Section 40 of this regulation authorizes a driver to operate a taxicab for the parent company of the company listed on his or her permit. Section 42 of this regulation reduces from each day to each week the frequency at which an independent contractor must return a leased taxicab to the certificate holder for inspection.

Existing law requires a certificate holder to require its drivers and independent contractors to keep a daily trip sheet in a form prescribed by the Authority, which may be in electronic form. (NRS 706.8844) **Section 32** of this regulation requires a certificate holder to provide the Administrator, upon request, any information contained within a trip sheet, in addition to the physical or electronic trip sheet itself. Existing regulations require a certificate holder to require its drivers and independent contractors to time stamp their trip sheets at the beginning and end of their periods of duty using a time clock provided by the certificate holder. (NAC 706.549) **Section 38** of this regulation: (1) eliminates a requirement that the Authority approve a time clock before its use; (2) updates certain terminology to reflect the usage of electronic time clocks; and (3) provides that a certificate holder is not required to require a driver or independent contractor to record on his or trip sheet the time at which his or her period of duty ended if the time clock provided by the certificate holder meets certain requirements.

Existing law and regulations authorize a certificate holder to lease a taxicab to an independent contractor pursuant to a lease agreement that is approved by the Administrator. (NRS 706.88396; NAC 706.5551, 706.5555) Existing regulations prohibit a certificate holder from entering into a lease agreement with an employee of the certificate holder. (NAC 706.497) **Section 29** of this regulation eliminates this prohibition, thereby authorizing an independent contractor to lease a taxicab to an employee of the certificate holder.

Existing regulations: (1) establish certain requirements for the contents of lease agreements; and (2) authorize the Administrator to preapprove a lease agreement template that satisfies those requirements. (NAC 706.5551, 706.5557) **Section 41** clarifies that a certificate holder is not required to seek additional approval of a lease agreement if the agreement was executed using a valid lease agreement template that the Administrator has preapproved. **Section** 

**41** also eliminates a requirement that a certificate holder notify the Authority if a lease agreement terminates before the expiration date included in the agreement.

Existing regulations authorize a certificate holder to include in a lease agreement a requirement for a security deposit. (NAC 706.5557) If such a requirement is included in a lease agreement, existing regulations: (1) require the certificate holder to ensure that any security deposit is maintained in an account separate from the account in which the certificate holder maintains his or the operating capital; and (2) authorize the certificate holder to reimburse any interest accrued by the security deposit at the termination of the lease agreement. (NAC 706.5559) **Section 43** of this regulation eliminates those provisions.

Existing law prohibits the Authority from limiting the number of lease agreements entered into by a certificate holder. (NRS 706.88396) Existing regulations limit the number of lease medallions that may be issued to a certificate holder to one-half of the total number of medallions otherwise issued to the certificate holder. (NAC 706.5565) **Section 44** removes this limitation.

Existing law requires a certificate holder to keep and maintain a uniform system of accounts in a form prescribed by the Authority. (NRS 706.8829) Existing regulations require such accounts to include certain property with an original cost of \$100 or more. (NAC 706.669, 706.720, 706.732) Sections 45-47 of this regulation increase the threshold to \$5,000. Sections 48 and 49 of this regulation require certificate holders to include within certain other accounts for general or administrative expenses the cost of certain property valued at or below \$5,000.

- **Section 1.** Chapter 706 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 16, inclusive, of this regulation.
- Sec. 2. 1. Except as otherwise provided in this subsection, the Authority will elect a Chair and a Vice Chair from among its members. Each Chair and Vice Chair elected by the Authority holds office for a term of 1 year commencing on July 1. The Authority will not elect a Chair if one has been appointed by the Governor.
  - 2. The Vice Chair shall perform the duties of the Chair during the absence of the Chair.
- 3. In the event that the office of the Chair becomes vacant, the Vice Chair shall serve as the Acting Chair for the remainder of the term of the Chair or until a Chair is appointed by the Governor.
- 4. The Chair shall determine the agenda for the public meetings of the Authority in cooperation with the Administrator.

- Sec. 3. 1. Except as otherwise provided in subsection 2, the Chair, or a member of the Authority designated by the Chair, shall be the presiding officer of the Authority in any public hearing that the Authority is required to conduct by law.
- 2. The Chair may require the Administrator, or a person appointed by the Administrator to serve as a hearing officer, to preside over any preliminary or prehearing matter that the Authority may conduct pursuant to NAC 706.876 to 706.990, inclusive, and sections 3 to 16, inclusive, of this regulation.
- Sec. 4. 1. Any request for an order by the Authority or Administrator, except for an order to allow intervention or an order to show cause, concerning any matter that has been assigned a docket number but has not been finally decided by the Authority or Administrator must be styled a "motion."
- 2. A motion must be made in writing unless made during a hearing. If a motion is made during a hearing, the motion may be written or oral. Oral motions must be timely made.
- 3. The presiding officer or Administrator may order the parties to file one or more affidavits in support or contravention of a motion which has been made.
- 4. A motion must include, without limitation, citations of any authorities upon which the motion relies.
- 5. A written motion must be filed with the Authority or Administrator, as applicable, and served on all parties to the proceeding.
- 6. The presiding officer or Administrator may direct that any motion made at a proceeding be reduced to writing, filed and served in accordance with this section.
- 7. A motion that involves the final determination of a proceeding, including, without limitation, a motion to dismiss, will be considered by the Authority or Administrator at the time

of the final decision and order, unless the presiding officer, Authority or Administrator determines that an expedited ruling would be in the public interest.

- 8. The presiding officer or Administrator may rule on any motion made at a hearing which does not constitute a final determination of the proceeding.
- 9. A written motion other than one made during a proceeding must be served not later than 10 days before the date set for the hearing unless a different time is specified by the presiding officer or Administrator.
- 10. Motions filed by different parties but involving the same point of law may be set for hearing at the same time.
- Sec. 5. 1. A pleading praying for affirmative relief, other than an application, motion, answer or complaint, must be styled a "petition."
- 2. If the Authority or Administrator does not grant, deny or set a petition for further proceedings within 60 days after the date on which the petition is received by the Authority or Administrator, as applicable, the petition shall be deemed denied.
- 3. If the Authority or Administrator sets a petition for further proceedings, the Authority or Administrator, as applicable, will rule on the petition within 120 days after the date on which the Authority or Administrator set the petition for further proceedings.
- Sec. 6. 1. Any objection or request to make a statement at a hearing by a person, including, without limitation, a state or local governmental entity, who is not a party to an application, petition or other matter must be styled a "protest" and such a person must be styled a "protestant." The filing of a protest or request to make a statement does not make the protestant a party.

- 2. A written protest must legibly set forth a clear statement of the matter to which an objection is made.
- 3. The Authority or Administrator will make available a copy of a written protest to the parties against whom it is directed.
- 4. Even if a hearing on a written protest is not required by law, the Authority or Administrator will notify the parties and may hold such a hearing if the public interest will be served.
  - 5. A protest may be oral or written.
- 6. At a hearing, the presiding officer or Administrator shall allow any protestant to enter an appearance in the proceeding and may allow a protestant to make a statement. A protestant who desires to participate as a party in a proceeding must file a written petition for leave to intervene. A protestant is entitled to participate as a party only to the extent that leave is granted, at which time the protestant must be styled an "intervener."
- Sec. 7. 1. A party to a proceeding who desires to contest a petition, an order to show cause or a complaint or make any representation about it to the Authority or Administrator may file an answer with the Authority or Administrator, as applicable.
  - 2. An answer to a petition must:

  - 3. An answer to an order to show cause or a complaint must:
  - (a) Be in writing; and
- (b) Specifically admit or deny each material allegation and state any new matter constituting a defense. Matters alleged by way of an affirmative defense must be separately stated and numbered.
- 4. If an amendment or a correction to a pleading is filed before the filing of an answer, the time within which to answer will be computed from the date of service of the amendment or correction unless the Authority, presiding officer or Administrator directs otherwise.
- 5. Except as otherwise ordered by the Authority or Administrator, the facts set forth in an amendment or a correction shall be deemed admitted if an answer to the amendment or correction is not filed within 15 days after service of the amendment or correction unless the Authority, presiding officer or Administrator directs otherwise.
  - 6. Amendments or corrections made after the filing of an answer need not be answered.
- 7. Failure to file an answer or failure to indicate a jurisdictional defect in an answer does not waive the right to object to a jurisdictional defect.
- Sec. 8. As used in sections 8 to 16, inclusive, of this regulation, unless the context otherwise requires, the words and terms defined in sections 9 and 10 of this regulation have the meanings ascribed to them in those sections.

  - 1. Apply to all proceedings before the Authority, presiding officer or Administrator.
- 2. Do not limit or otherwise affect the confidentiality of information described in NAC 706.479 or any restriction or limitation on the disclosure of such information imposed by that section.
- Sec. 12. 1. A person who requests that information, which is in the possession of the Authority or Administrator and pertains to that person, not be disclosed must submit:

- (b) To the Authority, a copy of the document which redacts the information for which the confidential treatment is requested and such additional copies of the redacted documents as requested by the Authority. The Authority may not request more than nine additional copies of the redacted document.
- 2. A request that information not be disclosed submitted pursuant to subsection 1 must be served on the staff of the Authority and must:
  - (a) Describe with particularity the information to be treated as confidential information;
  - (b) Specify the grounds for the claim of confidential treatment of the information; and
  - (c) Specify the period during which the information must not be disclosed.

- 3. Public disclosure of only those specific portions of a filing which contain information for which confidentiality is requested will be withheld or otherwise limited.
- 4. If the information for which confidentiality is requested is part of an application, petition or other initial filing, the application, petition or filing must comply with the provisions of this section. A notice issued by the Authority pursuant to NAC 706.924 will state that certain information contained in the application, petition or filing has been requested to be treated as confidential information.
- 5. The Authority and Administrator are responsible for the custody, maintenance and return or disposal of confidential information in the possession of the Authority or Administrator and the Authority will and the Administrator shall:
- (a) Maintain the confidential information separate and apart from all other records of the Authority or Administrator; and
- (b) Adequately safeguard access to such information and ensure that confidential information is not divulged to unauthorized persons.
- 6. To determine whether to accord confidential treatment to information pursuant to sections 8 to 16, inclusive, of this regulation, the presiding officer or Administrator may review the information in camera.
- 7. The Authority, presiding officer or Administrator may conduct a closed hearing to receive or examine information designated as confidential pursuant to sections 8 to 16, inclusive, of this regulation. If the Authority, presiding officer or Administrator conducts a closed hearing pursuant to this subsection, the Authority will or the presiding officer or Administrator shall restrict access to the records and transcripts of the closed hearing without

the prior approval of the Authority or an order of a court of competent jurisdiction authorizing access to the records or transcripts.

- 8. Any participant at a closed hearing conducted pursuant to subsection 7 shall not disclose information designated as confidential pursuant to sections 8 to 16, inclusive, of this regulation without receiving authorization from the Authority, presiding officer or Administrator.
- 9. The Authority will or the presiding officer or Administrator shall consider in an open meeting whether the information reviewed or examined in a closed hearing conducted pursuant to subsection 7 may be disclosed without revealing the confidential subject matter of the information. To the extent the Authority, presiding officer or Administrator determines that the information may be disclosed, the Authority will or the presiding officer or Administrator shall make the information part of the records available to the public. Information that the Authority, presiding officer or Administrator determines may not be disclosed will be kept under seal.
- 10. Notwithstanding the other provisions of this section, the staff of the Authority is entitled to receive information designated as confidential pursuant to sections 8 to 16, inclusive, of this regulation if the staff of the Authority has executed a protective agreement.
- Sec. 13. For information determined to be confidential, the Authority will or the presiding officer or Administrator shall, in addition to the other procedures set forth in sections 8 to 16, inclusive, of this regulation:
- 1. Require that the prepared testimony which contains the confidential information not be disclosed except as otherwise specified in a protective agreement or a protective order issued by the Authority, presiding officer or Administrator; or

- 2. Unless otherwise agreed upon by the parties involved, require that the portion of the prepared testimony of a person which may address the confidential information be submitted to the party who had requested that the information not be disclosed, before the date on which the prepared testimony is to be submitted to the Authority, Administrator or other parties.
- Sec. 14. If the Authority, presiding officer or Administrator determines that a protective order should be issued with regard to the information designated as confidential, the Authority will or the presiding officer or Administrator shall, issue a protective order which:
- 1. Describes generally the nature of the confidential information and the procedures to be used to protect the information.
- 2. Specifies the period during which the disclosure of the information to the public will be withheld or otherwise limited.
- 3. Specifies the procedures to be used by each person during the pendency of the proceedings to ensure the confidentiality of the information.
- 4. Specifies the procedures for handling or returning the confidential information, as appropriate, upon the close of the proceedings or at the end of the period for which the information is to be treated as confidential.

  - (a) May be agreed upon by the parties pursuant to a protective agreement; or
  - (b) Otherwise directed by the Authority, presiding officer or Administrator.

- Sec. 15. 1. Any determination by the presiding officer or Administrator regarding the treatment of confidential information may be appealed to the full Authority. The information will be subject to public disclosure 3 business days after the date on which the presiding officer or Administrator issues his or her order denying the request for confidentiality unless:
- (a) The party who made the request appeals the decision of the presiding officer or Administrator to the full Authority; or
- (b) Otherwise required by the order of a court of competent jurisdiction or agreed upon by the parties involved.
- 2. If the Authority determines that the disclosure of information requested to be treated as confidential information is justified, the Authority will:
  - (a) Issue an order to that effect; and
- (b) Unless otherwise required by the order or agreed upon by the parties involved, continue to protect the information from public disclosure for the next 3 business days after the date on which the order denying the confidential treatment of the information is issued.
- Sec. 16. 1. During the pendency of a proceeding, any person who receives information which has been designated as confidential pursuant to sections 8 to 16, inclusive, of this regulation:
- (a) Shall not disclose the information unless the confidentiality of the information is waived. The confidentiality of information shall be deemed to be waived if:
- (1) The person who requested that the information not be disclosed makes the information public or otherwise authorizes the disclosure of the information; or
- (2) The Authority, presiding officer or Administrator enters an order which authorizes the disclosure of the information.

- (b) May request, at any time, that the Authority, presiding officer or Administrator make a determination that the disclosure of the information is justified. The person may accompany his or her request with a sealed copy of the unreducted document or information.

- 3. "Certificate" means a certificate of public convenience and necessity issued by the Authority.
