A REGULATION relating to occupational therapy; requiring a licensee to provide notification to the Board of Occupational Therapy after certain actions are taken or filed against the licensee; eliminating certain requirements relating to temporary licensing; providing that failing to notify the Board of certain information constitutes unprofessional conduct; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires the Board of Occupational Therapy to regulate the practice of occupational therapy in this State. (NRS 640A.110) Existing law authorizes the Board, after notice and a hearing, to suspend, revoke or refuse to issue or renew a license to practice as an occupational therapist or occupational therapy assistant, or impose conditions upon the use of that license, if the Board determines that the holder of or applicant for the license is guilty of unprofessional conduct which has endangered or is likely to endanger the public health, safety or welfare. Under existing law, “unprofessional conduct” includes the conviction of: (1) a felony or gross misdemeanor relating to the practice of occupational therapy; or (2) any crime involving moral turpitude. (NRS 640A.200) Existing regulations set forth certain other acts that constitute unprofessional conduct by occupational therapists and occupational therapy assistants, including failing to report or otherwise concealing certain information which could result in harm to the public health and welfare. (NAC 640A.350)

Section 1 of this regulation requires a licensee to notify the Board in writing not later than 30 days after: (1) an action is taken against any license, certification, registration or other credential held by the licensee relating to the practice of occupational therapy that was issued in any state or territory of the United States; (2) a criminal charge is filed against the licensee, excluding misdemeanor traffic violations which do not involve alcohol or controlled substances; (3) a civil action, including, without limitation, an action for malpractice, is filed against the licensee for any act relating to the practice of occupational therapy; or (4) a judgment, settlement, or final disposition is issued regarding any such action or charge. **Section 3** of this regulation provides that failure to comply with the reporting requirements in **section 1** constitutes unprofessional conduct.

Existing law and regulations prohibit the Board from renewing a temporary or provisional license more than once. (NRS 640A.170; NAC 640A.062, 640A.065) Existing regulations prohibit a person who has previously been issued a temporary license from applying for another temporary license until 6 months after the expiration of his or her last original or renewed temporary license, as applicable. (NAC 640A.062) **Section 2** of this regulation eliminates this prohibition.
