Legislative Counsel's Digest:

Existing law and regulations establish a statewide performance evaluation system for evaluating the performance of certain educational personnel. (NRS 391.465, 391.675-391.730; NAC 391.565-391.589) Existing law requires an employee who is evaluated pursuant to the statewide performance evaluation system to receive, based on his or her performance, one of the following performance evaluation ratings: (1) highly effective; (2) effective; (3) developing; or (4) ineffective. (NRS 391.465) Senate Bill No. 460 (S.B. 460) of the 2025 Legislative Session

requires that a performance improvement plan be established for any postprobationary administrator or postprobationary teacher who receives an evaluation designating his or her performance as “ineffective” or “minimally effective” for 2 consecutive school years. S.B. 460 further requires the Department of Education, in consultation with the Teachers and Leaders Council of Nevada, to adopt regulations establishing a framework for the establishment of such performance improvement plans. (Sections 38.3 and 38.7 of Senate Bill No. 460, chapter 506, Statutes of Nevada 2025, at pages 3435 and 3438, respectively) This regulation establishes such a framework.

Section 2 of this regulation defines “administrator” for the purpose of the establishment of performance improvement plans as a person who provides primarily administrative services at the school level and who does not provide primarily direct instructional services to pupils, regardless of whether such a person is licensed as a teacher or administrator, including, without limitation, a principal and vice principal.

Section 6 of this regulation clarifies that the term “minimally effective,” when used in S.B. 460 to describe the overall performance evaluation rating that is assigned to a postprobationary administrator or postprobationary teacher, has the same meaning as the term “developing” under the statewide performance evaluation system. (NRS 391.465; NAC 391.568)

Section 7 of this regulation requires the board of trustees of a school district or the governing body of a charter school to place a postprobationary administrator or postprobationary teacher who receives an overall performance evaluation rating as “ineffective” or “developing” for 2 consecutive school years on a performance improvement plan. **Section 7** further requires the performance improvement plan to: (1) be established, to the extent practicable, collaboratively between the postprobationary administrator or postprobationary teacher and the immediate supervising administrator of the postprobationary administrator or postprobationary teacher; (2) be established within a certain timeframe after the overall performance evaluation rating requiring the establishment of the plan; (3) contain certain content and components, including a targeted date for meeting the benchmarks and achieving the goals established by the plan; and (4) be administered in accordance with the requirements of this regulation and the applicable provisions of S.B. 460. **Section 13** of this regulation requires: (1) the board of trustees of each school district and governing body of each charter school to establish policies and procedures to ensure the school district or charter school complies with the provisions of existing law and regulations governing performance improvement plans; and (2) the Department to monitor such compliance.

S.B. 460 requires that a performance improvement plan contain clear and measurable goals for the improvement of the postprobationary administrator or postprobationary teacher in certain areas. S.B. 460 further requires that such goals: (1) directly address the areas of underperformance identified by the performance evaluations of the postprobationary administrator or postprobationary teacher; and (2) be aligned with educational standards in this State. (Sections 38.3 and 38.7 of Senate Bill No. 460, chapter 506, Statutes of Nevada 2025, at pages 3435 and 3438, respectively) **Section 7** requires that a performance improvement plan identify each area of underperformance, including each standard, indicator and goal for educational growth for which the postprobationary administrator or postprobationary teacher received a rating of developing or ineffective. **Section 8** of this regulation requires the goals established in a performance improvement plan to: (1) directly address the areas of underperformance identified pursuant to **section 7**; and (2) meet certain additional requirements.

S.B. 460 requires each postprobationary administrator or postprobationary teacher for whom a performance improvement plan is established to participate in programs of professional development training to address the areas of underperformance. (Sections 38.3 and 38.7 of Senate Bill No. 460, chapter 506, Statutes of Nevada 2025, at pages 3435 and 3438, respectively) **Section 7** requires that such programs for professional development training be included as a component of the performance improvement plan. **Section 9** of this regulation establishes the requirements for the provision of professional development training to postprobationary administrators or postprobationary teachers under a performance improvement plan.

S.B. 460 requires that the board of trustees of each school district and governing body of a charter school ensure that an experienced mentor or leadership coach is assigned to each postprobationary administrator or postprobationary teacher, as applicable, for whom a performance improvement plan is established. (Sections 38.3 and 38.7 of Senate Bill No. 460, chapter 506, Statutes of Nevada 2025, at pages 3435 and 3438, respectively) **Section 7** requires each performance improvement plan to contain a component of coaching or mentorship support. **Section 10** of this regulation requires that such a component: (1) include the assignment of a leadership coach or mentor, or both, to the postprobationary administrator or postprobationary teacher for whom a performance improvement plan is established; and (2) require that a leadership coach or mentor provide certain support to the postprobationary administrator or postprobationary teacher.

S.B. 460 requires that, at least once each school quarter, certain supervisors of a postprobationary administrator or postprobationary teacher for whom a performance improvement plan has been established review and assess the progress of the postprobationary administrator or postprobationary teacher towards achieving the goals established in the performance improvement plan. (Sections 38.3 and 38.7 of Senate Bill No. 460, chapter 506, Statutes of Nevada 2025, at pages 3435 and 3438, respectively) **Sections 3 and 5** of this regulation define the supervisors who are responsible for conducting this review and assessment. **Section 11** of this regulation requires that such a review and assessment occur at least once each school quarter or once every 45 school days, whichever is less. **Section 11** also requires a supervisor conducting such a review and assessment to determine whether the postprobationary administrator or postprobationary teacher requires additional support to achieve the goals established in the performance improvement plan and, if such support is needed, identify and document in the plan the support to be provided.

Section 12 of this regulation provides that a postprobationary administrator or postprobationary teacher for whom a performance improvement plan is established is deemed to have successfully completed the plan if the postprobationary administrator or postprobationary teacher receives a performance evaluation rating of effective or highly effective for each standard, indicator and goal for educational growth identified in the plan as an area of underperformance. **Section 12** additionally provides that if a postprobationary administrator or postprobationary teacher has not successfully completed a performance improvement plan before the end of the period for which the plan is established, the applicable supervisor is required to conduct a final review of the progress of the postprobationary administrator or postprobationary teacher towards achieving the goals established in the plan. **Section 12** requires the applicable supervisor to determine or recommend a course of action with respect to the postprobationary administrator or postprobationary teacher, which may include, as applicable and with certain exceptions: (1) extending the performance improvement plan for a period of not more than 1 school year; (2) reassignment to another position; (3) placement on probation; (4) extending any

current period of probation; (5) not reemploying an administrator or teacher who is on probation; or (6) commencement of dismissal proceedings.
