AUTHORITY: §§ 1, 3, 5 and 8-12, NRS 391.019, as amended by section 3.3 of Assembly Bill No. 428, chapter 491, Statutes of Nevada 2023, at page 3012; §§ 2, 4, 6 and 7, NRS 391.019, as amended by section 3.3 of Assembly Bill No. 428, chapter 491, Statutes of Nevada 2023, at page 3012, and NRS 391.040.

A REGULATION relating to educational personnel; revising requirements for licensing teachers and other educational personnel; revising requirements for endorsements to teach certain subjects; revising the subjects recognized for an endorsement to teach middle school or junior high school; increasing the fees for the issuance or renewal of certain licenses; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. Existing law requires the regulations adopted by the Commission to prescribe course work on parental involvement and family engagement and to establish standards for professional development which may be used to satisfy the requirement for course work on parental involvement and family engagement. (NRS 391.019, as amended by section 3.3 of Assembly Bill No. 428, chapter 491, Statutes of Nevada 2023, at page 3012) **Section 2** of this regulation removes the requirement that an applicant successfully complete this course work as a qualification for the initial issuance of a license as a teacher or other educational employee. Instead, **section 1** of this regulation requires a teacher or other educational employee to complete course work on parental involvement and family engagement before: (1) renewing the applicable license for the first time; or (2) if the teacher or other educational employee was initially issued a nonrenewable license, applying for the first renewable license. **Sections 3 and 12** of this regulation make a conforming change to reflect that **sections 1 and 2** remove the requirement to successfully complete course work on parental involvement and family engagement as a requirement for initial licensure as a teacher or other educational employee. **Sections 4-6** of this regulation make conforming changes to require the submission of proof of the completion of the required course in parental involvement and family engagement with the applicable application.

Existing law requires the Commission to establish fees of not less than \$100 for the initial issuance and renewal of a license as a teacher or other educational personnel. (NRS 391.040) **Sections 2, 4, 6 and 7** of this regulation increase such fees by \$20 for an application submitted

on or after the effective date of this regulation but before July 1, 2025. Additionally, **sections 2, 4, 6 and 7** provide for annual increases of \$5 in the amount of these fees on July 1 of each year, beginning with such an increase on July 1, 2025, and ending with such an increase on July 1, 2028.

Existing regulations require an applicant for the initial issuance of a license as a teacher or other educational employee to submit evidence that the applicant has successfully completed: (1) at least three semester hours of credit in a course of study regarding education or curricular adaptation for pupils with disabilities; or (2) a professional development or continuing education course regarding education or curricular adaptation for pupils with disabilities that is approved by the Department of Education. (NAC 391.045) **Section 2** removes the requirement that an applicant for an initial license as a teacher or other educational employee submit evidence of the successful completion of these requirements. Instead, **sections 8 and 9** of this regulation, respectively, require a program of education completed by an applicant for a license to teach middle school or junior high school or seeking a secondary license to include three semester credits of course work in strategies for working with students with disabilities. Similarly, **sections 10 and 11** of this regulation, respectively, require a person applying for an endorsement to teach art or an endorsement to teach music to complete three semester credits of such course work. Existing regulations already require a program of preparation completed by a person who is seeking a license to teach an early childhood education program or an elementary license to complete such course work. (NAC 391.089, 391.095, as amended by section 4 of LCB File No. R090-19)

In addition, **section 8** revises the requirement that the program of education completed by an applicant for a license to teach middle school or junior high school include six semester credits of course work in certain elective topics by: (1) removing a course in education of the exceptional child as an authorized elective; and (2) revising a course in educational technology to be a course in computer science and educational technology. (NAC 391.111)

Existing law requires the Commission to adopt regulations: (1) identifying fields of specialization in teaching which require the specialized training of teachers; and (2) setting forth the requirements a teacher must satisfy to qualify for an endorsement in each field of specialization. (NRS 391.019) Under existing regulations, such endorsements are based on a licensed teacher's field of specialization or concentration, usually designated as his or her major, minor or area of concentration. (NAC 391.113, 391.125) Existing regulations recognize various single subjects in academic education as majors or minors for the purpose of teaching high school, including, without limitation, computer science. (NAC 391.131) **Section 8** similarly adds computer science as a subject for an endorsement of a license to teach middle school or junior high school.
