

**STATE OF NEVADA
BOARD OF WILDLIFE COMMISSIONERS
NEVADA DEPARTMENT OF WILDLIFE
LEGISLATIVE REVIEW OF ADOPTED REGULATIONS
AS REQUIRED BY NRS 233B.066**

**LCB FILE NO. R004-26
Commission General Regulation 529**

The following statement is submitted for adopted amendments to Nevada Administrative Code (NAC) Chapter 502 and 503.

1. A clear and concise explanation of the need for the adopted regulation.

The benefit of the regulation change to our customers would be reduced time and cost associated with physician visits and confirmation of disability by lessening the burden of doctor's visit from an annual basis to a five-year basis. Other changes would better align the equipment requirements with the intent of affected weapon class seasons. Additional specificity on the medical conditions qualifying for the special permits would reduce subjectivity for medical professionals signing the certificate and for Department staff approving the permit.

2. Description of how public comment was solicited, a summary of public response, and an explanation of how other interested persons may obtain a copy of the summary.

Public comment was solicited during both the regulation workshop of the Nevada Board of Wildlife Commissioners (NBWC) in January 2026, March 2026, and May 2026 and the adoption hearing in August 2026. Public comment may also be submitted at any time by email to wildlifecommission@ndow.org.

Meeting minutes from the Nevada Board of Wildlife Commissioners' meetings include all public comment and can be found here when posted: <https://nvboardofwildlife.org/#meetings>

Concerns were raised about HIPAA issues related to verifying medical provider credentials and cautioned against overly restrictive disability criteria. It was recommended to allow applications for unlisted conditions with appropriate medical documentation and considering general mobility disabilities for archery permits. Some commenters objected to removing crossbows from the archery category, noting it would reduce accessibility for disabled hunters. Others described successful use of adaptive hunting systems and supported the proposed language. Additional comments recommended aligning the regulation's definition of eligible medical providers with Nevada law and emphasized maintaining hunting opportunities for individuals with disabilities.
