

INFORMATIONAL STATEMENT

R006-23

1. A clear and concise explanation of the need for the adopted regulation:

Existing law requires the Peace Officer Standards and Training Commission to adopt regulations establishing minimum standards for the certification and decertification, recruitment, selection and training of peace officers. (NRS 289.510)

NAC289.200(4)(a) requires an officer to complete the physical fitness exam not later than 16 weeks after the first day of the officer's basic academy. This proposed regulation (R006-23) will require the physical fitness exam to be completed during the academy, removing the 16-week requirement. This will allow for better conditioning of cadets without the additional pressure of the 16-week deadline, and will produce better, overall scores with less injuries. This will allow for retention of cadets that would have otherwise been dismissed as they will have the full length of the academy to successfully complete the physical fitness examination.

- 5. The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately, and in each case must include:**

1)Both the adverse and beneficial effects; and

Adverse – None

Beneficial – Retention of cadets/officers that would have been dismissed from the law enforcement academy due to physical fitness/timeframe limitations. Less risk of injury to cadets in law enforcement academy because this allows for more time to be taken with conditioning and learning the benefits of physical fitness and lifetime fitness.

2)Both immediate and long-term effects

The immediate effects: Retention of cadets in the law enforcement academy

The long-term effects: Retention of cadets/officers that would have been dismissed from the academy because of failure to pass the physical fitness standards within the first 16 weeks. There will be less funds spent on new recruiting and backgrounds because they've been able to condition and train cadets throughout the academy, therefore retaining these officers who previously would have been dismissed.

6. The estimated cost to the agency for enforcement of the proposed regulation:

None

7. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary.
