**NRS 233B.0608 (3) Statement**  
LCB File Number R010-16

**Amendments to Chapter 445B.5915 of NAC**

The methods that were used for the determination of impact on small businesses were as follows:

- Regulation revision publicised
- Public Workshop held: With result of no public attendance
- Public Hearing held: With result of no public attendance
- No written comments were received

This regulation includes the following amendments to Chapter 445B of NAC:

- New: Revising the requirements for registration of vehicles temporarily being used and maintained in another state; Revises provisions relating to the control of emissions from engines (Authority NRS 481.051 and NRS 482.160).

Departmental staff analyzed the above referenced revisions and determined the following conclusion:

- The department has determined that the provisions in this regulation do not impose a direct and significant economic burden on small businesses, nor will they restrict the formation, operation or expansion of small businesses.

This regulation requires the proof of compliance or waiver from compliance to be issued not more than 90 calendar days before the date that the owner of the motor vehicle submits his or her application for registration or renewal of registration.

I certify to the best of my knowledge or belief, a concerted effort was made to determine the impact of the proposed regulation on small businesses and that the information in this statement is accurate.

Terri L. Albertson  
Director  
Nevada Department of Motor Vehicles
