

**STATE OF NEVADA
BOARD OF WILDLIFE COMMISSIONERS
NEVADA DEPARTMENT OF WILDLIFE
LEGISLATIVE REVIEW OF ADOPTED REGULATIONS
AS REQUIRED BY NRS 233B.066**

**LCB FILE NO. R014-25
Commission General Regulation 525**

The following statement is submitted for adopted amendments to Nevada Administrative Code (NAC) Chapter 503.

1. A clear and concise explanation of the need for the adopted regulation.

This regulation addresses unregulated coyote contests. These contests are currently unregulated with no season or prerequisite to participate, the regulation establishes a defined period for coyote contests and requires that participants hold a valid Nevada hunting or trapping license. Additionally, the regulation clarifies the definition of a coyote contest.

2. Description of how public comment was solicited, a summary of public response, and an explanation of how other interested persons may obtain a copy of the summary.

Prior to the administrative rule making process the Nevada Board of Wildlife Commissioners (NBWC) formed a Contest Committee to solicit public input throughout the state to assist in the creation of regulatory language. The Committee met three times at the following locations: Reno, Las Vegas, and Elko.

Public comment was solicited during both the regulation workshop of the Nevada Board of Wildlife Commissioners (NBWC) in June 2025 and the adoption hearing in November 2025. Public comment may also be submitted at any time by email to wildlifecommission@ndow.org.

Testimony provided during the NBWC meetings consisted of four varying positions:

1. Opponents who stated that coyote contests are unethical, lack scientific justification, and are strongly opposed by the public. Opponents also explained that predator control does not improve ungulate populations, that the proposed regulation is inadequate or outdated, and that only a full ban on coyote contests would align with science, ethics, and Nevada's values.
2. Others in opposition expressed that the regulation was unnecessary as the coyote contests are currently legal and no further control is needed.
3. Those in support of the regulation stated that coyote contests are legal, transparent, and contribute to predator management at no cost to the state. Supporters also expressed that hunters act responsibly, follow the law, and that previous evidence supports continuing the contests.
4. Others in support found the regulation unnecessary but were agreeable to regulating the activity.

Submitted written comment primarily called for a ban on coyote contests with the vast majority being templated emails submitted through advocacy organizations.

Meeting minutes from the Nevada Board of Wildlife Commissioners' meetings include all public comment and can be found here when posted: <https://nvboardofwildlife.org/#meetings>

5. A description of how comment was solicited from affected businesses, a summary of their response, and an explanation how other interested persons may obtain a copy of the summary.

To assess the potential business impact of the proposed regulation, a survey was developed using Microsoft Forms and distributed to small businesses likely impacted, coyote contest event organizers and participants of these events. Recipients were encouraged to share the survey with other individuals or entities they believed could be affected. A total of 26 responses were received.

Most respondents indicated that the proposed regulation would have little to no economic impact on their business. Some respondents anticipated positive effects, and few noted the proposed regulation would have no impact, as coyote contests already align with the proposed season.

Interested persons may obtain a copy of the response summary by contacting the Nevada Department of Wildlife, Director's Office.

6. If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.

The Department consulted with our Deputy Attorney General who advised the language met the intent of the Commission.

7. The estimated economic effect of the adopted regulation on the businesses which it is to regulate and on the public. These must be stated separately, and each case must include:

(a) Both adverse and beneficial effects on businesses; and

Based on the responses received from 26 respondents to the business impact survey, four businesses indicated that the proposed regulation would have a negative impact. The remaining respondents either reported no anticipated impact or expressed neutrality regarding the proposed regulation. Notably, five respondents reported that the regulation could have a positive economic effect.

(b) Both immediate and long-term effects on businesses:

Based on the feedback received from 26 small businesses, the estimated economic effect of the proposed regulation includes a range of immediate and long-term effects:

- 5 businesses reported a positive impact
- 15 businesses reported no impact
- 4 businesses reported a negative impact
- 2 businesses were unsure

Immediate effects include the ability for businesses to advertise and promote their services in connection with regulated activities, resulting in increased visibility and potential for revenue generation. Businesses noted that the regulation allows for the solicitation and discussion of the services they offer in the state of Nevada, which contributes to attracting customers and driving sales.

Long term effects were identified as increased foot traffic in stores, greater exposure of products to new customers, and an uptick in the purchase of fuel, food, and other local goods. Several respondents noted that the regulation helps bring more people into town during what is typically a slower time of year, thereby supporting the local economy more broadly.

On the other hand, a few respondents expressed concern that a reduction in such events or contests, potentially as an unintended consequence of the regulation, could lead to fewer visitors, which in turn may negatively affect sales and customer engagement in their communities.

Overall, the responses reflect a balance of perspectives, with the majority of businesses seeing either neutral or beneficial economic impacts, and a minority expressing concerns about potential negative outcomes.

(a) Both adverse and beneficial effects on the public; and

This regulation does not have an anticipated beneficial or adverse economic effect on the public.

(b) Both immediate and long-term effects on the public:

This regulation does not have an anticipated immediate or long-term economic effect on the public.

8. **The estimated cost to the agency for enforcement of the adopted regulation.**
There is no anticipated cost for the enforcement of the proposed regulation.
9. **A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.**
This regulation does not include provisions that duplicate federal, state, or local standards.
10. **If the regulation includes provisions that are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.**
This regulation does not include provisions that are more stringent than federal standards.
11. **If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.**
This regulation does not provide a new fee or increase an existing fee.
