

**ADOPTED REGULATION OF THE  
STATE CONTRACTORS' BOARD**

**LCB File No. R096-12**

Effective June 23, 2014

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §1, NRS 624.220.

A REGULATION relating to contractors; revising provisions governing the subclassifications of certain licenses; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires the State Contractors' Board to adopt regulations necessary to effect the classification and subclassification of contractors consistent with established usage and procedure within the construction business. (NRS 624.220) Under existing regulations, a contractor who holds a license designated classification C-3 may engage in the specialty of carpentry, maintenance and minor repairs. (NAC 624.210) This regulation removes the term "remodeling" from a C-3a subclassification. This regulation also sets forth certain materials that may be used under a C-3a subclassification and specifies that the installation of insulation and weather stripping under a C-3c subclassification includes the installation of firestop systems.

**Section 1.** NAC 624.210 is hereby amended to read as follows:

624.210 1. The Board will grant to qualified applicants a license in the specialty of carpentry, maintenance and minor repairs. The Board designates such a license as "classification C-3." A person who holds a license designated classification C-3 may perform any of the work authorized for the subclassifications of the classification C-3.

2. The subclassifications of a license designated classification C-3 and the work authorized for persons licensed in the respective subclassifications are:

(a) CARPENTRY ~~[-REMODELING]~~ AND REPAIRS (subclassification C-3a): The construction of form work, framing or rough carpentry necessary to construct framed structures,

the installation or repair of individual components of framing systems, rough carpentry or associated work, including the construction or installation of subflooring, siding, exterior staircases and railings, roof decking, truss members and sheathing, and the fabrication, installation ~~[-,remodeling]~~ and repair of wood and wood products for structural and finishing purposes, such as doors, windows, cabinets and fixtures. *Studs and other members within this subclassification may be made of wood, formed sheet metal, vinyl, aluminum and similar products that emulate traditional milled wood and which may be installed or used with traditional methods of carpentry joinery such as glue, nails, screws and bolts and which do not require welding or other similar forms of joining.*

(b) FINISH CARPENTRY (subclassification C-3b): The installation, repair and finishing of cabinets, sash casing, door casing, wooden flooring, baseboards, countertops and other millwork. Finish carpentry does not include the installation of ceramic tile, marble and artificial or cultured stone.

(c) INSULATION AND WEATHER STRIPPING (subclassification C-3c): The installation of material used for the insulation of buildings and the application of weather stripping and caulking for the internal control of the effects of weather ~~[-]~~, *including, without limitation, the installation of firestop systems.*

(d) OVERHEAD DOORS (subclassification C-3d): The fabrication, erection and installation of guides, counterweights, tracks, weather stripping, automatic and manual controls, and all other apparatuses and equipment appurtenant to the efficient installation and operation of overhead doors.

(e) DRYWALL (subclassification C-3e): The installation, taping and finishing of drywall, panels and assemblies of gypsum wallboard, sheathing, acoustical tile and studs made of sheet metal for the framing of ceilings and nonstructural partitioning.
