

**LEGISLATIVE REVIEW OF ADOPTED REGULATIONS AS REQUIRED BY
NRS 233B.066
LCB File No. R125-17**

The following statement is submitted for adopted amendments to Nevada Administrative Code (NAC) Chapter 632.

INFORMATIONAL STATEMENT

1. A clear and concise explanation of the need for the adopted regulation.

This regulation is necessary to create an advisory committee concerning the practice of licensed practical nurses. Licensed practical nurses are a critical part of virtually every health care team, but at this time there is only one school for the education of licensed practical nurses in Nevada. Establishing an advisory committee would give licensed practical nurses a strong voice with the Nevada State Board of Nursing. Additional amendments are sought revising the duties of an existing advisory committee to bring that advisory committee's practices in line with current practices.

2. A description of how public comment was solicited, a summary of public response, and an explanation how other interested persons may obtain a copy of the summary.

Copies of the proposed regulation, notices of workshop and notices of intent to act upon the regulation were sent by U.S. mail and email to persons who were known to have an interest in the subject of nursing as well as any persons who had specifically requested such notice. These documents were also made available at the website of the Nevada State Board of Nursing (NSBN), www.nursingboard.state.nv.us, mailed to all county libraries in Nevada and posted at the following locations:

An explanation of how an interested person may obtain a copy of the summary of public response would be to go to the Nevada State Board of Nursing's physical offices located

at 5011 Meadowood Mall Way, Suite 300, Reno, Nevada, 89502, and at 4220 S. Maryland Parkway, Building B, Suite 300, Las Vegas, NV 89119 or go to the NSBN website.

Comments were solicited from affected businesses in the same manner as they were solicited from the public. The summary may be obtained, as instructed, in the response to question #1.

6. **If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

The permanent regulation was adopted on January 18, 2018, without change because there were no changes recommended at either the hearing on January 18, 2018, or at the workshop on December 19, 2017.

7. **The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include:**
 - a. **Both adverse and beneficial effects; and**
 - b. **Both immediate and long-term effects.**

There will be no adverse or beneficial economic effects as a result of the proposed regulation because merely establishes an advisory committee to the Nevada State Board

of Nursing. Licensed practical nurses will not lose their jobs, will not gain jobs, but the awareness of the practical nurses part in the health care team will be better understood. Hopefully the licensed practical nurses' role will be enhanced. As to the additional amendment to the duties of an existing advisory committee there will be no adverse or beneficial economic effects because the amendments are mostly procedural.

The immediate and long-term effect of the proposed regulation would be greater efficiency and communication with nurses and the Nevada State Board of Nursing. Even with this greater efficiency and communication, there is anticipated to be no immediate and long-term effects on the public.

The Nevada State Board of Nursing is not aware of any similar regulations of other state or government agencies which the proposed regulations overlap or duplicate.

10. If the regulation includes provisions that are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.

This regulation does not include provisions which are more stringent than a federal regulation which regulates the same activity.

11. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

The regulation does not provide for a new or increased existing fee.
