LCB File No. R155-13

Effective June 23, 2014

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§1-8, NRS 385.080 and 385.448.

A REGULATION relating to education; revising provisions governing high school equivalency assessments; selecting certain tests to be used for high school equivalency assessments; prescribing the minimum passing score for each high school equivalency assessment; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the State Board of Education to select an assessment which enables a person who satisfies certain requirements to demonstrate that he or she has achieved an educational level which is an acceptable substitute for completing a high school education by taking a high school equivalency assessment. (NRS 385.448) This regulation replaces references to the tests of general educational development with references to the high school equivalency assessments. **Section 4** of this regulation adopts the General Educational Development Test, the HiSET Exam and the Test Assessing Secondary Completion as high school equivalency assessments and prescribes the minimum passing score for each assessment.

Existing regulations authorize a person who is at least 18 years of age and who passes the tests of general educational development to waive the units of credit required for an adult standard diploma. (NAC 385.404, 389.694) **Sections 2 and 7** of this regulation provide that a person who is at least 17 years of age, who is enrolled in an alternative program for the education of pupils at risk of dropping out of school and who passes a high school equivalency assessment may also waive the units of credit required for an adult standard diploma.

Existing regulations authorize a test site that has been approved by the Department of Education to issue a certificate of educational equivalence to each person who has passed the tests of general educational development. (NAC 385.420) **Section 6** of this regulation provides that such certificates will be issued in a manner determined by the Department.

Existing regulations authorize the board of trustees of a school district to allow a person who is 16 years of age who has withdrawn from high school so that he or she may take the tests of general educational development to attend an adult high school program only for the purpose of test preparation. (NAC 389.695) **Section 8** of this regulation authorizes the board of trustees of a

school district to allow a person who is 16 or 17 years of age to attend an adult high school program for that purpose.
