

Digest for Adopted Regulation R_183-12

Existing law requires the Board of Medical Examiners to adopt regulations regarding the licensure of physician assistants, including the supervision of the medical services of a physician assistant by a supervising physician. (NRS 630.275)

Existing regulations require a physician assistant to notify the Board in writing within 72 hours after any change relating to his or her supervising physician. (NAC 630.360) This regulation revises that requirement to require the physician assistant to notify the Board in writing within 72 hours after any change in the supervision of the physician assistant by the supervising physician.
