AN ACT relating to public works; revising provisions relating to preferences when competing for contracts for certain public works projects; requiring a contractor to replace an unacceptable subcontractor on a public work of this State without an increase in the amount of the bid; requiring a prime contractor to forfeit a portion of the amount of a contract for a public work under certain circumstances; revising the manner in which a construction manager at risk may solicit bids and select a subcontractor for a public work; revising provisions governing the selection of a construction manager at risk for preconstruction services and the construction of a public work; revising the manner in which a construction manager at risk may solicit bids and select a subcontractor for a public work; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Under existing law, a contract for a public work involving a design-build team is awarded by a public body based on the application of certain criteria. A design-build team may qualify for a preference in bidding on such a contract if the contractor on the design-build team has submitted proof to the State Contractors’ Board that the contractor has paid certain taxes to the State for the past 5 years. (NRS 338.1389, 338.147, 338.1727, 408.3886)

Section 2 of this bill allows a person who holds a certificate of registration to engage in the practice of architecture or landscape architecture or who holds a license as a professional engineer or professional land surveyor to qualify for a preference when competing for public works if the person has submitted proof to the appropriate licensing board that the person has paid certain taxes to the State for the past 3 years. **Sections 26 and 31** of this bill allow a design-build team to receive a preference in selection as a finalist for a public work or a project for the construction, reconstruction or improvement of a highway if both the contractor and the design professionals on the design-build team possess a certificate of eligibility to receive their respective preferences. **Sections 28 and 32** of this bill allow a design-build team that has been selected as a finalist for a public work or a project for the construction, reconstruction or improvement of a highway to receive a preference in selection for a contract only if both the contractor and the design professionals on the design-build team possess a certificate of eligibility to receive their respective preferences. **Section 33** of this bill allows an architect, professional engineer or professional land surveyor to receive a preference in selection for certain public works if the architect, professional engineer or professional land surveyor possesses a certificate of eligibility to receive a preference when competing for public works.

Existing law provides that a public body which selects a design-build team as a finalist in the selection process for a contract for a public work must make public specified information concerning the design-build team and its selection. (NRS 338.1725) **Section 31** of this bill adds a similar requirement for the Department of Transportation to make public specified information concerning a design-build

team and the selection of that design-build team as a finalist in the selection process for a contract for a project for the construction, reconstruction or improvement of a highway. **Section 16** of this bill requires that a public body must, after selecting but before entering into a contract with a design professional who is not a member of a design-build team, transmit certain information concerning the selection of the design profession to the licensing board that regulates the design professional. That licensing board must post the information on its Internet website.

Before a contract for a public work of this State is awarded, existing law requires a contractor to replace a subcontractor that is named in the contractor's bid for the contract if the subcontractor is not properly licensed or has been disqualified from participating in public works sponsored by the State Public Works Board. (NRS 338.13895) **Section 12** of this bill requires the contractor to replace such a subcontractor without an increase in the amount of the bid. This same requirement currently applies with respect to the replacement of a subcontractor named in a bid for a contract for a public work of a local government if the subcontractor is not properly licensed. (NRS 338.13895)

Under existing law, a contractor is required to list in his or her bid for a public work the names of certain subcontractors who will be performing work on the public work if the contractor is awarded the contract. Existing law sets forth requirements with which a prime contractor who is awarded the contract must comply to substitute a subcontractor for another subcontractor. (NRS 338.141) If a prime contractor does not comply with the requirements related to the substitution of subcontractors, **section 13** of this bill requires the prime contractor to forfeit 1 percent of the contract amount as a penalty.

Existing law also requires a contractor to include his or her name on a bid for a public work if, as the prime contractor, the contractor will perform a portion of the work on the public work which is estimated to exceed 3 percent of the estimated cost of the public work. (NRS 338.141) **Section 13** of this bill requires a prime contractor to forfeit a specified amount as a penalty if the prime contractor substitutes a subcontractor to perform the work that the prime contractor indicated on the bid that the prime contractor or another subcontractor would perform.

In order for a subcontractor to be eligible to provide materials, equipment, work or other services on a public work for which a construction manager at risk was awarded a contract, existing law requires the subcontractor to be licensed and to be selected based on a process of competitive bidding set forth for all subcontractors on any public work in the State. (NRS 338.1699) **Sections 4 and 5** of this bill changes the manner in which a construction manager at risk selects subcontractors and sets forth specific procedures a construction manager at risk must follow when selecting subcontractors to provide materials, equipment, work or other services on a public work for which the construction manager at risk was awarded a contract.

Existing law authorizes a public body to construct a public work by selecting a construction manager at risk and sets forth certain procedures the public body must follow when selecting the construction manager at risk and entering into a contract with him or her for preconstruction services or to construct the public work. (NRS 338.169-338.1699) **Sections 18-22** of this bill amend the provisions governing the way in which a public body must select a construction manager at risk. Existing law provides for a two-step selection process, wherein construction managers at risk must first submit a statement of qualifications, and then the public body selects finalists who are requested to submit final proposals and are interviewed before one is chosen to be awarded the contract. (NRS 338.1692-338.1695) Instead, **sections 20 and 21** of this bill change the process to a single step: a construction manager at risk submits a proposal from the start, which contains a combination of the statement of qualifications and any material existing law required to be included in

a final proposal, and the public body chooses which applicants to interview and which to select from those proposals. **Section 22** of this bill allows a public body to enter into negotiations with the construction manager at risk who is providing the preconstruction services for the construction of a portion of the public work as soon as that portion of the design is finalized instead of waiting until the complete design is finished, as is currently required by existing law. In addition, **section 22** allows the construction manager at risk providing preconstruction services to bid on the project if negotiations for the contract fail and the public body opens it up for bids.

6. A design professional who fails to submit an affidavit to the applicable licensing board pursuant to subsection 5 ceases to be eligible to receive a preference when competing for public works unless the design professional reapplies for and receives a certificate of eligibility pursuant to subsection 1, 2 or 3, as applicable.

7. Upon issuance, the certificate of eligibility to receive a preference when competing for public works becomes part of the design professional's license or certificate of registration for which the design professional submitted the application.

8. If a design professional who applies to a licensing board for a certificate of eligibility to receive a preference when competing for public works pursuant to subsection 1, 2 or 3 submits false information to the licensing board regarding the required payment of taxes, the design professional is not eligible to receive a preference when competing for public works for a period of 5 years after the date on which the licensing board becomes aware of the submission of the false information.

9. The State Board of Architecture, Interior Design and Residential Design, the State Board of Landscape Architecture and the State Board of Professional Engineers and Land Surveyors shall adopt regulations and may assess reasonable fees

relating to their respective certification of design professionals for a preference when competing for public works.

10. A person or entity who believes that a design professional wrongfully holds a certificate of eligibility to receive a preference when competing for public works may challenge the validity of the certificate by filing a written objection with the public body which selected, for the purpose of providing services for a public work, the design professional who holds the certificate. A written objection authorized pursuant to this subsection must:

(a) Set forth proof or substantiating evidence to support the belief of the person or entity that the design professional wrongfully holds a certificate of eligibility to receive a preference when competing for public works; and

(b) Be filed with the public body not later than 3 business days after:

(1) The date on which the public body makes available to the public pursuant to subsection 3 of NRS 338.1725 the information required by that subsection, if the design-build team of which the design professional who holds the certificate is a part was selected as a finalist pursuant to NRS 338.1725;

(2) The date on which the Department of Transportation makes available to the public pursuant to subsection 3 of NRS 408.3885 the information required by that subsection, if the design-build team of which the design professional who holds the certificate is a part was selected as a finalist pursuant to NRS 408.3885; or

11. If a public body receives a written objection pursuant to subsection 10, the public body shall determine whether the objection is accompanied by the proof or substantiating evidence required pursuant to paragraph (a) of that subsection. If the public body determines that the objection is not accompanied by the required proof or substantiating evidence, the public body shall dismiss the objection and the public body or its authorized representative may proceed immediately to award the contract. If the public body determines that the objection is accompanied by the required proof or substantiating evidence, the public body shall determine whether the design professional qualifies for the certificate pursuant to the provisions of this section and the public

body or its authorized representative may proceed to award the contract accordingly.

Sec. 3. 1. *Notwithstanding the provisions of sections 4 and 5 of this act, and subject to the provisions of subsection 2, if a public body enters into a contract with a construction manager at risk for preconstruction services pursuant to NRS 338.1693, the construction manager at risk may enter into a contract with a subcontractor licensed pursuant to chapter 624 of NRS to provide any of the following preconstruction services, the basis of payment for which is a negotiated price:*

(b) Assisting the construction manager at risk in creating a schedule for the provision of labor, materials or equipment by each subcontractor;

responsive proposal for the provision of labor, materials or equipment on the public work, and not later than 21 days before the date by which such an application must be submitted, the construction manager at risk shall advertise for such applications in a newspaper qualified pursuant to chapter 238 of NRS that is published in the county where the public work will be performed. If no qualified newspaper is published in the county where the public work will be performed, the advertisement must be published in some qualified newspaper that is printed in the State of Nevada and has a general circulation in the county.

4. The criteria to be used by the construction manager at risk when determining whether an applicant is qualified to submit a proposal for the provision of labor, materials or equipment must include, and must be limited to:

(b) The financial ability of the applicant to provide the labor, materials or equipment required on the public work;

(j) The truthfulness and completeness of the application.

5. The public body or its authorized representative shall ensure that each determination made pursuant to subsection 2 is made subject to the provisions of subsection 4.

6. The construction manager at risk shall notify each applicant and the public body in writing of a determination made pursuant to subsection 2.

7. A determination made pursuant to subsection 2 that an applicant is not qualified may be appealed pursuant to NRS 338.1381 to the public body with whom the construction manager at risk has entered into a contract for the construction of the public work.

Sec. 5. 1. If a public body enters into a contract with a construction manager at risk for the construction of a public work pursuant to NRS 338.1696, the construction manager at risk may enter into a subcontract for the provision of labor, materials and equipment necessary for the construction of the public work only as provided in this section.

2. The provisions of this section apply only to a subcontract for which the estimated value is at least 1 percent of the total cost of the public work.

3. After the design and schedule for the construction of the public work is sufficiently detailed and complete to allow a subcontractor to submit a meaningful and responsive proposal, and not later than 21 days before the date by which a proposal for the provision of labor, materials or equipment by a subcontractor must be submitted, the construction manager at risk shall notify in writing each subcontractor who was determined pursuant to section 4 of this act to be qualified to submit such a proposal of a request for such proposals. A copy of the notice required pursuant to this subsection must be provided to the public body.

4. The notice required pursuant to subsection 3 must include, without limitation:

(a) A description of the design for the public work and a statement indicating where a copy of the documents relating to that design may be obtained;

(e) The date and time by which proposals must be received, and to whom they must be submitted;

(f) The date, time and place at which proposals will be opened for evaluation;

(g) A description of the bonding and insurance requirements for subcontractors;

(h) Any other information reasonably necessary for a subcontractor to submit a responsive proposal; and

(i) A statement in substantially the following form:

10. The public body or its authorized representative shall ensure that the evaluation of proposals and selection of subcontractors are done pursuant to the provisions of this section and regulations adopted by the State Public Works Board.

12. Except as otherwise provided in subsection 13, the construction manager at risk shall enter into a subcontract with a subcontractor selected pursuant to subsection 9 to provide the labor, materials or equipment described in the request for proposals.

13. A construction manager at risk shall not substitute a subcontractor for any subcontractor selected pursuant to subsection 9 unless:

(a) The public body or its authorized representative objects to the subcontractor, requests in writing a change in the subcontractor and pays any increase in costs resulting from the change; or

(b) The substitution is approved by the public body after the selected subcontractor:

(5) Is not properly licensed to provide that labor or portion of the work.

14. The construction manager at risk shall make available to the public, including, without limitation, each subcontractor who submits a proposal, the final rankings of the subcontractors and shall provide, upon request, an explanation to any subcontractor

who is not selected of the reasons why the subcontractor was not selected.

15. If a public work is being constructed in phases, and a construction manager at risk selects a subcontractor pursuant to subsection 9 for the provision of labor, materials or equipment for any phase of that construction, the construction manager at risk may select that subcontractor for the provision of labor, materials or equipment for any other phase of the construction without following the requirements of subsections 3 to 11, inclusive.

During the interview process, the public body or its authorized representative may require the applicants to submit a preliminary proposed amount of compensation for managing the preconstruction and construction of the public work, but in no event shall the proposed amount of compensation exceed 20 percent of the scoring for the selection of the most qualified applicant. After conducting such interviews, the panel shall rank the applicants by using a ranking process that is separate from the process used to rank proposals pursuant to subsection 2 and is based only on information submitted during the interview process. The score to be given for the proposed amount of compensation, if any, must be calculated by dividing the lowest of all the proposed amounts of compensation by the applicant's proposed amount of compensation multiplied by the total possible points available to each applicant.*

5. If the public body did not receive at least two ~~[statements of qualifications from applicants that the panel determines to be qualified pursuant to this section and NRS 338.1691,]~~ *proposals*, the public body may not contract with a construction manager at risk.

6. *Upon receipt of the final rankings of the applicants from the panel, the public body or its authorized representative shall enter into negotiations with the most qualified applicant determined pursuant to subsections 2, 3 and 4 for a contract for preconstruction services, unless the public body required the submission of a proposed amount of compensation, in which case the proposed amount of compensation submitted by the applicant must be the amount offered for the contract. If the public body or its authorized representative is unable to negotiate a contract with the most qualified applicant for an amount of compensation that*

the public body or its authorized representative and the most qualified applicant determine to be fair and reasonable, the public body or its authorized representative shall terminate negotiations with that applicant. The public body or its authorized representative may then undertake negotiations with the next most qualified applicant in sequence until an agreement is reached and, if the negotiation is undertaken by an authorized representative of the public body, approved by the public body or until a determination is made by the public body to reject all applicants.

7. The public body or its authorized representative shall make available to all applicants and the public the final rankings of the applicants and shall provide, upon request, an explanation to any unsuccessful applicant of the reasons why the applicant was unsuccessful.

Sec. 22. NRS 338.1696 is hereby amended to read as follows:

Sec. 24. NRS 338.1711 is hereby amended to read as follows:

If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of this paragraph relating to a preference in bidding on public works or a preference when competing for public works, those provisions of this paragraph do not apply insofar as their application would preclude or reduce federal assistance for that public work.

4. A final proposal submitted by a design-build team pursuant to this section must be prepared thoroughly and be responsive to the criteria that the public body will use to select a design-build team to design and construct the public work described in subsection 1. A design-build team that submits a final proposal which is not responsive shall not be awarded the contract and shall not be eligible for the partial reimbursement of costs provided for in subsection 7.

7. If a public body selects a final proposal and awards a design-build contract pursuant to ~~[paragraph (a) of]~~ subsection 6, the public body shall:

If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of this subsection relating to *a* preference in bidding on public *works, or a preference when competing for public* works, those provisions of this subsection do not apply insofar as their application would preclude or reduce federal assistance for that public work.

4. A final proposal submitted by a design-build team pursuant to this section must be prepared thoroughly and be responsive to the criteria that the public body will use to select a design-build team to design and construct the public work described in subsection 1. Sec. 31. NRS 408.3885 is hereby amended to read as follows:

408.3885 1. The Department shall select at least three but not more than five finalists from among the design-build teams that submitted preliminary proposals. If the Department does not receive at least three preliminary proposals from design-build teams that the Department determines to be qualified pursuant to this section and NRS 408.3884, the Department may not contract with a design-build team for the design and construction of the project.

If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of this paragraph relating to a preference in bidding on public works or a preference when competing for public works, those provisions of this paragraph do not apply insofar as their application would preclude or reduce federal assistance for that public work.

3. After the selection of finalists pursuant to this section, the Department shall make available to the public the results of the evaluations of preliminary proposals conducted pursuant to paragraph (b) of subsection 2 and identify which of the finalists, if any, received an assignment of 5 percent pursuant to paragraph (c) of subsection 2.

Sec. 32. NRS 408.3886 is hereby amended to read as follows:

certificate of eligibility to receive a preference when competing for public works by all persons who hold a certificate of registration to practice architecture or a license as a professional engineer on the design-build team, and a relative weight of at least 30 percent for the proposed cost of design and construction of the project. If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular project because of the provisions of this subsection relating to *a preference in bidding on public works*  *or a preference when competing for public works*, those provisions of this subsection do not apply insofar as their application would preclude or reduce federal assistance for that project.

3. A final proposal submitted by a design-build team pursuant to this section must be prepared thoroughly, be responsive to the criteria that the Department will use to select a design-build team to design and construct the project described in subsection 1 and comply with the provisions of NRS 338.141.

In conjunction with preparing a request for best and final offers pursuant to this subsection, the Department may alter the scope of the project, revise the estimates of the costs of designing and constructing the project, and revise the selection factors and relative weights described in paragraph (a) of subsection 1. A request for best and final offers prepared pursuant to this subsection must set forth the date by which best and final offers must be submitted to the Department. After receiving the best and final offers, the Department shall:

(b) Reject all the best and final offers.

6. If the Department selects a final proposal pursuant to paragraph (a) of subsection 4 or selects a best and final offer pursuant to paragraph (a) of subsection 5, the Department shall hold a public meeting to:

(a) Review and ratify the selection.

(b) Partially reimburse the unsuccessful finalists if partial reimbursement was provided for in the request for preliminary proposals pursuant to paragraph (f) of subsection 3 of NRS 408.3883. The amount of reimbursement must not exceed, for each unsuccessful finalist, 3 percent of the total amount to be paid to the design-build team as set forth in the design-build contract.

(c) Make available to the public a summary setting forth the factors used by the Department to select the successful design-build team and the ranking of the design-build teams who submitted final proposals and, if applicable, best and final offers. The Department shall not release to a third party, or otherwise make public, financial or proprietary information submitted by a design-build team.

(2) An amount that is the maximum amount that the Department will pay for the performance of the professional services required by the contract; and

(3) A date by which performance of the work required by the contract must be completed.

8. A design-build team to whom a contract is awarded pursuant to this section shall:

(a) Assume overall responsibility for ensuring that the design and construction of the project is completed in a satisfactory manner; and

(b) Use the workforce of the prime contractor on the design-build team to construct at least 15 percent of the project.

Sec. 33. NRS 625.530 is hereby amended to read as follows:

625.530 Except as otherwise provided in NRS 338.1711 to 338.1727, inclusive, *and section 2 of this act* and 408.3875 to 408.3887, inclusive:

1. The State of Nevada or any of its political subdivisions, including a county, city or town, shall not engage in any public work requiring the practice of professional engineering or land surveying, unless the maps, plans, specifications, reports and estimates have been prepared by, and the work executed under the supervision of, a professional engineer, professional land surveyor or registered architect.

2. The provisions of this section do not:

(a) Apply to any public work wherein the expenditure for the complete project of which the work is a part does not exceed \$35,000.

(b) Include any maintenance work undertaken by the State of Nevada or its political subdivisions.

(c) Authorize a professional engineer, registered architect or professional land surveyor to practice in violation of any of the provisions of this chapter or chapter 623 of NRS.

(d) Require the services of an architect registered pursuant to the provisions of chapter 623 of NRS for the erection of buildings or structures manufactured in an industrial plant, if those buildings or structures meet the requirements of local building codes of the jurisdiction in which they are being erected.

3. The selection of a professional engineer, professional land surveyor or registered architect to perform services pursuant to subsection 1 must be made on the basis of the competence and qualifications of the engineer, land surveyor or architect for the type of services to be performed and not on the basis of competitive fees. If, after selection of the engineer, land surveyor or architect, an agreement upon a fair and reasonable fee cannot be reached with him or her, the public agency may terminate negotiations and select another engineer, land surveyor or architect. *Except as otherwise provided in this subsection, in assigning the relative weight to each factor for selecting a professional engineer, professional land surveyor or registered architect pursuant to this subsection, the public agency shall assign, without limitation, a relative weight of 5 percent to the possession of a certificate of eligibility to receive a preference when competing for public works. If any federal statute or regulation precludes the granting of federal assistance or reduces the amount of that assistance for a particular public work because of the provisions of this subsection relating to a preference when competing for public works, those provisions of this subsection do not apply insofar as their application would preclude or reduce federal assistance for that public work.*

Sec. 34. NRS 338.1694, 338.1695 and 338.1699 are hereby repealed.

Sec. 35. 1. (1) The name of the person or entity who was selected or to whom the contract was awarded.

(2) The particular type of goods or services involved in the contract or selection.

(3) The dollar amount of the contract or selection.

(4) Whether the person or entity who was selected or to whom the contract was awarded was awarded the contract or selected as a result of the person or entity possessing a certificate of eligibility to receive a preference when competing for public works pursuant to subsection 1, 2 or 3 of section 2 of this act.

(5) If the person or entity who was selected or to whom the contract was awarded did not possess a certificate for eligibility to receive a preference when competing for public works pursuant to subsection 1, 2 or 3 of section 2 of this act, the number of persons or
