BOARD OF REGENTS
NEVADA SYSTEM OF HIGHER EDUCATION
RESOLUTION TO ENCOURAGE SUPPORT FOR HIGHER EDUCATION

WHEREAS, the reduction in funding proposed for Higher Education in the 2011 Executive Budget would cause irreparable damage to the universities, colleges and institutions of the State of Nevada; and

WHEREAS, economic recovery, the economic revitalization of Nevada's economy, and workforce development would be thwarted by implementation of the cuts contemplated by the Executive Budget; and

WHEREAS, the funding shortfall inherent in the Executive Budget cannot be covered by any reasonable increase in tuition and fees or reduction in salaries and wages of Nevada NSHE employees; and

WHEREAS, to avoid irreparable damage to the higher educational institutions of the State of Nevada which would necessarily result as a consequence of the drastic reductions contained in the Executive Budget; now therefore be it
RESOLVED, that on this day, April 8, 2011, by the Board of Regents of the Nevada System of Higher Education, that the Governor and Legislature of the State of Nevada be encouraged to seek additional revenue sources to support our institutions to allow them to fulfill their missions of education, research and public outreach.

SENATOR HORSFORD:

We will hear the Fiscal Staff overview similar to the Committee of the Whole held for the kindergarten through grade 12 education (K-12) budget. Following that, we will hear from the Chair of the Chancellor's Round Table, the Chancellor, Presidents of the Nevada System of Higher Education (NSHE) institutions, representatives from the student body, and the Board of Regents. I intend to have a discussion from this body based on some of the major topic areas in these budgets.
MARK KRMPOTIC (Senate Fiscal Analyst):
Similar to the K-12 presentation, Fiscal Staff will provide a brief overview of the Governor's recommended budget for NSHE over the upcoming biennium. Each member has been provided a document titled, Senate Committee of the Whole Work Session on Governor's Budget Proposal for Higher Education, otherwise known as the Work Session Document.

This document included updated information from the most recent responses provided by NSHE at the request of the Joint Subcommittee on K-12/Higher Education. The System response is contained in the document titled Budget Hearing Follow-up, Responses to the Legislative Council Bureau (LCB) memo, dated March 22, 2011, otherwise known as the NSHE document. This document is in the Nevada Electronic Legislative Information System (NELIS) computer system. There are sections in the Work Session Document referring to the response from NSHE. Alex Haartz, the Higher Education Budget specialist will present the Governor's recommended budget and summary of the responses by NSHE.

ALEXANDER HAARTZ (Program Analyst):
I will be speaking from the Work Session Document. The document is divided into two sections. The first section provides a brief overview of the funding comparison between actions taken by the 2009 75th Legislature to fund NSHE and the Governor's recommended budget for the 2011-2013 biennium. The second part of the document beginning at the bottom of page 3 provides a summary and overview of the information regarding the budget reduction strategies NSHE has presented to the K-12/Higher Education Joint Subcommittee. It includes the projected preliminary impacts that can be determined as a result of the funding levels contained in the Executive Budget.

Page 1 of the Work Session Document contains a table giving a biennium to biennium funding comparison. It provides information on the General Fund appropriations approved and the non-General Fund monies authorized by the 2009 75th Legislature.

The first column contains funding in the 2009-2011 approved budget. The second column provides information on the funding levels recommended by the Governor in the Executive Budget and the third column indicates the difference between the two.

There has been discussion in the Joint Subcommittee of impact from changes made by the Twenty-sixth Special Session, which is not reflected on page 1 of the Work Session Document. We will discuss those changes in terms of the budget reductions and the impacts. While the first table shows the General Fund appropriation for the 2009 biennium as approximately $1 billion, the action taken by the Twenty-sixth Special Session was a 6.9 percent budget reduction. Therefore, the General Fund appropriation was reduced to approximately $955 million over the biennium. The difference between the $955 million and the $741 million recommended in the 2011-2013 Executive Budget would be approximately $214 million or a decrease of approximately 22 percent.

Staff notes the tables in the Work Session Document shifts to discussions of budget reductions using the Twenty-sixth Special Session-approved funding level for Fiscal Year (FY) 2010-2011 as a starting point. The NSHE has also consistently used those funding levels as the jumping off point for comparisons they provide in their budget reduction strategies.

The next comparison on page 1 is the concept of governmental support. For purposes of an "apples-to-apples" comparison, governmental support is detailed on page 2 of the Work Session Document, Table 2. For 2009-2011, or the current biennium, governmental support can be thought of as comprising a General Fund appropriation, the federal American Recovery and Reinvestment Act of 2009 (ARRA) funds Nevada received for the State Fiscal Stabilization Fund for Education. The total of the two revenue sources was approximately $184.8 million. The General Fund appropriation for the 2011-2013 biennium continues. The ARRA funding has ended. However, for the first time, property tax revenues are being included in the budget. The General Fund and property tax revenues combined form the basis for the term "governmental support." From a governmental support standpoint, there is a decrease in funding of approximately $323 million.
For clarification, was the ARRA State Fiscal Stabilization Fund for Education money used to replace General Fund support in the 2009 75th Legislative Session? Prior to that session, what was the General Fund or State support for higher education?

Mr. Haartz:
For what period of time?

Senator Horsford:
In 2009, NSHE was funded by the legislatively approved governmental basic support. In addition, the one-time ARRA funds were used to replace what would have otherwise been State support. Is that correct?

Mr. Haartz:
That is correct.

Senator Horsford:
In the 2009 75th legislatively approved budget, State support was higher than what was approved in 2009 in recognition of the ARRA one-time funding used to help Nevada balance the budget.

Mr. Haartz:
That is correct. For FY 2008-2009, the 2007 74th Legislature approved approximately $677 million in General Fund support for NSHE in that fiscal year.

The property tax revenues being considered for NSHE funding and included in the Executive Budget represent approximately $60 million in the first year and approximately $61 million in the second year of the biennium.

The source of the property tax revenues comes from two sources. The first is the 4 cents per $100 of assessed valuation operating rate, which is currently being credited to the General Fund. The second source is the 5 cents per $100 of assessed valuation of capital rate currently being deposited in the Highway Fund and the General Fund. The property tax revenue redirects are only proposed from Washoe and Clark Counties. The remaining county property tax revenues are not included in the Governor's recommended budget. If they were, that would be approximately $10 million annually of additional property tax revenue if applied across all 17 counties.

A major distinction related to the property tax monies is that the property tax revenue has the effect of offsetting General Fund appropriations. For every $1 of property tax revenue included in the Executive Budget, $1 of General Fund appropriation is removed. That is different from the ARRA funds which added to the General Fund appropriations approved by the 2009 75th Legislature.

Senator Horsford:
It has been stated by the Administration that the proposal by the Governor to divert property taxes from Clark and Washoe Counties is being used to replace lost State support funding, not to replace one-time ARRA funding. Is that correct?

Mr. Haartz:
That is correct. The Twenty-sixth Special Session took two actions related to NSHE budgets. The first was the 6.9 percent General Fund reduction. As approved by the 2009 75th Legislature, the other was replacing ARRA funding. As approved by the 2009 75th Legislature, $92.4 million in the federal funds was budgeted in each year of the biennium. The Twenty-sixth Special Session moved the FY 2009-2010 funds to FY 2010-2011. The entire $184.8 million was expended in FY 2009-2010. By moving FY 2010-2011 federal funds to FY 2009-2010, an equal amount of General Fund was removed from FY 2009-2010 and moved into FY 2010-2011. The net effect was that the FY 2010-2011 budget, under which NSHE is currently operating, is entirely supported by the General Fund.

Page 3 of the Work Session Document contains a lengthy table, which provides information on all 26 NSHE State-supported operating budgets. The table begins by listing universities and
colleges followed by the Desert Research Institute (DRI) and the three professional schools. The remaining lines are the other, non-formula operating budgets. This table provides comparisons to assist in understanding the reductions contained in the Executive Budget and for which the NSHE preliminary budget reduction plans are based.

The first column lists the 2009 75th legislatively approved General Funds adjusted by the actions of the Twenty-sixth Special Session which provided total funding of approximately $557.9 million.

The Governor's recommendation in FY 2011-2012, including General Fund and property tax revenue, is approximately $466 million. The funding for FY 2012-2013 is approximately $395 million.

We will now move to the second part of the Work Session Document which includes the preliminary budget reduction plans as has been presented by NSHE to the K-12/Higher Education Joint Subcommittee and to the Board of Regents.

SENATOR HORSFORD:
Are there any questions from the Committee on the basic facts as presented?

SENATOR KIECKHEFER:
Regarding the $557.9 million in FY 2010-2011, does that adjust for the shifting of the ARRA money between FY 2009-2010 and FY 2010-2011? Testimony seemed to indicate all ARRA funding was moved into FY 2009-2010 and FY 2010-2011 was backfilled with General Funds. Is that a significantly higher number than in FY 2009-2010 because of the ARRA funds?

MR. HAARTZ:
In FY 2010-2011, the General Fund appropriation was approximately $500 million. With the shifting of the General Fund appropriation and the federal funds, the General Fund in FY 2010-2011 was $592 million. Then the 6.9 percent budget reduction was applied, which reduced funding by approximately $35 million, leaving the total funding at approximately $557 million. Therefore, that amount reflects both shifts of the Twenty-sixth Special Session.

SENATOR KIECKHEFER:
Was the General Fund appropriation in 2009 closer to the $500 million than $558 million?

MR. HAARTZ:
Five hundred million dollars was provided in each year of the biennium. An additional $92.4 million in federal ARRA funds was also provided in each year of the biennium. From a governmental support perspective, funding was approximately $592 million in each year of the biennium.

SENATOR KIECKHEFER:
Were those the budgeted figures when the 75th Legislature met in 2009?

MR. HAARTZ:
That is correct.

SENATOR KIECKHEFER:
Did you state that if the 9 cent property tax was spread across the 17 counties it would generate an additional $10 million annually?

MR. HAARTZ:
The information provided by the Department of Administration in response to the request from the K-12/Higher Education Joint Subcommittee indicated the additional funding would be approximately $10 million annually.

SENATOR KIECKHEFER:
Thank you very much for the clarification.
SENATOR SETTELMEYER:
During the Special Session, entities were instructed to consider ARRA funds as one-shot funding to replace General Fund support. Some departments such as engineering have structured their funding in that manner to enable it to move forward through other budget problems. I understand we are decreasing the amount of General Fund revenue potentially appropriated to NSHE due to the current bad economic times. Now a property tax shift is being suggested. On top of that, several students have e-mailed me that they are very upset with the amount of increase proposed for tuition fees. What is the final budget decrease once all categories of funding are combined? It appears the overall decrease is approximately 7 percent based on those theories. Is that correct?

MR. HAARTZ:
I have not made that particular calculation but will be happy to provide it to the members of the Committee of the Whole.

SENATOR SETTELMEYER:
I would appreciate it if you could get that information.

MR. HAARTZ:
I would be happy to do that.

SENATOR SETTELMEYER:
Thank you.

SENATOR HORSFORD:
Could we keep our questions to the material that has been covered by Staff? There is further information to be discussed.

SENATOR HARDY:
When we talked about the $10 million in added property tax revenue if the other 15 counties were included, I understand the 4-cent and 5-cent property tax revenues are not used by the counties. It is directed to the General Fund and the Highway Fund. Please clarify how the funds are currently being used and how they will be used if this budget is approved.

MR. KRMPOTIC:
Currently, the 4-cent property tax assessment redirected from Washoe and Clark Counties for the current biennium was directed to the General Fund. The 5-cent capital rate changes each biennium per statute. Approximately one-half of that is directed to the General Fund as well based on the 2009 75th Legislature's actions. The other one-half is directed to the Highway Fund for use in funding highway construction projects. The Highway Fund rate was last established in 2007.

SENATOR HARDY:
Would this proposal take money being used by the counties and put it into higher education?

MR. KRMPOTIC:
Currently, the money that is recommended to be added to the budgets of the University of Nevada, Reno (UNR) and the University of Nevada, Las Vegas (UNLV) from Clark and Washoe Counties, is being directed to the General Fund and the Highway Fund. The $10 million referenced by Mr. Haartz, regarding the other 15 counties, is currently deposited in the county budgets for those 15 counties.

SENATOR HARDY:
Thank you.

MR. HAARTZ:
The preliminary budget reduction strategies begin on the bottom of page 3 of the Work Session Document. Two scenarios will be discussed. Those are as a result of the K-12/Higher Education Joint Subcommittee's request for NSHE to present plans that took two different approaches to reach the budget reduction levels contained in the Executive Budget.
The first scenario relates to most of the remaining information in the Work Session Document. It essentially represents operating reductions. It would reduce expenses in instructional areas, academic support, student services, operation and maintenance of the physical plant and institutional support.

The second scenario requested by the Joint Subcommittee was to consider closures and consolidations. We will touch on that as we go through this presentation. You will see that the information referenced both Scenario No. 1 and Scenario No. 2.

Beginning on page 37 of the NSHE document, you will see the budget reductions and templates the Joint Subcommittee requested that NSHE prepare. Page 4 of the Work Session Document contains a table which provides you information anchored at the Twenty-sixth Special Session funding level. It also contains reductions included in the Executive Budget as well as for each of the State-supported operating budgets, in the Scenario No. 1 template, the main operating reductions and how they will accomplish reducing their budgets transitioning from 2011 to 2012 and 2013.

For example, on the first line of the table, UNR has a starting point of $117.9 million. The Governor's recommended budget is $95.6 million, so the governmental support budget reduction would be $22.3 million. The reduction shown in the table as proposed in the preliminary budget reductions templates would be $18.4 million, which does not quite get them there. As you look at the UNR budgets, at the bottom of the UNR row, they have undercut the total by $1.3 million in the first year and overcut by $1.3 million in their second year. On a biennial basis, they achieve the Governor's recommended reductions.

As a group of budgets and as a university program, UNR is proposing two approaches. As I noted, one is to adjust the cuts over the entire biennium so that by the end of FY 2012-2013, it nets out. In some budget accounts such as their main instructional budget, which is reflected on the first row of the table, they are proposing not to reduce the budget by the full amount or to cut to the full amount as recommended in the Executive Budget, but overcut in other budgets such as the Cooperative Extension row, you will see that the amount being cut is more than what is being recommended in the Executive Budget.

The university is requesting flexibility in how to approach the budget reductions from the UNR budget as a whole; whereas, as you will see in the other accounts, the reductions are on a straight line with the Governor's recommended budget. For FY 2011-2012 and FY 2012-2013, the bottom line amounts of $466 million and the $395 million already take into account the five percent salary reduction recommended by the Governor, the elimination of merit and longevity pay, as well as a general budget reduction in operating expenditures of approximately $56 million and $117 million in the second year. All the reductions recommended by the Governor are included in the bottom line amounts.

Page 5 of the Work Session Document provides limited information regarding the Scenario No. 2 reductions. This was the recommendations for closures and consolidations. The three consolidations considered were Great Basin College (GBC) and Western Nevada College (WNC) into Truckee Meadows Community College (TMCC), consolidating Nevada State College into the College of Southern Nevada (CSN) and UNLV and consolidating DRI into UNR and UNLV.

As you go through the budget reduction templates, you would note large amounts of savings are not identified. There is only $12.41 million in savings. That is primarily through the consolidation of administrative infrastructure and costs. One part of the consolidations and closures not included in the Scenario No. 2 information is for the CSN and WNC, one of the operating reductions contemplated by both of their plans is the closure of satellite and rural locations as a way to meet the operating reductions required by the Executive Budget.

To assist the Joint Subcommittee and this body in summarizing and understanding the primary impacts of the budget reductions as contained in the Executive Budget, I have provided a series of tables that attempt to organize the information into several main areas such as the impact to academic infrastructure, the impact to student access and the capacity to instruct students and a staffing impact.

I will spend a brief moment on Table No. 1 on page 5 of the Work Session Document. This table organizes the reported impacts to the infrastructure of each of the teaching institutions they expect will occur. It is organized in terms of academic colleges, schools, departments or
centers being closed; academic programs being eliminated, academic degrees eliminated and course sections eliminated.

Attachment A, on page 10 of the Work Session Document, contains a series of bulleted information for each institution that provides select information on the types of impacts the institutions have identified in their budget reduction plans. Attachment A provides more context to the numbers reflected in Table No. 1 on page 5 of the Work Session Document.

Table No. 2, on page 6 of the Work Session Document, tabulates the impact the institutions predict will occur to their ability to teach and the number of students they will be able to serve. In FY 2010-2011, the left-hand column, their preliminary total number of student full-time equivalents (SFTE) they are instructing this year is 69,023. For clarification purposes, a SFTE is a student who takes 15 credits per semester and 30 credits per academic year. Obviously, not every student is a full-time student. Therefore, to make an unduplicated head count, information on the table in the last row discusses a student head count. Many more than 69,023 students are currently taking classes at the 7 teaching institutions. As you can see, based on the information provided on the budget reduction templates, NSHE predicts they will be able to serve 4,737 fewer SFTE individuals in FY 2011-2012 which translates to 11,638 unduplicated students for the same time.

In FY 2012-2013, they project a further reduction to 61,132 SFTE. That is 7,891 SFTE less than FY 2010-2011 with the student head count representing slightly more than 19,000 unduplicated students who would not be served.

Additionally, part of the information requested by the Joint Subcommittee was to review the number of instances in which students who attempt to enroll in an institution or sign up for a particular class, were unable to gain access a particular course. Page 158 of the NSHE document provides information for each of the teaching institutions regarding the number of instances in which a student was unable to enroll for a particular class over the last couple of years.

Table No. 3, on page 7 of the Work Session Document looks at the staffing impacts projected by NSHE as a result of the budget reductions. Overall, NSHE, based upon the Board of Regents’ approved budgets, which are based on the funding approved by the Legislature, have approved 7,163 full-time employees across the System in the 26 State-supported operating budgets. The projections by NSHE are that employees will need to be reduced by 714 in FY 2011-2012 and by approximately 1,100 employees in FY 2012-2013. These are considered full-time equivalent positions (FTE). When part-time equivalents are included, the position impact would be approximately 1,050 in FY 2011-2012 and approximately 1,500 FTE positions eliminated in FY 2012-2013. Some of those positions as identified by NSHE are vacant. The NSHE has held positions vacant as a budget reduction strategy. Therefore, not every position identified has a person associated with it.

The bottom of Table No. 3 provides information on functional areas. The NSHE budgets are divided into functional areas, whereas executive budgets are typically based upon expenditure categories. The two methods are roughly equivalent.

For example, in the area of instructional function, of the 714 FTE positions that would be eliminated in FY 2011-2012, 386 instructional staff would be eliminated. Of the 1,100 FTE positions being eliminated in FY 2012-2013, 544 positions would be in the instructional area. Other functional areas include research, public service, academic support, student services and operation and maintenance.

The three tables summarize in the most succinct way, the impacts of the reductions identified by NSHE institutions and the non-instructional budgets.

For implementation of the budget reductions contained in the Executive Budget, NSHE has identified two key issues. Absent a declaration of financial exigency, they are required under the professional staff contracts to provide 12 months notice of layoff. As we get further into these budgets, a concept of bridge or transition funding is discussed. That is the mechanism used by some of the institutions to ensure they can provide the 12-month notice.

The second issue NSHE has identified is that of accreditation. The accrediting body requires the institutions to provide a reasonable amount of time for a student who has not yet graduated, but is in a degree program, to either complete their degree or successfully transition to an acceptable alternative. The term "reasonable" is not explicitly defined, but it is generally
considered to be from 1 year and 18 months or even longer, depending on the unique circumstances. These are considerations from an operating or management standpoint of NSHE.

Page 8 of the Work Session Document contains a short table identifying the bridge or transition funding each of the institutions have identified. The amount of funding required in FY 2011-2012 is approximately $19.5 million and approximately $10.7 million in FY 2012-2013. A discussion at the Joint Subcommittee level was the issue of student registration fee increases and fee surcharges. The Board of Regents has not approved either an additional fee increase or a surcharge for either year of the 2011-2013 biennium. The Board has asked the NSHE Chancellor's office to provide information on the amount of additional revenue and the impacts of a 10 percent fee increase, a 13 percent fee increase and a 15 percent fee increase. The information provided in Table 4 on page 8 of the Work Session Document contains the projections for a 13 percent fee increase as requested by the K-12/Higher Education Joint Subcommittee. Several aspects that are predicted by NSHE to occur with imposition of a surcharge including enrollment loss as a result a fee increases is that students would be unable to pay increased registration fees and would no longer continue their education.

The left-hand column of Table 4 lists the 2011-2013, currently approved student registration fees on a per-credit-hour basis for each level of institutions. For example, currently, as included in the Executive Budget and approved by the Board of Regents, a university undergraduate in the next biennium will pay $156.75 per credit hour. However, a student enrolled in a lower division course at a community college will pay $69.25 per credit hour. If a 13 percent surcharge is approved by the Board of Regents and imposed, those undergraduate credit hour fees would increase for the university undergraduate by $20.38 per credit hour; and the community college student fee would increase by $9 per-credit hour. The third column of Table 4 shows the total per credit hour fees students would pay including a 13 percent surcharge would be $170.13 as an undergraduate at a university in FY 2011-2012 and $78.25 at a community college for the same period. The Board of Regents has also been presented information that includes an additional 13 percent surcharge for FY 2012-2013. That means a further increase in the surcharge in each year of the biennium. You can see the impact between where we are today compared to what is included in the Executive Budget and formally approved by the Board of Regents.

One discussion at the Joint Subcommittee level was how the fees charged by NSHE compare to the western region median and average among the Western Interstate Commission for Higher Education (WICHE) states with the thought being perhaps Nevada's fees were lower than what is charged in other states. If the 13 percent plus 13 percent surcharge was ultimately approved, a student attending UNR or UNLV would pay roughly the median as their peers would in other WICHE states based upon the current academic year. As this body is aware, these budget discussions are occurring in many states. Depending on what other states enact, Nevada may retain its relative position compared to other states. In the alternative, Nevada may in fact, pay slightly more or slightly less. Imposing a surcharge of this amount would make Nevada's fees roughly comparable to the median WICHE state fees.

Page 9 of the Work Session Document shows the impact in terms of dollars of the expectations with a 13 percent surcharge and a further 13 percent surcharge in the second year of the biennium. The tables are self-explanatory. They show adjustments for a 15 percent set aside to assist students requiring financial aid, estimating enrollment losses and adjusting the revenues contained in the Executive Budget to make them consistent with FY 2010-2011 as compared with FY 2009-2010, on which the Executive Budget is based. Approximately $19.3 million in additional fee revenue would be expected as a result of the surcharge in FY 2011-2012 and approximately $40 million in additional fee revenue would be anticipated in FY 2012-2013.

Page 10 of the Work Session Document provides information on the anticipated operating impacts of these budgets.
SENATOR HORSFORD:
A few of our speakers have time constraints so if the body would hold questions until after
the next panel, we will recall the Fiscal Staff to the podium. We will now hear from the Chair of
the Chancellor's Business Round Table, Mr. Phil Satre. In addition, in Las Vegas we have
Mr. Kirk Clausen, Mr. Glenn Christensen and Mr. Michael Saltman to testify at this time.
Thank you for your service on the Chancellor's Round Table, Mr. Satre. I know you have led
a group of business leaders to help advise the Chancellor on a number of issues pertaining to
NSHE including how to better streamline their programs, how to better align them to economic
development efforts and how to address the sustained budget reductions. We want to hear your
perspective as a voice that is intricately involved in these issues, but from whom we do not
always have the opportunity to hear testimony in this body.

PHILLIP SATRE (Chair, NV Energy, International Gaming Technology, Director, Nordstrom
Incorporated):
I am here today to ask for your support for NSHE and to consider alternatives to the
Executive Budget proposed by the Governor. I have lived and worked in northern and southern
Nevada for the better part of 36 years. During that period, it has been clear to me that both UNR
and UNLV have been on a consistent upward trajectory. The proposed budget reductions will
have a long-term, possibly permanent, negative impact on higher education in this State and set
back many years of progress the System has made. Why do I care?
As mentioned by the Majority Leader, I am Chair of the Chancellor's Business Round Table,
so I guess you could say it is my job. Nevertheless, I have other jobs. I currently serve as
Chairman of the Board of two Nevada-based public companies: NV Energy, Inc. and
International Game Technology (IGT). I also serve as a Director of Nordstrom, Inc. which has
substantial retail operations in Las Vegas. Prior to my role at these companies, I spent 25 years
at Harrah's, now Caesar's Entertainment. For most of those years, I was either the Chairman,
President or Chief Executive Officer (CEO) until retiring in January 2005.
The companies I am involved with have a substantial stake in Nevada's future. We have, in
the aggregate, over 7,000 employees in this State. Our employees send their children to Nevada
schools, both K-12 and postsecondary. These businesses hire many of our employees from
Nevada's high schools, community colleges and universities. Without question, all of these
businesses have a significant stake in this State's future and therefore a stake in NSHE.
Let me give you a few examples: I was CEO of Harrah's when we made, in conjunction with
Bill Harrah's widow, Verna, the naming gift of $5 million for the William F. Harrah College of
Hotel Administration at UNLV. This gift was made in 1989. I am very proud that Bill Harrah's
name is on that hotel school, now one of the nation's best. Many of the school's graduates
populate our State's largest industry. Former Chairman Charles Mathewson and IGT provided
$10 million for the naming gift that enabled the construction of the magnificent, state-of-the-art,
Mathewson-IGT Knowledge Center on the campus of UNR.
More recently, NV Energy has made gifts of more than $1 million to both the UNR and
UNLV institutions for renewable energy programs. A gift to the UNR College of Engineering
will support the growth of the renewable energy program, including faculty positions to research
renewable energy and funds for workforce development efforts. We have also made gifts to
TMCC, DRI, and GBC. All of the initiatives funded by the NV Energy gifts are critical to the
future of economic development in Nevada.
Finally, like so many others who have been fortunate to prosper in this State, my wife and I
have personally contributed over $1 million for scholarships and grants to NSHE schools. We
have done that because we have been inspired by the leadership of these institutions, their
mission and by their students.
When gifts of this magnitude are made, I think there is an implicit expectation of continued
government support. Without that implicit promise of sustainable support, it would be difficult,
if not impossible, to attract private support in the future that will be necessary for this State to
continue to prosper.
The companies I have mentioned have been in Nevada for decades. In fact, NV Energy has
been in the State for over 100 years. We are all here for the long term and we are all committed
to this State. We are proud to have been a part of the building of the university system. We have
its graduates in our executive suites, among our managers and supervisors, on our front lines. Our children attend these colleges and universities. We want to help build, as we have over the past 20 years, a university system that will serve Nevada's future.

We are realists. When the financial crisis took root in 2008 and 2009, the businesses I referred to saw their revenues and their profits decline sharply and painful decisions had to be made. Those painful decisions included curtailing programs, eliminating benefits, reducing capital spending and eliminating jobs. However, we believe, just like the businesses that had to meet the challenges of this great recession, that we could not make cuts so deep that we disabled our competitiveness and thwarted rebuilding, renewal and recovery when the economy recovered. Had we and other businesses in the private sector gone too far in cutting jobs, cutting capital investments and eliminating programs, Nevada's economic recovery would be in even greater jeopardy.

That is just what the full impact of these reductions in the Executive Budget will do to NSHE, placing the quality of higher education at too great a risk for our future. It will not make our State stronger; it will not make us more ready to recover. It will make us weaker and extend the period required to recover from the economic downturn in this State.

To use a metaphor from my days at Harrah's, "All of you in this room have been dealt a tough hand" when it comes to the 2011-2013 budget. These years are not going to be easy for this State. I am sure for all of you, for Governor Sandoval and for your colleagues in the Assembly; it feels as if your hands are tied, particularly with the obligation to present a balanced budget.

However, rather than allow it to be a foregone conclusion that we cannot afford a vibrant economy, a vibrant educational system and a better Nevada, I ask you to recognize that you have been elected to use your intellect and your resourcefulness to decide what Nevada's future will be. In business, we no doubt have greater latitude to invest in the promise of future revenues, but that does not mean you cannot exercise judgment and creativity. Although I was not a part of the process or the decision-making, I would endorse the position taken by the Las Vegas Chamber of Commerce last week. "Additional tax revenue may be necessary, particularly when linked to significant and meaningful reform that will fix systemic problems in our State."

SENATOR HORSFORD:
I also want to hear from representatives in Las Vegas. I do not know if they are a part of the business round table, but we want to allow them an opportunity to speak. Please come to the table in Las Vegas and identify yourselves.

KIRK V. CLAUSON (Regional President, Wells Fargo, Nevada and Chair, Henderson Chamber of Commerce):
We came out several weeks ago in support of higher education, similar to the Las Vegas Chamber of Commerce action. I would like to lever off the previous speaker in terms of the reason we are here. In general, we are in support of higher education.

Wells Fargo has about 3,700 employees in Nevada right now. Many folks are surprised by that. A very large number of them are graduates of our higher education system, particularly UNR and UNLV. These are tremendous folks who came to us well prepared. We try not to mix them because of the rivalry, but they do a tremendous job for us. Several of these individuals hold key positions in our company. A couple of names you may know include Jay Kornmayer, who runs our gaming division, not only nationally but internationally; Jeff Ardito, our private mortgage manager and Brian Formisano, a UNLV graduate, manages a large district in southern Nevada. There are dozens of others I could mention.

The Las Vegas community continues to grow in spite of what has been going on economically. It is essential that we have a comprehensive research university in this community. Today it is somewhat underserved with only one institution. That is fine, but we need that institution to be healthy, vibrant and growing. The role UNLV plays in the community is critical when it comes to economic recovery and diversification in the future. In fact, I cannot imagine we can come out of the economic downturn faster without the university. Diversification cannot happen without a vibrant university in place.

This past Wednesday, the President of UNLV and his team hosted an on campus meeting for Las Vegas Chamber members and key business leaders. I happened to be invited as well. It was a tremendous experience to tour the facilities, hear students speak, hear about the programs that
are in place and, as someone said, "it is one of Las Vegas' best kept secrets in so many ways." If you think about it, neither Reno nor Las Vegas are thought of as college and university towns. This campus really is a treasure of which we should take better advantage.

In my opinion, higher education is not just a budget item. It is truly an investment in our communities. Speaking from a Wells Fargo perspective, we have made incredible investments in the entire higher education system.

As an example, Wells Fargo provides over $170,000 annually in scholarships. The scholarships often go to first generation low- to moderate-income students. The best part is, once a student has earned that scholarship, it remains with them through graduation. We provide tuition reimbursements of roughly of $100,000 annually for our team members throughout the State. Beyond that, we have underwritten millions of dollars in sponsorships and programs. I would ask you to do everything possible to ensure we can sustain this university system.

GLENN CHRISTENSEN (Chairman, Nevada Development Authority):

The two greatest challenges in our community today are economic development and education. Higher education is inextricably linked to attracting, expanding, retaining and diversifying the economy of southern Nevada.

Those in leadership who came before us had the wisdom to implement a three-tier structure in our State with educational opportunities at the research institutions, teaching universities and community college levels. The structure was created for several reasons, not the least of which is that it is by far the best structure to enhance economic development in our State.

Higher education plays a critical role in southern Nevada's economic recovery and is a critical economic resource to our community through educating the local workforce, fostering innovation and discovery. For example, as a research institution, UNLV generates important grants and outside funding which help attract diversified businesses. I attended the meeting this week mentioned earlier by Mr. Clausen. All the leaders left that meeting with an even greater understanding of and respect for UNLV's impact on southern Nevada. Higher education is not just a budget item. It is an important component to the southern Nevada economy and its recovery. It is my understanding that including multiplier effects, UNLV alone generated $1.15 billion in economic activity for southern Nevada in 2009. For every dollar of State allocated funds, the university demonstrated $5.80 in economic activity in southern Nevada. That is a phenomenal return on investment. The other institutions also have a very strong economic impact.

Given my extensive financial background, I fully comprehend the depth of today's economic challenges. What I do not understand is severely damaging an important lifeline for returning our community to its previous status as an economic powerhouse and the envy of the entire country and further disadvantaging Nevada as we compete in a national and international economy.

I firmly believe in the critical importance of collective economic well-being to the three-tiered system of higher education in this State. I have dedicated both time and money to demonstrate those beliefs. I am Chair of the Nevada State College Foundation. My wife and I currently fund four full-ride scholarships at that institution.

In another setting, I would love to talk to you about the great things we are doing at Nevada State College, where we are educating the next generation of professionals in our State. I have been President's Associate at UNLV since the mid 1980s, an advisor to the business school and I recently participated in a selection committee for the new director of the Center for Business and Economic Research, where I am a long-time sponsor. I am also a member of the Chancellor's Business Round Table.

I know you have a difficult decision to make with respect to the budget. You have many things to consider in arriving at a final conclusion. I hope that at the top of the list is the fact that higher education is directly linked to the economic health and job growth of our community. Our three-tier-system in southern Nevada — UNLV, Nevada State College and our community colleges are imperative to our community today and the one we want in the future. We need these schools now more than ever.
MICHAEL SALTMAN (Vista Group):
I am a long-term resident of Las Vegas, I have been in Las Vegas since February 10, 1975. Like many of my friends, I have adopted UNLV as my university. I am also a member of the Chancellor's Business Round Table, so I am fully on board regarding Mr. Satre's earlier comments.

Thank you for giving me the opportunity to express my views, albeit briefly, regarding higher education in Nevada. There is no question that I am higher education and, to the extent of UNLV — UNLV-centric. For over 25 years, I have been a UNLV Foundation Trustee. I serve on the Executive Committee. My company, the Vista Group, has given the Vista Group award. In fact, April 20, 2011, marked the 26th year for making the award to the outstanding liberal arts graduate at UNLV. Recipients have dispersed worldwide and established themselves as impressive individuals with their UNLV degrees.

I am also on the William S. Boyd School of Law Advisory Board. The Law School is now ranked 71st in the country under the leadership of Dean John White and former Dean Dick Morgan. My wife and I are the founders of the Saltman Center for Conflict Resolution, which is now ranked ninth in the country. My wife is also a graduate of UNLV and has a master of arts in psychology. Like Mr. Satre, we have given more than $1 million to various portions of the Law School and UNLV.

My first projects in Las Vegas were at and around UNLV. It is my submission that the heart and brain of southern Nevada is UNLV. Thriving cities and economies need strong universities. Every major city in the country and the world sees and understands that. That includes our neighbors in Reno and in Phoenix — where the Mill Avenue Project for Arizona State University was initiated. That is my model for the future of the Midtown Project in Las Vegas around UNLV. Other such cities are Tucson, Salt Lake City, Denver and Albuquerque. The Intermountain States all recognize the absolute significance of a major university in their cities.

UNLV is indeed an economic engine through job creation, diversification and quality of life, all of which can be leveraged from the intellectual capital at and around UNLV. As Mr. Christensen noted previously, more than $1 billion in economic activity was generated in southern Nevada during 2009. Obviously, that was a down year in the economy. We are looking at a future with increased economic activity in southern Nevada through UNLV's significant contributions.

For every dollar of State funds invested in UNLV, and for that matter, NSHE, UNLV is generating more than $5.80 in economic activity in southern Nevada.

Paraphrasing Dr. Smatresk's recent comments, "UNLV and higher education will clearly lead the way into a better and brighter future in economic diversification." I trust you will take these comments and others like mine into consideration as you arrive at your final budget and the funding of and investment in the higher education programs in Nevada, north and south.

SENATOR HORSFORD:
I really appreciate the voice of the business community being a part of this dialogue. We hear from you as representatives individually, but sometimes it is important to understand your perspective as a collective body.

On behalf of the State, I appreciate the contributions each one of you have made as individuals as well as in the capacities in which you serve as management of major Nevada-based business interests. It is because of that private investment that we have been able to build a strong foundation, not only for higher education, but also for other functions in this State.

What I am hearing this morning is that you are asking us to continue our public and private partnership in sustainable ways. The Legislature needs to ensure a basic level of support so that the private sector investment will continue to be offered and can be leveraged in a much larger and impactful way.

SENATOR SCHNEIDER:
I have a question for the panel in the south. What I am hearing is that you are requesting us to keep our investment level the same or greater in secondary education to supply you with an educated workforce for your businesses. Are the businesses of Las Vegas, including Wells Fargo and the other executives, willing to consider corporate or income tax impositions?
Mr. Clausen:

It is interesting that you ask me that question because as a banker, in 2003, we certainly stepped up to additional taxes. The industry has demonstrated we are willing to invest in the community. As the Chair of the Henderson Chamber of Commerce, I can provide some valuable feedback.

As I talk to members, depending on how the question is structured, they are almost universally supportive of higher education. When you say to them, "Are you willing to let our university or system of higher education decline or find mediocrity?" They will generally say no, that is not what they want to have happen. If they can be assured the taxes they are already paying to the State are being effectively and efficiently spent, they are willing to come to the table to talk about additional taxes to sustain NSHE.

Senator Schneider:

I have a question for Mr. Satre. When I buy a suit at Nordstrom's in California, the store must pay corporate tax, income tax, inventory tax and others. Their workers' compensation rates are also high. Is Nordstrom's willing to pay similar taxes in Nevada? They currently pay none of those taxes in this State.

Mr. Satre:

I am not speaking on behalf of Nordstrom's because I am not the Chairman or CEO of that company. My position is a director. All of the companies in this State with which I am affiliated, want Nevada to flourish and we understand there is a cost for that, particularly as it tries to recover from this recession. I would say to the Legislature, in general, my position as a board member of those companies and as Chair of two of them, is simple. If we need to resolve the problems created by this recession, we may have to entertain broad-based business taxes to help us fill some of those gaps between what are reasonable changes; reforms I think you have insisted on, reforms to which NSHE has responded and other reforms outside NSHE as well. Many of those are contained in the Nevada Spending and Government Efficiency Commission report which I support. In combination with those reforms, we recognize that there may have to be a broad-based business taxes that brings funding to a level of support to sustain these universities and community colleges on a going-forward basis.

Senator Schneider:

When I was in Denver, Colorado for a conference, the news noted the people who are unemployed are returning to school at colleges and universities. That state is preparing to increase funding to assist students who are trying to better their situations. It is similar to what we are facing. This seems like an inappropriate time to be reducing funding to education.

Senator Horsford:

I want to thank our panel in Las Vegas. We appreciate their being here and seek to have them continue to participate in the process in the concluding days and weeks of this session. Next, we will hear from a student representative. The Senate Committee on Finance has heard time and again from the presidents and the administration of NSHE and we will continue to hear from those entities. However, the decisions we will make will impact the students most. We have with us a student from UNR. She is from Las Vegas. She has an incredible background story. She exemplifies and represents thousands of other students in similar situations.

Beatriz Aguirre (Student, UNR):

I am a native of Las Vegas, a social work student at UNR and President of the Undergraduate Social Work Association. I come from very humble and hardworking beginnings. My parents have worked hard to allow me the opportunity to become educated and study something I am so passionate about and believe in so strongly.

I believe education is the only way for Nevada to progress. It is the only way for us to have a good future in this State. As we talk about jobs and the ability to diversify the economy and bring more businesses into this State, we cannot cut education. Education and jobs go hand in hand in creating an educated workforce.
As social work students, we have had several conversations with many members of this body. We were here one week ago to hand-deliver petitions from every district in the State. Those constituents were asking their representatives to support revenue increases and fund education. Many of our conversations, with Republicans or Democrats, show that education is highly valued in this State. However, the funding is not there right now.

Whether we are from the north or the south; whether we are Wolf Pack alumni or Rebel alumni, we need to work together to fight for this State to have a better future. That will only come through education. As students, we would accept a reasonable tuition increase to share the burden, as long as the funds stayed on the specific campus and directly fund education.

Much of the burden will be on students in the schools as we see many programs being cut and professor positions are being eliminated. If we are going to share that responsibility, we would like to see that business and other community partners stand up and share the responsibility to fund this State.

I have heard several discussions about the budget reductions concerning which programs are retained and which programs are eliminated. As social workers, we believe both the schools of social work at UNLV and UNR must be maintained. There are many different needs throughout the entire State; therefore, both universities are needed. There have been increased needs for many services to Nevadans because of the economic situation. If these programs and services are cut, we will be unable to serve as many individuals.

If we want to see a prosperous Nevada, we must invest in education. I believe the time to do that is now, not holding it off until the next Legislative Session, when we may find ourselves in the same position.

SENATOR HORSFORD:
Thank you for being here and sharing the students' perspective of what these cuts mean and the willingness of students to step forward and share some burden of increased tuition in balance with responsibility of others to do the same.

We will now hear from the Chancellor of NSHE and any of the NSHE presidents who wish to speak. Following that, we will hear from the Administration's Chief of Staff and Budget Director.

DANIEL J. KLAICH (Chancellor, Nevada System of Higher Education):
Thank you for this unique opportunity to address all members of the Senate today. Before I begin, I would like to personally thank you for suspending business yesterday afternoon to enable members to attend the memorial service for Dr. Milton Glick. It meant a lot to Mrs. Glick and to her sons.

I would like to begin by stating the obvious. We understand there is an economic crisis in Nevada, perhaps the worst in our history. We must balance our budget. We understand that will require significant cuts to spending throughout the budget and painful sacrifice that is appropriately shared by all Nevadans.

Having said that, our challenge, and yours, is to navigate these difficult waters in a way to preserve core services including education and to serve our State well in recovery. I am here today to discuss how those of us in higher education intend to do that, with your help. Like most Nevadans in both the public and private sectors, public higher education arrives here today after more than three years of heavy budget reductions. Over that time, while enrollments have increased and fees have increased and salaries have been frozen or reduced by furloughs, NSHE's General Fund support has been reduced by about 20 percent. Our presidents, working closely with their faculty and students and under the supervision of the Board of Regents, have implemented budget reduction plans aimed at protecting faculty and classes for students. Reductions have been made in capital, equipment, maintenance, support services and administration to protect these critical classroom functions.

In the process of protecting faculty to the best of our ability, we have also worked diligently to protect research. Ironically, one result of these plans aimed at preserving the access and quality of the student experience, is that it has left many, if not most, ordinary Nevadans thinking there has been no impact on our colleges and universities. In fact, with General Fund appropriations reduced about 20 percent, and enrollments increased system wide, we have eliminated nearly 9 percent of the State-funded positions. Like many Nevadans, we are being
forced to do more with less. With less of our star faculty and matching funds required for research grants, our research and development has decreased in the last two years by 11 percent. I mention these facts, not to complain, but to emphasize we are not reviewing the reductions in the proposed Executive Budget on a clean slate. Rather, we are considering this budget from the vantage point of three and a half years of painful reductions. Against this backdrop of continuing budget reductions, the Board of Regents, the presidents and I have prepared a strategic plan for aligning system goals with that of the State in a time of constrained resources. I have distributed a copy of that plan to all Senators. Therefore, I will not repeat it in detail today.

We must produce more graduates in less time. We must have more sponsored research. We will move to market-based fees and create differential fees for select programs with authority to direct the spending of those fees where they are generated. We would like to see a stabilization fund created for higher education to plan for the inevitable time when we will again experience a reduced economic cycle. We are involved in a continuous review of all processes and programs for maximum efficiency, effectiveness, transparency and assuring the taxpayers of Nevada that we wisely spend every dollar we are allocated.

We will establish structures that will align the goals of the State, higher education and private business to assist in economic development and diversification. That effort is already well underway with the bipartisan effort introduced approximately two weeks ago with Senate Bill No. 449.

We believe we must have more intense and seamless partnerships with public education and that every element of this plan must be built on recognized and well-communicated metrics for performance and reporting those to the Governor, the Legislature, the Board of Regents and to the citizens of Nevada. We are committed to holding ourselves accountable to well-defined and rigorous goals. Our plan is not a business-as-usual plan. We are committed to significant reform in academics, in finance and in administration. Students in this State will see significant differences in how we have operated. In the Work Session Document and the NSHE document reviewed earlier today, we have submitted plans for reductions in our budgets as required in the Executive Budget by $162 million by the end of the current biennium. Let me tell you briefly what those reductions will mean from an NSHE standpoint and what they will mean to your constituents. It will supplement the Work Session Document.

The proposed budget reductions will dramatically impact higher education and in particular access to higher education. It is important for you to understand the cuts to the levels proposed in the Executive Budget will result in an entirely new model for higher education in Nevada. We believe it is one not in either the short- or long-term interests of this State. In the short term, it will lead to greater unemployment and withdraw critical dollars from our economy, worsening and prolonging Nevada's economic agony; rather than assisting in its recovery. In the long term, this model will reduce access and opportunity to thousands of Nevadans by either limiting enrollment or pricing higher education out of their reach. Therefore, it will limit the educated workforce needed to move our economy forward and to recruit and retain the businesses we want here in Nevada.

One of the cornerstones for higher education has been our commitment, along with the commitment of the Governor, to the Complete College America consortium. The consortium is dedicated to producing more graduates with different methods of academic reform. It is a
combination of states, working together, to use what I have referred to in the Joint Subcommittee hearings as the “CASE method” — copy and steal everything by looking at best practices throughout the country and incorporating them in higher education in Nevada. With this budget, our continued participation in the consortium and our goal to produce more graduates will be in jeopardy along with the potential loss of a number of grants designed to assist us in this effort.

You know, because you hear from constituents and you let us know, that enrollment in this system has been effectively capped for a number of years as a reduced number of available classes have filled and fees have increased. The reductions we are facing will multiply our enrollment challenges. Our colleges and universities report that faculty and staff reductions will cap enrollment levels across the State at unprecedented numbers.

Students who are clearly qualified for entrance into any of our institutions will be denied entrance. They will be turned away in greater numbers than ever before. This will not only be true at the universities, but at the State college and the community colleges. This will impact the access mission of those ladder institutions.

We will develop strategies to deal with this change at our colleges while still being sensitive to our diverse student population. That may include admissions tests and a requirement for high school diplomas. But, the underlying reality is we will be turning Nevadans away. We simply cannot serve everyone at this level of reductions with any promise of quality in their educational experience.

I work with presidents, faculty and students to bring recommendations to the Board of Regents striving for fundamental fairness in ensuring students will be able to attend higher education and given the opportunities to whatever extent possible. We will be particularly mindful of low income and first generation students who are disproportionately students of color. With this budget, we will no longer pretend that any student who is qualified for acceptance will have access to the classes, support services, financial aid and ultimately a degree. We will give priority in registration, to need-based financial aid and the opportunity to complete a degree or a certificate to full-time attending students.

Unfortunately, we will need to seriously evaluate the transfer mission of our community colleges in light of this new reality. We can no longer guarantee that every student who qualifies to transfer from our community colleges to our State college or universities will have the ability to do so. If our promise to students is the ability to reasonably complete their course of studies and obtain a degree within a reasonable period, we must avoid upper division bottlenecks that could result from unlimited transfers. In addition to these limits on student access, we will offer fewer classes at fewer locations. This could particularly impact rural locations that will suffer as our colleges focus their limited resources on serving the greatest number of students. We will do our best with technology to continue providing offerings, but live classes will be significantly diminished.

As Mr. Haartz indicated, we anticipate a drop in enrollment in excess of 15 percent over this biennium based on program elimination, faculty layoffs, site closures, fewer classes offered, increased fees, inadequate tutoring and support services. Until resources improve, this decrease will represent a cap on enrollment. We anticipate more than 20,000 qualified students, equaling approximately 8,000 SFTE individuals who wish to take advantage of higher education, will be turned away. They are either students who will have to leave this State to attend postsecondary institutions and likely not return, or students who will just never go to college.

Research and workforce grants in this State will in all likelihood continue to decline as resources for matching funds dry up and as our best and most entrepreneurial faculty are cherry-picked by other institutions across the nation. We have consistently advised policy makers that this selective destruction of our best faculty has already begun, and should be expected to accelerate. The impact will not only limit economic expansion that innovative research can foster, but will negatively impact our leveraging capability by reducing revenues that research institutions can generate to help themselves produce budget support.

We pledge our best efforts to work with private businesses and the State economic development infrastructure but we want to be clear that fully supporting business initiatives while retrenching across the board is simply not possible. You know that many of the difficult decisions we are forced to make will bring out constituent voices. They will object to individual, center, program and institutional closures and consolidations. I am sure you are already hearing
those voices. We are too. Every action is taken with a strong awareness that we are losing or reducing programs valuable to Nevada. We do not believe there are any good or easy choices here.

Throughout this process, I have promised to be honest with you. I have told you we will not say something we do not intend to do, or put something in front of you on which we are not prepared to follow through. I have outlined what our presidents are required to do to make cuts to achieve these levels. Diminishing and cutting higher education is bad for Nevada. I hope that we can work together to significantly mitigate these impacts, however, with the funding that appears to be available today, we believe the steps I have discussed will be essential.

I understand this is a hearing on the NSHE budget and not taxes, but I would like to make a brief comment regarding the potential of new funding, a topic which is consistent with the unanimous resolution of the Board of Regents that Mr. Byerman read into the record at the beginning of this hearing.

Somehow, the discussion of whether or not there should be additional new taxes in Nevada has gotten intertwined with sunsets on existing taxes. I have outlined dramatic and long-term impacts on higher education and I am sure you have heard similar stories from public education, health and human services and other budget areas. We are talking about a budget that is built on giving a tax cut in the upcoming biennium to the largest businesses in this State by allowing the existing tax rates to sunset. To make matters even worse, the businesses now paying those taxes, whose tax bills will be reduced, will lose the ability to deduct those taxes on their federal returns. In short, while we will have huge cuts to critical services in Nevada, we will be giving large tax breaks to Nevada's biggest companies and sending a portion of those dollars to Washington, D.C., where we will never likely see them again. I cannot see where this is good policy or how it helps ordinary Nevadans secure services, including the education they want and need.

There are revenue solutions available for the future that can forestall some of these cuts to our colleges and universities and we ask that you consider all possibilities as you deliberate in these extremely difficult times. We have been searching for every idea to keep from destroying public higher education in this State.

In that regard, I would like to present to you a four-point plan for funding higher education in the upcoming biennium that I think fairly embodies the shared sacrifice that has been discussed in detail. Implementation of the four-point plan can assist in mitigating the worst impacts of the budget reductions outlined today. It will require the legislature's action and support.

No. 1: I ask that the dollars allocated to NSHE for the biennium be appropriated equally in each year of the biennium. Averaging or smoothing appropriations in this fashion will not cost the State $1 over the biennium and will change the target of our reduction in FY 2012-2013 from $430 million to $395 million, a net positive change of over 7 percent without costing the taxpayers of Nevada even $1.

No. 2: We will ask that students and their families pay a greater share of the cost for higher education. As Mr. Haartz indicated, most of the institutional plans submitted to the Board of Regents and to your Joint Subcommittee on Higher Education have included recommended increases of student fees by 13 percent each year, netted by a 15 percent set aside for financial aid to ensure access to those most needy. This will include a set aside to ensure the opportunity for higher education is not foreclosed.

No. 3: We commit that our entire system of public education, each institution, will implement permanent operating reductions in an amount at least equal to the contribution we are asking our students to make.

No. 4: We ask the State of Nevada to infuse additional General Fund support into our budget in an amount proportionate to the permanent reductions and the increased student fees. This plan includes the reduction of salaries across the board as indicated in the Executive Budget for all State employees. Taken together, I believe this plan represents a reasonable sharing of the burden of this current situation among students and their families, faculty, our colleges and the State.

If this plan is implemented, we will protect higher education to the greatest extent that can be expected in these times. We will promise academic and financial reform that will produce
greater efficiency in all of our operations resetting the financial and social compact among the State, the Legislature and the students of Nevada.

I will close with these comments. We come to you today and ask that you hear us, that you believe us, and that you partner with us to save our children's and grandchildren's opportunities for college and a brighter future. That is the very same opportunities all of us have enjoyed to this point. I have provided my written comments in a memorandum dated April 5, 2011 from the Board of Regents and the Joint Subcommittee on K-12/Higher Education.

SENATOR HORSFORD:
I appreciate your remarks, particularly the four-point plan. I want to drill down on that further. Is the 13 percent a fee surcharge in tuition? We do not charge tuition to in-State students. How much would a 13 percent surcharge in each year of the biennium represent?

MR. KLAICH:
In dollars?

SENATOR HORSFORD:
Yes.

MR. KLAICH:
Mr. Haartz has indicated that revenue would be approximately $40 million, taking into account a loss of approximately $9 million in tuition due to potential loss of enrollment. We are shooting at a bit of a moving target. On the basis of current enrollment, the revenue would be approximately $50 million. Therefore, the revenue generated would be approximately $40 million to $50 million in the second year of the biennium.

SENATOR HORSFORD:
If I heard you correctly, the tuition increase of 13 percent would generate $40 million to $50 million in additional revenue. The System is prepared to make reductions in its operating expenses of an amount equal to that tuition increase in an amount of approximately $40 to $50 million. Is that correct?

MR. KLAICH:
Close to that.

SENATOR HORSFORD:
In addition to that, is your request to increase State support beyond the Governor's recommendations equal to that impact, or an increase of what amount?

MR. KLAICH:
Approximately $50 million in the second year of the biennium.

SENATOR HORSFORD:
Is that increase in State funding requested only in the second year of the biennium?

MR. KLAICH:
There is money in the first year of the biennium. I am not laying any hard figures on the table. I assume you will all want to discuss the exact funding. I am discussing a partnership.

SENATOR HORSFORD:
How much funding is needed in each year of the biennium in order to better manage the impacts of those reductions? Help us to understand operationally what that means. The Governor's budget calls for a reduction in the second year of the biennium of up to 30 percent. What would averaging the allocations over both years of the biennium enable NSHE to accomplish?

MR. KLAICH:
The General Fund appropriations in the Governor's budget ranged from approximately $558 million to around $460 million in the first year of the biennium and then to approximately $395 million or $396 million in the second year. I would like to acknowledge that that budget
was initially constructed in that fashion after discussions with System representatives. The Governor presented the budget in that fashion because he was trying to provide a safe or soft landing for budget numbers. It did not work out as planned once the budget numbers were presented. Rather than a budget reduction target in year two of the biennium, if you simply average the reductions over two years, that target will be $430 million. That will require NSHE to accelerate some cuts into year one of the biennium. The NSHE will need to accept approximately $35 million of additional reductions in year one of the biennium, but they will not be cut in year two of the biennium. Our budget will be at a higher level overall on a second year funding basis and on a going forward basis. Some of the deepest reductions will be avoided through that mechanism.

SENATOR HORSFORD:
Attachment A of the Work Session Document provided by our Staff outlines scenario No. 1 which is the reduction of academic programs based on the Governor's recommendations and the impact listed by institution.

Am I to understand Scenario No. 2 contains some of these proposals and administration consolidation that results in about $12 million of basic support savings? A specific list has been provided of what will happen under Scenario No. 1. I am not as clear what happens in Scenario No. 2, which is the consolidation and closure of campuses.

MR. KLAICH:
The Board of Regents and NSHE are planning on multiple tracks, as is the Legislature. One of the initial assignments the Board of Regents gave to me and my staff was to research the potential for savings available by consolidating or merging certain institutions. We provided that information to the Board of Regents and have received input from the institutions potentially impacted. That is the source of the approximately $12.4 million identified by Legislative Counsel Bureau (LCB) Staff. The Board of Regents has taken no action to close any institution at this point.

SENATOR HORSFORD:
What is the situation that would trigger the closure or consolidation of institutions?

MR. KLAICH:
In my opinion, Nevada has a good system of higher education. It recognizes and serves the needs of our communities throughout the State. If a worst-case scenario budget is adopted, the Board of Regents has reserved the potential for making decisions that some of those institutions may not be capable of continuing under certain funding levels. In that case, which I find undesirable, these savings could be reallocated to other institutions in NSHE.

SENATOR HORSFORD:
By "these savings" are you referring to the approximately $12.5 million identified by our Staff?

MR. KLAICH;
That is correct. However, the estimated savings of $12.5 million will not be saved on the first effective date of the new budget. There are notice provisions, accreditation issues and others issues that compound the situation.

SENATOR HORSFORD:
Under the Governor's budget, State support for higher education which, even at the current level of services approved by the 2009 75th Legislature and adjusted through actions of the Twenty-sixth Special Session, was 20 percent. Under the proposed Executive Budget, State basic support for NSHE would be reduced to 12.8 percent. I am aware there has always been a concern regarding the overall percentage of State support reduction because of the message that sends.

From a policy standpoint, what is your opinion of going from a 20 percent level of State basic support to a 12.8 percent level? Is the long-term message that 12.8 percent of State basic support
be the only level of support provided and should the System raise its own money to meet its own needs beyond that level?

MR. KLAICH: The members of the business community gave a better answer to your question in their testimony than I can. That is, they respect the partnership the State of Nevada has with higher education and they are proud to participate in that with their corporate and private funds. I have no doubt in my mind that, living in a national market, if there were to be a dramatic decrease in the level of State support for higher education, that fact would be used against us in recruiting and retention. It would send a message and the message would not be good. The message is not positive for Nevadans, for Nevada families sitting around their tables saying, "Where should I send our son or daughter for education? Should we send them to Utah or Arizona, or should they stay here?"

Obviously, we would prefer to maintain that partnership at a reasonable and high level. It is important to consider my previous suggestions to implement an interim study regarding NSHE funding. That would be an appropriate time to consider the policy discussion. National metrics could be considered concerning fairness for students and their families; the State, how do we get there; how do we recognize the missions our institutions and fund them properly. If we all had that time and held reasonable discussions resulting in reasonable decisions, we could make determinations that Nevada families would support.

SENATOR KIECKHEFER: I fully support the idea of an interim study reviewing funding methods for NSHE. Having a funding formula based on the number of bodies in an institution emphasizes enrollment, not excellence.

Have you seen the Work Session Document provided to this body by the LCB Staff?

MR. KLAICH: I received a copy when I arrived today. Our staff has worked with LCB Staff to compile many of the figures quoted.

SENATOR KIECKHEFER: Scenario No. 2 discusses the approximately $12.4 million saved by the consolidation and closure of campuses. Table 3 on page 7 of the Work Session Document lists the various FTE staff positions that would be eliminated under Scenario No. 1 and under Scenario No. 2. Does the approximate savings of $12.4 million include elimination of approximately 2,500 FTE positions between the two scenarios?

MR. KLAICH: I had not seen these charts until today, but I think redirecting of the funds would cause the loss of some positions, particularly in the administrative realm and it would save others. There is not a one-to-one relationship.

SENATOR KIECKHEFER: Does the four-point plan you presented anticipate maintaining the 9-cent property tax redirect in the Governor's proposal?

MR. KLAICH: The four-point-plan is built on the maintenance of those funds. There is a significant policy decision as discussed in the Joint Subcommittee about whether those funds should be redirected to the General Fund and then allocated from the General Fund to NSHE or directly earmarked to NSHE. It does anticipate that those funds be maintained within the budget in one form or another.

SENATOR HORSFORD: Of the reductions in either Scenario No. 1 or Scenario No. 2, which ones constitute administrative reductions and which ones reduce instructional funding?
MR. KLAICH:
We may have that information in our templates or can access it and provide it to your Staff.

SENATOR HORSFORD:
If possible, please provide the information during this Committee meeting to assist in today's discussions.

MR. KLAICH:
We can provide that information today.

SENATOR SETTELMEYER:
What amount of increase in tuition costs for an average resident undergraduate student is represented by the percentage of increase stated today?

MR. KLAICH:
Are you referring to the 13 percent increase in each year of the biennium?

SENATOR SETTELMEYER:
What is the cost increase annually for each student?

MR. KLAICH:
The current undergraduate fees at the two universities are $156.75 per credit hour and they will increase by the end of the biennium to $200, or an increase of $50 per credit hour times 30 credits for a SFTE applicant.

SENATOR SETTELMEYER:
Looking at the WICHE figures, Nevada's fees are approximately 20 percent less than the average of other states. That is probably why an increase in fees is being suggested. I have also heard and seen reports online that the engineering school is expected to increase by 50 percent. Is the same true of nursing, physical therapy and architecture fields as well? The physical therapy courses had 400 applicants for 30 available seats. With the increased interest in those fields, has there been a large increase in enrollment loss?

MR. KLAICH:
Those fees were just adopted in the fall of 2010 effective for the fall semester of 2011. Therefore, a decline has not yet been seen. The purpose of the differential fees is for high-cost programs or high-demand programs. The NSHE hopes there will not be a decrease in enrollment because we have been selective and cautious about those increases.

SENATOR SETTELMEYER:
Each university has core programs they want to further so I understand raising tuition in those programs.

SENATOR DENIS:
During the presentation, you talked about the potential, under the current scenario, of losing up to 8,000 SFTE enrollments. Some of them may go out-of-state, but others would not seek higher education. How does that change under the four-point plan?

MR. KLAICH:
My rough calculations indicate that under the four-point plan, enrollment losses could be reduced by approximately two-thirds. I would expect there to be a proportionate mitigation of program closures and enrollment losses. That is why I indicated that fee income could be increased between $40 million and $50 million.

SENATOR DENIS:
I am concerned that students are already being impacted with all the proposed budget reductions and having to apply early for classes. Will we have to wait a year before there is any possibility of getting some of those students back to Nevada?
Mr. Klaich:
I had that exact conversation with Dr. Glick within the last month. If you consider the enrollment projections for UNR, you will see no impact on enrollment in year one of the biennium. That was due to Dr. Glick's belief that for all practical purposes, the enrollment year had already begun. Recruiting and marketing were completed. Students were filing their papers and those students must be served in the first year of the biennium. The major impact would come in year two of the biennium.

Senator Denis:
Even under NSHE's proposed four-point plan would the registration fees remain what has already been proposed?

Mr. Klaich:
No, under the four-point plan I suggested, there would be an increase of about 13 percent in each year of the upcoming biennium which would include the increase in fees as indicated by Senator Settelmeyer and the increase in revenue to the System of $40 million to $50 million.

Senator Denis:
You were talking about a $215 per credit hour charge for undergraduates in FY 2012-2013. Would that stay the same?

Mr. Klaich:
That fee is not booked. The current fee, approved by the Board of Regents for university undergraduates at UNR and UNLV, is $156.75 per credit hour. That is what a student would see in our course catalogs. My proposal is to increase that fee by approximately $50 per credit hour over the biennium.

Senator Denis:
How does the four-point plan change the number of faculty that would be eliminated under the scenario that positions would be eliminated and processes streamlined? How many good faculty members have we already lost? Are there positions available in other areas of the country for the faculty members who may be eliminated? Will Nevada continue to lose quality faculty to other areas with better offers?

Mr. Klaich:
Erik Herzig, Chair of the Department of Mathematics and Statistics at UNR, gave testimony before the Joint Subcommittee describing faculty losses. One member of his faculty left for a position at the University of Texas in Austin. He stated it was a natural progression and an upgrade for that staff member. He indicated they had just lost another member of their faculty to North Texas State University and he did not feel that was as great an opportunity. His opinion was that UNR and UNLV should be competitive with those institutions and our best faculty should not be cherry-picked by those entities.

Mr. Ted McAleer spoke at the Nevada 2.0 Conference and provided a map showing from where some of the best entrepreneurial faculty was cherry-picked. Reno, Nevada was shown as losing one of its most entrepreneurial faculty in engineering and the institution also lost his grant funding.

Yes, we are losing some of our star faculty. Faculty are always most mobile at the highest levels. Unfortunately, those are the individuals we will lose. I cannot state Nevada is acting in a vacuum. Every state, except a few states with energy industries, has budget problems. They are cutting higher education. Under the scenario I outlined, I would hope we could mitigate the loss by at least two-thirds.

Senator Denis:
Thank you.

Senator Horsford:
Chancellor, there is much information to be discussed in this meeting and we need to keep all questions and comments as succinct as possible.
SENATOR ROBERSON:
A part of your four-point plan requested additional funding. What amount of additional funding is being requested by NSHE?

MR. KLAICH:
I do not have a specific funding request today. However, as the budget process gets nearer completion we can discuss specifics and come to agreement on additional funding.

SENATOR ROBERSON:
Did you testify there would be an increase in student fees of $40 million to $50 million over the next biennium?

MR. KLAICH:
Yes, I testified, those increases would be implemented by one-third increments.

SENATOR ROBERSON:
What amount of operational fund reductions is proposed under current funding availability?

MR. KLAICH:
Those reductions are approximately $50 million in each year of the next biennium.

SENATOR ROBERSON:
Would that be approximately $100 million for the biennium?

MR. KLAICH:
That is correct.

SENATOR ROBERSON:
What portion of the operational reductions consists of the 5 percent salary reductions?

MR. KLAICH:
None of the salary reductions are included. The plan I outlined assumed the 5 percent salary reduction.

SENATOR ROBERSON:
Would the operational reductions be in addition to the 5 percent salary reductions?

MR. KLAICH:
That is correct.

SENATOR ROBERSON:
What is the aggregate amount of the 5 percent salary reductions?

MR. KLAICH:
Every percent employee salaries are reduced in NSHE reduces budgetary needs by $5 million. Because salary reductions for furlough costs were already removed from the budget in the prior biennium, most of that savings has already been realized. Therefore, the reduction from 4.6 percent of salaries under furloughs to the 5 percent reduction in the Executive Budget does not make a large difference.

SENATOR ROBERSON:
In other words, there is essentially no salary reduction in the 2011-2013 biennium?

MR. KLAICH:
There is no pay cut to a number of employees. There are salary reductions to tenured faculty because their pay could not be reduced in the last biennium.

SENATOR ROBERSON:
If a 10 percent salary reduction were proposed, would that add approximately $25 million to the NSHE budgets?
MR. KLAICH:
That is correct.

SENATOR ROBERSON:
For the sake of argument, to the extent that higher education asks for another $100 million, where do we find that revenue? Alternatively, whose budget do we cut? Do we cut K-12 Education?

MR. KLAICH:
Absolutely not. They are our partners in education in Nevada and there is nothing we can do to enhance the quality of higher education more than to enhance the graduates from our public education system.

SENATOR ROBERSON:
I concur with your conclusion. Where else does NSHE suggest we cut budgets to provide the additional $100 million requested?

MR. KLAICH:
My suggestion is that the Legislature bring additional revenue into the budget. I made the suggestion to allow the taxation sunsets to be extended.

SENATOR ROBERSON:
Mr. Satre called for a broad-based business tax. I am aware the Chancellor's Business Roundtable considers these issues. Are there any representatives of small businesses on the Roundtable? Representatives from big business were here today and recommended a broad-based business tax which impacts small businesses. I am concerned that it is easy to say, "Let's get rid of the sunsets on these taxes." In my mind, that is a tax increase that falls on small businesses.

The private sector is broke. That is a fact. We need to protect higher education for the future, but we also need small businesses in the State. They are the backbone of our economy.

MR. KLAICH:
I agree completely.

SENATOR ROBERSON:
When we talk about who we are going to tax today, we are talking about and burdening small businesses.

MR. KLAICH:
I do not believe we are.

SENATOR HORSFORD:
We are not going to have this debate at this time. I will defer to the Chair of the Senate Committee on Revenue for this discussion. We can have the discussion on who is impacted with a broad-based tax, but to imply that proposals have been made that would burden small business is inaccurate. In 2009, a tax break was passed for the purpose of protecting small businesses. There should probably be a Committee of the Whole scheduled for revenue discussions so that those facts can be made clear. No one has proposed any new revenue streams or broad-based solutions that impact small business.

SENATOR LEE:
As a small businessman, I can tell you we do think about those things. As the father of seven children, I think about the greater need of the family, too.

When looking at the worst case scenario, I would like to see a commitment from NSHE that, if the community college satellite campuses are closed, all of those students will have the ability to transfer to other educational institutions in the State to continue their degree goals. If students miss a year or two, they have to go back and see how classes they have already taken have been changed. We owe it to these students to ensure they can achieve their educational goals. I suggest we allow students already in the System to complete their degrees before we allow new
high school graduates or other new students to enter the System. To sweep the rug out from under current students and destroy their coursework will decimate years of educational strides which would help individuals to change their lifestyles.

**Mr. Klaich:**
I cannot make that commitment at this time. I do not know how, under the worst-case scenario, we can take $162 million away from the budget, lose the potential for approximately 8,300 SFTE and say we will absolutely serve the currently enrolled students. We have multiple year curricula and to say we would see all current students through to graduation means there would ultimately be no new students in the freshman or sophomore classes. I cannot plan for institutions on that basis. We have committed to the Legislature to do everything we can to get the current students through to graduation or through a major closely aligned with the major in which they started.

**Senator Lee:**
Current students may ask, "Why should we register and pay fees for the next semester, when our ultimate goal may not be available at the end of our studies?" Is that what we are saying to the students in the satellite campuses?

**Mr. Klaich:**
That was a different question. My concern for students who are attending satellite campuses that may be closed is the distance they will need to travel to continue their studies. I was referring only to the number of students we are prepared to serve. Respectfully, we are talking about a joint commitment to those students already enrolled.

**Senator Lee:**
We talk in the abstract about fees, but these are real people, some of whom will go without a meal to succeed or provide for themselves.

For the record, this Senator believes the people in the System now have first right at all educational opportunities if the State can afford them. We will have to tell people who are upgrading their skills that they will have to wait until we get these people through. High school graduates, we would love to have you come here, but we made a commitment to these people first. Individuals attending community colleges should not have their dreams disregarded.

**Senator McGinness:**
Have any surveys been done on enrollment losses which may result from increases in tuition? Have students continued their education in the past when fees have been increased?

**Mr. Klaich:**
The System does not believe there has been a significant number of students lost in the past when fees were increased. It could be a factor of some students not continuing but an equal, or similar, number of students enrolling. A survey has not been completed. Past fee increases have not been of the magnitude now being contemplated.

**Senator Horsford:**
I have not done surveys, but I have heard from my constituents and some of them cannot afford to pay beyond a reasonable fee increase. Ms. Aguirre testified today that students are willing to accept some fee increases if all of us are willing to share some of the responsibility. Should the entire budget reduction be placed on students? That is not fair. Increasing fees that bring Nevada to the median average of other western states is appropriate. I would rather make the increases over multiple years. However, this budget proposes all of the increases in the 2011-2013 biennium.

Some individuals may not consider a cost of $1,500 per class excessive. Tell that to students who are trying to obtain an education on their own or families who are trying to contribute to the education of their children.
SENATOR HARDY:
What if we consider Scenario No. 2, which has the least impact, and look at the market forces involved with fees and tuition? I have discussed the increases with individuals in the graduate nursing program who say their tuition could be doubled. Some individuals would no longer be able to afford to enroll in the program.

In the physical therapy field, there is a program available at Nevada State College or other institutions versus the private industry which charges as much as four times more in tuition. If there are 30 student slots available and 400 qualified applicants, the market forces would seem to allow the System to charge more for particular programs. Tuition increases should not be made equally across the board.

We must consider other WICHE states who may see budget increases making space for Nevada students to attend.

The bridge or transition funding discusses the need to notify tenured staff of termination of employment. Page 7 of the Work Session Document states, "As identified, bridge funding does not represent General Funds and appears to be non-State, one-time funds or reallocated student fees collected for capital and general improvement purposes. One of the challenges before the Senate is to identify which programs or budgets are funded by the General Fund appropriations and which are funded by other funding sources. What is the nexus for the transition funding requirement? We struggle with the different funding sources included in the System budgets. I am suggesting a mix of market-based system supply and demand with a carve-out for the 15 percent or whatever amount is approved for a set-aside. Has NSHE had these discussions?

MR. KLAICH:
You indicated that Scenario No. 2 appears to less onerous than Scenario No. 1. That depends on where you are sitting. If you live in a community where colleges are merged or closed, it may be much more onerous to you.

With respect to the question on fees, the Board of Regents just adopted a policy with respect to differential fees. Moving slowly into differential fees is a wise policy that should be pursued in the future.

We operate under a Letter of Intent issued by the Legislature that splits student fee revenue approximately two-thirds to the State-supported operating budget and one-third retained by the campus collecting the fees for capital improvements and various other activities on campus.

SENATOR HARDY:
Recognizing there are private institutions that have similar programs which are filled to student capacity and must therefore turn additional individuals away, I see NSHE has the same scenario. It forms a virtual cap on enrollment because there is an insufficient number of slots available for differential fees to be directed to market force instructional areas. It appears to be the current policy at NSHE.

MR. KLAICH:
That is correct.

SENATOR HARDY:
Thank you.

SENATOR HORSFORD:
Seeing no further questions for the Chancellor, we will now seek testimony from the Governor's Chief of Staff and the Budget Director.

HEIDI GANSERT (Chief of Staff, Office of the Governor):
As mentioned yesterday, these economic times are tough. When construction of the current Executive Budget began, the State was already down about $1.2 billion because of the loss of ARRA funding, caseload growth and reduced revenue at local levels. We recognize all of these budget reductions are difficult. We also know that all members of the Senate and everyone in the State supports higher education. The Governor, my husband and I are all graduates of the University of Nevada and therefore have great admiration for and appreciation of NSHE. There is a strong tie between economic development and the University System.
One reason the 9-cent property tax diversion was directed to higher education is because we believe the economy will recover and that the System has an influence on how the State recovers. We believe by applying the property tax diversion to higher education, as it grows once again, NSHE will see a positive benefit of that growth. The Governor's Office received some good news on Monday we wish to share. Unemployment is down, although it is still high. For the first time in more than 37 months, employment has increased.

As far back as when the Governor was a candidate, he had discussions with the Chancellor and members of the Board of Regents. Their request at that time was for autonomy to change tuition fees and to keep tuition funds at the institutions. They also discussed their willingness to provide accountability. They stated they were working on improving graduation and enrollment rates. Great strides are being made. A stabilization account was requested to retain the portion of funding typically reverted to the State at the end of each fiscal year.

Senate Bill 434 was introduced which accomplishes all those requests. With the budget reductions NSHE would be facing, we recognized that it was important to give them autonomy. During the last two-year period, there was an expectation that ARRA funding or other one-shot funds would be replaced in the 2011-2013 budget. However, some of the colleges within NSHE recognized they might need to help themselves. I am on the advisory board for the College of Engineering at UNR. Therefore, I know they considered their upper unit classes and added a surcharge of approximately 50 percent to their tuition. The School of Architecture and the School of Nursing have added a surcharge to their tuition. The School of Physical Therapy in southern Nevada was able to double its tuition and still had long waiting lists for admittance. There is a sizeable demand for enrollment at these institutions.

Throughout the United States trends are for students paying a larger portion of their tuition. At NSHE, the taxpayers' portion of the cost of education versus the students' portion is approximately 73 percent from taxes and 23 percent paid by students. The taxpayer numbers are trending down and student support is trending up. An outstanding group of individuals comprise the Board of Regents and they will be making the final budget decisions regarding how to appropriate cuts and retain the core mission of the overall system.

The Governor's Office considers every institution to be important. We are concerned about the potential of rural campus closures. We trust the Board of Regents will have the judgment to ensure the core mission of NSHE is retained and that there is access to education throughout the State.

Fifteen percent of tuition increases will be set aside for financial aid. That is critical. Institutions must be offered at affordable levels and we must help those who may not have the means to afford tuition increases.

SENATOR HORSFORD:
I understand that allowing the 9-cent property tax revenue to be allocated to NSHE will help, in part, to mitigate the situation. I am unclear as to why only Clark and Washoe Counties were singled out for this diversion. Why are other counties that also benefit from the colleges and universities throughout the System not being asked to share in funding NSHE programs?

MS. GANSERT:
The property tax diversions are to be directed to UNR and UNLV because there is a strong nexus between economic development and education, and those institutions are the hubs of the System. We worked with both parties earlier on a bill to change the economic development model. A knowledge fund is under consideration. The intent is to tie NSHE into economic development at the two major institutions in the State.

SENATOR HORSFORD:
Why are the mining-rich counties such as Eureka and Lander not being asked to contribute as well? Those counties have healthy reserve accounts even in these difficult financial times. The budget impact may cause rural campuses to be closed. Why not allow the rural counties to help support the services of academic programs in their communities?
The Governor's Office considered the entire budget. When looking at the whole picture, other services are being pushed down to the local governments. Higher education, K-12 and Health and Human Services are all a part of those additional costs. We did not want to place undue strain on local governments although we felt certain health and human services programs are best provided at the local level.

The 9-cent property tax diversion is a continuation of a reallocation from the 2009-2011 Legislative Session. That reallocation was only taken in Washoe and Clark Counties.

SENATOR LESLIE:
Are these diversions taken permanently through the Executive Budget?

ANDREW CLINGER (Director, Department of Administration):
That is correct. The bill that has been introduced contains a sunset of the provisions but that was not the budgetary intention.

SENATOR LESLIE:
I thought earlier testimony indicated the intent of the diversion was to be in place only until the economy recovers.

MS. GANSERT:
This piece of the budget is a permanent reallocation. The General Fund has been reduced and reallocation of these funds is tied to economic development.

SENATOR LESLIE:
If that is the case, was there any discussion with the counties regarding other ways to reduce their funding? These are capital funds. It seems if the funds will be permanently diverted, this may not be the best choice of a funding source.

SENATOR HORSFORD:
There are two parts to the 9-cent property tax. One part is capital funds and the other is operational funds. I know the counties want to be heard on this as well. Please expound on Senator Leslie's question that this is not just a continuation for the 2011-2013 biennium.

MR. CLINGER:
All I can do is restate what has already been discussed. The 9 cents is a continuation of the current procedure. We feel there is a greater impact from the universities in their respective counties than in other counties. There is an impact in other counties, but not to the same extent as in Washoe and Clark Counties.

SENATOR HORSFORD:
Have those impacts been evaluated? If, for instance, GBC which provides training in mining and other related mining activities is closed, that will have a tremendous economic impact on that region. I do not understand the logic in suggesting there is no economic benefit to those rural communities either by underfunding or funding their programs. The President of Great Basin College has said that the programs they are offering are directly aligned with the industries in that region. If those programs are closed, it would not only impact those students and staff, it would affect the industries that rely on that institution.

MS. GANSERT:
We have never contemplated the closure of any campuses. Those decisions will be made by the Board of Regents. The Governor's Office supports keeping all institutions open because of their criticality. There are two questions: the funding method and whether to keep all campuses open.

SENATOR HORSFORD:
You have answered that question, but you have not answered the question as to why the counties that benefit from those programs are not being asked to contribute to the costs in the same manner as what is asked of Clark and Washoe Counties. Why is that?
MS. GANSDERT: 
The intent was a continuation of the 2009 75th Legislature's actions with the diversion of the 9-cent property tax in Washoe and Clark Counties. The reallocation does not go to the General Fund. It goes directly to UNR and UNLV.

SENATOR HORSFORD: 
Is your position that the diversion should stop at the end of the 2011-2013 biennium, because the continuation would be for two years? That was the intent of the 2009 75th Legislature's actions. Do you intend to make this a permanent diversion, or do you intend to end the diversion at the end of the upcoming biennium?

MS. GANSDERT: 
No, our recommendation is that the reallocation established by the 2009 75th Legislature become permanent. We believe there is a tie to economic growth. We want the System to receive the upside of that economic growth. The property tax revenue will increase over time and we felt that was a method to help the System in the long run, although it changes the basic funding structure.

SENATOR HORSFORD: 
For clarity, if we continue the policy established two years ago, the reallocation would only be extended for two years. You are now proposing the diversion become permanent, a portion of which is from the operating accounts and another portion is from the county capital funding which is used to build police and other public safety facilities.

MS. GANSDERT: 
That is correct.

SENATOR McGINNESS: 
I hope this discussion is not moving toward a position of pitting urban Nevada against rural Nevada. All Nevadans are making do with less.

SENATOR HORSFORD: 
I could not agree with the Minority Leader more. The diversion should be fair and equitable. I am trying to understand why only 2 of the 17 counties are being asked to carry the burden of the entire NSHE, when we know other counties have the ability and have healthy reserve accounts. I am also concerned because when I met with the county manager of Washoe County, I was told of the reductions that have occurred already and the impact of the 9-cent property tax diversion would have on that county and its residents. I am equally concerned about what that means to the communities in southern Nevada. I am not suggesting local governments should not be a part of the solution. However, if they are a part, it should be fair and equitable and certain counties should not be singled out while others are excluded. I cannot get an answer from the Administration as to why certain counties, with the means, were not asked to help fund higher education.

SENATOR DENIS: 
Was your testimony that the Administration was trying to follow the actions of the 2009 75th Legislature?

MS. GANSDERT: 
The 9-cent tax diversion began in the 2009 75th Legislature. It was only a reallocation from Clark and Washoe Counties.

SENATOR DENIS: 
Earlier discussions centered on the sunsetting of other taxes. Why was that not also the recommendation for these tax diversions? Why were the other new taxes not continued as well?

MS. GANSDERT: 
The 9-cent tax diverted in 2009 was not a new tax. It was a part of something that would have sunsettled. Other 2009 taxation contained new revenue streams.
SENATOR HORSFORD:
If the Administration's intent was to adopt the 2009 plan, why was the continuation of other revenue streams not included? I think we already know the answer to that question.
At this time we will ask the county representatives to provide their perspective beyond what we have already heard.

LISA GIANOLI (Washoe County):
I want to clarify how we got to where we are today. There was a crisis in transportation during the 2007 74th Legislative Session. At that point in time, the diversion of 3 cents of the capital facilities tax was enacted. The original intent was only to divert those funds from Clark County. However, late in the session, Washoe County was included. Those diversions were done in 20 percent increments over a five-year period. Today, Washoe County would be sending 2.8 percent of our 5-cent capital facilities funds to transportation. Late in the Twenty-sixth Special Session, the full 5 cents was diverted plus 4 cents of operating funds that were supposed to sunset at the close of FY 2010-2011. Washoe County recently submitted a tentative budget diverting 2.8 cents of the capital facilities tax with 20 percent remaining for one year of the biennium to the Highway Fund for transportation.
Washoe County is therefore expecting diversions of approximately $11 million. That means dramatic cuts to Washoe County and to services. I understand the economic exigencies faced by the State, but I am sure these diversions are also having a significant impact on Clark County as well.

CONSTANCE BROOKS (Clark County):
Clark County also understands the dire straits the State is facing with regard not only to higher education, but to all vital services. However, in Clark County, the 9-cent diversion is equal to approximately $117 million. The 9-cent diversion from 2009 was devastating. Clark County has experienced several hundred layoffs, we have been taxed with demands for services, and increasing demands in the area of social services and child welfare.
The 4 cent portion of the 9-cent tax is our operating rate dedicated to those services for which demand is increasing. In this economic crisis, the need for social services, including medical assistance, rental assistance and other services for individuals who are facing crisis situations is growing. We would like to continue to provide services and meet the needs of our communities, but it will be very difficult to do so if the 9-cent property tax diversion is continued.

SENATOR HARDY:
Are the funding losses of $11 million and $117 million, respectively, on an annual basis rather than a biennial basis?

MS. GIANOLI:
That is correct. These are annual losses.

SENATOR HORSFORD:
Is that correct for Clark County's losses as well?

MS. BROOKS:
It is the same for Clark County. The impact from the 5-cent diversion is an annual loss of $65 million and the impact from the 4-cent diversion is $54 million annually.

SENATOR LESLIE:
My question is more of a structural issue. The 5-cent tax is directed to capital funding. Therefore, taxpayers expect it to be spent for those purposes. Now we are permanently diverting the funds to economic development. Does that make sense? Are there other options?

MS. GIANOLI:
Washoe County traditionally used the 5-cent tax revenue to service debt for infrastructure. Those funds are distributed to the county. Of the roughly 70 percent retained by the county, 20 percent is redirected to the City of Reno and 10 percent is directed to the City of Sparks. Because the changes in 2007 were made in 20 percent increments, there was some time to react to the reductions. County General Fund dollars have been used to offset those losses. Now, with
the reduction of 4-percent, operating funds which have been used to service debt, major adjustments have been made. The loss of operating funds and the push downs in social services will not leave much room to make further adjustments.

MS. BROOKS:
It is also important to note that the capital funds we would use for infrastructure projects provides opportunities for job creation.

SENATOR HORSFORD:
We will now invite Regent Ron Knecht to speak and then open the meeting to public testimony.

RON KNECHT (Member, Board of Regents):
I am an elected member of the Board of Regents from this district. I am speaking as an individual member of the Board and a private citizen. I am not speaking on behalf of the Board.
I will provide long-term and short-term perspectives of the NSHE budgets. I will also address a couple of policy issues.
I do not envy the Legislature the tasks it faces. Over the last ten years, State spending on higher education and on all matters has grown faster than our economy.

Personal income of Nevadans has grown 65 percent; however, 28 percent of that increase is attributable to inflation. At the same time, all State General Fund spending grew by 116 percent. Public Safety spending grew by 79 percent, higher education by 86 percent, human services, including Medicaid, grew by 118 percent and State spending on K-12 education grew by 128 percent. Over the last three years, the numbers are different but the pattern is the same. State spending grew by 6 percent while Nevadans' incomes declined by 6 percent. These figures are different than much of the current commentary. We tend to focus too much on budgets and not on actual year-to-year spending. A focus on budget numbers is misleading, somewhat meaningless and greatly overstated.

Using higher education figures, you have probably heard about $45 million to $50 million in budget reductions over the past two to three years at the two universities. That is a phantom budget number that was never spent to today's spending levels. The actual reductions to the two universities have been between $3 million to $25 million annually. The total all-fund sources are either positive or negative depending on whether the specialty schools such as the medical school, law school or the dental school and other factors are included. If one tried to compare this budget with public spending, the budget data is not comparable. No family says they make $80,000 one year, but due to head count, inflation expanded scope we really make $90,000. If only $83,000 is earned, one could say that family experiences a $7,000 budget reduction. Families do not compute their budget or progress that way.

I will abbreviate my comments and submit my written testimony for the record.

Over the last three or four years during the economic depression, Nevada families have suffered far worse than the public sector.

The Governor has suggested to NSHE that we could take greater responsibility for our own funding. In the last ten years, our total General Fund support has grown 8 percent relative to the economy. Our tuition and fee revenue has grown at the rate of the economy, our self-supported funding has grown 45 percent faster than the economy and our grants and contracts have grown 15 percent faster than the economy. That equals an overall increase of 18 percent which is a good track record of self-help. It is reasonable to ask for continuation along that track going forward.

There are four things that would help us to accomplish that goal. The first would be a nine-line budget with each line representing one institution and one line for the System instead of the 27 line budget currently in place. It would give us the flexibility desired by the Governor. Secondly, cancellation of the Letter of Intent would allow the System to pull back increases in tuition and fees into education. Third, would be the authority to carry forward the cost savings realized from one budget year to another. Fourth is application of additional State revenues that may be realized in the next biennium to mitigate NSHE's second year budget reductions.
The vote taken by the Board of Regents did not indicate whether we support a tax increase. That is not in our purview. The motion we supported requests more revenue for higher education than proposed by the Governor.

Regarding institution closures, consolidations, mergers and so forth; the Chancellor detailed the effects on access at our community institutions and on the System as a whole within the parameters of the Governor's proposed budget reductions. The record of our April 8, 2011, hearing indicates each of those effects would be exacerbated if, instead of using the tier 1 plans from the institutions, we moved to closures. Essentially, the $12.5 million alleged savings from the first year of the biennium is a gross figure that ignores the transition costs. The transition costs would be substantial and would occur in the 2011-2013 biennium. They would reduce the $12.5 million to approximately zero. Further in the future, there may be some savings. At the same time, it would take funding from the institutions with the highest faculty to class loads, the lowest faculty pay rates and the largest classes. In short, institutions that pay the least would be moved to institutions with the lowest faculty class loads, the smallest class sizes, the highest faculty pay rate and therefore, the highest student costs.

The total student count in institutions would be reduced, faculty counts would be reduced and there would be a decrease in class and degree offerings.

I urge the Legislature not to consider any of the unnecessary tier 2 reductions. The necessary reductions can be made through tier 1 funding.

SENATOR HORSFORD:
All options are still under consideration and we are evaluating all means of budget reductions before any decisions are made. That is prudent for both the Legislature and the Board of Regents. Unfortunately, all the decisions we make have implications for this biennium as well as future Legislatures.

SENATOR MCGINNESS:
Mr. Knecht, did you indicate that if the regents are given the ability to do so, NSHE could be self-supporting?

MR. KNECHT:
Self-supporting might be a long-term goal. It is not something I am recommending or something that can be transitioned to immediately. It is reasonable to continue our track record of self-support going forward. I am not advocating no longer funding remaining public institutions. It is reasonable to look to the Board of Regents to seek self-support in the area of fees and tuitions and the grants and contract funding.

SENATOR HORSFORD:
I think that is appropriate. However, the testimony we just heard from the business community is that their investments in NSHE are, in part, contingent on the level of public sector support and the existing partnership. If the partnership is reduced, that may affect the private sector investment as well. That is part of the policy decision before this body.

SENATOR ROBERSON:
I am reviewing information that has been provided. Are you telling this body that during the worst recession seen in this State, between FY 2007-2008 and FY 2009-2010, revenue from all sources for NSHE increased by 4 percent?

MR. KNECHT:
When all four primary sources are considered that statement is true. However, there is a serious fungibility problem with grants and contracts. The real reason for the increased spending has been our outstanding record of self-support.

SENATOR ROBERSON:
In the same time period, State spending from the General Fund only decreased by one percent. We do not hear this information from many sources. It also appears that since FY 1999-2000, State support for NSHE has increased 86 percent and support from all sources
has increased by 107 percent. Based on this information, I do not believe the problem is as severe as is being portrayed.

**Mr. Knecht:**
The 86 percent figure includes both General Fund and tuition and fees which are considered as other funding from the State. These are the worst times we have faced, but we will get through these difficulties.

**Senator Horsford:**
Does the 86 percent figure include the $184 million in federal ARRA funds that was one-time funding in the last two years? Yes or no?

**Mr. Knecht:**
Not exactly.

**Senator Horsford:**
Do the figures Senator Roberson cited include the ARRA funding as part of the non-general fund support that was provided for in the last two years? Yes or no, it is a simple question.

**Mr. Knecht:**
Those figures do not exactly reflect it, if I may.

**Senator Horsford:**
If you do not know the answer, I can ask our Fiscal Staff.

**Mr. Knecht:**
I can answer it.

**Senator Horsford:**
This is a yes or no answer.

**Mr. Knecht:**
Yes, but, may I explain?

**Senator Horsford:**
No. That was my question.

**Senator Roberson:**
Why can Mr. Knecht not explain his answer?

**Senator Horsford:**
I asked for a yes or no answer to the question.

**Senator Roberson:**
Can I ask him a follow-up question?

**Senator Horsford:**
Senator Settelmeyer has the Floor.

**Senator Settelmeyer:**
I have talked to my community college constituents and they indicated the Governor's budget was extremely difficult but they could persevere. I am aware initial meetings have been held and that closures were no longer under consideration. What information has come forward to change the discussions to once again include closures? Community colleges are such an important aspect of these communities.

**Mr. Knecht:**
It is difficult for me to say that any information has changed. The Board received more information on the tier 1 institution reductions of 31 percent or 32 percent of General Funds. You would need to poll the regents who changed their votes, when the information was received before the March 11, 2011, meeting having those options under discussion. At that time, the
regents concluded by a vote of 8 to 5 that the information on the tier 1 reductions indicated we did not need to consider tier 2 reductions. Subsequently, the Majority Leader requested we rescind that decision and a vote was taken on April 8, 2011, to rescind the earlier vote. Not much in the way of substantive changes occurred.

SENATOR SETTLEMeyer:
I would like an explanation of the ARRA funding.

MR. KNECHT:
The simple explanation is that the ARRA funding for NSHE was all placed into FY 2008-2009. Therefore, in FY 2009-2010, our General Fund spending included no ARRA funding. The Legislature, for its purposes, moved other revenue into FY 2009-2010. When the FY 2009-2010 figures are divided by the FY 1999-2000 General Funds, ARRA funds are not included in either of those fiscal years. The ARRA funds were received and they were spent.

SENATOR HORSFORD:
It was not a part of the basic support provided by the State and is not now included in the Governor's budget. As referenced earlier by Director Clinger and our Fiscal Staff, the funds being replaced with property taxes will replace basic support funding separate and apart from the additional $184 million reduction due to loss of ARRA funds. Those funds are shown as non-State support in the budgets.

SENATOR MCGINNESS:
I appreciate this open discussion. However, I am concerned there is a chilling effect if some of the members are not allowed to ask questions. I recognize Regent Knecht is incapable of giving a short answer, but the members should be allowed to ask questions.

SENATOR HORSFORD:
I agree. That was my question to which I requested a yes or no answer.

SENATOR ROBERSON:
What I am hearing is that if the ARRA funds had never existed, we would still see a 107 percent increase in all sources of NSHE funding from FY 1999-2000 to FY 2009-2010.

MR. KNECHT:
I cannot say that. If the ARRA funds had never existed, we would not have been able to move the allocation of FY 2009-2010 ARRA funds for higher education into the FY 2008-2009 spending and move the FY 2008-2009 General Funds into FY 2009-2010. The ARRA funds are reflected as a technical matter.

SENATOR HORSFORD:
Please provide a copy of those figures for our Staff.

MR. KNECHT:
I will provide that information for this body.

SENATOR HORSFORD:
What was the population growth between 2000 and 2010?

MR. KNECHT:
The population growth was approximately 40 percent. I have normalized the figures for population and head count.

SENATOR HARDY:
What is the per-student count in that calculation?

MR. KNECHT:
I have the gross figures and the per capita figures for both spending of the various categories and the economy in my workbook. I have normalized the figures for student counts and for population. The figures I quoted today are based on the per capita figures.
SENATOR SCHNEIDER:
The numbers appear to be adjusted to fit the story. Are universities and colleges based on the elite faculty who can be acquired?

MR. KNECHT:
They are based on the elite faculty and on the work-a-day faculty.

SENATOR SCHNEIDER:
When numbers are compiled for an institution, the system is trying to grow and improve so that perhaps it could be considered a Harvard of the West, the numbers provided do not reflect where the State and Legislature wish to go. Over the past two years, there have been faculty members who have fled this State because of the lack of commitment on the part of the Legislature and the Board of Regents. I reported those facts to this body two years ago. Why was the Board of Regents not reporting that same information? Why did the Board of Regents not testify that we are losing our great faculty? They are putting themselves on the market. They are leaving and in two weeks they get jobs as committee chairmen at elite schools. We are dismantling what we are doing here.

It is incumbent upon the Board of Regents to report to the Legislature. I am tired of operating the university and college system in this manner.

You, personally, are contributing to the tearing down the institutions by not appearing before this body and demanding that we do better. It is easy to make cuts and easy to come with stories about spending a little more money. Do we not want to get a better system? Do you want a better system or do you want to continue to make cuts and chase away the good faculty?

I know students who have gone to Stanford or Pepperdine University because of their faculty members. Those institutions score fantastic faculty members and they pay good money for them. Nevada tends to chase good faculty off. We build the system up, but then a recession hits and we wipe out the good faculty.

SENATOR HORSFORD:
Before we recess, I wish to make a few statements.

Every member of this body can ask questions. The question I asked of Mr. Knecht was my question. I was only looking for a simple answer.

Closures and consolidations must be considered. I do not understand why a campus would remain open if it no longer has programs to offer students. It costs money to run facilities. If there are no students and no teachers and no programs, why do we maintain a building? That is why this must be a part of the discussion. I, like many of you, hope the decades of investments that have been made to build up these institutions are not whittled away in one budget decision that will have long-term negative consequences. I also hope we do not keep buildings open for the sake of keeping them open.

SECOND READING AND AMENDMENT
Senate Bill No. 21.
Bill read second time.
The following amendment was proposed by the Committee on Commerce, Labor and Energy:
Amendment No. 406.
"SUMMARY—Revises certain provisions concerning catastrophic injuries. (BDR 53-479)"
"AN ACT relating to industrial insurance; revising certain provisions concerning catastrophic injuries; specifying additional injuries that constitute a catastrophic injury; revising the qualifications of a certified vocational rehabilitation counselor; revising provisions governing claims for catastrophic injuries; revising the requirements of a life care plan developed by an insurer for an injured employee; revising the qualifications of an adjuster who administers a claim for a catastrophic injury; and providing other matters properly relating thereto."
Legislative Counsel's Digest:

Existing law requires an insurer to reopen a claim of compensation for a permanent partial disability if the claimant proves three conditions are met: (1) the claim was closed and the claimant was not evaluated as required; (2) at the time of closing the claimant met the qualifications for an evaluation; and (2) the insurer violated NRS 616D.120 with regard to the claim. (NRS 616C.392) NRS 616D.120 lists prohibited acts for which the Administrator of the Division of Industrial Relations of the Department of Business and Industry may seek penalties from an insurer, such as failure to pay, inducing a claimant to settle, refusing to process a claim, or intentionally failing to follow a statute or regulation, but does not refer to evaluations for a permanent partial disability.

This bill removes the third condition concerning a violation of NRS 616D.120, so a claimant, in order to reopen a claim, would be required to show that at the time his or her case was closed he or she was qualified to receive an evaluation and no evaluation was scheduled. Section 1.1 of this bill expands the definition of "catastrophic injury" for the purposes of industrial insurance to include an injury sustained from an accident and resulting in: (1) a coma or vegetative state; (2) the loss or significant impairment of function of one or more vital internal organs or organ systems; (3) the mangled, crushing or amputation of a major portion of an extremity; (4) an injury which the insurer and the injured employee agree should be administered as a catastrophic injury; or (5) an injury determined by the insurer to be a catastrophic injury.

Section 1.2 of this bill revises the qualifications for certification as a certified vocational rehabilitation counselor. Section 1.7 of this bill revises the qualifications for an adjuster who administers a claim for a catastrophic injury.

Section 1.4 of this bill provides that an injured employee may submit a request to an insurer for a determination that an injury should be administered as a claim for a catastrophic injury. Section 1.4 further provides that an insurer must issue a written determination concerning such a request within 30 days after receipt of the request. Section 1.5 of this bill provides that an injury which is not originally determined to be a catastrophic injury may at any time be classified as a catastrophic injury if a change in the nature of the injury brings it within the definition of "catastrophic injury."

Under existing law, an insurer is required to develop a life care plan for an injured employee who suffers a catastrophic injury within 90 days after the insurer accepts the injured employee's claim. (NRS 616C.700) Section 1.6 of this bill requires the insurer to develop a life care plan within 120 days after the treating physician determines that the injured employee's injury has stabilized and that the injured employee requires a life care plan. Section 1.6 also sets forth specific requirements for the development and implementation of the life care plan.
THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. [NRS 616C.392 is hereby amended to read as follows:

616C.392 1. An insurer shall reopen a claim to consider the payment of
compensation for a permanent partial disability if:
   (a) The claim was closed and the claimant was not scheduled for an
evaluation of the injury in accordance with NRS 616C.490; and
   (b) The claimant demonstrates by a preponderance of the evidence that, at
the time that the case was closed, the claimant was, because of the injury,
qualified to be scheduled for an evaluation for a permanent partial disability.
   (c) The insurer has violated a provision of NRS 616D.120 with regard to

2. The demonstration required pursuant to paragraph (b) of subsection 1
must be made with documentation that existed at the time that the case was
closed.
3. Notwithstanding any specific statutory provision to the contrary, the
consideration of whether a claimant is entitled to payment of compensation
for a permanent partial disability for a claim that is reopened pursuant to this
section must be made in accordance with the provisions of the applicable
statutory and regulatory provisions that existed on the date on which the
claim was closed, including, without limitation, using the edition of the
American Medical Association's Guides to the Evaluation of Permanent
Impairment as adopted by the Division pursuant to NRS 616C.110 that was
applicable on the date the claim was closed.]

Sec. 1.1. NRS 616A.077 is hereby amended to read as follows:
616A.077  "Catastrophic injury" means an injury sustained from an
accident and resulting in:
1. The total loss of sight in one or both eyes;
2. The total loss of hearing in one or both ears;
3. The loss by separation of any arm or leg;
4. An injury to the head or spine which results in paralysis of the legs,
   the arms or both the legs and arms;
5. An injury to the head which results in severe cognitive impairment, as
determined by a nationally recognized method of objective psychological

Senator Schneider moved the adoption of the amendment.

Remarks by Senator Schneider.

Senator Schneider requested that his remarks be entered in the Journal.

Senate Bill No. 21 is one of the negotiated bills on worker compensation. This addresses catastrophic injuries. If someone has a catastrophic injury in worker's compensation, this certifies that we license vocational rehabilitation people. We move a person with a catastrophic injury into a separate category where there is a life plan drawn up for them. They do not have to navigate the system as a less severely injured person would. They are taken out of the system...
and moved forward. This is a good bill. We have been working on this for four years. It is supported by all business entities and labor groups.

Bill read second time.
The following amendment was proposed by the Committee on Commerce, Labor and Energy:
Amendment No. 305.
"SUMMARY—Makes various changes concerning consumer protection.
(BDR 52-127)"
"AN ACT relating to consumer protection; requiring the Consumer Affairs Division of the Department of Business and Industry to regulate the activities of grant writing services that do business in this State; requiring certain grant writing services to register and deposit security with the Department of Business and Industry; requiring the Director to publish a list of registered grant writing services on an Internet website maintained by the Director; requiring a grant writing service to provide certain statements to a buyer before the execution of a contract for grant writing services; prescribing certain mandatory terms of a contract for grant writing services; revising the definition of "goods and services" as that term relates to solicitations by telephone; revising criminal penalties for violations of provisions relating to solicitations by telephone; providing penalties; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Assembly Bill No. 561 of the 2009 Legislative Session temporarily eliminated the Commissioner of Consumer Affairs and the Consumer Affairs Division of the Department of Business and Industry for the 2009-2011 biennium. (Sections 3 and 4 of chapter 475, Statutes of Nevada 2009, pp. 2696-97) As a result, the Attorney General assumed sole responsibility for the enforcement of the provisions of chapter 598 of NRS governing deceptive trade practices and the provisions of chapter 599B of NRS governing solicitations by telephone. Effective July 1, 2011, the Commissioner of Consumer Affairs and the Consumer Affairs Division will be restored and will again share responsibility for the enforcement of those provisions with the Attorney General.

Section 24 of this bill revises the definition of "goods or services" for the purpose of the provisions governing solicitations by telephone to clarify that the term includes, without limitation, any service, loan or any other extension of credit, insurance or any investment or opportunity for investment. Existing law provides for graduated penalties for willful violations of the provisions governing solicitations by telephone. A person who willfully violates such provisions is guilty of a misdemeanor for the first offense.
within 10 years. For the second offense within 10 years, the person is guilty of a gross misdemeanor. For the third and all subsequent offenses within 10 years, such a person is guilty of a category D felony and is subject to imprisonment, a fine of not more than $50,000, or both imprisonment and a fine. (NRS 599B.255) Section 25 of this bill makes any willful violation of the provisions governing solicitations by telephone a category B felony, punishable by imprisonment, a fine of not less than the amount lost by all buyers who are injured by the violation plus an additional amount of not less than $10,000 and not more than $50,000, or by both imprisonment and a fine.

Sections 2-23 of this bill create provisions governing grant writing services in this State and vest the [Commissioner and the Division] Director of the Department of Business and Industry with authority to enforce these provisions. Section 7 defines "grant writing service." [Sections 9-12 and 14 establish registration requirements for grant writing services, including the payment of a registration fee, and requirements concerning the deposit of security with the Division.] Section 9 requires certain grant writing services to register with the Director, but exempts from the provisions of sections 2-23 certain grant writing services that offer services relating to affordable housing and community development projects. Section 9 also requires the Director to publish a list of registered grant writing services on an Internet website maintained by the Director.

Section 13 prohibits a grant writing service from engaging in certain activities. [Section 15 requires a grant writing service to provide certain written statements to a buyer before the execution of a contract or before the receipt of any payment by the grant writing service.] Section 16 establishes certain requirements for a contract for grant writing services. [Section 17 sets forth the circumstances which create an irrefutable presumption that a person intends to do business and is regularly conducting business in Nevada. Section 20 provides a remedy for any buyer injured by a grant writing service, and section 21 provides that a person who violates sections 2-23 is guilty of a category B felony.] Section 22 authorizes the Director to take certain actions if a person violates the provisions of sections 2-23 and provides that such a violation is a deceptive trade practice. Section 23 requires the [Division] Director to adopt regulations to carry out the provisions of sections 2-23.

Remarks by Senator Halseth.

Senator Halseth requested that her remarks be entered in the Journal.

Amendment No. 305 to Senate Bill No. 99 deletes the references to the Division of Consumer Affairs and assigns the responsibilities under the bill to the Director of the Department of Business and Industry. The amendment deletes many of the provisions in the original bill and establishes a more focused regulatory apparatus for grant writing services. For example, the amendment provides that the bill does not apply to a consultant for certain affordable housing and community development projects. It also leaves the existing statutory definition of the term "goods and services" unchanged.

It establishes a registration process for grant writers with the Director and provides remedies and penalties the Director may impose for noncompliance.

The amendment also changes the effective dates of the bill.

Amendment No. 99.
"SUMMARY—Prohibits the use of a cellular telephone or other handheld wireless communications device while operating a motor vehicle in certain circumstances. (BDR 43-45)"

"AN ACT relating to traffic laws; prohibiting a person from using a cellular telephone or other handheld wireless communications device while operating a motor vehicle in certain circumstances; providing penalties; and providing other matters properly relating thereto."

Legislative Counsel's Digest:

Under existing traffic laws of this State, it is a crime to engage in various activities while operating a motor vehicle or to operate a motor vehicle in a reckless or unsafe manner. (Chapters 484A-484E of NRS) Section 1 of this bill makes it a crime for a person to manually type or enter text into a cellular telephone or other similar device, or to send or read data using any such device, while operating a motor vehicle. Section 1 further prohibits a person from using such a device for voice communications unless the device is used with an accessory which allows the person to communicate without using his or her hands, with certain limited exceptions. Section 1 provides an exception to the prohibitions when the cellular telephone or other device is used by law enforcement officers and other certain emergency personnel and persons designated by a sheriff or chief of police or the Director of the Department of Public Safety who are acting within the course and scope of their employment. Additional exceptions apply if the person is using the cellular telephone or other device to report or request assistance relating to a medical emergency, a safety hazard or criminal activity, or if the person is responding to a situation requiring immediate action and stopping the vehicle would be inadvisable, impractical or dangerous. A violation of the provisions added by section 1 is a misdemeanor and punishable by a fine of $50 for a first offense within the immediately preceding 7 years, $100 for a second offense within the immediately preceding 7 years and $250 for a third or subsequent offense within the immediately preceding 7 years. However, section 4 of this bill provides that until January 1, 2012, a law enforcement officer must not issue a citation to a person for violating section 1 but must give the person a verbal or written warning. Section 1 further provides that a first offense will not be treated as a moving traffic violation. Additionally, if a person is convicted of a third or subsequent offense, in addition to the fine, the driver's license of the person will be suspended for 6 months. Section 2 of this bill makes the enhanced penalty for certain traffic violations that occur in a temporary traffic control zone applicable to violations of these new crimes.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 484B of NRS is hereby amended by adding thereto a new section to read as follows:

1. Except as otherwise provided in this section, a person shall not, while operating a motor vehicle on a highway in this State:
(a) Manually type or enter text into a cellular telephone or other handheld wireless communications device, or send or read data using any such device to access or search the Internet or to engage in nonvoice communications with another person, including, without limitation, texting, electronic messaging and instant messaging.

(b) Use a cellular telephone or other handheld wireless communications device to engage in voice communications with the another person, unless the device is used with an accessory which allows the person to communicate without using his or her hands, other than to activate, deactivate or initiate a feature or function on the device.

2. The provisions of this section do not apply to:

(a) A paid or volunteer firefighter, law enforcement officer, emergency medical technician, ambulance attendant or other person trained to provide emergency medical services who is acting within the course and scope of his or her employment.

(b) A person designated by a sheriff or chief of police or the Director of the Department of Public Safety who is acting within the course and scope of his or her employment.

(c) A person who is reporting a medical emergency, a safety hazard or criminal activity or who is requesting assistance relating to a medical emergency, a safety hazard or criminal activity.

(d) A person who is responding to a situation requiring immediate action to protect the health, welfare or safety of the driver or another person and stopping the vehicle would be inadvisable, impractical or dangerous.

3. The provisions of this section do not prohibit the use of a voice-activated global positioning or navigation system that is affixed to the vehicle.

4. A person who violates any provision of subsection 1 is guilty of a misdemeanor and:

(a) For the first offense within the immediately preceding 7 years, shall pay a fine of $250.

(b) For the second offense within the immediately preceding 7 years, shall pay a fine of $500.

(c) For the third or subsequent offense within the immediately preceding 7 years, shall pay a fine of $1,000.

5. A person who violates any provision of subsection 1 may be subject to the additional penalty set forth in NRS 484B.130.

6. If a person is found guilty of a third or subsequent offense of subsection 1, the court shall, in addition to any other penalty imposed, issue an order suspending the driver's license of the person for 6 months. The court shall require the person to surrender all driver's licenses then held by the person. If the person does not possess a driver's license, the court shall issue an order prohibiting the person from applying for a driver's license for 6 months. The court shall, within 5 days after issuing the order, forward to
The Department of Motor Vehicles any licenses, together with a copy of the order.

7. The Department of Motor Vehicles:
   (a) Shall not treat a first violation of this section in the manner statutorily required for a moving traffic violation.
   (b) Shall report the suspension of a driver’s license pursuant to this section to an insurance company or its agent inquiring about the person’s driving record.

8. For the purposes of this section, a person shall be deemed not to be operating a motor vehicle if the motor vehicle is driven autonomously through the use of artificial-intelligence software and the autonomous operation of the motor vehicle is authorized by law.

8. As used in this section, "handheld wireless communications device" means a handheld device for the transfer of information without the use of electrical conductors or wires and includes, without limitation, a cellular telephone, a personal digital assistant, a pager and a text messaging device. The term does not include a device used for two-way radio communications if:
   (a) The person using the device has a license to operate the device, if required; and
   (b) All the controls for operating the device, other than the microphone and a control to speak into the microphone, are located on a unit which is used to transmit and receive communications and which is separate from the microphone and is not intended to be held.

Sec. 2. NRS 484B.130 is hereby amended to read as follows:

1. Except as otherwise provided in subsections 2 and 6, a person who is convicted of a violation of a speed limit, or of NRS 484B.150, 484B.163, 484B.200 to 484B.217, inclusive, 484B.223, 484B.227, 484B.300, 484B.303, 484B.317, 484B.320, 484B.327, 484B.330, 484B.403, 484B.587, 484B.600, 484B.603, 484B.610, 484B.613, 484B.650, 484B.653, 484B.657, 484C.110 or 484C.120, or section 1 of this act, that occurred:
   (a) In an area designated as a temporary traffic control zone; and
   (b) At a time when the workers who are performing construction, maintenance or repair of the highway or other work are present, or when the effects of the act may be aggravated because of the condition of the highway caused by construction, maintenance or repair, including, without limitation, reduction in lane width, reduction in the number of lanes, shifting of lanes from the designated alignment and uneven or temporary surfaces, including, without limitation, modifications to road beds, cement-treated bases, chip seals and other similar conditions,
   shall be punished by imprisonment or by a fine, or both, for a term or an amount equal to and in addition to the term of imprisonment or amount of the fine, or both, that the court imposes for the primary offense. Any term of imprisonment imposed pursuant to this subsection runs consecutively with the sentence prescribed by the court for the crime. This subsection does not
create a separate offense, but provides an additional penalty for the primary offense, whose imposition is contingent upon the finding of the prescribed fact.

2. The additional penalty imposed pursuant to subsection 1 must not exceed a total of $1,000, 6 months of imprisonment or 120 hours of community service.

3. Except as otherwise provided in subsection 5, a governmental entity that designates an area or authorizes the designation of an area as a temporary traffic control zone in which construction, maintenance or repair of a highway or other work is conducted, or the person with whom the governmental entity contracts to provide such service, shall cause to be erected:
   (a) A sign located before the beginning of such an area stating "DOUBLE PENALTIES IN WORK ZONES" to indicate a double penalty may be imposed pursuant to this section;
   (b) A sign to mark the beginning of the temporary traffic control zone; and
   (c) A sign to mark the end of the temporary traffic control zone.

4. A person who otherwise would be subject to an additional penalty pursuant to this section is not relieved of any criminal liability because signs are not erected as required by subsection 3 if the violation results in injury to any person performing highway construction or maintenance or other work in the temporary traffic control zone or in damage to property in an amount equal to $1,000 or more.

5. The requirements of subsection 3 do not apply to an area designated as a temporary traffic control zone:
   (a) Pursuant to an emergency which results from a natural or other disaster and which threatens the health, safety or welfare of the public; or
   (b) On a public highway where the posted speed limit is 25 miles per hour or less and that provides access to or is appurtenant to a residential area.

6. A person who would otherwise be subject to an additional penalty pursuant to this section is not subject to an additional penalty if the violation occurred in a temporary traffic control zone for which signs are not erected pursuant to subsection 5, unless the violation results in injury to any person performing highway construction or maintenance or other work in the temporary traffic control zone or in damage to property in an amount equal to $1,000 or more.

Sec. 3. NRS 707.375 is hereby amended to read as follows:

2. As used in subsection 1, "telephonic device" means a cellular phone, satellite phone, portable phone or any other similar electronic device that is handheld and designed or used to communicate with another person.
Sec. 4. Notwithstanding the provisions of section 1 of this act, on or before December 31, 2011, a law enforcement officer shall not issue a citation for a violation of the provisions of section 1 of this act but shall issue a verbal or written warning to a person who violates those provisions informing the person that he or she has violated the provisions of section 1 of this act and of the penalties that will apply to such a violation after December 31, 2011.

Senator Breeden moved the adoption of the amendment.
Remarks by Senators Breeden and Denis.
Senator Breeden requested that the following remarks be entered in the Journal.

SENATOR BREEDEN:
Amendment No. 99 to Senate Bill No. 140 expands the list of law enforcement personnel exempted from the provisions of the bill. The amendment reduces the fines for violations and stipulates that law enforcement will not issue citations for a violation until January 1, 2012. Any violations that occur between October 1, 2011, the bill's effective date, and December 31, 2011, would result in a verbal or written warning. Amendment No. 99 also excludes certain two-way communication devices from the definition of a "handheld wireless communications device."

SENATOR DENIS:
I would like clarification on the last statement where you said it excludes additional wireless devices.

SENATOR BREEDEN:
The intent of the bill was not to disrupt industries such as the trucking industry, the cab industry or the use of CB radios. We defined the actual device in the bill for the "push to talk" radios.

SENATOR DENIS:
Does that include short-wave radios?

SENATOR BREEDEN:
That will be dealt with in the next amendment.

Amendment adopted.
The following amendment was proposed by Senator Breeden:
Amendment No. 483.
“SUMMARY—Prohibits the use of a cellular telephone or other handheld wireless communications device while operating a motor vehicle in certain circumstances. (BDR 43-45)

“AN ACT relating to traffic laws; prohibiting a person from using a cellular telephone or other handheld wireless communications device while operating a motor vehicle in certain circumstances; providing penalties; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Under existing traffic laws of this State, it is a crime to engage in various activities while operating a motor vehicle or to operate a motor vehicle in a reckless or unsafe manner. (Chapters 484A-484E of NRS) Section 1 of this bill makes it a crime for a person to manually type or enter text into a cellular telephone or other similar device, or to send or read data using any such
device, while operating a motor vehicle. Section 1 further prohibits a person from using such a device for voice communications unless the device is used with an accessory which allows the person to communicate without using his or her hands, with certain limited exceptions. Section 1 provides an exception to the prohibitions when the cellular telephone or other device is used by law enforcement officers and other emergency personnel who are acting within the course and scope of their employment. Additional exceptions apply if: (1) the person is using the cellular telephone or other device to report or request assistance relating to a medical emergency, a safety hazard or criminal activity; (2) the person is responding to a situation requiring immediate action and stopping the vehicle would be inadvisable, impractical or dangerous; or (3) the person is a licensed amateur radio operator providing communications services in connection with a disaster or emergency, participating in a drill, test, or other exercise in preparation for a disaster or emergency or otherwise communicating public information. A violation of the provisions added by section 1 is a misdemeanor and punishable by a fine of $250 for a first offense within the immediately preceding 7 years, $500 for a second offense within the immediately preceding 7 years and $1,000 for a third or subsequent offense within the immediately preceding 7 years. Section 1 further provides that a first offense will not be treated as a moving traffic violation. Additionally, if a person is convicted of a third or subsequent offense, in addition to the fine, the driver's license of the person will be suspended for 6 months. Section 2 of this bill makes the enhanced penalty for certain traffic violations that occur in a temporary traffic control zone applicable to violations of these new crimes.

Senator Breeden moved the adoption of the amendment.
Remarks by Senators Breeden and Denis.
Senator Breeden requested that the following remarks be entered in the Journal.

SENATOR BREEDEN:
Amendment No. 483 to Senate Bill No. 140 allows a person who is licensed as an amateur radio operator and who is providing communications services in connection with a disaster or emergency, participating in a drill, test or other exercise in preparation for a disaster or emergency or otherwise communicating public information to be exempt from the provisions of the bill that prohibit use of a handheld wireless communication device while driving.
This amendment also extends the same exemptions that we adopted in the Committee's amendment for members of search and rescue operations to the amateur radio operators.

SENATOR DENIS:
Is this the one where the short-wave radios used in emergencies are excluded?

SENATOR BREEDEN:
Yes, they are excluded, however, only when they are performing their essential duties.

SENATOR DENIS:
It includes drills also, not just an actual emergency?

SENATOR BREEDEN:
Correct.
SENATOR DENIS:
It does not include if they use their short-wave radio for other reasons.

SENATOR BREEDEN:
Correct.

Bill read second time.
The following amendment was proposed by the Committee on Commerce, Labor and Energy:
Amendment No. 269.
"SUMMARY—Makes various changes concerning public health.
(BDR 54-837)"
"AN ACT relating to public health; revising provisions governing access to certain medical records; requiring a physician or an osteopathic physician who performs an autopsy to submit a written report of the findings of the autopsy to the Board of Medical Examiners or the State Board of Osteopathic Medicine in certain circumstances; revising provisions governing the submission of certain reports concerning surgeries requiring conscious sedation, deep sedation or general anesthesia; revising provisions governing reports to the Board of Medical Examiners and the State Board of Osteopathic Medicine of a change in the privileges of certain providers of health care; revising provisions governing the standard of proof in any disciplinary hearing before the Board; revising provisions governing access to and the data collected by the computerized program to track prescriptions of controlled substances developed by the State Board of Pharmacy and the Investigation Division of the Department of Public Safety; increasing certain fees; and providing other matters properly relating thereto."
Legislative Counsel's Digest:
Section 1 of this bill provides that if the health care records of a patient are located within this State, a provider of health care must make the records available for physical inspection within 5 working days after they are requested.
Section 2 of this bill requires a physician who performs an autopsy and who determines that the death of the decedent is the result of an overdose of a controlled substance or dangerous drug to submit a written report of such findings to the Board of Medical Examiners. Section 2 also requires the Board, upon receipt of such a report, to investigate the death of the decedent to determine whether the conduct of any physician contributed to the death. Section 18 of this bill imposes similar requirements concerning an autopsy performed by an osteopathic physician.
Existing law requires any hospital, clinic or other medical facility or medical society to report to the Board of Medical Examiners any change in the privileges of a physician, perfusionist, physician assistant or practitioner of respiratory care while the person is under investigation and the outcome of any disciplinary action taken within 30 days after the change in privileges is made or disciplinary action is taken. A hospital, clinic or other medical facility or medical society is also required to report such information to the State Board of Osteopathic Medicine concerning a change in the privileges of an osteopathic physician who is under investigation. (NRS 630.307, 633.533) Section 8 of this bill requires that such a report concerning a change in the privileges of a physician, perfusionist, physician assistant or practitioner of respiratory care be made within 5 days after the change in privileges is made if the change in privileges is based on an investigation of the mental, medical or psychological competency of the person or suspected or alleged substance abuse by the person. Section 21 of this bill imposes similar reporting requirements concerning a change in the privileges of a physician assistant who is under investigation and a change in the privileges of an osteopathic physician or physician assistant if the change in privileges is based on an investigation of the mental, medical or psychological competency of the osteopathic physician or physician assistant or suspected or alleged substance abuse by the osteopathic physician or physician assistant.

Section 10 of this bill provides that in any disciplinary hearing before the Board of Medical Examiners, a finding of the Board must be supported by a preponderance of the evidence.

Section 17 of this bill requires that the computerized program to track prescriptions of controlled substances developed by the State Board of Pharmacy and the Investigation Division of the Department of Public Safety be designed to provide information regarding data relating to the prescribing of controlled substances that is specific to a particular patient. Section 17 also requires the Board and the Division to monitor the prescription activity of prescribing practitioners and further provides that access to the information concerning particular patients must be restricted only to certain persons for the purpose of confirming the accuracy of the information after notice from the Board to a prescribing practitioner concerning the number of prescriptions written by the practitioner.

Existing law requires persons who are licensed to practice medicine by the Board of Medical Examiners and persons who are licensed to practice osteopathic medicine by the State Board of Osteopathic Medicine to make certain reports concerning surgeries requiring conscious sedation, deep sedation or general anesthesia performed by the holder of the license and the occurrence of any sentinel events arising from those surgeries. Persons who are licensed to practice medicine are required to submit the reports to the Board of Medical Examiners and persons who are licensed to practice osteopathic medicine are required to submit the reports to the State Board of
Osteopathic Medicine. The boards are required to submit the reports to the Health Division of the Department of Health and Human Services which then reviews the reports. (NRS 449.447, 630.30665, 633.524) Section 18 of this bill repeals the provision which requires the Board of Medical Examiners to collect and submit the reports, and section 12 of this bill instead requires persons who are licensed to practice medicine to submit the reports directly to the Health Division.

Section 5 of this bill increases the maximum amount of the fee that may be charged for the renewal of a limited, restricted, authorized facility or special license from $400 to $800. Section 7.5 of this bill revises these reporting requirements as they pertain to a physician and requires a physician to report the occurrence of any sentinel event arising from a surgery requiring conscious sedation, deep sedation or general anesthesia within 14 days after the occurrence of the sentinel event. Section 20 of this bill imposes a similar reporting requirement on an osteopathic physician.

(d) If the application was denied, the reasons for the denial.

Sec. 41. NRS 386.527 is hereby amended to read as follows:
386.527 1. If the State Board of Charter Schools, the board of trustees of a school district or a college or university within the Nevada System of Higher Education approves an application to form a charter school, it shall grant a written charter to the applicant. The State Board of Charter Schools, the board of trustees, the college or the university, as applicable, shall, not later than 10 days after the approval of the application, provide written notice to the Department of the approval and the date of the approval. If the board of trustees approves the application, the board of trustees shall be deemed the sponsor of the charter school.

2. If the State Board of Charter Schools approves the application:
   (a) The State Board of Charter Schools shall be deemed the sponsor of the charter school.
   (b) Neither the State of Nevada, the State Board of Education, the State Board of Charter Schools nor the Department is an employer of the members of the governing body of the charter school or any of the employees of the charter school.

3. If a college or university within the Nevada System of Higher Education approves the application:
   (a) That institution shall be deemed the sponsor of the charter school.
   (b) Neither the State of Nevada, the State Board of Education, the State Board of Charter Schools nor the Department is an employer of the members of the governing body of the charter school or any of the employees of the charter school.

4. The governing body of a charter school may request, at any time, a change in the sponsorship of the charter school to an entity that is authorized to sponsor charter schools pursuant to NRS 386.515. The State Board of Charter Schools shall adopt:
   (a) A process for a charter school that requests a change in the sponsorship of the charter school, which must not require the charter school to undergo all the requirements of an initial application to form a charter school; and
   (b) Objective criteria for the conditions under which such a request may be granted. If the request is for sponsorship by the State Board of Charter Schools, the governing body must not be required to submit an application and the State Board of Charter Schools shall accept the transfer of the charter school to the State Board of Charter Schools.

5. Except as otherwise provided in subsection 7, a written charter must be for a term of 6 years unless the governing body of a charter school renews its initial charter after 3 years of operation pursuant to subsection 2 of NRS 386.530. A written charter must include all conditions of operation set forth in subsection 2 of NRS 386.520 and include the kind of school, as defined in subsections 1 to 4, inclusive, of NRS 388.020 for which the charter school is authorized to operate. If the State Board of Charter Schools...
Schools Public Charter School Authority or a college or university within the Nevada System of Higher Education is the sponsor of the charter school, the written charter must set forth the responsibilities of the sponsor and the charter school with regard to the provision of services and programs to pupils with disabilities who are enrolled in the charter school in accordance with the Individuals with Disabilities Education Act, 20 U.S.C. §§ 1400 et seq., and NRS 388.440 to 388.520, inclusive. 6. The governing body of a charter school may submit to the sponsor of the charter school a written request for an amendment of the written charter of the charter school. Such an amendment may include, without limitation, the expansion of instruction and other educational services to pupils who are enrolled in grade levels other than the grade levels of pupils currently approved for enrollment in the charter school if the expansion of grade levels does not change the kind of school, as defined in NRS 388.020, for which the charter school is authorized to operate. If the proposed amendment complies with the provisions of this section, NRS 386.500 to 386.610, inclusive, sections 26 to 35.5, inclusive, of this act, and any other statute or regulation applicable to charter schools, the sponsor may amend the written charter in accordance with the proposed amendment. If a charter school wishes to expand the instruction and other educational services offered by the charter school to pupils who are enrolled in grade levels other than the grade levels of pupils currently approved for enrollment in the charter school and the expansion of grade levels changes the kind of school, as defined in NRS 388.020, for which the charter school is authorized to operate, the governing body of the charter school must submit a new application to form a charter school. If such an application is approved, the charter school may continue to operate under the same governing body and an additional governing body does not need to be selected to operate the charter school with the expanded grade levels.

7. The State Board of Charter Schools Public Charter School Authority shall adopt objective criteria for the issuance of a written charter to an applicant who is not prepared to commence operation on the date of issuance of the written charter. The criteria must include, without limitation, the:
   (a) Period for which such a written charter is valid; and
   (b) Timelines by which the applicant must satisfy certain requirements demonstrating its progress in preparing to commence operation.
   A holder of such a written charter may apply for grants of money to prepare the charter school for operation. A written charter issued pursuant to this subsection must not be designated as a conditional charter or a provisional charter or otherwise contain any other designation that would indicate the charter is issued for a temporary period.
8. The holder of a written charter that is issued pursuant to subsection 7 shall not commence operation of the charter school and is not eligible to receive apportionments pursuant to NRS 387.124 until the sponsor has determined that the requirements adopted by the State Board of Charter Schools pursuant to subsection 7 have been satisfied and that the facility the charter school will occupy has been inspected and meets the requirements of any applicable building codes, codes for the prevention of fire, and codes pertaining to safety, health and sanitation. Except as otherwise provided in this subsection, the sponsor shall make such a determination 30 days before the first day of school for the:

(a) Schools of the school district in which the charter school is located that operate on a traditional school schedule and not a year-round school schedule; or

(b) Charter school,
whichever date the sponsor selects. The sponsor shall not require a charter school to demonstrate compliance with the requirements of this subsection more than 30 days before the date selected. However, it may authorize a charter school to demonstrate compliance less than 30 days before the date selected.

Sec. 42. NRS 386.530 is hereby amended to read as follows:

1. Except as otherwise provided in subsection 2, an application for renewal of a written charter may be submitted to the sponsor of the charter school not less than 120 days before the expiration of the charter. The application must include the information prescribed by the regulations of the State Board of Charter Schools. The sponsor shall conduct an intensive review and evaluation of the charter school in accordance with the regulations of the State Board of Charter Schools. The sponsor shall renew the charter unless it finds the existence of any ground for revocation set forth in NRS 386.535. (a) Include a statement of the deficiencies or reasons upon which the action of the sponsor is based; and

(b) Prescribe a period of not less than 30 days during which the charter school may correct any such deficiencies.

If the charter school corrects the deficiencies to the satisfaction of the sponsor within the time prescribed in paragraph (b), the sponsor shall renew the charter of the charter school.

(b) Creates an undue financial hardship for any charter school in this State.

A regulation shall be deemed approved if the State Board of Education does not disapprove the regulation within 45 days after it is adopted by the State Public Charter School Authority.

Sec. 44. NRS 386.547 is hereby amended to read as follows:

2. Make available information concerning the formation and operation of charter schools in this State to pupils, parents and legal guardians of pupils, teachers and other educational personnel and members of the general public.

Sec. 45. NRS 386.5515 is hereby amended to read as follows:

386.5515 1. To the extent money is available from legislative appropriation or otherwise, a charter school may apply to the Department for money for facilities if:
(a) The charter school has been operating in this State for at least 5 consecutive years and is in good financial standing;
(b) Each financial audit and each performance audit of the charter school required pursuant to NRS 386.540 contains no major notations, corrections or errors concerning the charter school for at least 5 consecutive years;

If the charter school no longer satisfies the requirements of subsection 1 or if reasonable evidence of noncompliance in achieving the educational goals and objectives of the charter school exists based upon the annual report, the charter school shall, upon written notice from the sponsor, submit to an annual performance audit. Notwithstanding the provisions of paragraph (b) of subsection 1, such a charter school:

3. A charter school that does not satisfy the requirements of subsection 1 shall submit a quarterly report of the financial status of the charter school if requested by the sponsor of the charter school.

Sec. 45.5. NRS 386.560 is hereby amended to read as follows:

2. A charter school may use any public facility located within the school district in which the charter school is located. A charter school may use school buildings owned by the school district only upon approval of the
board of trustees of the school district and during times that are not regular school hours.

3. The board of trustees of a school district may donate surplus personal property of the school district to a charter school that is located within the school district.

4. Except as otherwise provided in this subsection, upon the request of a parent or legal guardian of a pupil who is enrolled in a charter school, the board of trustees of the school district in which the pupil resides shall authorize the pupil to participate in a class that is not available to the pupil at the charter school or participate in an extracurricular activity, excluding sports, at a public school within the school district if:
   (a) Space for the pupil in the class or extracurricular activity is available; and
   (b) The parent or legal guardian demonstrates to the satisfaction of the board of trustees that the pupil is qualified to participate in the class or extracurricular activity.

If the board of trustees of a school district authorizes a pupil to participate in a class or extracurricular activity, excluding sports, pursuant to this subsection, the board of trustees is not required to provide transportation for the pupil to attend the class or activity. The provisions of this subsection do not apply to a pupil who is enrolled in a charter school and who desires to participate on a part-time basis in a program of distance education provided by the board of trustees of a school district pursuant to NRS 388.820 to 388.874, inclusive. Such a pupil must comply with NRS 388.858.

5. Upon the request of a parent or legal guardian of a pupil who is enrolled in a charter school, the board of trustees of the school district in which the pupil resides shall authorize the pupil to participate in sports at the public school that he or she would otherwise be required to attend within the school district, or upon approval of the board of trustees, any public school within the same zone of attendance as the charter school if:
   (a) Space is available for the pupil to participate; and
   (b) The parent or legal guardian demonstrates to the satisfaction of the board of trustees that the pupil is qualified to participate.

If the board of trustees so revokes its approval, neither the board of trustees nor the public school is liable for any damages relating to the denial of services to the pupil.

Sec. 46. NRS 386.570 is hereby amended to read as follows:
1. Each pupil who is enrolled in a charter school, including, without limitation, a pupil who is enrolled in a program of special education in a charter school, must be included in the count of pupils in the school district for the purposes of apportionments and allowances from the State Distributive School Account pursuant to NRS 387.121 to 387.126, inclusive, unless the pupil is exempt from compulsory attendance pursuant to NRS 392.070. A charter school is entitled to receive its proportionate share of any other money available from federal, state or local sources that the school or the pupils who are enrolled in the school are eligible to receive. If a charter school receives special education program units directly from this State, the amount of money for special education that the school district pays to the charter school may be reduced proportionately by the amount of money the charter school received from this State for that purpose.

2. All money received by the charter school from this State or from the board of trustees of a school district must be deposited in an account with a bank, credit union or other financial institution in this State. The governing body of a charter school may negotiate with the board of trustees of the school district and the State Board for additional money to pay for services which the governing body wishes to offer.

3. Upon completion of each school quarter, the Superintendent of Public Instruction shall pay to the sponsor of a charter school one-quarter of the yearly sponsorship fee for the administrative costs associated with sponsorship for that school quarter if the sponsor provided administrative services during that school quarter. The request must include an itemized list of those costs. Unless a delay is granted pursuant to subsection [9, [8, upon receipt of such a request, the governing body shall pay the reimbursement to the board of trustees of the school district if the board of trustees sponsors the charter school, to the Department if the State Board sponsors the charter school or to the college or university within the Nevada System of Higher Education if that institution sponsors the charter school. If a governing body fails to pay the reimbursement pursuant to this subsection or pursuant to a plan approved by the Superintendent of Public Instruction in accordance with subsection [9, [8, the charter school shall be deemed to have violated its written charter and the sponsor may take such action to revoke the written charter pursuant to NRS 386.535 as it deems necessary. [If the board of trustees of a school district is the sponsor of a charter school, the] The amount of money that may be paid to the sponsor pursuant to this subsection for administrative expenses in 1 school year must not exceed [•]

(a) For the first year of operation of the charter school, 2 percent of the total amount of money apportioned to the charter school during the year pursuant to NRS 387.124, as adjusted by the final computation of apportionment pursuant to subsection 4 of NRS 387.1243.
(b) For any year after the first year of operation of the charter school, 1 percent of the total amount of money apportioned to the charter school during the year pursuant to NRS 387.124, as adjusted by the final computation of apportionment pursuant to subsection 4 of NRS 387.1243.

4. If the State Board or a college or university within the Nevada System of Higher Education is the sponsor of a charter school, the amount of money that may be paid to the Department or to the institution, as applicable, pursuant to subsection 3 for administrative expenses in 1 school year must not exceed:

(a) For the first year of operation of the charter school, 2 percent of the total amount of money apportioned to the charter school during the year pursuant to NRS 387.124, as adjusted by the final computation of apportionment pursuant to subsection 4 of NRS 387.1243.

(b) For any year after the first year of operation of the charter school, 1.5 percent of the total amount of money apportioned to the charter school during the year pursuant to NRS 387.124, as adjusted by the final computation of apportionment pursuant to subsection 4 of NRS 387.1243.

5. [2 percent of the total amount of money apportioned to the charter school during the year pursuant to NRS 387.124], which must be deducted from the quarterly apportionment to the charter school made pursuant to NRS 387.124. Except as otherwise provided in this subsection, the yearly sponsorship fee for the sponsor of a charter school must be in an amount of money not to exceed 2 percent of the total amount of money apportioned to the charter school during the school year pursuant to NRS 387.124. If the governing body of a charter school satisfies the requirements of this subsection, the governing body may submit a request to the sponsor of the charter school for transmittal to the Superintendent of Public Instruction for approval of a sponsorship fee in an amount that is less than 2 percent but at least 1 percent of the total amount of money apportioned to the charter school during the school year pursuant to NRS 387.124. The Superintendent of Public Instruction shall approve such a request if the Superintendent determines that the charter school satisfies the requirements of this subsection. If the Superintendent of Public Instruction approves such a request, the Superintendent shall provide notice of his or her decision to the governing body of the charter school and the sponsor of the charter school. The governing body of a charter school may submit a request for a reduction of the sponsorship fee if:

(a) The charter school has been operating in this State for at least 3 consecutive years and is in good financial standing;

(b) Each financial audit and each performance audit of the charter school required pursuant to NRS 386.540 contains no major notations, corrections or errors concerning the charter school for at least 3 consecutive years;

(c) The charter school has met or exceeded adequate yearly progress as determined pursuant to NRS 385.3613 or has demonstrated improvement
in the achievement of pupils enrolled in the charter school, as indicated by annual measurable objectives determined by the State Board, for the majority of the years of its operation; and

(d) At least 75 percent of the pupils enrolled in the charter school who are required to take the high school proficiency examination have passed that examination, if the charter school enrolls pupils at the high school grade level.

4. To determine the amount of money for distribution to a charter school in its first year of operation, the count of pupils who are enrolled in the charter school must initially be determined 30 days before the beginning of the school year of the school district, based on the number of pupils whose applications for enrollment have been approved by the charter school. The count of pupils who are enrolled in the charter school must be revised on the last day of the first school month of the school district in which the charter school is located for the school year, based on the actual number of pupils who are enrolled in the charter school. Pursuant to subsection 5 of NRS 387.124, the governing body of a charter school may request that the apportionments made to the charter school in its first year of operation be paid to the charter school 30 days before the apportionments are otherwise required to be made.

5. If a charter school ceases to operate as a charter school during a school year, the remaining apportionments that would have been made to the charter school pursuant to NRS 387.124 for that year must be paid on a proportionate basis to the school districts where the pupils who were enrolled in the charter school reside.

6. The governing body of a charter school may solicit and accept donations, money, grants, property, loans, personal services or other assistance for purposes relating to education from members of the general public, corporations or agencies. The governing body may comply with applicable federal laws and regulations governing the provision of federal grants for charter schools. The State Board of Charter Schools may assist a charter school that operates exclusively for the enrollment of pupils who receive special education in identifying sources of money that may be available from the Federal Government or this State for the provision of educational programs and services to such pupils.

7. If a charter school uses money received from this State to purchase real property, buildings, equipment or facilities, the governing body of the charter school shall assign a security interest in the property, buildings, equipment and facilities to the State of Nevada.

8. The governing body of a charter school may submit to the Superintendent of Public Instruction a written request to delay a quarterly payment of a reimbursement for the administrative costs that a charter school owes pursuant to this section. The written request must be in the form prescribed by the Superintendent and must include, without limitation,
documentation that a financial hardship exists for the charter school and a plan for the payment of the reimbursement. The Superintendent may approve or deny the request and shall notify the governing body and the sponsor of the charter school of the approval or denial of the request.

Sec. 47. NRS 386.576 is hereby amended to read as follows:

386.576 1. The Fund for Charter Schools is hereby created in the State Treasury as a revolving loan fund, to be administered by the State Board of Charter Schools.

2. The money in the revolving fund must be invested as other state funds are invested. All interest and income earned on the money in the revolving fund must be credited to the revolving fund. Any money remaining in the revolving fund at the end of a fiscal year does not revert to the State General Fund, and the balance in the Fund must be carried forward.

3. All payments of principal and interest on all the loans made to a charter school from the revolving fund must be deposited in the State Treasury for credit to the revolving fund.

4. Claims against the revolving fund must be paid as other claims against the State are paid.

5. The State Board of Charter Schools may accept gifts, grants, bequests and donations from any source for deposit in the revolving fund.

Sec. 48. NRS 386.577 is hereby amended to read as follows:

Sec. 53. NRS 387.124 is hereby amended to read as follows:
Except as otherwise provided in this section and NRS 387.528:

1. On or before August 1, November 1, February 1 and May 1 of each year, the Superintendent of Public Instruction shall apportion the State Distributive School Account in the State General Fund among the several county school districts, charter schools and university schools for profoundly gifted pupils in amounts approximating one-fourth of their respective yearly apportionments less any amount set aside as a reserve. The apportionment to a school district, computed on a yearly basis, equals the difference between the basic support and the local funds available pursuant to NRS 387.1235, minus all the funds attributable to pupils who reside in the county but attend a charter school, all the funds attributable to pupils who reside in the county and are enrolled full-time or part-time in a program of distance education provided by another school district or a charter school and all the funds attributable to pupils who are enrolled in a university school for profoundly gifted pupils located in the county. No apportionment may be made to a school district if the amount of the local funds exceeds the amount of basic support.

2. Except as otherwise provided in subsection 3, the apportionment to a charter school, computed on a yearly basis, is equal to the sum of the basic support per pupil in the county in which the pupil resides plus the amount of local funds available per pupil pursuant to NRS 387.1235 and all other funds available for public schools in the county in which the pupil resides minus the sponsorship fee prescribed by NRS 386.570 and minus all the funds attributable to pupils who are enrolled in the charter school but are concurrently enrolled part-time in a program of distance education provided by a school district or another charter school. If the apportionment per pupil to a charter school is more than the amount to be apportioned to the school district in which a pupil who is enrolled in the charter school resides, the school district in which the pupil resides shall pay the difference directly to the charter school.

3. The apportionment to a charter school that is sponsored by the State [Board of Charter Schools] Public Charter School Authority or by a college or university within the Nevada System of Higher Education, computed on a yearly basis, is equal to the sum of the basic support per pupil in the county in which the pupil resides plus the amount of local funds available per pupil pursuant to NRS 387.1235 and all other funds available for public schools in the county in which the pupil resides, minus the sponsorship fee prescribed by NRS 386.570 and minus all funds attributable to pupils who are enrolled in the charter school but are concurrently enrolled part-time in a program of distance education provided by a school district or another charter school.

4. In addition to the apportionments made pursuant to this section, an apportionment must be made to a school district or charter school that provides a program of distance education for each pupil who is enrolled part-time in the program. The amount of the apportionment must be equal to the percentage of the total time services are provided to the pupil through the
program of distance education per school day in proportion to the total time services are provided during a school day to pupils who are counted pursuant to subparagraph (2) of paragraph (a) of subsection 1 of NRS 387.1233 for the school district in which the pupil resides.

5. The governing body of a charter school may submit a written request to the Superintendent of Public Instruction to receive, in the first year of operation of the charter school, an apportionment 30 days before the apportionment is required to be made pursuant to subsection 1. Upon receipt of such a request, the Superintendent of Public Instruction may make the apportionment 30 days before the apportionment is required to be made. A charter school may receive all four apportionments in advance in its first year of operation.

6. The apportionment to a university school for profoundly gifted pupils, computed on a yearly basis, is equal to the sum of the basic support per pupil in the county in which the university school is located plus the amount of local funds available per pupil pursuant to NRS 387.1235 and all other funds available for public schools in the county in which the university school is located. If the apportionment per pupil to a university school for profoundly gifted pupils is more than the amount to be apportioned to the school district in which the university school is located, the school district shall pay the difference directly to the university school. The governing body of a university school for profoundly gifted pupils may submit a written request to the Superintendent of Public Instruction to receive, in the first year of operation of the university school, an apportionment 30 days before the apportionment is required to be made pursuant to subsection 1. Upon receipt of such a request, the Superintendent of Public Instruction may make the apportionment 30 days before the apportionment is required to be made. A university school for profoundly gifted pupils may receive all four apportionments in advance in its first year of operation.

7. The Superintendent of Public Instruction shall apportion, on or before August 1 of each year, the money designated as the "Nutrition State Match" pursuant to NRS 387.105 to those school districts that participate in the National School Lunch Program, 42 U.S.C. §§ 1751 et seq. The apportionment to a school district must be directly related to the district's reimbursements for the Program as compared with the total amount of reimbursements for all school districts in this State that participate in the Program.

8. If the State Controller finds that such an action is needed to maintain the balance in the State General Fund at a level sufficient to pay the other appropriations from it, the State Controller may pay out the apportionments monthly, each approximately one-twelfth of the yearly apportionment less any amount set aside as a reserve. If such action is needed, the State Controller shall submit a report to the Department of Administration and the Fiscal Analysis Division of the Legislative Counsel Bureau documenting reasons for the action.

Amendment No. 267.

"SUMMARY—Revises provisions relating to health care and health insurance. (BDR 57-253)"

"AN ACT relating to health care; requiring the Commissioner of Insurance to establish a task force to study the use in this State of electronic identification cards that contain certain health insurance information; setting forth the powers and duties of the task force and the requirements of the study; requiring the Division of Insurance of the Department of Business and Industry to provide administrative support for the task force; prohibiting certain insurers and certain self-insured governmental entities from requiring prior authorization for medical and dental care under certain circumstances; revising provisions governing the modification of contracts between insurers and providers of health care under certain circumstances; requiring the Department of Health and Human Services to prescribe a minimum report certain rates of reimbursement for physicians for care and services provided pursuant to certain state plans and programs which provide medical assistance; providing that certain requirements concerning health insurance shall be deemed not to apply to certain nonprofit entities; revising the requirement that certain insurers and health care facilities accept a standardized form to obtain information relating to the credentials of a provider of health care; requiring the Department to conduct a study concerning medical homes; requiring the Department to submit reports concerning certain studies to the Legislature; and providing other matters properly relating thereto."

Legislative Counsel's Digest:

Section 2 of this bill requires the Commissioner of Insurance to establish a task force on the use in this State of electronic identification cards that contain information relating to health insurance. The task force must consist of the Commissioner, the Director of the Department of Health and Human Services and three other members with knowledge and experience concerning health insurance or health care in this State who are appointed by the Commissioner. Section 3 of this bill requires the task force to study the use in this State of electronic identification cards which contain in an
electronic format the information that is necessary to process a claim for coverage under a health care plan and specifies the issues that must be included in the study. Section 5 of this bill requires the Division of Insurance of the Department of Business and Industry to provide administrative support for the task force. Section 22 of this bill requires the Commissioner of Insurance, on or before January 31, 2013, to submit to the Director of the Legislative Counsel Bureau for transmittal to the next regular session of the Legislature a written report concerning the results of the study conducted by the task force and any recommendations for legislation.

Sections 6 and 15 of this bill prohibit certain insurers and self-insured governmental entities from requiring an insured to obtain prior authorization for medical and dental care if certain conditions are met including that: (1) the insured has been diagnosed with a severe or chronic condition by a specialized health care provider; (2) the insurer or entity has confirmed the diagnosis; (3) the medical or dental service is covered by the contract or plan of insurance; (4) the medical or dental service is clinically appropriate; (5) the medical or dental service is medically necessary; and (6) the medical or dental service is not more costly than and is equally effective as other services. The Commissioner is required to adopt regulations for carrying out the provisions of section 6.

Sections 8-12, 14 and 15 of this bill require written notice of a contract modification between certain insurers and a provider of health care which involves the insurer's schedule of payments to be sent to the provider at least [90] 45 days before the proposed modification will take effect [45], and require such insurers, upon request, to submit to a provider of health care with whom they contract any changes to the fee schedule applicable to the provider's practice. Section 14.5 of this bill imposes similar requirements with respect to contracts between an organization for dental care and a dentist and, consistent with similar provisions of law, provides that such a contract may be modified at any time pursuant to a written agreement executed by both parties.

Section 16 of this bill requires the [Director of the] Department of Health and Human Services, with respect to the State Plan for Medicaid and the Children's Health Insurance Program, to include in each state plan which provides medical assistance a rate for reimbursing providers of health care which is not lower than the rate offered by Medicare in 2002. It report every rate of reimbursement for physicians which is provided on a fee-for-service basis and which is lower than the rate provided on the current Medicare fee schedule for care and services provided by physicians. Section 16 also requires the Director of the Department to publish a schedule of such rates of reimbursement on an Internet website maintained by the Department [4] and to submit an annual report concerning such rates to the Legislature.
Section 17.5 of this bill provides that certain requirements concerning health insurance that are enacted after January 1, 2011, shall be deemed not to apply to certain nonprofit entities.

Existing law requires the Commissioner of Insurance to prescribe a single, standardized form for use by insurers, carriers, societies, corporations, health maintenance organizations and managed care organizations to obtain any information relating to the credentials of a provider of health care. (NRS 629.095) Section 21 of this bill requires the Commissioner to prescribe that form for use by [insurers that provide medical malpractice insurance.] hospitals, medical facilities and other facilities that provide health care.

Section 24.5 of this bill requires the Department of Health and Human Services to conduct a study concerning medical homes and to submit certain reports concerning the study to the Legislature. Section 24.7 of this bill imposes similar reporting requirements on the Department with respect to its study of electronic identification cards that contain information relating to health insurance.

A parent or guardian must physically appear at the tanning establishment and produce suitable identification. The parent or guardian must also sign a written consent verifying that the person signing is the parent or guardian of the minor and expressly authorizing the minor to use tanning equipment at the establishment.

An operator who does not identify a parent or guardian is subject to a civil action with specified damages, in addition to costs and attorney's fees.

An owner or operator who complies in good faith with the identification and consent provisions of the bill is not liable in a civil action.

SENATOR LEE:
Is the $2,000 fine for the first occurrence a mandatory fine or can it be waived?

SENATOR HALSETH:
I would like to refer all questions regarding this bill to my colleague from Senate District No. 6.

SENATOR COPENING:
If that is a concern to you, I have no problem putting that language in there. It allows a parent to take a civil action against a tanning facility. If they did not want to take a civil action against the facility, they would not have to. It is their choice. If the court wanted to waive the judgment, they could do it.

SENATOR LEE:
Thank you, I appreciate it.

Sec. 15. Notwithstanding any other provision of law:

1. Except as otherwise provided in this section, an insurer that issues a policy of portable electronics insurance may not terminate the
policy before the expiration of the agreed term of the policy [or otherwise change any term or condition of the policy if,] unless, not less than 30 days before the effective date of the cancellation or changed term or condition, the insurer provides notice to:

(a) The holder of the policy of portable electronics insurance; and
(b) If the policy is a group policy issued to a vendor under which individual customers may elect to enroll for coverage, each enrolled customer.

2. An insurer shall not change any term or condition of a policy of portable electronics insurance more than once in any 6-month period. If the insurer changes a term or condition of a policy of portable electronics insurance pursuant to subsection 1, the insurer shall, not less than 30 days before the effective date of the change, provide:

(a) The policyholder with a revised policy or endorsement; and

3. An insurer may terminate an enrolled customer's coverage under a vendor's policy of portable electronics insurance upon the discovery of fraud or material misrepresentation by the enrolled customer in obtaining the coverage or in presenting a claim thereunder if the insurer provides notice of the termination to the vendor and the enrolled customer within 15 days after discovery of the fraud or material misrepresentation.

4. An insurer may terminate an enrolled customer's coverage under a vendor's policy of portable electronics insurance if the enrolled customer fails to pay a premium and the insurer gives the enrolled customer not less than 10 days' notice of his or her failure to pay the premium.

5. An insurer may immediately terminate an enrolled customer's coverage under a vendor's policy of portable electronics insurance:

(a) For the covered customer's failure to pay a premium when due;

(c) If the enrolled customer exhausts the aggregate limit of liability, if any, under the terms of the policy of portable electronics insurance and the insurer provides notice of termination to the customer within 30 calendar days after exhaustion of the limit. If the insurer fails to provide timely notice as required by this paragraph, the enrolled customer's coverage under the policy continues until the insurer provides notice of termination to the enrolled customer notwithstanding the exhaustion of the aggregate limit of liability.
6. A vendor or other holder of a group policy of portable electronics insurance shall not terminate an enrolled customer's coverage under the policy unless, not less than 30 days before the effective date of the termination, the insurer provides notice to the enrolled customer of the termination of the policy and the effective date of termination. An insurer may authorize a vendor to provide notice to an enrolled customer on behalf of the insurer pursuant to this subsection.

7. Any notice that is required pursuant to this section must be in writing and be:
   (a) Mailed or delivered to the enrolled customer, vendor or other policyholder at his or her last known address; or

   An insurer or vendor who provides notice pursuant to this subsection must maintain proof of mailing or delivery in a form authorized or accepted by the United States Postal Service or other commercial mail delivery service or an electronic record or other proof that the notice was sent.

Sec. 16. If a vendor or an employee or authorized representative of a vendor violates any provision of this chapter or an order or regulation of the Commissioner issued or adopted pursuant thereto, the Commissioner may, after notice and an opportunity for a hearing:

1. Impose an administrative fine of not more than $5,000, which must not exceed $50,000 in the aggregate for such conduct;

2. Suspend a vendor's privilege of engaging in the sale or offering of coverage under a policy of portable electronics insurance at a particular location where the vendor does business;

3. Suspend or revoke the privilege of an employee or authorized representative of a vendor to sell or offer coverage under a policy of portable electronics insurance; or

4. Suspend or revoke the license issued by the Commissioner to the vendor as a licensed producer of insurance.

Sec. 17. The Commissioner may adopt such regulations as necessary to carry out the provisions of this chapter.

Sec. 18. NRS 683A.261 is hereby amended to read as follows:

683A.261 1. Unless the Commissioner refuses to issue the license under NRS 683A.451, the Commissioner shall issue a license as a producer of insurance to a person who has satisfied the requirements of NRS 683A.241 and 683A.251. A producer of insurance may qualify for a
license in one or more of the lines of authority permitted by statute or regulation, including:

(a) Life insurance on human lives, which includes benefits from endowments and annuities and may include additional benefits from death by accident and benefits for dismemberment by accident and for disability.

(g) Credit insurance, including life, disability, property, unemployment, involuntary unemployment, mortgage life, mortgage guaranty, mortgage disability, guaranteed protection of assets, and any other form of insurance offered in connection with an extension of credit that is limited to wholly or partially extinguishing the obligation which the Commissioner determines should be considered as limited-line credit insurance.

(h) Personal lines, consisting of automobile and motorcycle insurance and residential property insurance, including coverage for flood, of personal watercraft and of excess liability, written over one or more underlying policies of automobile or residential property insurance.

(i) Fixed annuities as a limited line.

(k) Rental car agency as a limited line.

(l) Portable electronics as a limited line.

(m) Continuous care coverage, which includes health insurance, as set forth in paragraph (b), and may include insurance for workers’ compensation.

2. A license as a producer of insurance remains in effect unless revoked, suspended or otherwise terminated if a request for a renewal is submitted on or before the date for the renewal specified on the license, all applicable fees for renewal and a fee established by the Commissioner of not more than $15 or deposit in the Insurance Recovery Account are paid for each license and each authorization to transact business on behalf of a business organization licensed pursuant to subsection 2 of NRS 683A.251, and any requirement for education or any other requirement to renew the license is satisfied by the date specified on the license for the renewal. A producer of insurance may submit a request for a renewal of his or her license within 30 days after the date specified on the license for the renewal if the producer of insurance otherwise complies with the provisions of this subsection and pays, in addition to any fee paid pursuant to this subsection, a penalty of 50 percent of all applicable renewal fees, except for any fee required
pursuant to NRS 680C.110. A license as a producer of insurance expires if the Commissioner receives a request for a renewal of the license more than 30 days after the date specified on the license for the renewal. A fee paid pursuant to this subsection is nonrefundable.

3. A natural person who allows his or her license as a producer of insurance to expire may reapply for the same license within 12 months after the date specified on the license for a renewal without passing a written examination or completing a course of study required by paragraph (c) of subsection 1 of NRS 683A.251, but a penalty of twice all applicable renewal fees, except for any fee required pursuant to NRS 680C.110, is required for any request for a renewal of the license that is received after the date specified on the license for the renewal.

4. A licensed producer of insurance who is unable to renew his or her license because of military service, extended medical disability or other extenuating circumstance may request a waiver of the time limit and of any fine or sanction otherwise required or imposed because of the failure to renew.

5. A license must state the licensee's name, address, personal identification number, the date of issuance, the lines of authority and the date of expiration and must contain any other information the Commissioner considers necessary. A resident producer of insurance shall maintain a place of business in this State which is accessible to the public and where the resident producer of insurance principally conducts transactions under his or her license. The place of business may be in his or her residence. The license must be conspicuously displayed in an area of the place of business which is open to the public.

6. A licensee shall inform the Commissioner of each change of location from which the licensee conducts business as a producer of insurance and each change of business or residence address, in writing or by other means acceptable to the Commissioner, within 30 days after the change. If a licensee changes the location from which the licensee conducts business as a producer of insurance or his or her business or residence address without giving written notice and the Commissioner is unable to locate the licensee after diligent effort, the Commissioner may revoke the license without a hearing. The mailing of a letter by certified mail, return receipt requested, addressed to the licensee at his or her last mailing address appearing on the records of the Division, and the return of the letter undelivered, constitutes a diligent effort by the Commissioner.

Sec. 19. NRS 683A.291 is hereby amended to read as follows:

683A.291 1. An applicant for licensing in this state as a producer of insurance who was previously licensed for the same lines of authority in another state need not complete any education or examination if the applicant is currently licensed in that state or, if the application is received within 90 days after the cancellation of the license, the other state certifies that the applicant was in good standing at the time of cancellation. Alternatively, the
exemption is available if the records of the National Association of Insurance Commissioners show that the applicant is or was licensed and in good standing for the lines of authority requested.

2. An examination is not required for a producer of insurance who confines his or her activity to insurance categorized as limited line, credit, travel, portable electronics, baggage or fixed annuity, or covering vehicles leased for a short term.

3. A person licensed in another state who moves to this state and desires to become licensed as a resident producer of insurance with the benefit of the exemption provided in subsection 1 must apply for licensing within 90 days after establishing legal residence.

Sec. 20. Notwithstanding the provisions of sections 2 to 17, inclusive, of this act, a vendor is not required to be licensed as a producer of insurance limited to portable electronics insurance to sell or offer coverage under a policy of portable electronics insurance until 90 days after the Commissioner of Insurance makes available an application for such a license or October 1, 2011, whichever is later.

Sec. 21. This act becomes effective:
1. Upon passage and approval for the purposes of adopting regulations and performing any other preparatory administrative tasks that are necessary to carry out the provisions of this act; and
2. On October 1, 2011, for all other purposes.

Bill read second time.
The following amendment was proposed by the Committee on Commerce, Labor and Energy:
Amendment No. 302.
"SUMMARY—Revises certain provisions relating to energy. (BDR 58-236)"
AN ACT relating to energy; requiring the Nevada Energy Commissioner to prescribe minimum standards of energy efficiency for certain electrical devices; authorizing the Commissioner to charge and collect a fee from manufacturers of certain electrical devices for the costs of any tests to confirm that such electrical devices comply with the minimum standards of energy efficiency prescribed by the Commissioner; authorizing the Commissioner to impose administrative fines; requiring the Public Utilities Commission of Nevada, in evaluating a 3-year plan submitted by an electric utility, to give preference to certain measures and sources of electricity; requiring an electric utility to include in its 3-year plan at least one scenario of supply and demand which maximizes the achievable net benefits from energy efficiency and conservation measures and programs; requiring the Commission to adopt regulations which include the opportunity for an electric utility to earn a return on investment from the implementation of energy efficiency and conservation programs equal to the return on investment earned by the utility from investment in alternative supply-side resources; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Existing law requires the Nevada Energy Commissioner to prepare a comprehensive state energy plan which includes the promotion of the use of measures which conserve or reduce the demand for energy or which result in more efficient use of energy. (NRS 701.190) Existing law also requires the Commissioner to adopt regulations for the conservation of energy in buildings and to adopt regulations establishing a minimum standard of energy efficiency for general purposes lights. (NRS 701.220, 701.260) Section 1 of this bill requires the Commissioner to adopt regulations prescribing a minimum standard of energy efficiency for portable light fixtures and televisions and authorizes the Commissioner to prescribe a minimum standard of energy efficiency for any other electrical devices. In addition, section 1 requires the Commissioner to adopt regulations establishing the procedures by which a manufacturer of an electrical device is required to: (1) demonstrate that the electrical device complies with the minimum standard of energy efficiency; (2) identify that the device complies with the minimum standard of energy efficiency; and (3) make available to the Commissioner samples of the device for the purpose of conducting tests to confirm that the device complies with the minimum standard of energy efficiency. Section 1 authorizes the Commissioner to charge and collect a fee from the manufacturer of an electrical device for the cost of conducting tests to confirm that the device complies with the minimum standard of energy efficiency. Section 1 also authorizes the Commissioner to impose an administrative fine on any manufacturer of an electrical device who does not comply with section 1 or the regulations adopted pursuant thereto. Finally, section 1 requires the Commissioner to make available to the public information concerning the minimum standards of energy efficiency prescribed by the Commissioner. Section 5 of this bill requires the
Commissioner to adopt the regulations prescribing the minimum standards of energy efficiency on or before October 1, 2012.

Section 2 of this bill requires an electric utility to include as part of its 3-year plan submitted to the Public Utilities Commission of Nevada a comparison of scenarios of the best combinations of supply to meet demands or the best methods to reduce demands, at least one of which must be a scenario in which the achievable net benefits from energy efficiency and energy conservation measures and programs are maximized. Section 3 of this bill requires, rather than authorizes, the Commission, in evaluating the adequacy of a 3-year plan submitted by an electric utility, to give preference to those energy efficiency measures, purchasing decisions and sources of energy identified in the plan which provide the greatest economic and environmental benefits to the State and which provide levels of service that are adequate and reliable. Section 4 of this bill requires that the regulations adopted by the Commission relating to energy efficiency and conservation programs include an opportunity for the electric utility to earn a return on investment from the implementation of such programs that is equal to the return on investment the electric utility could otherwise earn from investing in alternative supply-side resources. Section 4 provides that the return on investment which may be earned by the electric utility must be based upon the performance of the energy efficiency and conservation programs.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 701 of NRS is hereby amended by adding thereto a new section to read as follows:

3. A regulation adopted pursuant to subsection 1 which establishes or amends a minimum standard of energy efficiency for an electrical device must not become effective until 1 year after the date on which the regulation is adopted.

The Commission may limit participation of an intervener in the hearing to avoid duplication and may prohibit continued participation in the hearing by an intervener if the Commission determines that continued participation will unduly broaden the issues, will not provide additional relevant material evidence or is not necessary to further the public interest.

3. In addition to any party to the hearing, any interested person may make comments to the Commission regarding the contents and adequacy of the plan.

4. After the hearing, the Commission shall determine whether:

(a) Provide the greatest economic and environmental benefits to the State;
(b) Are consistent with the provisions of this section; and
(c) Provide levels of service that are adequate and reliable.

6. The Commission shall:

(a) Adopt regulations which determine the level of preference to be given to those measures and sources of supply; and
(b) Consider the value to the public of using water efficiently when it is determining those preferences.

7. The Commission shall:

(a) Consider the level of financial commitment from developers of renewable energy projects in each renewable energy zone, as designated pursuant to subsection 2 of NRS 704.741; and
(b) Adopt regulations establishing a process for considering such commitments, including, without limitation, contracts for the sale of energy, leases of land and mineral rights, cash deposits and letters of credit.

2. When considering whether to approve an energy efficiency or conservation program proposed by an electric utility as part of a plan filed pursuant to NRS 704.741, the Commission shall consider the effect of any recovery by the electric utility pursuant to this section on the rates of the customers of the electric utility.

3. The regulations adopted pursuant to this section must not:
   (a) Affect the electric utility’s incentives and allowed returns in areas not affected by the implementation of energy efficiency and conservation programs;
   (b) Authorize the electric utility to earn more than the rate of return authorized by the Commission in the most recently completed rate case of the electric utility.

4. As used in this section, “electric utility” has the meaning ascribed to it in NRS 704.187 (Deleted by amendment.)

"SUMMARY—Revises various provisions relating to residential real property. (BDR 54-631)"

"AN ACT relating to residential real property; providing for the registration and regulation of asset management companies; providing for the permitting and regulation of employees and independent contractors of asset management companies; prohibiting a purchaser of residential property from voluntarily waiving or being required to waive his or her right to a disclosure form; providing penalties; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Existing law provides for the licensure or registration and regulation of various professions in this State. (Title 54 of NRS) This bill provides for the registration, permitting and regulation of asset management companies and their employees and agents by the Real Estate Division of the Department of Business and Industry. Asset management companies provide management services for real property which is in foreclosure and which is owned by a bank, mortgage broker, mortgage banker, credit union, thrift company or savings and loan association, or any subsidiary thereof or a governmental entity. Such companies manage the property, performing services such as securing the property by changing locks, removing trash and debris, cleaning the home and surrounding property, performing maintenance and repairs of homes and disposing of the personal property of homeowners left in homes which are in foreclosure and which the legal owner has deemed abandoned.

Section 23 of this bill sets forth the requirements an asset management company must meet to be registered in this State, including criminal background checks on all principals, partners, directors and officers of the company. Section 24 of this bill requires asset management companies to carry sufficient insurance to cover any damage to any home, real property, any wrongful evictions of homeowners or any wrongful disposal of the personal property of a homeowner. Section 25 of this bill imposes a $2,000 application fee for registration as an asset management company, as well as a $500 fee for the issuance of a certificate of registration and an annual fee of $500 to renew the certificate of registration.

Section 29 of this bill requires all employees or independent contractors of an asset management company to obtain a permit from the Division and undergo a criminal background check and pay a one-time fee of $75 at the expense of the employee or independent contractor.

Section 31 of this bill specifies the services an asset management company may provide and the steps an asset management company must take before it may dispose of the personal property of a homeowner or a tenant of a homeowner, including storage of the property for 30 days in a secure location and notifying the homeowner or the tenant in writing of the disposal and where the property may be reclaimed. Section 32 of this bill makes it a misdemeanor for a person to operate an asset management company in this State without being registered with the Division or for an
employee or independent contractor of an asset management company to engage in asset management without a permit issued by the Division. 

Section 33 of this bill makes it a misdemeanor for an asset management company or its agents to: (1) evict a homeowner without a court order while the homeowner still has time to redeem his or her real property; (2) dispose of any personal property of a homeowner or a tenant of a homeowner except as provided in section 31; (3) seize real property that is not in foreclosure; (4) allow any work to be done in a residence on real property by a person who is not licensed to do that type of work or allow any work to be done in a residence on real property which requires a permit or an inspection unless the permit is obtained or inspection completed; (5) conduct any activities for which a real estate license is required without such a license; or (6) fail to provide the real property disclosure to any purchaser of a residence for which the asset management company has provided services.

Existing law requires a seller to complete and serve a purchaser of residential property with a disclosure form regarding the property, but allows a purchaser to waive his or her right to receive such a form. (NRS 113.130) Section 34 of this bill prohibits a purchaser from waiving, or a seller from requiring a purchaser to waive, the purchaser's right to the disclosure form.

Senator Wiener moved the adoption of the amendment.
Remarks by Senators Wiener and Kieckhefer.
Senator Wiener requested that the following remarks be entered in the Journal.

SENATOR WIENER:
The amendment deletes the provisions in the bill regarding administrative subpoenas. Instead, it confers certain powers of a category II peace officer—including the ability to seek a warrant—upon employees of the Aging and Disability Services Division.
Such employees must be designated by the Administrator of the Division, and their powers are expressly for the purposes of performing investigations into reports of abuse, neglect, and exploitation of older and vulnerable persons.

SENATOR KIECKHEFER:
Thank you, Mr. President. I am trying to understand exactly what the powers of a peace officer are. I know you were trying to take out subpoena powers. I am concerned that this might be a powerful authority for a person to have.

SENATOR WIENER:
The bill addresses the problem of social workers who find what they believe is financial abuse or violation of seniors and vulnerable people. They are frustrated because, when they take their records to law enforcement, law enforcement often does not feel compelled to obtain a warrant from a judge. The State social workers would like to use administrative subpoena powers to go into the financial records to prove abuse. However, the Committee was concerned about Constitutional questions because these State workers would be using subpoena powers to conduct a search rather than a warrant. There was a suggestion that if the Division had a peace officer, then that peace officer would have the authority to do what law enforcement has not been doing for them. If this peace officer were able to present the case regarding abuse of seniors and the vulnerable to a judge, then this person would be able to access the records with a warrant.

SENATOR KIECKHEFER:
Are there other powers besides the ability to get a warrant that a peace officer would have?

SENATOR WIENER:
I do not know what the scope of authority is for a Peace Officer 2, but I know the intention of this is that the designation of Peace Officer 2 was for the express purpose of obtaining warrants to get information to prove their cases.

The following amendment was proposed by the Committee on Commerce, Labor and Energy:
Amendment No. 496.
"SUMMARY—Revises provisions governing disciplinary action against contractors.
"AN ACT relating to contractors; authorizing the State Contractors' Board to take disciplinary action against a contractor for nonpayment of taxes, fees or unemployment compensation contributions under certain circumstances; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Existing law provides for the licensing and regulation of contractors by the State Contractors’ Board. (Chapter 624 of NRS) Section 1 of this bill authorizes the Board to take certain actions against a contractor if the Board receives written notice from the Department of Taxation or the Department of Employment, Training and Rehabilitation regarding the contractor and of the existence amount of a lien against the contractor for nonpayment of taxes or fees or nonpayment of unemployment compensation contributions. Specifically, the Board, after notice and hearing, may: (1) suspend the license of the contractor until the lien expires, is released or is otherwise discharged; (2) require the contractor to file a bond with the Board; (3) require the contractor to obtain a performance bond and a payment bond; (4) take certain other disciplinary action against the contractor; and (5) recover all costs of the hearing from the contractor. Section 1 also provides that such written notice creates a rebuttable presumption of the validity of the lien described in the notice. Sections 4 and 6 of this bill require the Executive Director of the Department of Taxation and the Administrator of the Employment Security Division of the Department of Employment, Training and Rehabilitation, respectively, within 5 business days after receiving written notice of the recording of specified documentation and the acquisition of a lien against a contractor, to notify the Board of the name and license number of the contractor and the amount of the lien and also to notify the Board when the lien has expired, has been released or is otherwise discharged.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 624 of NRS is hereby amended by adding thereto a new section to read as follows:

1. If the Board receives written notice regarding a contractor and of the existence amount of a lien against the contractor from the Executive Director of the Department of Taxation pursuant to section 4 of this act or from the Administrator of the Employment Security Division of the Department of Employment, Training and Rehabilitation pursuant to section 6 of this act, the Board, after notice and hearing, may:

(a) Suspend the license of the contractor until the lien expires, is released or is otherwise discharged;

(b) Require the contractor to file a bond or establish a cash deposit, subject to the terms and conditions applicable to other such bonds or cash deposits that may be required by the Board pursuant to subsection 6 of NRS 624.270;

(c) Require the contractor, before commencing work on any construction project, to obtain a performance bond and a payment bond, subject to the terms and conditions applicable to other such bonds that may be required by the Board pursuant to subsection 8 of NRS 624.270;
4. (d) Take such other disciplinary action against the contractor as is authorized by NRS 624.300; and

(e) Recover all costs of the hearing from the contractor.

2. A written notice received by the Board pursuant to subsection 1 creates a rebuttable presumption of the validity of the lien described in the notice.

Sec. 2. NRS 624.750 is hereby amended to read as follows:

624.750 1. It is unlawful for a person to commit any act or omission described in subsection 1 of NRS 624.3012, subsection 2 of NRS 624.3013, NRS 624.3014 or subsection 1, 3 or 7 of NRS 624.3016.

(b) For the second offense, is guilty of a gross misdemeanor and shall be punished by a fine of not less than $2,000 nor more than $4,000, and may be further punished by imprisonment in the county jail for not more than 1 year.

(c) For the third or subsequent offense, is guilty of a category E felony and shall be punished by a fine of not less than $5,000 nor more than $10,000 and may be further punished by imprisonment in the state prison for not less than 1 year and not more than 4 years.

3. It is unlawful for a person to receive money for the purpose of obtaining or paying for services, labor, materials or equipment if the person:

(a) Willfully fails to use that money for that purpose by failing to complete the improvements for which the person received the money or by failing to pay for any services, labor, materials or equipment provided for that construction; and

(b) Wrongfully diverts that money to a use other than that for which it was received.

4. Unless a greater penalty is otherwise provided by a specific statute, any person who violates subsection 3:

(a) If the amount of money wrongfully diverted is $1,000 or less, is guilty of a gross misdemeanor and shall be punished by a fine of not less than $2,000 nor more than $4,000, and may be further punished by imprisonment in the county jail for not more than 1 year.

(b) If the amount of money wrongfully diverted is more than $1,000, is guilty of a category E felony and shall be punished by a fine of not less than $5,000 nor more than $10,000, and may be further punished by imprisonment in the state prison for not less than 1 year and not more than 4 years.

the provisions of NRS 624.300 to 624.305, inclusive, and section 1 of this act.

Sec. 3. NRS 624.965 is hereby amended to read as follows:

624.965 1. A violation of any provision of NRS 624.900 to 624.965, inclusive, or any regulation adopted by the Board with respect to contracts for work concerning a residential pool or spa by a contractor constitutes cause for disciplinary action pursuant to NRS 624.300.

2. It is unlawful for a person to violate any provision of NRS 624.900 to 624.965, inclusive.

3. Any person who violates any provision of NRS 624.900 to 624.965, inclusive:

(b) For the second offense, is guilty of a gross misdemeanor and shall be punished by a fine of not less than $2,000 nor more than $4,000, and may be further punished by imprisonment in the county jail for not more than 1 year.

(c) For the third or subsequent offense, is guilty of a class E felony and shall be punished by a fine of not less than $5,000 nor more than $10,000 and may be further punished by imprisonment in the state prison for not less than 1 year and not more than 4 years.

4. The imposition of a penalty provided for in this section is not precluded by any disciplinary action taken by the Board against a contractor pursuant to the provisions of NRS 624.300 to 624.305, inclusive, and section 1 of this act.

1. If the Department, pursuant to NRS 360.473, files a certificate in the office of any county recorder against a contractor for any unpaid tax or fee and thereby acquires a lien against the real and personal property of the contractor in the county pursuant to NRS 360.420, the Executive Director shall, within 5 business days after receiving written notice from the county recorder that the certificate has been recorded, notify the State Contractors’ Board in writing of the name and license number of the contractor and the amount of the lien, including interest and penalties. The written notice provided to the State Contractors’ Board must include a copy of the certificate that was filed with the county recorder if the county recorder returned a copy of the recorded certificate to the Department.

2. The Executive Director shall notify the State Contractors’ Board in writing within 5 business days after receiving any written notice from the county recorder that the lien has expired, has been released or has been otherwise discharged.

3. As used in this section, “contractor” has the meaning ascribed to it in NRS 624.020.
Sec. 5. NRS 375A.305 is hereby amended to read as follows:

375A.305 1. The tax imposed by NRS 375A.100 becomes a lien upon the gross estate of the decedent on the date of death and remains as such until the tax, interest and penalties owed to the State are paid or the lien is otherwise discharged.

2. If the tax is not paid when due, the person who had possession of the property of the gross estate on the date of death of the decedent is personally liable for the tax. If the person who is liable for the tax transfers property of the gross estate to a bona fide purchaser or holder of a security interest, the lien imposed by subsection 1 attaches at the moment of the transfer to all of the property of the person who is liable for the tax including property the person acquires after the transfer, except the property which is transferred to a bona fide purchaser or a holder of a security interest. The lien does not attach to any property transferred to a bona fide purchaser or a holder of a security interest but it attaches to the consideration received for the property by the person who is liable for the tax.

3. If the lien is not extinguished or otherwise released or discharged, it expires 10 years after the date a determination of deficiency is issued if, within that period, no notice of the lien has been recorded or filed as provided in NRS 360.450.

4. Except as otherwise provided in this section, the provisions of NRS 360.420 to 360.560, inclusive, and section 4 of this act apply to the lien.

Sec. 6. Chapter 612 of NRS is hereby amended by adding thereto a new section to read as follows:

1. If judgment is entered by a district court in favor of the Unemployment Compensation Service and against a contractor in the amount of any unpaid contributions, interest and forfeit provided by this chapter and an abstract of judgment or a copy thereof is recorded in the office of any county recorder, the Administrator shall, within 5 business days after receiving written notice from the county recorder that the abstract of judgment or a copy thereof has been recorded, notify the State Contractors' Board in writing of the name and license number of the contractor and the amount of the lien against the real and personal property of the contractor in the county which, pursuant to NRS 612.635, was created by the recording of the abstract of judgment. The written notice provided to the State Contractors' Board must include a copy of the abstract of judgment that was filed with and recorded by the county recorder if the county recorder returned a copy of the recorded abstract of judgment to the Administrator.

2. The Administrator shall notify the State Contractors' Board in writing within 5 business days after receiving any written notice from the county recorder that the lien has expired, has been released or has been otherwise discharged.
3. As used in this section, "contractor" has the meaning ascribed to it in NRS 624.020.

Sec. 7. NRS 612.645 is hereby amended to read as follows:

612.645 1. In all proceedings under NRS 612.625 to 612.640, inclusive, and section 6 of this act, the Unemployment Compensation Service shall be authorized to act in its name on behalf of the State of Nevada.

2. No costs or filing fees shall be charged to the State of Nevada in any proceedings brought under any provision of NRS 612.625 to 612.640, inclusive, and section 6 of this act nor shall any bond or undertaking be required of the State of Nevada, either in proceedings in the district court or on appeal to the Supreme Court.

Sec. 8. This act becomes effective on July 1, 2011.

Senator Roberson moved the adoption of the amendment.
Remarks by Senator Roberson.
Senator Roberson requested that his remarks be entered in the Journal.

Amendment No. 496 to Senate Bill No. 351 requires the State Contractors' Board to take certain action against a licensed contractor when the Board receives written notice specifying the license number of the contractor and the amount of a lien placed against the contractor by the Department of Taxation or the Employment Security Division.

A written notice received by the Board from the Department of Taxation creates a rebuttable presumption of the validity of the lien.

The Board may, after notice and hearing, recover all costs of a hearing held by the Board in connection with any action based on the lien.

Amendment No. 346.
"SUMMARY—Establishes the crime of stolen valor. (BDR 15-999)"
"AN ACT relating to crimes; establishing the crime of stolen valor; providing a penalty; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
The federal Stolen Valor Act of 2005 prohibits a person from falsely representing himself or herself, verbally or in writing, to have been awarded certain military decorations or awards. A person who violates this provision may be fined, imprisoned for not more than 6 months or both fined and imprisoned. (18 U.S.C. § 704(b)) The United States Court of Appeals for the Ninth Circuit recently held that the Stolen Valor Act is facially invalid pursuant to the First Amendment to the Constitution of the United States and is therefore unconstitutional. The Ninth Circuit Court found that the Act as currently drafted restricts free speech rights, but the Court suggested that the statute could be modified into a constitutional anti-fraud statute. (United States v. Alvarez, 617 F.3d 1198, 1212, 1217 (9th Cir. 2010)) The
Court noted that to prove that a person is liable for fraud, it must be shown that the person knowingly made a false representation of fact to intentionally mislead another person and successfully misled the other person through such false representation. (United States v. Alvarez, 617 F.3d 1198, 1211 (9th Cir. 2010) (citing Ill. ex rel. Madigan v. Telemarketing Assocs., Inc., 538 U.S. 600, 620 (2003)))

Existing Nevada law prohibits a person from willfully wearing the badge, button, insignia or rosette of any military order or of any secret order or society, or from using any such item to obtain aid, assistance or any other benefit or advantage, if the person is not entitled to wear or use any such items. (NRS 205.410) This bill repeals existing Nevada law and provides that a person commits the crime of stolen valor if the person knowingly, with the intent to mislead or defraud and with the intent to obtain some benefit or something of monetary value, misleads or defrauds another person by committing various acts concerning the false representation of himself or herself with relation to military service.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 205 of NRS is hereby amended by adding thereto a new section to read as follows:

"SUMMARY—Requires certain health care practitioners to communicate certain information to the public. (BDR 54-625)"
"AN ACT relating to health care practitioners; requiring that advertisements for health care services include certain information; requiring certain health care practitioners to communicate certain information to the public; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
This bill [which is patterned after legislation recently enacted in California] requires certain health care practitioners to communicate the practitioner's name, type of state-granted practitioner license and highest level of academic degree to each of the practitioner's patients by:
(1) providing such information in writing at a patient's initial office visit;
(2) prominently displaying such information in an area of the practitioner's office that is visible to patients; or
(3) both providing such information in writing and prominently displaying such information. If a health care practitioner chooses to disclose such required information by providing the information in writing at a patient's initial office visit, the information must conform to a certain format. Additionally, a health care practitioner who provides information regarding health care services on an Internet website that is directly controlled or administered by the practitioner or his or her office personnel must prominently display the required information regarding the practitioner's name, license and degree on the Internet website. 
requires that advertisements for health care services include certain information regarding the qualifications of certain health care practitioners to whom

The following amendment was proposed by the Committee on Government Affairs:
Amendment No. 338.
"SUMMARY—Grants power to local governments to perform certain acts or duties which are not prohibited or limited by statute. (BDR 20-170)"
"AN ACT relating to local government; authorizing counties and cities, with limited exceptions, to exercise the powers necessary for the effective operation of county and city government; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
In 1868, Judge John F. Dillon of the Iowa Supreme Court established a common-law rule of statutory interpretation known as Dillon's Rule, which limits the powers of local governments. (Merriam v. Moody's Ex'rs, 25 Iowa 163 (Iowa 1868)) Under Dillon's Rule, a local government is authorized to exercise only those powers which are: (1) expressly granted; (2) necessarily or fairly implied in or incident to the powers expressly granted; or
(3) essential to the accomplishment of the declared purposes of the local government.

Under existing law, county commissioners are authorized to exercise only those powers which are expressly granted and powers that are necessarily implied to carry out express powers. *(Sadler v. Board of County Comm’rs, 15 Nev. 39, 42 (1880))* Sections 1-7 of this bill authorize a board of county commissioners, with limited exceptions, to exercise all powers needed for the effective operation of county government, even if the power to perform these acts is neither express nor implied, so long as the power is not expressly prohibited or limited by constitutional or statutory provisions or granted to another entity.

Under existing law, a city government is authorized to exercise only those powers expressly granted by the charter or laws creating the city, and the necessary means of employing those powers. *(Tucker v. Mayor of Virginia City, 4 Nev. 20, 26 (1868))* Sections 8-21 of this bill authorize city governments, whether created by general law or charter, to exercise all powers needed for the effective operation of city government, with limited exceptions, even if the power to perform these acts is neither express nor implied, so long as the power is not expressly prohibited or limited by constitutional or statutory provisions or granted to another entity.

Legislative Counsel's Digest:

Sections 1-11, 16-19, 24-26, 58, 64, 72, 78, 92-94 and 102 of this bill revise provisions governing corporate records and the manner in which business entities sign, deliver and receive notices and communications based on proposed changes to the Model Business Corporation Act
the Uniform Electronic Transactions Act and the federal Electronic Signatures in Global and National Commerce Act which relate to electronic records and notices.

Section 12 of this bill clarifies that a nonprofit religious, charitable, fraternal or other organization that qualifies as a tax-exempt organization under section 501(c) of the Internal Revenue Code is not required to obtain a state business license.

Existing law restricts mergers and certain other transactions between certain domestic corporations with 200 or more stockholders and any stockholder which has acquired a specified amount of stock. (NRS 78.411-78.444) Under existing law, the corporation is prohibited from engaging in such a transaction with the stockholder for 3 years after the stockholder acquired the specified amount of stock, unless certain actions are taken by the board of directors of the corporation before the stockholder acquires the stock. (NRS 78.438) After the 3-year period, any such merger or transaction between the corporation and the stockholder is prohibited unless: (1) certain actions are taken by the board of directors or other stockholders; or (2) certain requirements concerning the consideration received by the other stockholders are satisfied. (NRS 78.439-78.443) Sections 14, 16 and 30-48 of this bill: (1) decrease the applicable period from 3 years to 2 years; (2) amend provisions governing the type of corporation to which the restrictions apply; (3) amend the requirements for the merger or other transaction between the corporation and the stockholder; (4) allow the articles of incorporation of the corporation to impose stricter requirements on such transactions; and (5) specify that the board of directors of a corporation to which the existing law is applicable may take certain actions to protect the interests of the corporation and its stockholders.

Existing law provides for an effective date of certain documents filed with the Secretary of State. (NRS 78.1955, 78.209, 78.380, 78.390, 78.403, 78.580, 78A.180, 82.346, 82.356, 82.371, 82.451, 86.201, 86.216, 86.221, 86.226, 86.541, 86.547, 87.460, 87A.240, 87A.605, 87A.630, 88.355, 88.360, 88.380, 88.595, 88A.250, 88A.420, 88A.740, 92A.240) Sections 20, 21, 27-29, 49, 55, 59-62, 65-68, 70, 71, 73, 74, 76, 77, 79-81, 83, 87, 90, 91 and 98 of this bill provide for a time at which these documents become effective.

Existing law provides that a change in the authorized number of shares of a class or series of stock is not effective until the filing of a certificate of change in the Office of the Secretary of State. (NRS 78.209) Section 21 of this bill provides that the information concerning the shares which is included in the certificate [is] must be only the information regarding the affected series or class of shares.

Section 22 of this bill revises provisions governing permissible restrictions on the transfer of stock of a corporation or on the amount of stock that may be owned by a person or group of persons by clarifying and specifically
[authorizing] delineating certain additional restrictions on these transfers of stock.

Section 23 of this bill specifically authorizes a stockholder to designate a proxy to act for the stockholder in granting written consent or expressing written dissent to a corporate action.

Section 25 of this bill: (1) removes the requirement that the notice of a meeting of stockholders be signed by a corporate officer or certain other persons designated by the directors of the corporation; and (2) removes the requirement that notice of the annual meeting of stockholders state the purpose for which the meeting is called.

Existing law provides procedures for the dissolution of a corporation and provides that, upon dissolution, the board of directors become trustees with the power to take certain actions to wind up the business and affairs of the corporation. (NRS 78.575-78.595) Section 49 of this bill: (1) authorizes the board of directors to condition the submission of the proposal for dissolution on any lawful basis; and (2) revises the requirements for providing notice to stockholders of the proposed dissolution by requiring such notice to be provided to all stockholders rather than only stockholders entitled to vote on the dissolution. Section 51 of this bill provides that, in acting as trustees to wind up the affairs of the dissolved corporation, the directors have the same duties, and are entitled to the benefit of the same presumptions regarding the performance of those duties, as directors of a corporation. Sections 63 and 102 repeal a provision of existing law which provides that lawsuits for debts owed by dissolved corporations must be filed in the name of the trustees and that those trustees are jointly and severally responsible for satisfying such debts from the property of the corporation in their possession. Section 15 of this bill enacts a provision based on Delaware law which governs the liability of the stockholders of a dissolved corporation.

Existing law authorizes a corporation to indemnify and advance expenses to directors, officers, employees or agents of the corporation under certain circumstances. (NRS 78.7502, 78.751) This authority to indemnify and advance expenses does not affect other rights to which a person seeking indemnification or advancement of expenses is entitled under the articles or incorporation or the bylaws. (NRS 78.751) Section 53 of this bill enacts a provision based on Delaware law which provides that a right to indemnification or the advancement of expenses under the articles of incorporation or the bylaws may not be eliminated or impaired by an amendment to the provision after the act or omission for which indemnification or advancement of expenses is sought, unless such elimination or impairment is authorized by the provision in effect at the time of the act or omission.

Existing law provides that the amount of the fee for filing articles of incorporation with the Secretary of State is based on the dollar amount of the total number of shares provided for in the articles of incorporation. (NRS 78.760) When a corporation increases the number of authorized shares,
the fee for filing that information with the Secretary of State is determined by subtracting the amount of the fee based on the increased number of shares from the amount of the fee based on the number of authorized shares excluding the increase. (NRS 78.765) The maximum amount of the fee for filing with the Secretary of State articles of incorporation or an instrument authorizing an increase in stock is: (1) $35,000 for filing the original articles of incorporation; and (2) $35,000 for filing an instrument authorizing an increase in stock. (NRS 78.760) Section 54 of this bill reduces to $34,925 the maximum amount of the fee for filing an instrument authorizing an increase in stock.

Existing law requires a corporation organized under the laws of another jurisdiction to register with the Secretary of State before commencing or doing any business in this State. (NRS 80.010) Under existing law, certain activities are defined as not doing business in this State, thus exempting corporations engaging in those activities from the requirement to register with the Secretary of State or comply with certain other laws of this State. (NRS 80.015) However, notwithstanding this provision, a person who solicits business for the activities of a mortgage broker or a mortgage banker is deemed to be doing business in this State and required to register with the Secretary of State and comply with other existing laws. Section 56 of this bill provides that a person who engages in such activities in relation to a mortgage loan secured by commercial real property is exempt from these requirements.

Sections 52, 69, 75 and 82 of this bill revise provisions governing the satisfaction of a judgment against a stockholder, member of a limited-liability company or partner of a limited partnership from the interest of the stockholder, member or partner in the entity.

Existing law authorizes one or more persons to create a business trust by adopting a governing instrument and signing and filing a certificate of trust with the Secretary of State. (NRS 88A.210) Sections 84-86, 88 and 89 of this bill revise provisions relating to the status of a business trust as an entity separate from its trustees and beneficial owners, the powers of a business trust with respect to property ownership and the duties and liabilities of trustees of a business trust.

Section 96 of this bill revises provisions governing mergers for which action is not required by the stockholders of the surviving domestic corporation.

Section 97 of this bill clarifies the provisions of existing law which are applicable to conversions of domestic entities or domestic general partnerships into foreign entities and to conversions of foreign entities or foreign general partnerships into domestic entities.

Section 99 of this bill revises provisions relating to the domestication of certain business entities.

Under existing law, certain stockholders may dissent to certain corporate actions that will result in the receipt of money or scrip instead of a fraction of
a share and obtain payment of the fair value of the stockholder's shares. (NRS 78.205-78.207, 92A.380) **Section 100** of this bill clarifies that the right to obtain payment of the fair value of the shares relates only to the fraction of a share rather than all of the stockholder's shares. **Section 101** of this bill clarifies the proper district court in which an action to determine the fair value of the shares must be commenced.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

A certificate of designation signed and filed pursuant to this section must become effective before the issuance of any shares of the class or series.

2. Unless otherwise provided in the articles of incorporation or the certificate of designation, the proposed amendment adopted by the board of directors must be approved by the vote of stockholders holding shares in the corporation entitling them to exercise a majority of the voting power, or such greater proportion of the voting power as may be required by the articles of incorporation or the certificate of designation, of:

(a) The class or series of stock being amended; and

(b) Each class and each series of stock which, before amendment, is senior to the class or series being amended as to the payment of distributions upon
dissolution of the corporation, regardless of any limitations or restrictions on the voting power of that class or series.

4. A certificate of amendment to a certificate of designation must be signed by an officer of the corporation and filed with the Secretary of State and must:

If a certificate filed pursuant to subsection 1 or 4 specifies a later effective date but does not specify an effective time, the certificate is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

6. If shares of a class or series of stock established by a certificate of designation are not outstanding, the corporation may file a certificate which states that no shares of the class or series are outstanding and which contains the resolution of the board of directors authorizing the withdrawal of the certificate of designation establishing the class or series of stock. The certificate must identify the date and certificate of designation being withdrawn and must be signed by an officer of the corporation and filed with the Secretary of State. Upon filing the certificate and payment of the fee required pursuant to NRS 78.765, all matters contained in the certificate of designation regarding the class or series of stock are eliminated from the articles of incorporation.

7. NRS 78.380, 78.385 and 78.390 do not apply to certificates of amendment filed pursuant to this section.

Sec. 21. NRS 78.209 is hereby amended to read as follows:

78.209 1. A change pursuant to NRS 78.207 is not effective until after the filing in the Office of the Secretary of State of a certificate, signed by an officer of the corporation, setting forth:
   (a) The current number of authorized shares and the par value, if any, of each affected class or, if applicable, each affected series of shares before the change;

The provisions in the articles of incorporation of the corporation regarding the authorized number and par value, if any, of the changed class or, if applicable, the changed series of shares shall be deemed amended as provided in the certificate at the effective date and time of the change.

2. Unless an increase or decrease of the number of authorized shares pursuant to NRS 78.207 is accomplished by an action that otherwise requires an amendment to the articles of incorporation of the corporation, such an amendment is not required by that section.

3. A certificate filed pursuant to subsection 1 is effective upon at the time of the filing of the certificate with the Secretary of State or upon a later date and time as specified in the certificate, which date must not be more than 90 days after the date on which the certificate is filed. If a certificate filed pursuant to subsection 1 specifies a later effective date but does not specify an effective time, the certificate is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

4. If a certificate filed pursuant to subsection 1 specifies a later effective date, the board of directors may terminate the effectiveness of the certificate by resolution. A certificate of termination must:

Sec. 22. NRS 78.242 is hereby amended to read as follows:

78.242 1. Subject to the limitation imposed by NRS 104.8204, a written restriction on the transfer or registration of transfer of the stock of a corporation, if permitted by this section, may be enforced against the holder of the restricted stock or any successor or transferee of the holder, including an executor, administrator, trustee, guardian or other fiduciary entrusted with like responsibility for the person or estate of the holder.

2. A restriction on the transfer or registration of transfer of the stock of a corporation, or on the amount of a corporation’s stock that may be owned by a person or group of persons, may be imposed by the articles of incorporation or by the bylaws or by an agreement among any number of stockholders or between or among one or more stockholders and the corporation. No restriction so imposed is binding upon any stockholder with
respect to stocks issued before the adoption of the restriction unless the stockholders are parties to the restriction at the time the restriction is adopted, regardless of any later effective time of such restriction, unless such stockholder is a party to the agreement or voted in favor of the restriction.

3. A restriction on the transfer or registration of transfer of shares is valid and enforceable against the transferee of the stockholder if the restriction is not prohibited by other law and its existence is noted conspicuously on the front or back of the stock certificate or is contained in the statement of information required by NRS 78.235. Unless so noted, a restriction is not enforceable against a person without knowledge of the restriction.

4. A restriction on the transfer or registration of transfer of the stock of a corporation or on the amount of such stock that may be owned by any person or group of persons is permitted, without limitation by this enumeration, if it:

(a) Obligates the stockholder first to offer to the corporation or to any other stockholder or stockholders of the corporation or to any other person or persons or to any combination of the foregoing a prior opportunity, to be exercised within a reasonable time, to acquire the stock;

(b) Obligates the corporation or any stockholder of the corporation or any other person or any combination of the foregoing to purchase stock which is the subject of an agreement respecting the purchase and sale of the stock;

(c) Requires the corporation or any stockholder or stockholders to consent:
   (1) Consent to any proposed transfer of the stock or to approve;
   (2) Approve the proposed transferee of stock;
   (3) Approve the amount of stock of the corporation proposed to be acquired by any person or group of persons;

(d) Prohibits or restricts the transfer of the stock to, or the ownership of stock by, designated persons or classes of persons, and such designation is not manifestly unreasonable; or

(e) Prohibits or restricts the transfer or registration of transfer of the stock or the amount of stock of a corporation that may be owned by a person or group of persons, for any of the following purposes:
   (1) To maintain the corporation's status when it is dependent on the number or identity of its stockholders, including, without limitation, the corporation's status as an electing small business corporation under subchapter S of chapter 1 of subtitle A of the United States Internal Revenue Code, 26 U.S.C. § 1371 et seq., as amended, or any successor provision;
   (2) To maintain or preserve the corporation's status or exemptions under federal or state laws governing taxes or securities, including, without limitation, the qualification of the corporation as a real estate investment trust
pursuant to 26 U.S.C. §§ 856 et seq., as amended, or any successor provision, and any regulations adopted pursuant thereto; [or]

(3) To maintain or preserve any other local, state, federal or foreign tax advantage to, or attribute of, the corporation or its stockholders, including, without limitation, net operating losses;

(4) To maintain any statutory or regulatory advantage or to comply with any statutory or regulatory requirements under applicable local, state, federal or foreign law; or

(5) For any other reasonable purpose.

5. For the purposes of this section, "stock" includes a security convertible into or carrying [a] an option or other right to subscribe for or to acquire stock.

Sec. 23. NRS 78.355 is hereby amended to read as follows:

78.355 1. [At any meeting of the stockholders of any corporation any] Each stockholder entitled to vote at a meeting of stockholders or to express consent or dissent to corporate action in writing without a meeting may designate authorize another person or persons to act [as a] for such stockholder by proxy. If any stockholder designates two or more persons to act as proxies, a majority of those persons present at the meeting or a majority of those persons granting consent or exercising a right of dissent in writing, or, if only one is present, or consenting or dissenting in writing, then that one has and may exercise all of the powers conferred by the stockholder upon all of the persons so designated unless the stockholder provides otherwise. The proxy may be limited to action on designated matters.

2. Without limiting the manner in which a stockholder may authorize another person or persons to act for him or her as proxy pursuant to subsection 1, the following constitute valid means by which a stockholder may grant such authority:

(a) A stockholder may sign a writing authorizing another person or persons to act for him or her as proxy. [The proxy may be limited to action on designated matters.]

(b) A stockholder may authorize another person or persons to act for him or her as proxy by transmitting or authorizing the transmission of an electronic record to the person who will be the holder of the proxy or to a firm which solicits proxies or like agent who is authorized by the person who will be the holder of the proxy to receive the transmission. Any such electronic record must either set forth or be submitted with information from which it can be determined that the electronic record was authorized by the stockholder. If it is determined that the electronic record is valid, the persons appointed by the corporation to count the votes of stockholders and determine the validity of proxies and ballots or other persons making those determinations must specify the information upon which they relied.]

3. Any copy, communication by electronic transmission or other reliable reproduction of the [record] writing created pursuant to subsection 2 may be
substituted for the original writing for any purpose for which the original writing could be used, if the copy, communication by electronic transmission or other reproduction is a complete reproduction of the entire original writing.

4. Except as otherwise provided in subsection 5, no such proxy is valid after the expiration of 6 months from the date of its creation unless the stockholder specifies in it the length of time for which it is to continue in force, which may not exceed 7 years from the date of its creation. Subject to these restrictions, any proxy properly created is not revoked and continues in full force and effect until:

(a) Another instrument or transmission revoking it or a properly created proxy bearing a later date is filed with or transmitted to the secretary of the corporation or another person or persons appointed by the corporation to count the votes of stockholders and determine the validity of proxies and ballots; or

(b) In the case of a meeting of stockholders, the stockholder revokes the proxy by attending the meeting and voting the stockholder's shares in person, in which case, any vote cast by the person or persons designated by the stockholder to act as a proxy or proxies must be disregarded by the corporation when the votes are counted.

5. A proxy shall be deemed irrevocable if the written authorization states that the proxy is irrevocable, but is irrevocable only for as long as it is coupled with an interest sufficient in law to support an irrevocable power, including, without limitation, the appointment as proxy of a pledgee, a person who purchased or agreed to purchase the shares, a creditor of the corporation who extended it credit under terms requiring the appointment, an employee of the corporation whose employment contract requires the appointment or a party to a voting agreement created pursuant to subsection 3 of NRS 78.365. Unless otherwise provided in the proxy, a proxy made irrevocable pursuant to this subsection is revoked when the interest with which it is coupled is extinguished, but the corporation may honor the proxy until notice of the extinguishment of the proxy is received by the corporation. A transferee for value of shares subject to an irrevocable proxy may revoke the proxy if the transferee did not know of its existence when the transferee acquired the shares and the existence of the irrevocable appointment was not noted conspicuously on the certificate representing the shares or on the information statement for shares without certificates.

6. If any stockholder subject to a properly created irrevocable proxy attends any meeting of the stockholders or attempts to grant a consent or exercise a right of dissent for which the authorization grants authority to act on the stockholder's behalf at the meeting, or in granting a consent or exercising a right of dissent, as applicable, to a proxy or proxies, unless expressly otherwise provided in the written authorization or electronic record:
Sec. 24. NRS 78.360 is hereby amended to read as follows:

78.360 1. The articles of incorporation of any corporation may provide that at all elections of directors of the corporation each holder of stock possessing voting power is entitled to as many votes as equal the number of his or her shares of stock multiplied by the number of directors to be elected, and that the holder of stock may cast all of his or her votes for a single director or may distribute them among the number to be voted for or any two or more of them, as the holder of stock may see fit. To exercise the right of cumulative voting, one or more of the stockholders requesting cumulative voting must give written notice to the president or secretary of the corporation that the stockholder desires that the voting for the election of directors be cumulative.

2. The notice must be given delivered not less than 48 hours before the time fixed for holding the meeting, if notice of the meeting has been given delivered at least 10 days before the date of the meeting, and otherwise not less than 24 hours before the meeting. At the meeting, before the commencement of voting for the election of directors, an announcement of the giving delivery of the notice must be made by the chairman or the secretary of the meeting or by or on behalf of the stockholder giving delivering the notice. Notice to stockholders of the requirement of this subsection must be contained in the notice calling the meeting or in the proxy material accompanying the notice.

Sec. 25. NRS 78.370 is hereby amended to read as follows:

78.370 1. If under the provisions of this chapter stockholders are required or authorized to take any action at a meeting, the notice of the meeting must be in writing and signed by the president or a vice president, or the secretary or an assistant secretary, or by such other natural person or persons as the bylaws may prescribe or permit or the directors may designate.

2. Except in the case of the annual meeting, the notice must state the purpose or purposes for which the meeting is called. In all instances, the notice must state the time when, and the place, which may be within or without this State, where the meeting is to be held, and the means of electronic communications, if any, by which stockholders and proxies shall be deemed to be present in person and vote.

3. A copy of the notice must be delivered personally, mailed postage prepaid or given delivered as provided in subsection 8 of section 11 of this act to each stockholder of record entitled to vote at the meeting not less than 10 nor more than 60 days before the meeting. If mailed, it must be directed to the stockholder at his or her address as it appears upon the records of the
Personal delivery of any such notice to any officer of a corporation or association, to any member of a limited-liability company managed by its members, to any manager of a limited-liability company managed by managers, to any general partner of a partnership or to any trustee of a trust constitutes delivery of the notice to the corporation, association, limited-liability company, partnership or trust.

4. The articles of incorporation or the bylaws may require that the notice be also published in one or more newspapers.

5. Notice delivered or mailed to a stockholder in accordance with the provisions of this section and section 11 of this act and the provisions, if any, of the articles of incorporation or the bylaws is sufficient, and in the event of the transfer of the stockholder's stock after such delivery or mailing and before the holding of the meeting it is not necessary to deliver or mail notice of the meeting to the transferee.

6. Unless otherwise provided in the articles of incorporation or the bylaws, if notice is required to be given, delivered, under any provision of this chapter or the articles of incorporation or bylaws of any corporation, to any stockholder to whom:
   (a) Notice of two consecutive annual meetings, and all notices of meetings or of the taking of action by written consent without a meeting to the stockholder during the period between those two consecutive annual meetings; or
   (b) All, and at least two, payments sent by first-class mail of dividends or interest on securities during a 12-month period, have been mailed addressed to the stockholder at his or her address as shown on the records of the corporation and have been returned undeliverable, the delivery of further notices to the stockholder is not required. Any action or meeting taken or held without notice to such a stockholder has the same effect as if the notice had been given. If any such stockholder delivers to the corporation a written notice setting forth his or her current address, the requirement that notice be given to the stockholder is reinstated. If the action taken by the corporation is such as to require the filing of a certificate under any of the other sections of this chapter, the certificate need not state that notice was not given to persons to whom notice was not required to be given pursuant to this subsection. The delivery of further notices to a stockholder is still required for any notice returned as undeliverable if the notice was given by electronic transmission.

7. Unless the articles of incorporation or bylaws otherwise require, and except as otherwise provided in this subsection, if a stockholders' meeting is adjourned to another date, time or place, notice need not be given of the date, time or place of the adjourned meeting if they are announced at
the meeting at which the adjournment is taken. If a new record date is fixed for the adjourned meeting, notice of the adjourned meeting must be \textit{given} to each stockholder of record as of the new record date.

\[8.\] Any notice to stockholders given by the corporation pursuant to any provision of this chapter, chapter 92A of NRS, the articles of incorporation or the bylaws is effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. The consent is revocable by the stockholder by written notice to the corporation. The consent is revoked if:

(a) The corporation is unable to deliver by electronic transmission two consecutive notices given by the corporation in accordance with the consent; and

(b) The inability to deliver by electronic transmission becomes known to the secretary, assistant secretary, transfer agent or other agent of the corporation responsible for the giving of notice. However, the inadvertent failure to treat the inability to deliver a notice by electronic transmission as a revocation does not invalidate any meeting or other action.

\[9.\] Notice given pursuant to subsection \[8.\] shall be deemed given if:

(a) By facsimile machine, when directed to a number at which the stockholder has consented to receive notice;

(b) By electronic mail, when directed to an electronic mail address at which the stockholder has consented to receive notice;

(c) By a posting on an electronic network together with separate notice to the stockholder of the specific posting, upon the later of:

(1) Such posting; and

(2) The giving of the separate notice; and

(d) By any other form of electronic transmission, when directed to the stockholder.

In the absence of fraud, an affidavit of the secretary, assistant secretary, transfer agent or other agent of the corporation that the notice has been given by a form of electronic transmission is prima facie evidence of the facts stated in the affidavit.

\[10.\] As used in this section, "electronic transmission" means any form of communication not directly involving the physical transmission of paper that:

(a) Creates a record that may be retained, retrieved and reviewed by a recipient of the communication; and

(b) May be directly reproduced in paper form by the recipient through an automated process.

Sec. 26. NRS 78.375 is hereby amended to read as follows:

\[78.375\] Whenever any notice \textit{or other communication} is required to be \textit{given} under the provisions of this chapter, a waiver thereof in a signed writing \textit{or by transmission of an electronic record} by the person or persons entitled to the notice \textit{or communication}, whether before or after the time stated therein, shall be deemed equivalent thereto.

Sec. 27. NRS 78.380 is hereby amended to read as follows:
78.380 1. At least two-thirds of the incorporators or of the board of directors of any corporation, if no voting stock of the corporation has been issued, may amend the articles of incorporation of the corporation by signing and filing with the Secretary of State a certificate amending, modifying, changing or altering the articles, in whole or in part. The certificate must state that:
   (a) The signers thereof are at least two-thirds of the incorporators or of the board of directors of the corporation, and state the name of the corporation; and

2. A certificate filed pursuant to this section is effective upon at the time of the filing of the certificate with the Secretary of State or upon a later date and time as specified in the certificate, which date must not be more than 90 days after the date on which the certificate is filed. 78.390 1. Except as otherwise provided in NRS 77.340, every amendment to the articles of incorporation must be made in the following manner:
   (a) The board of directors must adopt a resolution setting forth the amendment proposed and either call a special meeting of the stockholders entitled to vote on the amendment or direct that the proposed amendment be considered at the next annual meeting of the stockholders entitled to vote on the amendment.
   (b) At the meeting, of which notice must be given to each stockholder entitled to vote pursuant to the provisions of this section, a vote of the stockholders entitled to vote in person or by proxy must be taken for and

voting power of each class or series adversely affected by the amendment
regardless of limitations or restrictions on the voting power thereof. The
amendment does not have to be approved by the vote of the holders of shares
representing a majority of the voting power of each class or series whose
preference or rights are adversely affected by the amendment if the articles of
incorporation specifically deny the right to vote on such an amendment.

3. Provision may be made in the articles of incorporation requiring, in
the case of any specified amendments, a larger proportion of the voting
power of stockholders than that required by this section.

4. Different series of the same class of shares do not constitute different
classes of shares for the purpose of voting by classes except when the series
is adversely affected by an amendment in a different manner than other series
of the same class.

5. The resolution of the stockholders approving the proposed amendment
may provide that at any time before the effective date of the amendment,
notwithstanding approval of the proposed amendment by the stockholders,
the board of directors may, by resolution, abandon the proposed amendment
without further action by the stockholders.

6. A certificate filed pursuant to subsection 1 is effective [upon] at the
time of the filing of the certificate with the Secretary of State or upon a later
date and time as specified in the certificate, which date must not be more
than 90 days after the date on which the certificate is filed. If a certificate
filed pursuant to subsection 1 specifies a later effective date but does not
specify an effective time, the certificate is effective at 12:01 a.m. in the
Pacific time zone on the specified later date.

7. If a certificate filed pursuant to subsection 1 specifies [and] a later
effective date and if the resolution of the stockholders approving the
proposed amendment provides that the board of directors may abandon the
proposed amendment pursuant to subsection 5, the board of directors may
terminate the effectiveness of the certificate by resolution and by filing a certificate of termination with the Secretary of State that:

(a) Is filed before the effective date specified in the certificate filed with the Secretary of State pursuant to subsection 1;
(b) Identifies the certificate being terminated;
(c) States that, pursuant to the resolution of the stockholders, the board of directors is authorized to terminate the effectiveness of the certificate;
(d) States that the effectiveness of the certificate has been terminated;
(e) Is signed by an officer of the corporation; and
(f) Is accompanied by a filing fee of $175.

If the certificate does not alter or amend the articles, it must be signed by an officer of the corporation and state that the officer has been authorized to sign the certificate by resolution of the board of directors adopted on the date stated, and that the certificate correctly sets forth the text of the articles of incorporation as amended to the date of the certificate.

5. A certificate filed pursuant to this section is effective at the time of the filing of the certificate with the Secretary of State or upon a later date and time as specified in the certificate, which date must not be more than 90 days after the date on which the certificate is filed. If a certificate filed pursuant to this section specifies a later effective date but does not specify an effective time, the certificate is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

A right to indemnification or to advancement of expenses arising under a provision of the articles of incorporation or any bylaw is not eliminated or impaired by an amendment to such provision after the occurrence of the act or omission that is the subject of the civil, criminal, administrative or investigative action, suit or proceeding for which indemnification or advancement of expenses is sought, unless the provision in effect at the time of such act or omission explicitly authorizes such elimination or impairment after such action or omission has occurred.

4. A certificate of limited partnership may be amended at any time for any other proper purpose the general partners determine.

2. This section:
(a) Provides the exclusive remedy by which a judgment creditor of a partner or an assignee of a partner may satisfy a judgment out of the partnership interest of the judgment debtor. No other remedy, including, without limitation, foreclosure on the partner's partnership interest or a court order for directions, accounts and inquiries that the debtor or partner might have made, is available to the judgment creditor attempting to satisfy the judgment out of the judgment debtor's interest in the limited partnership, and no other remedy may be ordered by a court.

A cancellation does not terminate the authority of the Secretary of State to accept service of process on the foreign limited partnership with respect to causes of action arising out of the transactions of business in this State.

2. If a certificate filed pursuant to subsection 1 specifies a later effective date but does not specify an effective time, the cancellation of the registration is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

88A.030 "Business trust" means an unincorporated association which:

1. Is created by a governing instrument under which property is held, administered, managed, controlled, invested, reinvested or operated, or any combination of these, or business or professional activities for profit are carried on, by a trustee or trustees for the benefit of the persons entitled to a beneficial interest in the trust property or as otherwise provided in the governing instrument; and

2. Files a certificate of trust pursuant to NRS 88A.210.

The term includes, without limitation, a trust of the type known at common law as a business trust or Massachusetts trust, a trust qualifying as a real estate investment trust pursuant to 26 U.S.C. §§ 856 et seq., as amended, or any successor provision, or a trust qualifying as a real estate mortgage
investment conduit pursuant to 26 U.S.C. § 860D, as amended, or any successor provision.

Sec. 85. NRS 88A.050 is hereby amended to read as follows:
88A.050 “Governing instrument” means any one or more instruments, whether referred to as a trust instrument, declaration of trust or otherwise, that create a trust and provide for the governance of its affairs and the conduct of its business.

Sec. 86. NRS 88A.210 is hereby amended to read as follows:
88A.210 1. One or more persons may create a business trust by adopting a governing instrument and signing and filing with the Secretary of State a certificate of trust. The certificate of trust must set forth:

   (e) Any other information the trustees determine to include.
2. Upon the filing of the certificate of trust with the Secretary of State and the payment to the Secretary of State of the required filing fee, the Secretary of State shall issue to the business trust a certificate that the required records with the required content have been filed. From the date of that filing, the business trust is legally formed pursuant to this chapter.
3. Except as otherwise provided in the governing instrument, a business trust organized on or after October 1, 2011, is deemed to be an entity separate from its trustee or trustees and beneficial owner. Except as otherwise provided in the governing instrument, a business trust may hold or take title to property in its own name, or in the name of a trustee in the trustee’s capacity as trustee, whether in an active, passive or custodial capacity. The provisions of this subsection do not change the status of any business trust existing as an entity or aggregation before October 1, 2011.
4. Neither the use of the designation “business trust” nor a statement in a governing instrument or certificate of trust to the effect that the trust formed thereby is or will qualify as a business trust under this chapter creates a presumption or inference that the trust so formed is a business trust for the purposes of Title 11 of the United States Code.

Sec. 87. NRS 88A.250 is hereby amended to read as follows:
88A.250 1. A certificate of amendment or restatement filed with the Secretary of State, or upon the future effective time as specified in the certificate, pursuant to this chapter is effective:
   (a) At the time of the filing of the certificate or restatement with the Secretary of State;
   (b) Upon a later date and time as specified in the certificate, which date must not be more than 90 days after
the date on which the certificate or restatement is filed with the Secretary of State; or

(c) If the certificate or restatement specifies a later effective date but
does not specify an effective time, at 12:01 a.m. in the Pacific time zone on
the specified later date.

At the effective time of the certificate or restatement, the certificate of
trust is amended or restated as set forth in the certificate or restatement.

2. A certificate of cancellation or the articles of merger in which the
business trust is not a surviving entity are effective:

(a) At the time of the filing of the certificate or the articles with the
Secretary of State, or upon the future effective date;

(b) Upon a later date and time as specified in the certificate or
articles, which date must not be more than 90 days after the date on which
the certificate or articles are filed with the Secretary of State; or

(c) If the certificate or articles specify a later effective date but do not
specify an effective time, at 12:01 a.m. in the Pacific time zone on the
specified later date.

At the effective time of the certificate or articles, the certificate of trust is
cancelled.

Sec. 88. NRS 88A.260 is hereby amended to read as follows:

88A.260 1. Except as otherwise provided in the certificate of trust, the
governing instrument or this chapter, a business trust has perpetual existence
and may not be terminated or revoked by a beneficial owner or other person
except in accordance with the certificate of trust or governing instrument.

2. Except as otherwise provided in the certificate of trust or the
governing instrument, the death, incapacity, dissolution, termination or
bankruptcy of a beneficial owner does not result in the termination or
dissolution of a business trust.

3. An artificial person formed or organized pursuant to the laws of a
foreign nation or other foreign jurisdiction or the laws of another state shall
not be deemed to be doing business in this State solely because it is a
beneficial owner or trustee of a business trust.

4. The provisions of NRS 662.245 do not apply to the appointment of a
trustee of a business trust formed pursuant to this chapter.

5. A business trust or any series thereof does not terminate because the
same person is the sole trustee and sole beneficial owner.

Sec. 89. NRS 88A.360 is hereby amended to read as follows:

88A.360 To the extent that, at law or in equity,

1. Except as otherwise provided in the governing instrument but
subject to the provisions of subsection 3, a trustee shall act in good faith and in a
manner the trustee reasonably believes to be in the best interest of the
business trust.
2. If there is at least one trustee of a series trust that, in discharging its duties, is obligated to consider the interests of the trust and all series thereof, the governing instrument may provide that one or more other trustees, in discharging their duties, may consider only the interest of the trust or one or more series thereof.

3. The governing instrument may expand, restrict or eliminate the duties of the trustee of a business trust, except that a governing instrument may not eliminate the implied contractual covenant of good faith and fair dealing.

4. If the trustee acts pursuant to a governing instrument, the trustee is not liable to the business trust or to a beneficial owner for the trustee's reliance in good faith on the provisions of the governing instrument.

Sec. 90. NRS 88A.420 is hereby amended to read as follows:

88A.420 1. A certificate of trust must be cancelled upon the completion or winding up of the business trust and its termination. A certificate of cancellation must be signed by a trustee, filed with the Secretary of State, and set forth:

(b) The effective date and time of the cancellation if other than the date and time of the filing of the certificate, which must not be more than 90 days after the date on which the certificate is filed; and
(c) Any other information the trustee determines to include.

2. If a certificate filed pursuant to subsection 1 specifies a later effective date but does not specify an effective time, the cancellation of the certificate of trust is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

Sec. 91. NRS 88A.740 is hereby amended to read as follows:

88A.740 1. A foreign business trust may cancel its registration by filing with the Secretary of State a certificate of cancellation signed by a trustee. The certificate must set forth:

(a) The name of the foreign business trust;
(b) The effective date and time of the cancellation if other than the date and time of the filing of the certificate, which must not be more than 90 days after the date on which the certificate is filed; and
(c) Any other information deemed necessary by the trustee.

A cancellation does not terminate the authority of the Secretary of State to accept service of process on the foreign business trust with respect to causes of action arising out of the transaction of business in this State.

2. If a certificate filed pursuant to this section subsection 1 specifies a later effective date but does not specify an effective time, the cancellation of the registration is effective at 12:01 a.m. in the Pacific time zone on the specified later date.

(d) The number of participating shares [outstanding immediately after the merger, plus the number of participating shares] issued and issuable as a result of the merger [either by the conversion of securities issued pursuant to the merger or the exercise of rights and warrants issued pursuant to the merger,] will not exceed [by more than] 20 percent of the total number of participating shares outstanding immediately before the merger.

Sec. 98. NRS 92A.240 is hereby amended to read as follows:

92A.240 1. A merger, conversion or exchange takes effect as follows:
(a) At the time of the filing of the articles of merger, conversion or exchange

not be more than 90 days after the date on which the articles are filed;
(c) If the articles specify a later effective date but do not specify an
effective time, at 12:01 a.m. in the Pacific time zone on the specified later
date.

2. If the filed articles of merger, conversion or exchange specify such a
later effective date, or effective date and time, the constituent entity or
entities may file articles of termination before the effective date, time,
setting forth:

entity; and

NRS 92A.230.

Sec. 99. NRS 92A.270 is hereby amended to read as follows:

92A.270 1. Any undomesticated organization may become
domesticated in this State as a domestic entity by:
(a) Paying to the Secretary of State the fees required pursuant to this title
for filing the charter document; and
(b) Filing with the Secretary of State:
(1) Articles of domestication which must be signed by an authorized
representative of the undomesticated organization approved in compliance
with subsection 6;
(2) The appropriate charter document for the type of domestic entity;
(3) The information required pursuant to NRS 77.310;
(4) A certified copy of the charter document, or the equivalent, of the
undomesticated organization; and
(5) A certificate of good standing, or the equivalent, from the
jurisdiction where the undomesticated organization was chartered
immediately before filing the articles of domestication pursuant to
subparagraph (1).

2. The articles of domestication must set forth the:
(a) Date when and the jurisdiction where the undomesticated organization
was first formed, incorporated, organized or otherwise created and, if
applicable, any date when and jurisdiction where the undomesticated organization was chartered after its formation;
(b) Name of the undomesticated organization immediately before filing the articles of domestication;
(c) Name and type of domestic entity as set forth in its charter document pursuant to subsection 1; and
(d) Jurisdiction that constituted the principal place of business or central administration of the undomesticated organization, or any other equivalent thereto pursuant to applicable law, immediately before filing the articles of domestication.
3. Upon filing the articles of domestication and the charter document with the Secretary of State, and the payment of the requisite fee for filing the charter document of the domestic entity, the undomesticated organization is domesticated in this State as the domestic entity described in the charter document filed pursuant to subsection 1. The existence of the domestic entity begins on the date the undomesticated organization began its existence in the jurisdiction in which the undomesticated organization was first formed, incorporated, organized or otherwise created.
4. The domestication of any undomesticated organization does not affect any obligations or liabilities of the undomesticated organization incurred before its domestication.
5. The filing of the charter document of the domestic entity pursuant to subsection 1 does not affect the choice of law applicable to the undomesticated organization. From the date the charter document of the domestic entity is filed, the law of this State applies to the domestic entity to the same extent as if the undomesticated organization was organized and created as a domestic entity on that date.
6. Before filing articles of domestication, the domestication must be approved in the manner required by:
(a) The document, instrument, agreement or other writing governing the internal affairs of the undomesticated organization and the conduct of its business; and
(b) Applicable foreign law.
7. When a domestication becomes effective, all rights, privileges and powers of the undomesticated organization, all property owned by the undomesticated organization, all debts due to the undomesticated organization, and all causes of action belonging to the undomesticated organization are vested in the domestic entity and become the property of the domestic entity to the same extent as vested in the undomesticated organization immediately before domestication. The title to any real property vested by deed or otherwise in the undomesticated organization is not reverted or impaired by the domestication. All rights of creditors and all liens upon any property of the undomesticated organization are preserved unimpaired and all debts, liabilities and duties of an undomesticated organization that has been domesticated attach to the domestic entity.
resulting from the domestication and may be enforced against it to the same extent as if the debts, liability, and duties had been incurred or contracted by the domestic entity.

8. When an undomesticated organization is domesticated, the domestic entity resulting from the domestication is for all purposes deemed to be the same entity as the undomesticated organization. Unless otherwise agreed by the owners of the undomesticated organization or as required pursuant to applicable foreign law, the domestic entity resulting from the domestication is not required to wind up its affairs, pay its liabilities or distribute its assets. The domestication of an undomesticated organization does not constitute the dissolution of the undomesticated organization. The domestication constitutes a continuation of the existence of the undomesticated organization in the form of a domestic entity. If, following domestication, an undomesticated organization that has become domesticated pursuant to this section continues in existence in the foreign country or foreign jurisdiction in which it was existing immediately before the domestication, the domestic entity and the undomesticated organization are for all purposes a single entity formed, incorporated, organized or otherwise created and existing pursuant to the laws of this State and the laws of the foreign country or other foreign jurisdiction.

9. The owner liability of an undomesticated organization that is domesticated in this State:
   (a) Is not discharged, pursuant to the laws of the previous jurisdiction of the organization, to the extent the owner liability arose before the effective date of the articles of domestication;
   (b) Does not attach, pursuant to the laws of the previous jurisdiction of the organization, to any debt, obligation or liability of the organization that arises after the effective date of the articles of domestication;

Bill read second time.

The following amendment was proposed by the Committee on Commerce, Labor and Energy:

Amendment No. 299.

"SUMMARY—Revises provisions relating to financial institutions. (BDR 55-1107)"

"AN ACT relating to banks: prohibiting a bank from demanding the repayment of the principal of a commercial mortgage loan unless a person
fails to pay the loan as agreed; prohibiting a banking or other financial institution from unreasonably delaying a response to an offer for a short sale on real property secured by a residential mortgage loan; prohibiting a banking or other financial institution from obtaining a deficiency judgment in certain circumstances; providing a penalty; and providing other matters properly relating thereto."

Legislative Counsel's Digest:
Under existing law, a judgment creditor or a beneficiary of a deed of trust may obtain, after a hearing, a deficiency judgment after a foreclosure sale or trustee's sale if it appears from the sheriff's return or the recital of consideration in the trustee's deed that there is a deficiency of the proceeds of the sale and a balance remaining due the judgment creditor or beneficiary of the deed of trust. For an obligation secured by a mortgage or deed of trust on or after October 1, 2009, a court may not award a deficiency judgment to the judgment creditor or the beneficiary of the deed of trust if: (1) the creditor or beneficiary is a financial institution; (2) the real property is a single-family dwelling and the debtor or grantor was the owner of the property; (3) the debtor or grantor used the loan to purchase the property; (4) the debtor or grantor occupied the property continuously after obtaining the loan; and (5) the debtor or grantor did not refinance the loan. (NRS 40.455) Section 4 of this bill prohibits a court from awarding a deficiency judgment to the judgment creditor or the beneficiary of the deed of trust if: (1) the creditor or beneficiary is a banking or other financial institution; (2) the real property is a single-family dwelling and the debtor or grantor was the owner of the property; (3) the debtor or grantor used the loan to purchase the property; (4) the debtor or grantor occupied the property continuously after obtaining the loan; (5) the debtor or grantor and the banking or other financial institution entered into an agreement, commonly known as a short sale, to sell the real property to a third party for less than the indebtedness; and (6) the agreement does not state the amount of money still owed by the debtor or grantor or does not authorize the banking or other financial institution to recover that money, and contains a statement that the banking or other financial institution has waived its right to recover the amount owed. Section 3 of this bill prohibits a banking or other financial institution or its officers, managers or employees from unreasonably delaying its response to an offer for a short sale on real property secured by a residential mortgage loan.

Section 2 of this bill prohibits a bank from demanding the repayment of all or part of the outstanding principal on a commercial mortgage loan unless the debtor fails to make payments on the loan as agreed. Under existing law, a violation of section 3 constitutes a misdemeanor and, in addition to any criminal penalty, is punishable by an administrative fine of not more than $10,000. (NRS 668.112, 668.115)

Amendment No. 238 revises the provisions to Senate Bill No. 420 by specifying that a resident may return to a facility after being temporarily transferred to another facility for medical reasons only if the facility is suitable for properly caring for the patient.

It requires a facility for intermediate care and a facility for skilled nursing to post the license, information concerning the structure of management, and contact information for the administrator and the representative of the owner or operator of the facility in a conspicuous location. In addition, residential facilities for groups are required to post the same contact information with respect to the facility.

Amendment No. 487.

"SUMMARY—Revises provisions relating to the award of a contract for a public work to a specialty contractor. (BDR 28-394)"

"AN ACT relating to public works; revising provisions relating to the award of a contract for a public work to a specialty contractor; and providing other matters properly relating thereto."

Legislative Counsel's Digest:

Under existing law, a specialty contractor, which is defined as a contractor whose operations consist of the performance of construction work requiring special skill and whose principal contracting business involves the use of specialized building trades or craft, is allowed to take and execute a contract involving the use of two or more crafts or trades if the work performed in the crafts or trades, other than the crafts or trades in which the specialty contractor is licensed, is incidental and supplemental to the performance of the work in the craft for which the specialty contractor is licensed. (NRS 624.215, 624.220) With respect to public works, existing law authorizes the State or a local government to award a contract for a public work to a specialty contractor if: (1) the majority of the work performed under the contract consists of the specialty contracting for which the specialty contractor is licensed; and (2) the public work is not part of a larger public work. However, any work to be performed under such a contract that is outside the scope of the license of the specialty contractor is required to be performed by an appropriate subcontractor. (NRS 338.139, 338.148) This bill limits the applicability of those provisions to public works for which the cost is less than $250,000. This bill also prescribes the circumstances
under which a public body may award a contract to a specialty contractor for a public work for which the cost is $250,000 or more and which involves the performance of work that is outside the scope of the specialty contractor's license. This bill also provides for the certification of specialty contractors by the State Contractors' Board with respect to such contracts.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Chapter 338 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 and 3 of this act.

(a) The majority of the work to be performed on the public work to which the contract pertains consists of specialty contracting for which the specialty contractor is licensed pursuant to chapter 624 of NRS; and

2. 5. Nothing in this section shall be construed to prohibit a specialty contractor who is also licensed as a general building contractor pursuant to chapter 624 of NRS from entering into a contract for a public work or performing work himself or herself on a public work as allowed by subsection 3 of NRS 624.215.
6. The State Contractors’ Board shall adopt regulations prescribing the procedure for the certification of specialty contractors.
7. If a specialty contractor is also licensed as a general building contractor pursuant to chapter 624 of NRS, nothing in this section shall be construed to prohibit the specialty contractor who is acting in the capacity of a prime contractor from performing work himself or herself on the public work that is outside the scope of the specialty contractor’s license as otherwise allowed by subsection 3 of NRS 624.215.
Sec. 8. NRS 624.220 is hereby amended to read as follows:
624.220 1. The Board shall adopt regulations necessary to effect the classification and subclassification of contractors in a manner consistent with established usage and procedure as found in the construction business, and may limit the field and scope of the operations of a licensed contractor to
those in which the contractor is classified and qualified to engage as defined by NRS 624.215 and the regulations of the Board.

2. The Board shall limit the field and scope of the operations of a licensed contractor by establishing a monetary limit on a contractor's license, and the limit must be the maximum contract a licensed contractor may undertake on one or more construction contracts on a single construction site or subdivision site for a single client. The Board may take any other action designed to limit the field and scope of the operations of a contractor as may be necessary to protect the health, safety and general welfare of the public. The limit must be determined after consideration of the factors set forth in NRS 624.260 to 624.265, inclusive.

3. A licensed contractor may request that the Board increase the monetary limit on his or her license, either on a permanent basis or for a single construction project. A request submitted to the Board pursuant to this subsection must be in writing on a form prescribed by the Board and accompanied by such supporting documentation as the Board may require. If a request submitted pursuant to this section is for a single construction project, the request must be submitted to the Board at least 2 working days before the date on which the licensed contractor intends to submit a bid for the project.

4. Except as otherwise provided in NRS 338.139 and 338.148 and sections 2 and 3 of this act, and subject to the provisions of regulations adopted pursuant to subsection 5, nothing contained in this section prohibits a specialty contractor from taking and executing a contract involving the use of two or more crafts or trades, if the performance of the work in the crafts or trades, other than in which the specialty contractor is licensed, is incidental and supplemental to the performance of work in the craft for which the specialty contractor is licensed.

5. The Board shall adopt regulations establishing a specific limit on the amount of asbestos that a licensed contractor with a license that is not classified for the abatement or removal of asbestos may abate or remove pursuant to subsection 4.

Sec. 9. This act becomes effective on July 1, 2011, upon passage and approval for the purpose of adopting regulations and on January 1, 2012, for all other purposes.

Senator Manendo moved the adoption of the amendment.
Remarks by Senator Manendo.
Senator Manendo requested that his remarks be entered in the Journal.
Amendment No. 487 to Senate Bill No. 487 amends the bill as a whole and identifies the circumstances in which a specialty contractor can contract for a public work project with a price of $250,000 or more and that is outside the scope of the contractor's specialty license.

It provides that a public body or local government can award a contract for such a public work to a specialty contractor if: the project is not part of a larger project work project; and the majority of the work to be performed on the project consists of specialty contracting for which the contractor is licensed.
It specifies that a public body or a local government may award a contract for a public works project over $250,000 to a specialty contractor for work outside of his or specialty if: such work is incidental and supplemental to the project; the specialty contractor has received a certification from the State Contractors’ Board allowing such work; or he or she is also licensed as a general building contractor.

Senate Bill No. 10.

Remarks by Senator Copening.

Senator Copening requested that her remarks be entered in the Journal.

Senate Bill No. 10 requires the State Board of Health to adopt standards for determining whether there are an adequate number of certain types of health care cases in the community to be served to support approving an amendment to the license of certain medical or other related facilities to add such a service. The Health Division must apply these standards in making a determination of whether to approve amending a license to add such a service.

Existing law requires certain licensed medical or other related facilities to obtain the approval of the Health Division to amend their licenses to add certain services to the licenses (NRS 449.087). Those services are for the intensive care of newborn babies; the treatment of burns; the transplant of organs; the performance of open-heart surgery; and a center for the treatment of trauma victims.

This measure is effective on July 1, 2011.

Senate Bill No. 26 pertains to the appointment of public defenders and the collection of fines, fees, and other costs associated with adult and juvenile defendants. The bill provides standards to determine whether the parent or guardian of a child is required to pay for the child's legal representation in juvenile court, if the court has appointed an attorney to represent the child, and
requires the juvenile court to make a finding that a parent or guardian of the child is indigent under certain circumstances.

The measure authorizes the court to enter a civil judgment against a criminal defendant for the amount of any delinquent fines, administrative assessments, fees, and restitution imposed. The juvenile court may enter a similar civil judgment against a parent or child.

In both instances, the civil judgment may be treated the same as a judgment for money in a civil action and a person who fails to satisfy the judgment may be found in contempt. The court may include satisfaction of a civil judgment entered by the juvenile court in any sentence imposed by the court against a defendant transferred from the juvenile court.

The procedure by which a juvenile court judge approves or rejects the recommendation of master or directs a hearing *de novo* is revised by the bill.

Finally, Senate Bill No. 26 authorizes a juvenile court to establish a restitution contribution fund to provide restitution to victims of unlawful acts committed by children.

This measure is effective upon passage and approval.

Senate Bill No. 38 makes several changes with regard to the authority of the Superintendent of Public Instruction to distribute the quarterly apportionment paid to school districts and certain public schools. Under the provisions of the bill, the State Superintendent is authorized to deduct from the apportionment a claim due to the sponsor of a charter school, or to repay a claim by a district, charter school, or university school that was later found to be unearned, illegal, or excessive. In addition, the Superintendent may withhold the entire amount of the apportionment to one of these entities for the failure to submit a report required by statute.

Any withholding of an apportionment that is the result of a charter school failing to submit a report through the sponsor, would only be for the amount due to the charter school. An appeals process is provided should the affected entity wish to challenge such actions. The Superintendent also is authorized to suspend the "hold harmless" provisions for calculating pupil enrollment if the Department determines that the school district or charter school deliberately causes a decline in enrollment in order to receive a higher apportionment.

Finally, the bill authorizes an immediate adjustment to quarterly apportionments if a Department audit determines a pupil is not enrolled in or attending school.

The bill was requested by the State Department of Education to clarify its authority concerning certain acts, whether unintentional or deliberate, that affect quarterly apportionments from the Distributive School Account.

The bill is effective on July 1, 2011.

Senate Bill No. 57 expands the circumstances in which a court is authorized to issue a warrant to take physical custody of a child in a divorce proceeding. During a proceeding to establish custody of a child or to enforce or modify a child custody determination, a court may issue a warrant to take physical custody of the child if there is probable cause to believe that the child has been abducted. If the court determines that exigent circumstances exist, such as imminent danger of the child's removal from Nevada or serious physical harm, the court must, before issuing the warrant, hold an *ex parte* hearing at which the party seeking the warrant is present but the party alleged to have committed the abduction is not. If no exigent circumstances exist, both parties must be given the opportunity to be heard.

The warrant issued by the court must determine placement of the child pending final relief. This measure was brought by the Office of the Attorney General to bring Nevada into conformance with standards of the Fourth Amendment of the United States Constitution concerning probable cause for "pick-up orders" issued by family court judges commanding the return of a child from a non-custodial parent.

Senate Bill No. 66 authorizes the Attorney General to organize or sponsor multidisciplinary teams to review the death of a victim of domestic violence under certain circumstances. The purpose of these teams is to examine trends and patterns of domestic violence deaths in Nevada; determine the number and type of incidents to be reviewed; make policy and other recommendations for prevention of such deaths; educate the public, victim support providers, and policymakers concerning domestic violence crimes; and recommend policies, practices, and services to encourage collaboration and reduce domestic violence deaths. Such teams may also meet and share information with similar teams created to review the death of a child.

The results of a team's review are not admissible in any civil action or proceeding. The measure also expands the authority of a multidisciplinary team created under existing statute by the court or agency of local government to obtain relevant information and records and to meet with others who may have relevant information.

The teams created by this measure will include a representative of the Attorney General, law enforcement, the district attorney, the coroner, social service providers, and others as necessary.

The measure adds multidisciplinary teams to the list of entities authorized to receive data or information from certain reports and investigations concerning the abuse or neglect of children, and requires the State Board of Health to allow such teams to use death certificates in the same manner as the Board allows a multidisciplinary team to review the death of a child.

Senate Bill No. 110 establishes a new business license category and fee structure in Clark County and those cities within Clark County with populations of 150,000 or more. The measure is specific to contractors licensed pursuant to Chapter 624 of the Nevada Revised Statutes and affords such contractors a single business license to conduct their business throughout the Las Vegas Valley.
The bill requires the county and cities to enter into an interlocal agreement for the establishment of such a business license and the necessary rights, obligations, and
responsibilities associated with the license. Clark County and the affected cities must also adopt ordinances that: prescribe the process for obtaining such a business license; set the appropriate licensing fees; and provide any other requirements necessary to establish the system for issuing the business license. The bill also specifies that in order for a person to be eligible to obtain the business license, he or she must meet whatever requirements are set forth in the ordinance and satisfy other requirements relating to the maintenance of the business in one location within either the unincorporated county or one of the incorporated cities. In addition, a contractor who obtains such a business license is subject to all other licensing and permitting requirements of the State, counties, and cities in which the licensee does business.

Clark County and the those cities in Clark County with populations of 150,000 or more must enter into the required interlocal agreements and enact the required ordinances on or before one year after the effective date of the measure. The bill is effective upon passage and approval.

To obtain possession, the insurer must provide the tow car operator with a consent form that satisfies the requirements established by the Commissioner of Insurance, Department of Business and Industry.

If a motor vehicle is towed and stored at the request of a law enforcement officer after an accident, a tow car operator shall not satisfy any lien or impose any administrative or processing fee for four business days after the vehicle is placed in storage. A tow car operator may not impose any fee relating to the auction of a towed motor vehicle until certain notice requirements are met.

If a vehicle is a total loss and if the insurer provides notice, a vehicle owner or an agent of an owner may consent to a vehicle being towed and placed in storage at the insurer's direction and expense.
If the vehicle is repairable, an owner or authorized agent may consent to the vehicle being towed to a repair shop designated by the owner or agent.

I want to commend my colleague for bringing this bill forward. As a country, we lose sight of the fact that every week some member of our armed forces dies or is wounded in the ongoing conflicts. Unless you read the list in the New York Times every day, you do not understand that it is happening. This is a small reminder, but one way to remind ourselves, as a people, that it is happening. The number of wounded far outpaces the number killed in action. Those wounds can be devastating. They affect real people and real families in our State and around the country every day. Senate Bill No. 159 revises the information provided by the Department of Corrections (DOC) to inmates upon release, whether the release is by expiration of sentence, pardon, or parole. The bill requires that upon release, inmates must be given information about obtaining employment, including programs and organizations that offer workplace bonds; and acquiring a valid driver's license or identification necessary for obtaining employment.

For those on probation, the measure allows the court to include a requirement that any earnings of the probationer be held in a trust administered by a court-designated trustee. The trust would be used to pay for restitution, child support, and other obligations as ordered by the court.

Finally, the bill expands the list of felons who may be ordered by the court to participate in an alternative sentence program, treatment, or other activity as a condition of probation. Currently, the law allows those found guilty of a category C, D, or E felony to be ordered into such programs. Senate Bill No. 159 would also include allowing those found guilty of a non-violent category B felony into those same programs, at the court's discretion.

Senate Bill No. 187 replaces the requirement that a prisoner convicted of certain sexual offenses may only be released on parole by the Board of Parole Commissioners with certification by a panel that the prisoner does not represent a high risk to reoffend. The panel must adopt regulations to ensure that the evaluations are based on currently accepted standards of assessment, contain a statement about other relevant information known about the prisoner, and rate the prisoner's risk to reoffend.
The measure also authorizes the Board to require an evaluation of a sex offender to assist in determining parole and clarifies that a prisoner does not have a right to an evaluation or reevaluation more frequently than the prisoner's regularly scheduled parole hearings.

Senate Bill No. 196 makes various changes concerning empowerment schools. The measure removes the sunset on the empowerment schools' statutes adopted by the 2007 74th Legislature and eliminates the statutory cap limiting the number of empowerment schools to 100 schools statewide.

This measure will provide additional time for the operation of empowerment schools for evaluation purposes, and allows for a possible future expansion of such schools. Due to the economic downturn, funds for the empowerment schools pilot program authorized by the 2007 74th Legislature were reverted prior to the start of the program. Although some school districts have established a limited program, according to testimony, future legislatures may want to provide the necessary resources to operate and evaluate the program statewide. Since the statutes concerning empowerment schools are due to expire on June 30, 2011, the bill will extend the program by removing the sunset provision.

The bill is effective upon passage and approval.

Senate Bill No. 198 makes various changes to the regulation of banks and retail trust companies. The bill prohibits a bank that acquires real property through the collection of debts from holding the property for longer than five years. A bank may request, and the Commissioner of Financial Institutions, Department of Business and Industry, may grant, an extension of not more than five additional years. The Commissioner shall not grant more than one extension. The bill also removes the requirement that a bank annually charge off a certain percentage of the value of such real property.

The bill makes certain changes in the allowable investments of stockholders' equity and the minimum capital requirements for a retail trust company.

The Commissioner may approve locating a branch of a retail trust company in another state if the company provides written documentation from an appropriate state agency that the company is authorized to do business in that state.

Senate Bill No. 198 makes certain changes in the procedure for denying an application for licensure as a retail trust company and for removal of an official or employee of such a company.

Senate Bill No. 200 requires the manager or board of an association of a time-share plan to maintain a complete list of the names and addresses of all time-share owners, which must be updated not less than quarterly. Unless the declaration or bylaws of the time-share plan provide otherwise, and notwithstanding any law to the contrary, personal information about the owners may not be published or provided to another person without prior written consent of the owner whose information is requested. Before obtaining consent, the manager or executive board must provide the owner with the option to limit the information published, as well as a written disclosure concerning the effect of publishing personal information.

The manager or board must also mail materials to time-share owners at the request of an owner under certain circumstances and establish procedures for mailings by the owners themselves.

As an alternative to publishing in a newspaper the notice of a sale to satisfy a lien, Senate Bill No. 200 allows for such notices and a specific declaration to be posted on an Internet website for three consecutive weeks, and for a statement to be published in the newspaper informing interested parties that the notice of sale is posted on the Internet website.

Senate Bill No. 218 authorizes the Nevada Gaming Commission, with advice and assistance of the State Gaming Control Board, to provide by regulation for the operation and registration of hosting centers not located at a licensed gaming establishment. Similar regulations may be established for the licensing of service providers to perform certain services on behalf of a non-restricted gaming licensee or interactive gaming licensee; or provide services or devices that patrons of licensed establishments use to obtain cash or wagering instruments.

The measure adds definitions of a “cash access and wagering instrument service provider” and an “interactive gaming service provider.” A person may not operate as a cash access and wagering service provider without proper gaming licenses, and existing regulations for interactive gaming must also include licensing for service providers based on certain standards.

The bill amends the process and requirements for transferring a license upon certain changes in the business entity, and revises provisions concerning the necessary licensing of partners in a limited partnership and members of a limited-liability company. The bill also clarifies provisions concerning the unlawful use or possession of certain devices, including devices that project the outcome of games or keep track of cards played.

Finally, Senate Bill No. 218 makes various changes to administrative and operational functions of the Commission and the Board, and repeals provisions relating to the Account for investigating Cash Transactions of Gaming Licenses.

Senate Bill No. 230 requires school districts and the governing body of a charter school to adopt a policy that specifies that no food containing industrially produced trans fats be purchased or provided to students. The policy will specify that trans fats will not be used in food preparation by the school district or charter school. This restriction applies to food sold on school grounds during the school days from the school cafeteria, vending machines, or school food establishments, among others. The policy must also include guidelines for parents and others concerning food brought to the school for authorized school activities, such as back-to-school and celebratory events. The policy does not apply to food made available under the federal School Breakfast Program or the National School Lunch Program.

According to testimony, although awareness is growing of the public health concerns regarding the presence of trans fats in foods and beverages, most school districts do not have a policy concerning trans fats in food that is purchased by the district for sale at its schools.

The system is composed of a voluntary partnership among the Department of Public Safety, the Department of Transportation, State and local law enforcement agencies, media outlets, and other public and private organizations to assist in the search for and safe return of missing endangered older persons.

The bill defines the term "missing endangered older person" for the purposes of the system to mean a person who is 60 years of age or older whose whereabouts are unknown and who has been diagnosed with a medical or mental health condition that places the person in danger of serious physical harm or death; or who is missing under suspicious or unexplained circumstances that place the person in danger of serious physical harm or death.

The Department of Public Safety is required to: adopt regulations governing the operation of the system; develop a plan for carrying out the system which sets forth the components of the system; administer the system; supervise and evaluate any training associated with the system; monitor, review, and evaluate the activations of the system for compliance with the provisions of this bill; and conduct periodic tests of the system.

The measure also prescribes the circumstances under which the system may be activated, and provides immunity from civil liability for certain persons and organizations that participate in the system. Finally, the measure provides a penalty for intentionally making any false or misleading statement to cause a law enforcement agency to activate the system.

Senate Bill No. 260 sets forth an alternative procedure for creating a local improvement district that includes a renewable energy project or an energy efficiency improvement project. The bill authorizes a governing body to adopt an ordinance creating an improvement district and ordering such a project to be acquired or improved. The governing body may contract with a person to construct or improve a renewable energy project or an energy efficiency project, issue bonds, or otherwise finance the cost of the project and levy assessments on assessable property. The local government is exempt from the provisions in State law setting forth a hearing procedure on the creation of local improvement districts if the governing body issues a provisional order to form the improvement district for a renewable energy project or an energy efficiency improvement project; and the governing body receives written agreement from the owners of assessable property in the proposed local improvement district.
Finally, the bill specifies that the governing body may not include a tract in the assessable property of such a local improvement district unless the owner or owners of the tract apply to the governing body to have the tracts included.
Nevada Revised Statutes 271.099 defines "energy efficiency improvement project" as "the modification of real property or the facilities or equipment on the real property that is designed to reduce the energy consumption of the real property."

Senate Bill No. 268 allows a properly certified or licensed design professional, which 
includes a registered professional engineer, architect, landscape architect, or land surveyor, to 
qualify to receive a 5 percent bidder's preference when competing for a public works project. In 
order to receive the preference, the design professional must submit proof to the appropriate 
licensing board for the design professional that he or she has paid an excise tax, based on the 
sum of all wages, of not less than $1,500 annually for five consecutive years. If this criteria is 
met, the appropriate licensing board for the design professional shall issue to the design professional a certificate of eligibility for a preference. A design professional may also qualify 
for the preference if he or she acquires all the assets and liabilities of a viable design professional 
practice that possesses a certificate of eligibility to receive the preference; and employs in his 
office or place of business a certified design professional who is a Nevada resident and is 
regularly working in that office or place of business. 
The bill establishes penalties for a design professional who submits false information to the 
licensing board regarding the payment of the excise taxes and sets forth the timeframe under 
which a public body may enter into a contract with a design professional who is not a member of 
a design-build team. Finally, the measure requires the public body or the Nevada Department of 
Transportation, as the case may be, to publicize certain information regarding the selection of a 
design-build team that includes design professionals for the public work and transmit such 
information to the appropriate licensing boards for the design professionals.
Provisions of the bill requiring the various design professional licensing boards to adopt regulations regarding the bidding preferences by October 1, 2011, are effective upon passage and approval. The remainder of the bill is effective on October 1, 2011.

Senator Schneider requested that his remarks be entered in the Journal.

Senate Bill No. 281 requires the Public Utilities Commission of Nevada (PUCN) to establish the Electric Vehicle Demonstration Program to carry out the legislative intent of registering at least 1,500 electric vehicles in Nevada before January 1, 2016. The Commission shall adopt regulations which, without limitation, establish eligibility qualifications for participants; the type and amount of financial incentives, which must not exceed $3,000 per participant; requirements for a utility's annual plan for administering the Program; and procedures for inspection and verification of a participant's electric vehicle.

Senate Bill No. 281 provides that a person who owns or operates a charging station that supplies electricity for an electric vehicle is not a public utility and, therefore, is not subject to the jurisdiction of the PUCN.

The PUCN is required to submit a report to the Director of the Legislative Counsel Bureau on or before July 1, 2012, regarding the criteria used to determine the level and amount of incentives; the anticipated benefits of the Program; and any recommendations concerning the Program.
This bill is effective on July 1, 2011.

Senator Denis disclosed that he is an employee of the Public Utility Commission. This will not impact him one way or another. He stated he did not own an electric vehicle but did own a hybrid and would be voting.

Senate Bill No. 284 prohibits the court from entering a final order modifying the terms of an existing custody or visitation order until after a parent or legal guardian who is a member of the military, and who has sole or joint custody or visitation of a child, returns from deployment.
The court may temporarily modify the order to reasonably accommodate the deployment of a parent. However, the bill creates a rebuttable presumption that the temporary order must revert
to the original order unless it is not in the best interests of the child. If the court temporarily modifies the order, it must ensure the ability of the deployed parent to maintain frequent and continuing contact with the child by reasonably available means.

The measure provides that deployment or the potential for future deployment does not constitute a substantial change in circumstances sufficient to warrant a permanent modification of an order, and authorizes delegation of the deployed parent's visitation rights to a family member under certain circumstances.

Finally, the court is required to hold an expedited hearing or allow the parent to present testimony and evidence by electronic means if the parent's ability to appear in person is materially affected by his or her current or pending deployment.

The measure is effective on October 1, 2011.

Senate Bill No. 288 includes Indian tribes and tribal organizations in the Waterpower Energy Systems Demonstration Program, and extends the prospective expiration of the program until June 30, 2016. It also expands the capacity of the program to 5 megawatts. At least 1 megawatt of that amount must be allotted to systems with a capacity of 100 kilowatts or less. The Board of Medical Examiners and the State Board of Osteopathic Medicine may adopt regulations governing the supervision of a medical assistant, including without limitation, regulations that prescribe limitations on the possession and administration of a dangerous drug by a medical assistant. Remarks by Senators Denis, Settelmeyer, Parks, Kieckhefer, Brower and Cegavske.

SENATOR DENIS:

Senate Bill No.318 provides that new school buses purchased after January 1, 2014, must meet certain fire safety standards concerning the flammability of occupant seat material and for plastic components within the engine compartment.

According to testimony, most of the "thermal incidents" involving Nevada school buses occurred within the engine compartment due to leaking fuel lines. The plastic components covering electronic devices within the engine compartment will now be required to meet Underwriter Laboratory standards, removing that as an ignition source for a fire.

The bill is effective on July 1, 2011.

SENATOR SETTELMEYER:

I appreciate the bill changing. I think it is no longer requiring a retrofit of seats, because that was about $500 per seat. Now it only applies to when you purchase new equipment. Then you do not have to retrofit. What will be the cost to the school district when buying a new bus?

SENATOR PARKS:

Thank you, Mr. President. The application for this would be for buses that would be acquired after the date January 1, 2014. If put in service after that date, they would have to be constructed with materials that have a flammability resistance. The cost is minimal. My experience goes back 20 years when purchasing transit buses that required fabric seating. The cost difference was minimal. Less than a few dollars per bus overall.

SENATOR KIECKHEFER:

I appreciate the issue of trying to keep children safe on the bus. Do we require them to wear seat belts on the school bus?

SENATOR PARKS:

No.

SENATOR BROWER:

I want to disclose that a member of my law firm testified in support of this bill. After conferring with legal counsel I do not have a conflict. I will vote on this bill.

SENATOR CEVAWSKE:

Thank you, Mr. President. I have been concerned about this. It is another unfunded mandate for the school districts. They did not present a fiscal note to us in the hearing. It is something that
is different. The school districts have a national standard for their buses. This puts an additional mandate on them, not only for the seating that is non-flammable material, but it also requires that there is plastic under the hood. It is a new set of requirements that would go under the hood for the engine. They stated that in the State of Nevada, Clark County had none to report. There were a few engine fires in other parts of the State. I still have concerns that this is an unfunded mandate for the school districts. They all agreed on that. There was some confusion in this, but they still say it is an unfunded mandate.

SENATOR DENIS:

In Committee, one of the things we found out was that there were ten thermal incidents in the State and all of them were in the engine compartments. Currently there is no standard for those. This would put in place a standard for the plastic components that are under the hood. That is where the issues are when there is a fire on a school bus. That would be a minimal cost.

The bill exempts such an application from several requirements in existing law for applications for permits concerning water rights, including publication of notice of the application in a newspaper and authorization for the filing of protests against the granting of the application.

Finally, Senate Bill No. 361 requires the State Forester Firewarden, upon the request of the State Engineer, to review the plan for establishing the vegetative cover that is required to be submitted by the applicant for the temporary permit.

Senate Bill 392 was a recommendation of the 2009-2010 Legislative Commission's Committee to Study Powers Delegated to Local Governments, which received suggestions and heard testimony from the Interim Technical Advisory Committee on Intergovernmental Relations. The Committee created by this bill shall serve as a forum for the discussion and resolution of intergovernmental challenges and is charged with engaging in numerous activities and conducting studies relating to: (1) local government structure; (2) powers of local government, including various functions and fiscal powers; (3) State and local government relationships; (4) the allocation of resources at the State and local levels; and (5) making recommendations for legislation made to the Chairs of the Senate and Assembly Committees on Government Affairs. The Nevada Advisory Committee on Intergovernmental Relations is also required to prepare and submit to the Nevada Legislature, on or before July 1 of each year, a report setting forth the activities and findings of the Committee during the previous year. Administrative support for the Committee shall be provided by the Nevada Association of Counties and the Nevada League of Cities and Municipalities.

Senate Bill No. 432 authorizes the Regional Transportation Commission (RTC) in Clark and Washoe Counties to issue revenue bonds and other revenue securities to fund the construction and maintenance of road projects, public transit systems and projects to improve air quality, if the RTC has executed an interlocal agreement with the county.

The bill removes certain requirements for the cessation of the sales tax imposed for infrastructure projects in Clark County and also removes the prohibition on the issuance of bonds, based on a specified date or the amount of proceeds collected from the sales tax.

The bill also extends the period of time for which general obligation bonds may be issued for a water facility or a wastewater facility, from 30 years to 40 years.

SENATOR ROBERSON:

Thank you, Mr. President. Sections 8 through 14 of this bill refer to the Southern Nevada Water Authority. Section 8 removes the sunset date and leaves the imposition of the tax open ended. While the voters approved the 0.25 percent sales tax in 1998, the question did not contain the sunset, the explanation did contain the sunset. I will vote "no" on this bill.

SENATOR HALSETH:

I also rise in opposition to Senate Bill No. 432. In addition to the concerns of my colleague from Clark County District No. 5, section 10 extends the potential life of the GO bonds from 30 to 40 years. There will be a substantial increase in interest that will have to be paid.

SENATOR HARDY:

I will vote in favor of this bill. It continues a current tax opportunity for bonding. I look at this through my "jobs" glasses and recognizing there is a water issue that is critical for my district and all of the projects they need to have, as well as this place called Clark County still needs a drink of water.

SENATOR SCHNEIDER:

Thank you, Mr. President. This is about water for the future. Yes, it costs money. It is not free to build a straw into the lake as deep as they want to go. You cannot put this off. We had a good water year this year, but we have had ten bad years. Next year, we could start 50 years of drought. We do not know, but we must be ready. It is critical for Las Vegas that we have this...
straw. I stand in support and urge all Clark County people to keep an open mind on this unless they want to bathe in Evian water.

Senate Bill No. 488.

Senator Schneider requested that his remarks be entered in the Journal.

Senate Bill No. 488 provides that the Public Utilities Commission of Nevada shall require a utility that supplies electricity in this State to include certain provisions relating to transmission facilities in its triennial resource plan. The plan must include plans for transmission facilities to support the construction of renewable energy facilities, without regard to the location of the purchaser of energy from such renewable energy facilities; provisions to serve the transportation needs of the utility; and provisions to serve any renewable energy facility that delivers energy outside the service territory of the utility and that requests interconnection with the utility.

The plan may propose the sighting, permitting, or construction of a transmission facility or corridor in phases. A utility may recover reasonable expenses for any sighting, development, and permitting of a corridor that is conducted without inclusion in the statutorily required plan.

The bill also establishes that a special district for which a sales and use tax is imposed may not be created in a portion of a county if it would cause the rate of sales and use tax in that portion of the county to be higher than other portions of the county.

Pursuant to Section 2 of Article 19 of the Nevada Constitution, the provisions of Senate Bill No. 495 provide for a competing measure to Initiative Petition No. 1 to be placed on the ballot at the general election held on November 6, 2012.

Senator Kihuen requested that his remarks be entered in the Journal.
Assembly Bill No. 144 adds five criteria that must be met to qualify for the 5 percent bidding
preference on State and local public works projects. The applicant must submit a signed affidavit
certifying that the criteria will be met for the duration of the project. The additional criteria are:
at least 50 percent of the workers must have a Nevada driver's license or identification card;
vehicles must be registered in Nevada or be partially apportioned to Nevada; at least 50 percent
of the design professionals working on the project must have a Nevada driver's license or
identification card; at least 25 percent of the suppliers of the materials used must be located in
Nevada; and certain payroll records must be maintained and available in Nevada. The bill also
requires the contractor to maintain, for all workers on the project, a list of the driver's license and
identification card numbers.

The public works contract must contain the five criteria and provide that failure to comply
with the criteria constitutes a material breach entitling the public body to liquidated damages
equal to 10 percent of the contract's cost. The contract must also contain a provision to apportion
the liability for damages for a material breach between the contractor and subcontractor in
proportion to each party's liability for the breach. A contract not in compliance with this bill
shall be void. A contractor who receives a preference and breaches the contract shall be
penalized as follows: if the cost of the contract exceeds $5 million, the contractor shall lose the
preference certification for five years; or if the contract exceeds $25 million, the contractor shall
be barred from bidding on public works projects for one year.

A person may file a written objection with the public body to a proposed or awarded contract,
along with supporting proof, alleging that the criteria are not being met. The public body must
review the objection and supporting proof and determine whether the criteria are being met. If
the public body determines the criteria are not being met, the contract may be awarded to
another bidder or the public body may seek liquidated damages. Breaches shall be reported to
the State Contractors' Board and the information shall be retained for at least six years.
