SMALL BUSINESS IMPACT STATEMENT AS REQUIRED BY NRS 233B.0608

Pursuant to NRS 233B.0608(1), the Division of Parole and Probation is required to make a determination whether its proposed regulations will: a) imposed a direct and significant economic burden on small business, and (b) directly restrict the formation, operation, or expansion of small business. NRS 233B.0382 defines a small business to be any business that employs 150 or fewer employees. Small businesses that may be affected by the proposed regulations include private attorney and/or attorney firms who represent individuals who have plead guilty to or have been convicted of a criminal offense in which a presentence investigation report has been ordered by the court.

The Division of Parole and Probation has considered the two factors in NRS 233B.0608(1) and acknowledges the following:

1. The proposed changes will not impose a direct and significant impact on small businesses
2. The proposed changes will not directly restrict the formation, operation or expansion of small businesses
3. No fees are created, increased or implemented by these regulations.

Therefore, the Division of Parole and Probation makes the following finding:

1. The proposed regulation will not impose a direct and significant economic burden upon small businesses and will not directly restrict the formation, operation or expansion of small businesses.

To the best of my knowledge and belief, a concerted effort was made to determine the impact of the proposed regulation on small businesses and the information contained in this statement was prepared properly and is accurate:

Natalie A. Wood, Chief
Department of Public Safety
Division of Parole and Probation
