

**Informational statement relating to Commission General Regulation No. 444  
LCB File No. R086 -14 - as required by Chapter 233B.066.**

**1. A clear and concise explanation of the need for the adopted regulation.**

The need for this regulation is to prevent injuries to swimmers and bathers caused by contact with power vessels using the ramp. The ramp was created to launch boats for use on the Colorado River. Since a new dike creates a flat water area, it has become popular bathing area. Swimming and bathing in the flat water area interferes with the launching of vessels and exposes swimmers to the danger of being struck by vessels.

**2. Description of how public comment was solicited, a summary of public response, and an explanation of how other interested persons may obtain a copy of the summary.**

A copy of the proposed regulation was noticed and provided to Nevada's 17 County Advisory Boards to Manage Wildlife (CABs) as part of the Nevada Board of Wildlife Commissioners (NBWC) agenda and support material for their September 13, 2014 workshop and meeting. CABs that held public meetings prior to the September 13-14, 2014 NBWC workshop and meeting, provided opportunity for public comment at their individual meetings. Public comment was solicited at the NBWC workshop on September 13, 2014 in Las Vegas. The NBWC approved adoption on November 15, 2014 at their meeting in Reno. No public response was received at the NBWC meeting pertaining to the provisions of this regulation.

The public did not voice opposition to this regulation.
