

VI. A. Appointments to Various Ongoing Statutory Committees

4. Legislative Committee on Health Care (NRS 439B.200)

Summary: This Committee has broad authority to review and evaluate the quality, effectiveness, and costs of health care in this State. It consists of six members (three from each House), appointed by the Legislative Commission with regard for their experience with/knowledge of health care matters.

No member of the Committee may:

- (a) Have a financial interest in a health facility in this State;
- (b) Be a member of a board of directors or trustees of a health facility in this State;
- (c) Hold a position with a health facility in this State in which the Legislator exercises control over any policies established for the health facility; or
- (d) Receive a salary or other compensation from a health facility in this State.

These provisions do not:

- (a) Prohibit a member of the Committee from selling goods which are not unique to the provision of health care to a health facility if the member primarily sells such goods to persons who are not involved in the provision of health care.
- (b) Prohibit a member of the Legislature from serving as a member of the Committee if:
 - (1) The financial interest, membership on the board of directors or trustees, position held with the health facility or salary or other compensation received would not materially affect the independence of judgment of a reasonable person; and
 - (2) Serving on the Committee would not materially affect any financial interest he has in a health facility in a manner greater than that accruing to any other person who has a similar interest.

The Legislative Commission selects a chair and vice chair. The chairmanship rotates between the Houses and is in the Senate during this interim. The Committee will conduct approximately seven to eight meetings lasting around six hours between September 1, 2019, and August 31, 2020.
