Testimony

JUANITA COX

Citizens In Action
Nevada Republican Assembly
1281 Terminal Way Suite 222
Reno, Nevada 89502

Legislative Committee on Health
401 S Carson St
Carson City, Nevada 89701

Chairman and members of the Committee on Health:

For the record, I am Juanita Cox, I represent myself, Citizens In Action and the Nevada Republican Assembly.

I am speaking against MANDATORY VACCINATIONS as we believe in INDIVIDUAL FREEDOM and RIGHTS! We believe FORCED VACCINATIONS don't allow the right of choice.

We believe the poor will be punished as they will not be able to financially homeschool or legally fight any MANDATORY situation. These poor people will be FORCED into a non-voluntary vaccination situation whereas, a more financial stable family could have easily refused or legally fought mandatory vaccinations.

We believe anything FORCED, supersedes your lawful authority. We need to know if you are personally insured or Bonded? We are not speaking about your General Bond because this MANDATORY decision could supersede your OATH of Office, therefore putting your own fiduciary assets at risk. So, why would you MANDATORY anything? When forced, the FORCER assumes the liability!

The patient must be allowed to make bad decisions as well as good ones.

No mandatory vaccinations!

THANK YOU.

Respectfully,

Juanita Cox, President
Nevada Republican Assembly
Citizens In Action
