Good Morning Members of the Committee,

Andrea Connolly, Principal of Nevada Learning Academy. This comment is In response to the question about the availability of online schools in Nevada. In addition to those mentioned, Nevada Learning Academy (NVLA) at CCSD is an online 6-12 school that is available to all Nevada students. NVLA is a public school that is part of CCSD and is not a charter school program. NVLA serves approximately 4,000 students during the school year and 7,000 students during the summer term.

Thank you,

Andrea M. Connolly
