With regards to item: 1. 17-C15 – Complete Planning and Begin Construction of a New Medical School Building, UNLV

I am the City of Las Vegas councilman for Ward 1 which encompasses the Las Vegas Medical District, known for the University Medical Center, Valley Hospital, a variety of healthcare services and most recently the UNLV School of Medicine, in addition to the School of Dental Medicine. I want to thank the Governor and the Nevada State Legislature for their continued and ongoing support of the School of Medicine. The Leadership of the Governor and the Legislature for the School of Medicine project has enabled the important evolution of the healthcare industry in Southern Nevada. The School of Medicine is significant in its attempt to develop doctors in Nevada and will continue the efforts related to economic development as healthcare is and has continued to be a stable industry in Nevada.

I look forward to a future in Nevada where healthcare and the healthcare industry is a priority. Given our current world situation, investing in healthcare now is critical to the successful diversification of our economy as well as the health of our residents and visitors.

Thank you for your time and energy in supporting UNLV School of Medicine.

Brian Knudsen

City Councilman, Ward 1
