

**Nevadans for the  
Common Good**

2108 Revere Street, North Las Vegas, NV 89030

My name is Barbara Paulsen and I am speaking on behalf of Nevadans for the Common Good. Nevadans for the Common Good supports the allocation of \$30 million of Coronavirus Relief Funds toward residential rental assistance and, having met with Treasurer Conine and others, agrees with the structure and intent of the program. We therefore urge the IFC to support this allocation while recognizing that this is not nearly enough to address this issue as coronavirus cases and accompanying unemployment continue at high levels. We are continuing to hear stories from our people about unemployment leading to housing instability. We are encouraged by the steps being taken at local and state levels to address these issues and urge continued partnership with one another and the community as we know we are facing many months of difficulty ahead.
