

Dear Chairman Parks:

Friends of Nevada Wildlife would like to lend its support to the recent presentation by the Coalition for Healthy Nevada Lands.

The health of our Nevada Public Land area has never been more important. Without better control and management of the wild horse herds in Nevada, the health of the horse herds along with other wildlife in Nevada is at stake. Friends of Nevada Wildlife urges you to vote to support better herd management in Nevada.

Sincerely,

Gil Yanuck

President, Friends of Nevada Wildlife
