Re: Application for Special License Plate

To Whom It May Concern:

Thank you for the opportunity for Keep Memory Alive to further our application for a specialty license plate. At this time, we have determined that this is not an appropriate time for us to pursue this project and have decided to withdraw our application. Furthermore, we fully understand that we will need to re-submit a new application if we choose to pursue a special license plate at a future date.

We ask that you please release the surety bond submitted with the original application. Again, thank you for the opportunity.

Sincerely,

Erick Vidmar
Administrative Director
Cleveland Clinic Nevada
