

## Ruby Pipeline Project, Proposed Natural Gas Pipeline

Map of Proposed Ruby Pipeline Project

The U. S. Department of the Interior's (DOI) Bureau of Land Management (BLM) today signed a Record of Decision (ROD) and Right-of-Way Grant (ROW) for the Ruby Pipeline Project, a proposed 678 mile interstate natural gas pipeline that crosses 368 miles of Federal land beginning near Opal, Wyoming, through northern Utah and northern Nevada, and terminating near Malin, Oregon. The BLM Nevada State Director, as the designated Federal official, signed the ROD and authorized the ROW for the construction, operation, maintenance, and termination of the pipeline and associated facilities across lands under jurisdiction of the BLM, the U.S. Forest Service, the Bureau of Reclamation, and the U.S. Fish and Wildlife Service in the four states.

The ROD is for the selected alternative for the Ruby Pipeline Project, and the ROW is for the route certificated by the [Federal Energy Regulatory Commission \(FERC\)](#), with the inclusion of the Newmont and Southern Langell Valley reroutes.

The ROD, the ROW, and the Temporary Use Permits may be accessed by clicking on the corresponding links below.

The referenced attachments are available on CD by request via e-mail at: [blmruby@blm.gov](mailto:blmruby@blm.gov) or by mail to: Mark Mackiewicz, BLM National Project Manager, c/o 125 South 600 West, Price, UT 84501. Questions concerning the ROD may be directed to Mark Mackiewicz at the above address or by phone: 435-636-3616.
