The licensing of a foster home means only that the licensing authority has evaluated the family, physical plant and services, and has determined that the foster home is in compliance with licensing requirements.

The director or operator of the foster home is responsible for interviewing each prospective employee and submitting a copy of each employment application and resume to the licensing authority upon request.

3. Intentional misrepresentation or omission of information on a foster home application is cause for the immediate denial of the application or revocation of the license. Such a denial or revocation is not subject to appeal.

1. A licensing authority representative shall conduct a fair and impartial investigation of each foster home after receipt of an application for the licensing of the home, and shall investigate the home to determine whether the licensing requirements are met and the maximum capacity and range of ages of children for which the home may be licensed. The licensing authority representative shall gather direct

and collateral data to complete the licensing study. A licensing authority representative may visit the foster home at any time, announced or unannounced, to determine compliance with licensing requirements and must be available for consultation as appropriate. The licensing authority representative shall visit each foster home at least once during the annual licensing period. That visit may be conducted as part of the initial issuance of a license or the renewal of a license.

3. The licensing authority may require each group foster home to be inspected upon its application for a license by the local building inspector and any local or state health inspector. A subsequent building inspection may be required if any structural remodeling is done. Any such remodeling must adhere to any applicable requirements relating to building set forth in an ordinance of the local government having jurisdiction.

4. The licensing authority may require all foster homes to be inspected annually by a health authority if individual well water or a septic tank is used.

5. If a foster home is not located on a city water system, the licensing authority may require the analysis of a water sample and the issuance of a report of approval by the appropriate governmental authority. The licensing authority may require foster homes that obtain their water from an individual well to have an annual water inspection to ensure that the water is safe for drinking. Bottled water may be required if the water from the individual well is unsafe.

1. If the home will accept or is currently occupied by a person who is nonambulatory, a person with a severe disability or a person with mental retardation, each such person must be counted twice when determining total occupancy.

2. If the total occupancy is:

(a) Less than 10, the licensing authority representative shall, except as otherwise provided in this paragraph, inspect the home to ensure the requirements of subsection 3 are met. The licensing authority representative is not required to inspect a home pursuant to this paragraph if the state or local fire inspector has inspected the home in conjunction with a current application.

NAC 424.185 Denial, suspension or revocation of license: Generally. (NRS 424.020, 424.045)

1. The licensing authority shall deny, suspend or revoke a license to operate a foster home for a failure or refusal to comply with the licensing requirements for a foster home. The licensing authority shall evaluate that compliance based on information gathered as well as on its interpretation of that information considering its experience with foster children and foster homes. The first responsibility of the licensing authority is to ensure licensed foster homes can provide for foster children. The licensing authority is not required to prove noncompliance in those areas which are a matter of judgment but may deny, suspend or revoke licensure based on reasonable doubt.

2. The decision of the licensing authority to deny an initial application may be subject to review by the Administrator or the designee of the Administrator. However, such denials are not subject to the appeal process. Foster home licensure occurs at the discretion of the licensing authority and is not a right.

3. In the case of multiple foster homes or locations, the denial, suspension or revocation of a license for one foster home may not affect the licensure of other foster homes, if the reason for denial, suspension or revocation is not based on the failure of the program to meet group foster home standards.

4. Whenever initial licensing or relicensing is denied, a licensing authority representative will discuss the reasons for denial with the applicants followed by a written statement giving the reasons for denial.
