The chart displays the monthly change in the number of U.S. jobs from July 1996 to July 2015. The Y-axis represents the change in millions of jobs, ranging from 1,200 to 3,800. The X-axis shows the time period in months, labeled from JUL 1996 to JUL 2015. A blue line represents the monthly change, which is highly volatile, showing significant peaks and troughs. A red line represents the annualized rate of change, which is smoother and shows a general upward trend until around 2007, followed by a sharp decline and then a recovery.
