Teaching, as a profession, needs to change—and is changing—to meet the challenge of ensuring every student a quality education. *Teaching and Change* is America's only journal in which teachers from every level can discuss and debate the change process with Americans committed to helping all students learn.

When submitting a manuscript, keep in mind that a copy of the final revised manuscript saved on an IBM-compatible disk should be included with the final revised hard copy. Submission of a manuscript implies commitment to publish in the journal. Authors submitting manuscripts to the journal should not simultaneously submit them to another journal, nor should manuscripts have been published elsewhere in substantially similar form or with substantially similar content. Authors in doubt about what constitutes prior publication should consult the editor.
