Meeting Date 11-24-03

We have been there. We can help.

Join and help build a strong community based statewide collaboration of families, parent groups, professionals, organizations and policymakers...

who are dedicated to empowering families and strengthening their ability to participate in State and local mental health care reform policy activities...

to improve the outcomes for children and adolescents with emotional and/or behavioral difficulties.

Without knowing where to turn, families feel alone, confused and frustrated.

When a child has emotional and/or behavioral difficulties the whole family is affected.

Nevada PEP supports the development of family leadership to bring about positive changes through mentoring and training activities.

The Collaborating for Children's Network goal is to improve the system of care for children and their families.

Through systems advocacy the Collaborating for Children Network activities encourage

...child centered, family focused

...community based

...culturally responsive

...comprehensive and accessible

supports and services.

Nevada PEP understands firsthand the frustrations and barriers that families face in trying to coordinate care and obtain services for their children.

Nevada PEP guides families through the maze of programs, services, and resources.

Nevada PEP provides family support through individual assistance, information and referral services.

Nevada PEP encourages families to take an active role in the development and decision making about services they and their children need.
