

Hello,

I am writing to request that the COVID vaccine mandate remain in place for faculty, staff, and students at all NSHE institutions. We are currently planning to return to campus after winter break with both a mask and vaccine mandate for in person classes. I am a full-time tenured faculty member at TMCC, who is teaching in person classes in Spring, 2022, and I am expecting both mandates to be in place to insure the safety and health of everyone on campus. If not, we run the risk of an outbreak and having to shift rapidly to online instruction, which will be disruptive to students and faculty alike.

Thank for your attention to this matter,

Joylin Namie, PhD
