

To whom it may concern,

We are the Wynn family. I always thought my twin daughters would attend UNR. They are juniors in high school as of now. With the mandates in place and possibly mandates that will be permanently in place, we as Nevada residents will never give UNR our money for our kids to attend. Such a shame. We are already searching out colleges that won't require this vaccine with a 99.7% survival rate. Pure insanity!!! So disheartening. My kids will also not be attending a college that require masks. I'm sure there are a lot of other parents and future students now looking elsewhere for college.

The Wynns
