

Hello,

I am a master's student at UNR. I strongly believe in the COVID-19 vaccination and hope that it remains one of the many necessary immunizations in order attend school. If students don't want to get vaccinated against COVID-19, then they should find an institution that doesn't require vaccination. Please don't endanger students who have been vaccinated against the virus by letting those who don't want to get the vaccine attend in person courses.

Thank you.

From,
Lily Raymond
