

As a faculty member of TMCC, I wish to voice my support for the student/employee vaccine mandate. I apologize that my email comes to you late in the process, as I have just learned of today's proceeding. There are many reasons why this mandate makes sense, and I am sure that others have articulated why it is so important for everyone in the community to establish a safe campus and work environment.

Best regards,
Bradley Summerhill
TMCC, English Department
