

Ladies and Gentlemen:

I am absolutely appalled that that "**The Nevada Legislative Commission**" is even considering **experimental gene therapy mandates to our youth as well as to all state employees! There is no science behind this**

as it is 99.98% recoverable for populations under 50! What ever happened to herd immunity? You are

playing with fire when it comes to the health of our youth - our future leaders.

" We the People" are done with this Covid Tyranny!

Below is a dire warning from Dr. Malone, the inventor of mRNA gene therapy.

My name is Robert Malone, and I am speaking to you as a parent, grandparent, physician and scientist. I don't usually read from a prepared speech, but this is so important that I wanted to make sure that I get every scientific fact and word correct.

I stand by this statement with a career dedicated to vaccine research and development. I'm vaccinated for COVID and I am generally pro-Vaccination. I have devoted my entire career to developing safe and effective ways to prevent and treat infectious diseases.

After this, I will be posting the text of this statement so you can share it with your friends and family.

Before you inject your child - a decision that is irreversible, I wanted to let you know the scientific facts about this genetic vaccine, **which is based on the mRNA vaccine technology I created.**

There are three issues parents need to understand

- The first is that a viral gene will be injected into your children's cells. This gene forces your child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs, including
 - Their brain and nervous system
 - their heart and blood vessels, including blood clots
 - their reproductive system
 - **And this vaccine can trigger fundamental changes to their immune system**
- The most alarming point about this is that once these damages have occurred, **they are irreparable**
 - You can't fix the lesions within their brain
 - You can't repair heart tissue scarring
 - You can't repair a genetically reset immune system, and
 - **The reproductive damage could affect future generations of your family.**
- The second thing you need to know about is the fact that **this novel technology has not been adequately tested**
 - We need at least 5 years of testing/research before we can really understand the risks
 - Harms and risks from new medicines often become revealed many years later
- **Ask yourself** if you want your own child to be part of the most radical medical experiment in human history
- One Final point: **the reason they're giving you to vaccinate your child is a lie.**
 - Your children represent no danger to their parents or grandparents
 - It's actually the opposite. Their immunity, after getting Covid, is critical to save your family if not the world from this disease

In summary: there is no benefit for your children or your family to be vaccinating your children against the small risks of the virus, given the known health risks of the vaccine that as a parent, **you and your children may have to live with for the rest of their lives.**

The risk/benefit analysis isn't even close.

As a parent and grandparent, my recommendation to you is to resist and fight to protect your children

Daniel Horowitz/ Conservative Review:

Take notes, because you are about to get an entire year's lesson in immunology with Dr. Dan Stock. While the short-term effects of the shots have devastated many, Dr. Stock explains how almost everyone – especially those getting multiple boosters – will experience long-term damage to their immune systems. He explains exactly how the shots destroy your immune system, downregulate your cytotoxic T cells, and potentially create cancers and auto-immune diseases. He also shows how these shots have made the virus worse through antibody-dependent disease enhancement and how this explains the epidemiological data we are seeing. They created the virus as a bio-weapon and now have created another bio-weapon as the “cure” for the original attack
