

Dear Sir,

I am writing in opposition to any medical mandate for any person, anywhere, any time.

None of my 4 college age children will comply with these mandates, so NV will forever lose our financial support.

The egregiousness of these attempted violations against our freedom, our constitution, must stop. Everyone should handle health issues between themselves and their medical providers, not have it dictated by governments, schools or any other institution.

Will you now mandate that people eat their veggies, exercise, take supplements, avoid smoking, drinking, gambling?? Clearly these things are more effective at producing good health, than taking a 'vaccine'.

The COVID 'vaccines' have proven to be not only ineffective, but unsafe. All for a 'virus' with a 99%+ survival rate. Unbelievable.

The 'vaccines' are so ineffective that now a never ending string of boosters is coming down the pipeline, whereas natural immunity is holding strong for most of us who haven't been fooled by the propaganda. And did you recently hear of the cruise ship that had a huge outbreak of COVID even though all passengers and staff were fully vaccinated? Doesn't that make you pause?

We have seen over 100 athletes collapse on the field this year, some dead, many with myocarditis that will prevent them from a future in sports. CDC openly admits that there is a big problem with myocarditis, especially affecting young males ages 16 - 30. Japan has even begun requiring that vaccines be labeled that they pose a risk of myocarditis. Dr. McCullough, renowned cardiologist out of Texas, is warning of grave risk, as is Dr. Malone, the inventor of the mRNA technology.

I am not sure what is coordinated in secret meetings behind the scenes, but we see you.

We are on to you. This attempt to knowingly subvert our health and personal sovereignty is truly an evil agenda, and some of you know it, perhaps some are just ignorant, or fearful of losing jobs, money, power, prestige.

Come forth out of the darkness and stand in the light.

Tyrannical forces will eventually be exposed and removed, and brought to justice. There is always forgiveness and a way back. Love beckons always.

Respectfully,

Dawn Rickabaugh
