

Greeting,

My vote is a strong No for a vaccine mandate of any kind for any kind of worker. No; on state worker mandated vaccinations. No; on mandated vaccines for college students or students of any kind.

No one should be forced or guilted into anything. Especially when all we are talking about is a common cold/flu and when it comes to our own bodies. This is a violation of the Nuremberg laws.

Thank you.

A proud citizen of the great state of Nevada,

Dayna Hernandez
