

Hi,

My name is Natalie Manasliski. I'm an upper division accounting student at UNR.

I am at a loss for words. Lifting the vaccine mandate. Why?

I'm getting really tired of this. Very, very tired guys. This is a public institution of higher learning. Voting against something that is in the best interest of public health is irresponsible and abhorrent. I didn't think Nevada was this type of state.

If the vaccine mandate is not reinstated for the 2022 spring semester I will be forced to withdraw from my classes. I will finish my bachelor's degree in New Mexico where I have family. New Mexico is taking the pandemic much more seriously, and their legislators seem to be far less susceptible to misinformation.

I will also be encouraging other students to do the same. I speak very publicly and often on how I feel our state and NSHE handles the coronavirus pandemic. I enjoy the discourse with other students. This should bring up all kinds of interesting conversations.

Best,

Natalie
