

HCSD District Goals

- Personalized Learning
- District Wide Pacing
- Targeted Interventions for subpopulations
- Growth in Math and Reading
- System-wide MTSS

HCDS Stakeholder Feedback

Feedback from students, parents, staff members, board of trustees, and community members identified the following priorities:

- Mental health counseling services
- Academic recovery resources
- Wi-fi and connectivity resources
- SEL Resources
- After school and summer learning
- Curricular supports
- Small group tutoring

The alignment between stakeholder feedback and the identified district-wide goals provides a strong foundation in supporting the needs of all of HCSD's students

Humboldt County School District

In 2021 HCSD was awarded 4.2 million dollars through the American Rescue Plan in response to the Covid-19 epidemic. This document highlights the districts plan for ensuring that those funds are spent in an equitable manner, and with the sole purpose of benefitting students that were the most affected by Covid-19.

Every child will graduate:
beginning with
Kindergarten, each will be
prepared and confident to
succeed.

Based on collected feedback, HCSD will fund the following supports utilizing ARP:

- 4 Instructional Coaches (ES/MS sites)
- District Wide English as a Second Language Coach
- English as a Second Language paraprofessional
- MTSS/ESSERS Director
- Interventionist at WJHS
- IXL on-line curriculum remediation tool
- Curricular supports
- School Resource Officer
- Hiring incentives for new staff
- Mental Health Counseling through UNLV and ELUMA
- Rural and Elementary Social Worker
- Emergency Paid Sick Leave Coverage

As a district, we are fortunate to have been awarded the level of federal funding that we have. The utilization of these funds will support the unique needs of students and staff, through closing the COVID related achievement gap, as well as providing intensive SEL support for those we serve. We would not be able to accomplish this essential work without this generous support.

-Dr. David Jensen

HCSD Strategic Plan

CULTURE

HCSD cultivates a CULTURE of innovation to ensure all students engage in learning experiences that personalize their time, place, path and pace of education that prepare them to flourish in a global society.

GUARANTEED LEARNING

HCSD provides GUARANTEED AND VIABLE learning experiences to ensure all students have equitable access to high-quality instructional practices responsive to their needs
