Dear Chair Miller, Committee Members, and Staff,

I am Dean Willmore, one of 26,000 Nevada voters supporting the Convention of States resolution. Chair Miller, I encourage you and the Committee members to consider submitting a resolution BDR for potential debate in the 2023 session. A copy of the proposed COS resolution can be found here: <https://conventionofstates.com/files/model-convention-of-states-application>

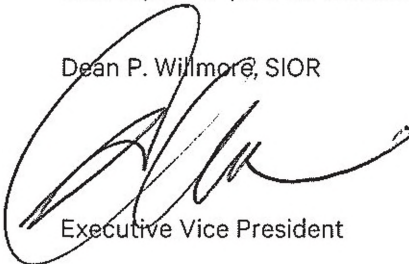

I personally believe that most all Nevadans will support the Convention of States Resolution, which is limited to just three (3) topics: discussing fiscal restraints on the federal government; limiting the power and jurisdiction of the federal government and limiting the terms of office for members of Congress, the judiciary and bureaucratic officials.

I also believe that most Americans would agree that the federal government is out of control and that many of our elected and appointed officials along with their bureaucrats are ruining this great country. It seems to get worse every day with major issues facing America, such as inflation, poor education, crime, corruption, divisive policies and our neglected southern border controlled by criminal cartels.

An Article V Convention of States is the final peaceful and Constitutional method to rein in an authoritarian federal government. When liberty is threatened by federal tyranny, it is ultimately the obligation of citizens and elected state representatives to utilize Article V to address threats to life, liberty and the pursuit of happiness.

Thank you for your service to the citizens of Nevada and for this opportunity to record my comments.

Dean P. Willmore, SIOR

Executive Vice President
