Hi,

I am a concerned parent and educator. The agenda items that are being presented to no longer elect school board officials is not ok. As a parent and educator I take my opportunity to vote very seriously. I reside within Clark county and this district and school board is already very concerning, I can't imagine if I didn't even have a chance to vote on who I think would best represent me and my community in the school board. Why would this even be considered? Trying to strip away parental rights and opinions is NOT the answer. We already feel powerless and hence why more and more families are taking the route of homeschooling when that is not something they would have typically done. The last few years have really shined a light on the incompetency of many members in the district leadership and school board officials. It is causing more people to do more research and elect more qualified candidates or at least candidates who represent their family. Please say no to appointing school board officials. School board members should be elected by the people.

Thank you,
Abby Wong
