sincerely and direct my comment: on the health of the autism (mental) condition of the children here in nevada it is unfortunately a tremendous cause, because we do not have medical attention to this condition, there are no medical personnel, providers and subsidies, monetary funds and places trained to provide help to these people, how to continue in their daily lives in the future, unfortunately it is somewhat uncertain, for them and very sad to feel totally abandoned, my son is 11 years old and has severe autism, as a mother I feel in a labyrinth with no exit to where to go with my son like this , I ask that you please have mercy on us families who are in this condition of autism (mental health) , give us your help that we ask for and need so much for our children who suffer with autism (mental health) I hope someone reads my comments, and does not shed a tear like I did, when I wrote my experience!
