Dear Chair Miller, Committee Members. and Staff,

I am Robert Zoellner, one of 26,000 Nevada voters supporting the Convention of States resolution. Chair Miller, I encourage you and the Committee members to consider submitting a resolution BDR for potential debate in the 2023 session. A copy of the proposed COS resolution can be found here: COS [resolution](#).

My number one concern has always been, even since of a much younger age to now, that Career Politicians are nothing but out for their long careers and become entrenched from administration to administration, and not for the American people. The federal government is out of control! Elected and ESPECIALLY appointed officials along with their bureaucrats are ruining this great country. It gets worse every day with major issues facing America such as inflation, poor education, crime, corruption, divisive policies, and a neglected southern border controlled by criminal cartels and politicizing government Bureaus.

An Article V Convention of States is the constitutional method to rein in an authoritarian federal government. When liberty is threatened by federal tyranny, it is ultimately the obligation of citizens and elected state representatives to utilize Article V to address threats to life, liberty, trust in fair elections and the pursuit of happiness.

Thank you for your service to the citizens of Nevada and for the opportunity to record my comments.
